Morning Chronicle.

The moon like certain politicians, changes every thirty days, when she looks at things in general with quite a new face.—If a fact were wanting to determine the sex of the moon, it would be found in her obstinacy about her age. Like most ladies, she is never more than a day older than thirty.

The Mobile Tribune is for making Cousin Sally the pet name of the S. C., and turning Uncle Sam quite over to the Yankees; whereupon Vanity Fair chimes in with the brilliant thought, saying the Confederacy is a good deal nearer to Sally-vation than to Sal-vation.

The Sparta, Wisconsin, Herald is "authorized," by the outraged family, to inquire who it was that "shot a musket, loaded with ball and slugs, into the house of F. Goodwin on the night of the 3d inst., while the family were all at home?"

Vanity Fair says "The Cavilry of the North is the corps of critics under the command of Representative Wood of the N. Y. News and Major-General Greeley of the Tribune."

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some kind of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and how quickly the healthy feeling of health again. What is true and so apparent in this trivial and common complaint, is also true to many of the deep-seated and dangerous diseases. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are equally, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Partnership Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purgas. Their excellent qualities surpass any cathartic we possess. They are gentle, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Bond, Kalamazoo.

DEAR SIR, AYER: I cannot answer you *what* complaint I have cured with your Pills better than to say *all that we ever treat with a purgative* mentioned. I place great dependence on your Pills as the best cathartic in my daily round of disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRESLE,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely believe that we have at last found a purgative which is worthy the confidence of the profession and the public.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, combining with them an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease to obstinate that it did not readily yield to them. Respectfully yours, A. DONDO SALE, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I find them in cases of dysentery, diarrhœa, and worms I have found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Weaker purgatives are often thus very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. R. Mitson, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with great efficiency among my family and among those I am called to visit as a clergyman. To regulate the organs of digestion and purify the blood, they are the best medicine I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WILSON, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I can safely give Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. SHEPARD, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughan, Montreal, Canada.

I have used your Pills with great success for the cure of dyspepsia. Mothers of our fraternity have found them invaluable as I have, they should join me in proclaiming to the world the blessings which they confer. A dull complaint, which, although bad enough in itself, is the precursor of others that are worse. I believe constipation to originate in the liver, but your Pills affect that and cure the disease.

From Rev. E. Sweet, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, an excellent preventive of the natural sore throat when wholly or partially suppressed, and also very useful to clear the stomach and expel worms. They do much the best physic we have that I recommend to my patients.

From the Rev. Dr. Hewlett, of the Methodist Episc. Church.

PLEASANT HILL, Sycamore, Ala., Jan. 5, 1856.

HONORED SIR: I should be ungrateful for the relief you shall have brought me if I did not report my case to you when wholly or partially suppressed, and also very painful to females, which ended in abscess of the breast. Notwithstanding I had the best of physicians, the case grew worse and worse, until by the advice of your brilliant agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering, I am now entirely well.

JESSE CHAMBERS, Baton Rouge, La., 5 Th., 1856.

DR. AYER: I have been entirely cured by your Pills, of a painful disease that had afflicted me for years.

VINCENT ELIDELL.

All that of the Pills in market contain Mercury, and, although a valuable remedy in skillful hands, is unknown to a public pill, from the dreadful consequences that frequently follow its incautious use. These pills are mercury or mineral substance whatever.

Price, 25 Cents per Box, or 5 Boxes for $1.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in barrels or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogues, prices, &c.

☞ The Dover Gazette has changed hands, and changed its tone also. Mr. Foster, the late editor, retires, saying as he does so,—

The fact that Democratic principles are not now in the ascendancy in the councils of the nation, proves to be the *direst calamity* that can befal this great people.

Mr. F. sells his right to Dr. "JOSEPH H. SMITH, who will hereafter have the sole control." Dr. Smith is a strong Union man, and he says:

Let all mere politicians take heed. The hour demands naught but patriotic effort to save the country from absolute and perpetual ruin. The consequences of this rebellion are too momentous to be lightly regarded, and the interests of humanity at stake are too vast to allow trifling and selfish matters to interfere, for a moment, in its prompt and decisive suppression. When this important point shall have been attained, and the rebel hands that have been raised against the government our Fathers gave us, for the professed purpose of destroying the Union, abrogating the Constitution and nullifying the laws, shall have been struck to the ground, and the Flag of the country again respected and honored, then may we hope that the dark cloud which now obscures the face of the country, will open and let in upon a misguided and oppressed people the light of returning reason, etc. * * * But let the administration go on without fear or favor. While money and life last, this Government will stand. If 400,000 men and $400,000,000 are not sufficient, let the sums be doubled. Its birth cost too much blood and treasure to be strangled in this unholy way. * * * * Once more we say, the quickest and most decisive mode will be the most humane and successful.

Recent intelligence from Paris says, in regard to Rost, the one of the C. S. Commissioners who speaks French—he did have an interview with Thouvenel, after coming from England, but Thouvenel refused to recognize him in his official quality; conversed with him as with any other private gentleman for the sake of information, and did not give him any promise of recognition of the C. S. A. next October, or at any other time—"on the contrary, quite the reverse." This was the first, last, and only interview had between Thouvenel and any of the agents of the C. S. A. As for the presentation of two of them by Faulkner, it never took place. Neither Yancey nor the other man, said to have been presented, can speak any more French than Faulkner, who can't speak enough to carry on the simplest conversation; while Thouvenel can't speak enough English to bring it back, and the Secretary of Legation, who was F.'s attendant interpreter on his visit to Foreign office, is an out and out Union man.—Faulkner is still in Paris, much distressed, and apparently awaiting his appointment as C. S. A. Minister.—*Boston Post.*

3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time *will* mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only cost the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.

TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numerous nostrums without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum; his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 36 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KETCHUM OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

TUESDAY, JULY 23, 1861.

PRIZE CREWS OVERPOWERED.—*New York, July* 21.—The brig Cuba, which was captured by the Sumter, and retaken by Capt. Strout and crew from the prize crew, arrived to-day. The prize crew made a desperate resistance. On the 14th the midshipman of the Sumter went into the maintop, and when Capt. Strout came on deck he said he wanted to speak with him, but seeing a pistol in his hand, Capt. Strout procured a revolver and ordered him down. The midshipman refusing to comply, Capt. Strout fired at him twice, one shot taking effect in his shoulder, when he came down.

Schooner J. S. Waring, captured by the privateer Jeff. Davis, has arrived here.—On the night of the 16th, when fifty miles South of Charleston, the steward, Wm. Tilman, colored, killed three of the prize crew with a hatchet. The other two were released on promise to assist in working the vessel. Their names are James Milnor, of South Carolina, and James Dawsett of New Jersey. Tilman with the aid of the rest of the crew except one named Donald McLeod, who refused to assist in recapturing the vessel, brought her to this port.

This Donald McLeod should be tried for piracy, with Milnor and Dawsett. This exploit of the black stewart, William Tilman, reminds us that black sailors were numerous in the United States Navy, when it won all its laurels in the war with Great Britain:—and they were very good sailors too. They also formed a large part of the crews of many privateers in that same war.—They were numerous in our navy till a few years ago.

☞ The Hon. Jefferson Davis, president of the Cotton Kingdom, and apostle of repudiation, has issued a message to his Congress, in which he expresses his pleasure at the *quasi* treason of some border States, and his displeasure at the dreadful breach of the habeas corpus law by president Lincoln. In this he reminds old men of an old couplet:—

"No rogue e'er felt the halter draw,
With good opinion of the law!"

☞ Gen. McClellan's address to his soldiers in Western Virginia, is dated Beverly, July 19. He says:—

I am more than satisfied with you. You have annihilated two armies commanded by educated and experienced soldiers entrenched in mountain fastnesses and fortified. You have taken five guns, twelve colors, 1500 stand of arms and 1000 prisoners, including more than forty officers.

One of the second commanders of the rebels is a prisoner, and the other lost his life in the field of battle. You have killed more than 250 of the enemy, who have lost all their baggage and camp equipage. All this has been accomplished with a loss of twenty brave men killed and sixty wounded.

☞ The second battle at Bull's Run is represented as one of the severest ever fought on this continent. There were 70,000 rebels engaged.

Up to 2 o'clock our troops had driven the enemy through a distance of two miles. The enemy fell back from one position on another equally strong, and every point was freshly reinforced. Their force certainly doubled ours.

Patterson was reported to be moving down on the Winchester road with 15,000 men on Sunday. He was expected to join our troops immediately.

Eleven thousand troops left Alexandria Sunday morning.

The rebels retreated slowly and stubbornly during the whole engagement.

It is stated that Beauregard sent a flag of truce to Gen. McDowell, but the latter refused to receive it, saying he would accept nothing but unconditional surrender.

☞ The Boston Journal, speaking of the repulse, says:

There is one fact in the preliminaries of the battle to which we cannot but refer, because it is in everybody's mind, viz.: Johnston succeeded in bringing his forces to Beauregard's aid, while our column heard nothing of Patterson. Joenston ought to have been engaged, as Patterson had men enough and time enough to do it. But if he must let that column of rebels slip thro' his hands, Patterson ought to have been at Bull's Run nearly as soon as Johnston.—Where he is now, nobody knows. It is said he was to follow Johnston over the Manassas road on Sunday; but if the latter did not tear up the road as fast as he went over it, he was more of an idiot than we suppose him to be.

A cavalry company, composed of young ladies, has recently been formed at Pittsfield, under the name of the "Di Vernon Phalanx." Miss Pinkie Pomeroy is the captain, and Miss Anna Kipp is the lieutenant. In the Spring they expect to add to their drill the infantry exercise.—*Cour.*

☞ The Lawrence, Mass., Journal publishes a list of "intentions of marriage, filed at the City Clerk's office," giving the names, residences, and ages of the parties.

NEW HAMPSHIRE ITEMS.

One day last week, a woman at Gorham, arming herself with a good sized stick, proceeded alone to the establishment of a rumseller, where her husband and a number of others were carousing, and after smashing the glasses and decanters on the table at which they sat, applied the stick to the person of the astonished landlord, and was about to administer a sound drubbing, when her husband interfered and conducted her home.

A son of Joseph S. Tilton of Laconia, last Monday, in endeavoring to cut a piece of twine, accidentally brought the point of the knife directly into his eye, destroying the sight beyond recovery.

Rev. Lucius Leslie of Troy died a few days ago, after a long illness. He was a native of Cornish, and by trade a tailor.—By close application he qualified himself for the pulpit, and became a popular preacher.

The Nashua Telegraph thinks some of the old war-horses are not so much delighted with the extent of the baggage trains of a few of the New England regiments, as the men are who think more of the luxuries of going to war. When our first regiment went out with its moderate baggage train, it received the applause of all. Improving upon the hint, and by no means to be outdone by little New Hampshire, some of the Massachusetts regiments are going out with twice the number. While a proper baggage train is indispensable, one can very easily conceive of an improper one being little better than a nuisance.

☞ The August number of the Atlantic Monthly is, we think, one of the best yet issued. We have read with peculiar interest George W. Curtis' brief yet admirable sketch of Major Theodore Winthrop, whose "March of the 7th N. Y. Regiment" and "Washington as a Camp," published in the same magazine, had won for him a name, which his heroic self sacrifice at Great Bethel has rendered immortal. Mr. Curtis embodies in his sketch an unfinished article by Major Winthrop, intended for the same pages, and containing a high compliment to Col. Dimmick,—"a quiet, modest, shrewd, faithful, Christian gentleman."

D. R. Ambrose, successor to J. H. Locke, sends us Harper's for August—already noticed.

☞ Gen. Patterson still remained at Charlestown, Va., with his forces, on Saturday. Many of the three months volunteers belonging to his column are represented to be in a bad condition for want of clothing. Some of them have, however consented to remain a few days after the expiration of their term. A despatch from Washington, announces that Gen. Banks is to take command of this corps, in place of Gen. Patterson. A Baltimore dispatch seems to confirm this report, by the statement that Gen. Dix has arrived to take command at that place. If it is true, as asserted, that Gen. Johnston has reached Manassas Junction with the troops under his command, Gen. Banks will probably join Gen. McDowell with the greater part of his force.

☞ It may be not generally known that the families of those engaged in the naval service (of which there are several in our city,) can draw a half pay order by going to the naval agent, first getting a power of attorney from the party in service. If a similar plan could be adopted for the army volunteers, it would doubtless prove of great benefit to families, who might thus get the benefit of a monthly amount which may now be loosely disposed of, under the impression that families at home will fare well enough at the hands of the public.

☞ A child of Mr. Gorman, of Danvers, Mass., which was lost, was found by her father on Thursday morning, alive and sound asleep, in a field of oats, within an eighth of a mile from the house. She had been exposed without food two nights and a day, and some of the searching party had passed within five feet of her the day before. On the first night the rain fell in torrents and her preservation is wonderful.

☞ Ever since the battle of Solferino, a soldier named Pierre Valin has been in one of the Paris hospitals, insane from a cicatrized bullet wound in the head. He always asserted himself dead, and pronounced what appeared Valin to be a mere piece of machinery, very badly constructed to imitate him. He always spoke of himself as "it," and for days would lie without seeming sensation to blisters, pins, or any stimulus. He has now died in earnest.

☞ About 3 o'clock on Sunday morning, Michael Shea, a member of the Maine 6th Regiment, leaped from a 2d story window in the Military Hospital at Portland, while laboring under delirium tremens. He then crawled round to another side of the building and rolled down an embankment of some thirty or forty feet. He was found in about half an hour, dead. He leaves a wife and six children, to whom on Saturday he sent $20 by express.

BATTLE ON SUNDAY.

WASHINGTON, July 21.—A most severe battle was fought to-day at Bull's Run bridge. The conflict was desperate, lasting nine hours. Our troops met with a succession of masked batteries, which were attacked with vigor and success, after a severe loss of life.

The first range gun was fired by Sherman's battery at 10 minutes to 7 o'clock.

The rebels did not return his shot for an hour and a half. When Hunter's Division came up the battle became general. Col. Hunter's movement to gain the rear was almost a success. The enemy's position was opened on by Carlisle's howitzers, followed by slight skirmishing. The rebels rapidly received reinforcements from Manassas after the attack opened.

The battle consisted in a succession of fires from masked batteries, which opened in every direction and when one was silenced its place was supplied by two—and in the daring charges of our infantry in unmasking them.

The most gallant charge of the day was made by the New York 69th, 79th and 13th, who rushed upon one battery, firing as they proceeded, and attacking it at the point of the bayonet. Their yell of triumph seemed to carry all before it. They found the rebels had abandoned the battery and only taken one gun, but this success was only acquired after a severe loss of life.

The Zouaves distinguished themselves by spirited assaults on batteries at the point of the bayonet.

It was generally understood that we had hemmed in the enemy entirely, and that they were gradually retiring; that Hunter had driven them back in the rear, that Heintzelman's command was meeting with every success, and that it required but the reserve of Gen. Tyler's division to push on to Manassas Junction.

Brigadier Quartermaster Pryor, cousin to Roger A. Pryor, was taken prisoner by Hasbrouck, of the 2d Wisconsin Regiment. He by accident rode into our lines, and discovered himself by remarking to Hasbrouck, "We are getting badly cut to pieces." What regiment do you belong to? asked H. "The 19th Mississippi," was the answer. "Then you are my prisoner," said Hasbrouck.

From the statement of this prisoner it appears that our artillery has created great havoc among the rebels, of whom there are from 30,000 to 40,000 in the field, under command of Gen. Beauregard, while they have a reserve of 75,000 at the Junction. He describes an officer most prominent in the fight, and distinguished from the rest by his white horse, as Jeff. Davis. He confirms previous reports of a regiment of negro troops in the rebel forces, but says it is difficult to get them into proper discipline and fit for battle.

The position of the enemy extended in three lines in the form of a triangle, the apex fronting the centre of our column. The area seems to have been filled with masked batteries.

At 7 o'clock this evening guns were still heard at intervals.

NEW YORK, July 20.—The number of killed at Bull's Run, and of those who were wounded and have since died is, according to Lieut. Tompkins, 59.

A Connecticut man who had been impressed into the rebel service, has arrived in our camp. He estimates the force of the enemy at from 70,000 to 80,000 strong, including the army of Gen. Johnson, 17,000 strong, who marched in last night.—Twenty seven companies of cavalry form a part of the enemy's force. A very large number of the enemy were killed at Bull's Run. The first shell from our batteries fell at the feet of Generals Lee and Beauregard, and killed a number of officers.

WASHINGTON, July 22.—After the triumph of the Federal troops at Bull's Run, Saturday, in which they fully repulsed the enemy, they marched towards Manassas Junction.

At this point Gen. Johnston's division joined the rebels, when the tide of victory turned; and our army, seized with sudden panic, took to flight.

They fled with precipitation, and Gen. McDowell was unable to rally them.—Throwing away their knapsacks and muskets, they continued to fly until they reached their camps, the ground all the way being strewed with men who fell exhausted.

The rebel army numbered 90,000.

The carnage was tremendous on both sides, and on ours is represented as frightful.

The panic was so fearful that it was impossible to rally the men at Centreville or Fairfax.

The latter part of the army is said to have made the retreat in good order.

Our loss was about 3000. The fortifications around Washington are being strongly reinforced by fresh troops.

A general gloom prevails in Washington. Sherman's and three other batteries, with the heavy seige train of rifled 32 pounders, fell into the hands of the enemy.

The Zouave Regiment, all but about 200, were killed.

The New York 69th is also badly cut up.

LATER.

The fortifications on the other side of the river, it is said by military engineers, can be held against any force the enemy may bring against them. Large cannon and mortars are being rapidly mounted.

The troops are resuming occupation of the fortifications and entrenchments on the line of the Potomac.

Col. Marston, of the New Hampshire regiment, reached here this morning. He is wounded.

Wagons are continually arriving, bringing in the dead and wounded.

All communication with Alexandria is suspended to the public.

The greatest alarm prevails throughout the city.

The sudden panic is thus explained:—Our operations went on swimmingly, the enemy seemingly in retreat, and their batteries being unmasked one after another, when a terrific consternation broke out among the teamsters, who had incautiously advanced. The civilians, many of whom were on the ground, caught the panic, and thence it spread even to the regulars, and the lines were broken, and all rushed pell mell towards Washington.

"As my strength was, then even so is my strength now," said Joshua. So will every one say who is now troubled with weak stomachs and worn out digestive organs. If they will now and forever use Herrick Allen's Gold Medal Saleratus—for whenever it has made an acquaintance, it "sticks closer than a brother,"—it will be your protector and shield, besides always giving you nice, light and digestible Bread, Biscuits, Puddings, Cakes, &c. The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA; as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in the end restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawtw

Local.

☞ An editor in a small place, is sometimes beset with a few small perplexities. For instance, within a week, fifty men have tried to "set us on" the dogs—urged us to pitch into them, as an intolerable nuisance; while fifty more, perhaps equally worthy of attention, have remonstrated against curtailing the dogs' liberty. [We have only to say, respecting this matter, in addition to what we have already recorded,—that we see no use or good in having dogs at large, or keeping so many of them at all; yet dog-owners certainly have their rights, and should have a chance to keep dogs, by paying tax and license for them; and it seems no more than fair that if one by chance escapes from his master's premises, unmuzzled, the animal should be impounded for redemption, as cows are—even tho' this rule does not hold in regard to swine. We are also willing to allow, as urged upon us, that dogs—even the little, pesky, yelping curs—do much service as watch-dogs, to help counterbalance the trouble they make.]

Then, almost everybody wants us to "blow up the slaughter-houses"—which the butchers think are no nuisances at all. But we tell the complainants to do their own blowing.—And some of the dog-fanciers want us to "come down" on the liquor-shops—but we fancy we have done our share of this, and that our readers are acquainted with our views on the subject—as we are also with the fact that these impromptu friends of temperance have not improved all past opportunities to do what they now call upon us to do.

And so with everything — should we heed the advice of all who volunteer to instruct us, and comply with all such requests made, we should fill our paper, and in turn offend all and please none. We shall still aim to make the Chronicle the public's servant, and nobody's personal organ; and trust we shall always endeavor to speak

"In praise of the right,
In blame of the wrong."

☞ Our citizens do not enjoy so often as a due regard to their own pleasure and recreation demand, the many delightful walks, rides, and especially sails, to which our beautiful suburbs, river, and harbor so constantly invite them. Particularly, many of them are not really aware how pleasant a trip up the river is. But what has usual ly been a difficult, if not actually dangerous trip in a sail-boat; is now really delightful, in the staunch little steamer Clipper—which is a clipper sure enough, minding neither wind nor tide, and managed in a manner worthy the confidence and patronage of all. Try a trip in her once, and you will want to go again.

☞ Stinkerlinktum wants to know who that Jury was that decided that the Slaughter Houses on South Road were not a nuisance? Also, where the men and women live, who swore that, being near neighbors, they were not offended by the odor? He says that possibly these establishments may be necessary evils—but if they are, all residence or travel within half a mile of them should be stopped. He says he stops his ears when he goes that way, the "flagrance" is so loud."

☞ A correspondent, who does not furnish us his name, complains that on Sunday afternoon "a young girl (who would doubtless claim the title of lady) seized a pretty little kitten in the street, and threw it through a closed window, at which his sister, who is so ill as to be unable to move, was seated,—covering her with the fragments of glass; then, after looking him coolly in the face, passed on without speaking." He says he "knows the name of the individual who committed the act, and calls upon her, or her parents, to send a glazier to No. 39 Middle street, to repair the broken window."

☞ Messrs. Samuel N. Whitehouse and Josiah P. Carter, both of this city, have been appointed carpenters in the U. S. navy. Mr. Carter has been ordered to the U. S. steamer Connecticut, at the Brooklyn Navy Yard.

☞ The U. S. revenue cutter Wave put into our lower harbor on Saturday, on account of stress of weather,—having encountered heavy squalls. She sailed again on Sunday.

☞ The schooner Envoy, Low, from Newark for Portsmouth, sprung a leak off Nantucket Shoals, and was run ashore on Cape Poge about 4 o'clock on the morning of 17th. She is laden with poudrette—most of her cargo will be saved. The schooner is stripped and full of water, and will not be got off.

☞ Capt. John E. Wilbur has opened a recruiting office in Exeter, desiring to enlist one hundred or more picked men, to be called "Gov. Berry's Rifle Guards."

OLD BREWERIES.—Portsmouth was settled originally by Englishmen, who in conformity with their traditional tastes, would choose to drink beer about as often as they would water. And there were doubtless some breweries on a small scale, set up here at an early day, the particulars of which have not come down to us. But about eighty or ninety years ago, an extensive brewery for that day, was set agoing at Islington Creek, just north of the present Creek Bridge. The water used, was from the little river which runs through the field where Fisher & Co.'s brewery now stands. It was raised by a dam to a good height for mill purposes, and so was easily brought into the brewery.

This brewery was the identical house now occupied by Asa Ham, Esq., which was cut down for the purpose. It was originally of two stories; the lower story was cut out, and the house lowered down to its present position.

The brewery there was not a successful enterprise;—and the house without much alteration was soon used again for a dwelling; the counting-room chimney of the brewery remaining in one corner of a room to this day.

Some other attempts on a small scale were made here, to establish breweries, but none of any magnitude till Michael Martin's brewery, a little more than forty years ago. His brewery was a little to the east of where the Portsmouth Steam Factory now stands;—and it was said by drinkers that his beer was first rate. Michael, however, did not stick to his business, but became a highway robber, and for the crime of robbery was hung in Massachusetts about forty years ago.

He would probably have been successful not only in making beer, but in making money, had he remained in the business;—but from his exit till John Swindells opened his first brewery, six or seven years ago, no attempt at the business was made here.—Since that time it has greatly increased, till the old Islington neighberhood is redolent with the steam and flavor of three breweries, some of them quite extensive, and we presume lucrative also. We shall have something to say of the new establishments, in a day or two.

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. SECTION 1. All payments and expenditures made by the Governor and Council, or by their authority and direction, in order to furnish troops from this State for the defence of the United States, or for enlisting, arming, equipping, disciplining, maintaining or transporting said troops, or in any way connected therewith, are hereby approved, ratified and confirmed.

SEC. 2. In order to answer any call for troops from this State, that has been or may be made by the President of the United States, or by his sanction and authority, the Governor, with the advice and consent of the Council, is hereby vested with full power and authority to take such measures as may be deemed best, for the enlisting, arming, equipping, disciplining, maintaining and transporting such military force of this State as in his judgment may be needed for defending and maintaining, in its full integrity, the authority of the Government of the United States, and the Constitution and Laws thereof, and to fills end he may, with the advice and consent of the Council, appoint all needful officers and agents, and may fix their rank and pay; provided that at no one time more than two regiments shall be enlisted in addition to those that shall have been already mustered into the service of the United States.

SEC. 3. The Governor, with the advice and consent of the Council, is hereby authorized to pay from the money appropriated by this act, any of the troops of this State which have been or may be mustered into the service of the United States, during the whole, or any part of the time of such service; and the Governor, with the advice and consent of the Council, is hereby authorized and empowered to negotiate, adjust and settle all questions, accounts, matters and things, between this State and the United States, in any way arising from or growing out of the contracts and expenditures mentioned in this act, or out of any contracts or expenditures which may be made for the public defence or the payment of troops.

SEC. 4. For the purpose of meeting the expenses already incurred, or any that may be incurred under this act, or any other act to provide for the defence of the country, or for maintaining the military force of this State, while engaged therein, the Treasurer of this State is hereby authorized, under the sanction of the Governor, with the advice and consent of the Council, to issue bonds or certificates of debt, in the name and on behalf of this State, to an amount not exceeding one million dollars.—Said bonds shall bear interest not exceeding six per cent. per annum, payable semi annually, on the first days of January and July, in each year, and may be issued at such times and in sums of such amount as shall be fixed by the Governor and Council. All such bonds shall have interest warrants or coupons attached thereto, signed by the Treasurer; and said bonds and coupons shall be made payable at the Suffolk Bank, Boston. Said bonds or certificates of debt shall be redeemable in no less than five nor more than twenty years from the first day of July, A. Said bonds shall be construed to be a contract, and shall be deemed a pledge of the faith and credit of the State. The Secretary of State shall keep a record of all the bonds countersigned by the Governor in which shall be set down the number and amount of each bond so countersigned—the time of such counter signing—the time when such bond shall be payable—the name of the person to whom said bond may be delivered, and the date of such delivery. The Treasurer may, from time to time, under the direction of the Governor and Council, dispose of so much of the same as shall be required, and for that purpose shall advertise, at any time, for proposals for so much as may be needed. And said Treasurer shall keep a record of each bond disposed of by him, which shall contain the name of the person to whom each bond may be sold, and the number thereof, the amount received by him therefor, the date of such sale, and the time of the payment thereof.

Resolutions in relation to National Affairs.

Resolved by the Senate and House of Representatives of the State of New Hampshire, in General Court convened, That the contest now existing between the Government and the disloyal States, that have commenced an unjustifiable and treasonable war against constitutional authority, should be regarded by all loyal men, not a sectional war nor an anti slavery war, not a war of conquest and subjugation, but simply a war for the maintenance of the Government, the suppression of rebellion, and the preservation of the *magna charta* of our liberty and national unity.

Resolved, That this State of New Hampshire pledges her resources for the integrity of the Union, for the support of the Constitution, and for the enforcement of the laws of the General Government.

Resolved, That the Constitution is the supreme law of the land, and that no state has the right to secede therefrom, and dissolve the Union which that Constitution was ordained to form.

Resolved, That the duty of the General Government to suppress all attempts to dissolve the Union is imperative, and cannot be evaded.

Resolved, That neither the President nor Congress can constitutionally entertain any proposition which has for its object the dismemberment of the Government, or the disintegration of the Union.

Resolved, That in the language of Andrew Jackson, "the Federal Union must be preserved."

Resolved, That the Secretary of State be directed to send copies of these resolutions to the President of the United States, the presiding officer of each House of Congress, the Governors of the several States, and each Senator and Representative of this State in Congress. Approved July 4, 1861.

AN ACT to reduce the compensation of County Solicitors.

Be it enacted by the Senate and House of Representatives, in General Court convened:

SECTION 1. That the Solicitors for the several counties shall receive no compensation from the State; but they shall annually receive, from the respectly counties, in semi-annual payments, the following sums, which shall be in full compensation for all the services rendered and expenses incurredby them in the discharge of all the duties of their office: In the County of Rockingham, three hundred and fifty dollars; in the county of of Strafford, two hundred and sixty dollars; in Belknap, one hundred and seventy-five dollars; in the county of Carroll, one hundred and seventy-five dollars; in the county of Hillsborough, four hundred and thirty dollars; in the County of Merrimac, three hundred and fifty dollars; in the County of Cheshire, one hundred and seventy five dollars; in the county of Sullivan, one hundred and seventy-five dollars; in the county of Grafton, three hundred and fifty dollars; in the county of Coos, one hundred and seventy-five dollars.

SEC. 2. No fees, costs, or other moneys belonging to any county shall be paid to the Solicitor; but when imposed or recovered in the Supreme Judicial Court, they shall be paid to the clerk or clerks, according to the provisions of Sections 3 and 4 of Chapter 174, and Sections 24 and 25 of Chapter 178 of the Revised Statutes.

SEC. 3. All acts and parts of acts inconsistent with the provisions of this act are hereby repealed, and this act shall take effect from and after its passage. Approved June 27, 1861.

ALWAYS SOMETHING NEW!
—AND—
STILL SOMETHING WHICH HAS STOOD
THE TEST OF YEARS,
AND STILL GROWS MORE AND MORE
POPULAR EVERY DAY.
—IT IS—
PROFESSOR WOOD'S
HAIR RESTORATIVE!
SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.
O. J. WOOD, Esq.,—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.
After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.
Apparently, some of these charlatans have not brains enough to write an advertisement, as it notices my hair restored yours, word for word, in several instances, merely inserting some name in place of yours.
I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.
I called to see you, personally, at your original place of business here, but learned you were now living in New York.
You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1920, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case with the desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine nostrums which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye, till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other article for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the article mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.
SPALDING'S PREPARED GLUE, too well known to need puffing.
PREPARED MUCILAGE, always ready to stick a postage stamp, or fasten a loose leaf; will not mould or sour.

RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numerous remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound," and have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can truthfully say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 90 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which effected a decided relief. I think it does heal and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JULY 24, 1861.

☞ By Tuesday morning's papers, it appears that the rout of the U. S. army at Manassas Junction, though it involves defeat, disaster, and disgrace, is yet not half so bad, in loss of life, as was reported here on Monday evening.

It is a severe defeat, with a sad loss of life, as well as of several valuable cannon wagons, &c., though not so many of either as was reported.

The reverse is sufficient ground of joy to the rebels at the South, and to traitors at the North; and it furnishes matter of grave reflection to those christian patriots, who, like Jefferson, tremble for their country when they consider that God is just, and that his vengeance cannot sleep forever. The affair seems to have revived and quickened the military spirit and action in Washington and elsewhere.

☞ Conn. Stringham has just encountered the practical difficulty of picking up a boat load of fugitive slaves, and asks Government what he shall do with them. Under Gen. Butler's rule, they might be employed to work the ship. Under the *new* rule, they should be *turned adrift* in their boat or ashore.

On the whole, the new policy would be the least troublesome,—viz. that our armies and camps should neither return fugitives nor harbor them.

The war department says the commanders of our armies must not harbor them;—and the House of Representatives, by a resolution, says that it is no part of the army officers' duty to return them.

This we should call *non-intervention*.—If the black man can take care of himself, let him do it. If not, let his master care for him—if he can catch him.

Let Com. Stringham land his boat load of negroes, in New York, telling them he is forbidden to harbor them, and is not empowered to send them back, but they can go back if they please, to be some of the happiest peasantry in the world! If they didn't make tracks for Old Virginia, it would show that the foolish negroes have no idea what a blessing it is to be a slave.

☞ In San Francisco, Cal., recently Mr. G. W. Bunnell, a New Hampshire boy, and nephew of the late Hon. Levi Woodbury, addressed an assembly of teachers on the system of "Mnemonics," or art of memorizing, as established by Prof. Giraud of New York. A San Francisco paper says:

This was the prominent feature of the whole session, for scarcely any one present was aware that any such science had been reduced to so perfect and easily acquired a system as the one spoken of. Although Mr. B. had devoted but twelve hours' study thereto, he proved a perfect master of the art, and stated that he was prepared to answer the following questions propounded to him by the audience, viz.: The places of 154 decimals, forming the ratio of the diameter to the circumference of the circle; 164 historical dates of important events, from the creation of the world to the birth of Christ; a number of the greatest elevations on the globe, in feet; the latitude and longitude of some seventy of the principal cities in the world; dates of the death and ages of great men, from Alexander to Napoleon; a table of the dates of scientific, artistic and other important discoveries, etc. A committee of ten persons was appointed, and the questions were asked, jumping from one series to another, and answered promptly, without one mistake. Mr. Bunnell explained the system in a lucid manner to his hearers, who repeatedly applauded him, and at the close tendered him a vote of thanks. The beauty of the system is its simplicity; it may be fully comprehended by a child, and a date once fixed in the mind cannot be forgotten.

Mr. B., although but twenty-two years of age, is principal of one of the leading schools in that city, at a salary of $2500 per annum.

☞ Capt. Edward L. Bailey, of the Abbott Guard, telegraphed to the Manchester Mirror, that Col. Marston was wounded in the shoulder; and Harvey Holt and Henry L. Morse of the Abbott Guard, were killed, in the battle at Manassas.

A CAUTION TO CROPPERS.—Dr. Liebsatz says that cutting the hair close to the head, a custom which is now in vogue, causes the sap which naturally invigorates the hair to strike to the brain, thus giving that peculiarity of expression which is noticed in those whose heads have been filed.

PHILADELPHIA, July 22.—Gen. Patterson was at Harper's Ferry yesterday with a portion of his command, awaiting the arrival of Gen. Banks.

NEW HAMPSHIRE ITEMS.

In the goodly village of Plaistow the brethren of the Methodist church have united their contributions, and furbished up the old church with new and elegant trimmings, chandelier, carpets, &c.,—which, with a new coat of whitewash and varnish, has greatly improved the interior of the house of worship. The whole was viewed with great satisfaction when finished and ready for occupancy, and at a preliminary meeting for prayer, in the school house, a devout deacon of the church, prayed most fervently that the people might come to the newly-decorated house of God "*clothed in suitable raiment*" for the improved state of things.

Mrs. Quimby, wife of the agent at the Amoskeag station, Manchester, had a narrow escape from lightning during a shower on Monday forenoon. A telegraph post, near the station, was struck by the lightning and demolished. Mrs. Quimby, who was at the back door of the depot, within a few feet of the post, was much affected by the shock, barely escaping serious injury.

The Commencement exercises at Dartmouth take place this week, on Tuesday, Wednesday and Thursday. Edward Everett, if he fulfills his promises, will deliver an address before the College on Wednesday. Dodworth's Band furnishes the music.

Mr. W. W. Estabrook, formerly of Concord, has been appointed store-keeper in the Custom House at San Francisco.

A little son of Clark G. Batchelder, of Plymouth, was instantly killed in that town on Saturday morning last—a horse kicking him in the head. He was five years of age.

A terrific thunder storm passed over Dublin, Saturday afternoon, attended with violent wind and drenching rain. The lightning struck the house of David Appleton, injuring the house and furniture considerably. The only inmate of the house at the time was a Mrs. Cragin, who escaped unharmed. Portions of the house were torn out, and windows smashed.

CONGRESS,—MONDAY, July 22.

The U. S. Congress on Monday did considerable important business.

SENATE.—The Senate passed bills increasing the Naval Military corps, amended so as to provide for filling the vacancies in the Naval Academy; providing for iron-clad ships and floating batteries

A joint resolution providing for a Board of Examiners to examine Mr. Stevens' boating batteries, passed.

The bill providing for the confiscation of the property of rebels in arms, was taken up.

Mr. Trumbull offered an amendment providing that any person held to service employed in any way in aiding the rebellion shall be forfeited.

Mr. Breckinridge called for the yeas and nays. Agreed to.

The amendment was agreed to—yeas 32; nays 6—Messrs. Breckinridge, Johnson of Missouri, Kennedy, Pearce, Polk and Powell.

The bill then passed.

Mr Fessenden reported a supplemental loan bill. Passed.

HOUSE.—In the House a resolution was passed, that the maintenance of the Union and the preservation of the Constitution is a sacred trust which must be executed; that no disasters shall discourage us from the performance of this high duty, and we pledge the employment of every means for the suppression, overthrow and punishment of rebels now in arms.

In reply to a question from Mr. McClernand of Illinois, Mr. Blair of Missouri stated that the Senate passed the bill increasing the army, but the House amended it by substituting their own volunteer bill. The Senate has now both bills.

Mr. Crittenden introduced his resolutions of last week, which passed. Messrs. Burnett of Kentucky, and Reid of Missouri voted against the first resolution, and Messrs. Potter of Wisconsin, and Riddle of Ohio against the remainder.

Mr. Wickliffe of Kentucky offered a resolution calling on the Secretary of War to inform the House whether the Southern Confederacy, or any State thereof, has in its military service any Indians, and if so, their number and tribe.

Mr. Eliot of Mass. objected on the ground that we have no knowledge of a Southern Confederacy.

Mr. Lovejoy of Illinois—Say rebels.

Mr. Wickliffe modified his resolution, by saying "the so-called Southern Confederacy."

Mr. Dunn moved to extend the inquiry to negroes.

Mr. Wickliffe—I have not been informed that they have negroes in service.

Mr. Dunn—I have, and they shot down our men yesterday.

Mr. Dunn's amendment was adopted.

The resolution then passed.

Mr. Horton of Ohio reported a bill authorizing the Secretary of the Treasury to pay the Governor of any State the costs, charges and expenses properly incurred for arming, equipping and transporting its troops in aiding to suppress the rebellion.—Passed.

☞ Wm. Huntley Sigourney, A. M., a literary gentleman of high attainments, committed suicide, by taking prussic acid, in Toronto,—on account of *disappointed love*. He had a fine estate near Yonkers, N. Y., and left property amounting to nearly $80,000 in value.

ST. LOUIS, July 22.—Over $2000 worth of medicines belonging to Mr. Kelly, of the firm of Gachart & Kelly of this city, designed for the South, was seized off Cape Girardeau, on the steamer to Memphis, by Col. March of the Ill. regiment encamped at that point.

WASHINGTON, July 22.—It was known to our troops at the time of the battle, that Gen. Johnston had formed a connection with Gen. Beauregard on the night of the first action at Bull's Run. Our men could distinctly hear the cars coming into Manassas Junction, and the cheers with which the rebels hailed their newly arrived comrades. They knew the enemy was our superior in numbers and position, but these facts were not probably known at Washington, and the officers in leading their men into action only obeyed orders.

The following regiments were engaged in the fight:—

1st, 2d 3d Conn. 2d Maine; one regiment of regulars, composed of the 2d, 3d and 8th companies, and 250 marines; 8th and 14th N. Y. Militia; 1st and 2d Rhode Island; 71st N. Y.; 2d New Hampshire; 5th Mass.; 1st Minn.; 1st Mich.; 11th and 38th N. Y., 4th and 5th Maine, and the 2d Vermont, besides the several batteries.

It is estimated that only 20,000 troops were engaged, and only 15,000 at any one time.

The returned soldiers are perfectly worn out. Many of them state that they went to the battle field after breakfasting, and were all engaged at the same time, while the rebel strength was supplied with fresh forces. The whole battle was on the centre column, and within the radius of a mile.

It is believed the rebels abandoned some of their batteries for the purpose of decoying the attacking force to advance to a point where a double fire could be directed at them, and sweep their lines.

The men marched on the battle field after a fatiguing march of nine hours, and immediately on the enemy. The enemy's batteries and infantry were all concealed, which made it exceedingly difficult for our men, as they were moving steadily forward. They could not see the enemy, and, consequently, could not direct their fire with a telling result.

It is reported that the Black Horse Cavalry of the enemy made an attack on the rear of the retreating column, when the latter turned and fired, killing all but six of the assaulting party.

Sherman's battery, or the greater part of it, has returned to the city. The reason why the other batteries were taken was, because the horses attached as well as those in reserve, were shot down, and consequently the cannon could not be removed.

Soldiers stationed near Ball's cross roads state that 500 of the enemy's cavalry have been seen since last evening within two miles of that place.

It is presumed that all the provision trains belonging to the United States were saved. Some regimental wagons were overturned by accident, or the wheels came off and they had to be abandoned. Large droves of cattle were saved by being driven back in advance of the retreat.

Among the wounded was Andrew J. Straw, of the N. H., Second Regiment, who had a leg taken off by a cannon ball. He remained at the hospital in Centreville.

The retreat of the troops to Centreville was successfully accomplished by 8 o'clock last evening.

The regiments were regaining the position vacated in the morning, minus a large number of soldiers scattered in the woods in various directions. Those that succeeded in reaching Centreville had an opportunity for fours hours' sleep, the reserve force under Col. Miles being posted four miles beyond Centreville.

At one o'clock this morning the retreat from Centreville commenced in good order and was maintained to Arlington Heights and Alexandria. The army while in retreat was compelled to leave behind a large amount of provisions, ammunition and about 40 army wagons, which fell into the hands of the rebels.

As fast as the Federal forces retired, their positions were immediately occupied by the rebels, until Fairfax Court House was passed, after which the pursuit was not continued.

In many cases teamsters unhitched horses and abandoned wagons where there was not the slightest necessity.

The rebel cavalry was a terror to the volunteers, who were obliged to keep in the woods to avoid being charged upon by them.

NEW YORK, July 23.—A dispatch states that the last stand on the field was made by Col. McCook's Ohio regiment, but three miles back of them were Gen. Blenker's brigade, which drew up and covered the retreat. The enemy came up and charged on the New York 8th, but were repulsed. At 8 o'clock Monday morning Centreville was almost deserted, all at the hospitals who could limp started away. The road from Centreville to Fairfax was covered with evidence of the retreat. At Fairfax Court House the inhabitants were plundering the deserted baggage. Gen. Blenker destroyed all the important bridges to prevent sudden pursuit. The loss is estimated at not over five hundred.

A prisoner taken during the battle stated that Gen. Johnston was shot.

Government has telegraphed to Massachusetts for 5000 men, and to New York for 5000.

Col. Kimball of the 2d Maine, and Col. Wood of the Brooklyn 14th, the Tribune says, were killed.

At last accounts the rebels were ransacking the bodies of our dead.

All accounts agree that the enemy were continually reinforced with fresh troops, the latter supplying the places of those driven from the batteries by our charges.

BALTIMORE, July 23.—Johnston left Winchester Thursday noon, and reached Manassas during the battle, with 20,000 men. It is confidently asserted at Winchester that Johnston and Col. Hunter were both killed at Manassas; also that Gen. Jackson was killed.

The slaughter of the rebels at Manassas Junction is represented to have been very great.

Messengers sent from Manassas represent the rebel army in a starving condition, and all the produce in the neighborhood has been seized and sent down. Sugar is $1 a pound.

WASHINGTON, July 22.—Large reinforcements from various districts are already on the way hither, orders for them having been telegraphed yesterday, while the battle was progressing.

The government entertains no apprehension for the safety of the capital.

Preparations not only for defensive, but for the renewal of offensive operations, are going on vigorously.

Gen. McDowell has returned to his headquarters at Arlington Heights. The regiments composing his army will resume their position; most of them have already done so.

Gen. McClellan has been summoned by the government from Western Virginia, to take command of the army of the Potomac. Gen. Rosencrantz takes his place in Western Virginia.

It is reported that 4000 of our troops have been sent back toward Fairfax from the other side of the river.

Our loss is less severe than at first reported, being gradually reduced as stragglers come in. For example, 200 Fire Zouaves were reported to have been surrounded in the road by the Black Horse cavalry, and annihilated. On the contrary, they cut down and destroyed the cavalry, with but little loss to themselves. Few of the balls fired by the rebels took effect; on the contrary, the enemy suffered severely. Three Fire Zouaves, scouting in advance, killed 26 rebels. The 71st New York regiment came upon a rifled gun, and lost eight men, but killed the whole eighteen rebels secreted.

600 Zouaves have returned.

RICHMOND, Va., July 22, via New Orleans.—Gen. Beauregard and staff escaped unhurt. Gen. Beauregard's horse was shot under him. Gen. Johnston commanded the left, where the enemy made the fiercest attack; the right was commanded by Beauregard. President Davis reached the field at noon, and took command of the centre.—When the left was pressed the severest, the centre engaged a portion of the enemy's forces and decided the fortune of the day.

SHERMAN'S BATTERY SAFE.—Lieut. Noyes of Sherman's Battery has sent a dispatch to his father, residing in Chelsea, that the battery is all safe, and not a cannon fell into the hands of the enemy. He says the officers had a wonderful escape from being killed.

NEW YORK, July 22.—A special dispatch from Baltimore says that there was great excitement in Baltimore, the secessionists being overjoyed. Riotous demonstrations were made, but were subdued by the prompt measures of Gen. Banks, seconded by the new Police. Quiet was at length restored and the Union men are gaining confidence.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Local.

☞ There was a feverish anxiety pervading our citizens on Monday afternoon and evening, to obtain the latest news from the seat of war, disastrous and discouraging as that news was. Large crowds assembled at the depot on the arrival of the trains, each individual thinking he there would have the best opportunity to secure a copy of the latest Boston papers. It is said that large prices, in some instances were willingly paid for them. There were many reports circulating in the city, of injuries received by members of the Second Regiment, and as the Regiment was known to have occupied a prominent position on the march, these reports, perhaps, were more readily believed. We have been unable to learn that any of these reports were well founded, except that Col. Marston was wounded and two of the Abbott Guard were killed. A New York paper states that Col. Marston lost an arm; that D. W. Whitmore was wounded and that Andrew J. Straw had a leg taken off by a cannon ball—both members of the regiment.

☞ Capt. George W. Towle has opened a recruiting office at Union Hall building, Market street, and invites volunteers to enlist for three years. There is now little doubt that all regiments, which offer their services to the general Government, will be accepted at once; and, it is said, that Gov. Andrew of Massachusetts, on Monday afternoon received dispatches from the War Department, requesting him to send forward the equipped regiments of that State as soon as possible. And our own State, by the Regiments already sent out, has acquired a reputation which will ensure a cordial reception and honorable position for those that follow them.

☞ Two ladies, one the president of the Society, are now in this city to obtain contributions for the American Home, located in New York city. The object is to furnish homes and employment for American girls there, now suddenly thrown out of employment by the war. Among the advisory committee are Rev. E. H. Chapin and H. J. Raymond. The object appears worthy of aid.

☞ Morris & Wilson's celebrated Troupe of Minstrels appear at the Temple this evening. They are on their return trip from down East, and will give but one entertainment in this city. They performed here last March, and were well received.

NEW YORK, July 23.—The Union Defence Committee received the following this morning, dated Monday:—"Cheer our friends to active exertion, that we may speedily retrieve yesterday. We are making vigorous efforts to concentrate an irresistible army at this point.

Regiments are now arriving and many have left for the Capital. Our works on the south side of the Potomac are being well manned. The Capital is safe."

(Signed) SIMON CAMERON.

LOUISVILLE, Ky., July 22.—John W. Tompkins, formerly Clerk of the Board of Aldermen, and recently a recruiting officer for the Southern Confederacy, was shot dead this afternoon by Henry Green, a city watchman. Tompkins was ballooing for Jeff. Davis, and was requested to desist by Green, when he drew a knife on him, but was retreating, when Green shot him.

Tompkins had been endeavoring to send contraband goods southward by the Louisville and Nashville Railroad, and during the past week was the main cause of the recent midnight disturbances at the depot of that road. Outsiders say Tompkins fired a pistol at Green before the latter fired at him.

KANSAS CITY, July 22.—On the 18th, Major Van Horn's command, numbering about 100 men, attacked by about 500 rebels, under Capt. Duncan, three miles north of Harrisonville, Mo. The fight lasted four hours, when the rebels withdrew.—The loss of the rebels was 14 killed, including two officers, and several wounded.

Our loss was one killed. Van Horn's command some hours later resumed its march, crossing Grand River, but were compelled to leave three baggage wagons on the bank, in consequence of high water. Major Van Horn left here on the 17th for the purpose of reinforcing Major Dean, now holding West Point, Mo., with a small force, having routed 1000 rebels there.—Van Horn's command was attacked while at dinner. It never gave way an inch.—The enemy endeavored to flank them on the left with a company of cavalry but were completely routed by a detailed force under Capt. Butler.

"As my strength was, then even so is my strength now," said Joshua. So will every one say who is now troubled with weak stomachs and worn out digestive organs. If they will now and forever use Herrick Allen's Gold Medal Saleratus—for whenever it has made an acquaintance, it "sticks closer than a brother,"—it will be your protector and shield, besides always giving you nice, light and digestible Bread, Biscuits, Puddings, Cakes, &c. Try it. Most of the Merchants sell it. Depot 112 Liberty Street, New York.

The power of Medicine over disease.—We know of no better illustration of this fact than the wonderful effects of the *Oxygenated Bitters* in eradicating from the system Dyspepsia, and functional diseases of the stomach, as well as restoring impaired digestion.

MARRIED,

In Great Falls, July 9th, Mr. ELIJAH GRANT of Great Falls, to Miss ELIZABETH BURBANK, of Brighton, Me.—July 16th, Mr. JOSEPH BUNKER of Wolfboro' to Miss ALMENA S. WENTWORTH of Dover.

DIED,

In Greenland, July 22, GEORGE GRANVILLE BALL, aged 23, oldest son of Capt. Geo. T. Ball.

Funeral this (Wednesday) afternoon, at 3 o'clk, at the residence of his father in Greenland.

☞ The funeral of Miss Mary F. Walker, will take place this (Wednesday) afternoon at 4 o'clk, from the residence of Gideon Walker, Esq., No. 7 Vaughan street.

In Stratford, July 7th, Mrs. ABIGAIL MONTGOMERY, aged 76 years, 10 months, wife of Mr. John Montgomery.

WARREN SPRINGS, Perry Co., Pa., June, 7, '60.

PROF. WOOD—*Dear Sir.*—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from itching and other unpleasantness. I must also state that my hair has become quite white in place, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be re vitalized. He tried his own case—almost bald and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

AN ACT relative to the Concord & Portsmouth Railroad.

Be it enacted, &c. SECTION 1. That the Concord & Portsmouth Railroad be and hereby is authorized to change the location of said Railroad so as to run from some point on said road, at or near the Depot in Candia, to some point upon the Manchester & Lawrence Railroad or the Concord Railroad, at or near the junction of said Roads in Manchester; also that said Concord & Portsmouth Railroad or the Concord Railroad be authorized to construct a Branch Road from some point at or near the Freight depot of the Concord Railroad in Hooksett, to a point at or near the Suncook Village Station on the Concord & Portsmouth Railroad, in Pembroke; so that the Concord & Portsmouth Road, in connection with the Concord Road and Branch, shall form a continuous Route by Pembroke, Hooksett, Manchester and Candia to Portsmouth, instead of the present line of rout.

SEC. 2. The Railroad Commissioners are hereby authorized, agreeably to the provisions of the Statutes now in force, to lay out said new location and Branch Railroad, should the same be necessary to procure the title to land therefor.

SEC. 3. There shall be no change in the operation or running of any portion of the present line of Route of the Concord & Portsmouth Railroad until such time as the proposed new Route from Candia to Manchester and from Hooksett to Pembroke shall be fully graded and in a proper period than thirty days, in order to lay the track between Candia and Manchester, as is herein proposed.

SEC. 4. Trains for the accommodation of passengers shall be run daily between Concord and Portsmouth, without detention at Manchester, and there shall be no advance on the published freight and passenger tariffs as now established between Concord and Portsmouth and intermediate stations. STILL SOMETHING WHICH HAS STOOD

—IT IS—
PROFESSOR WOOD'S
HAIR RESTORATIVE!
SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.
O. J. WOOD, Esq.,—*Dear Sir*:—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 6 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.
After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.
Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.
I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.
I called to see you, personally, at your original place of business here, but learned you were now living in New York.
You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1920, will be promptly attended. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case with very desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine *nostrums* which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtue. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
3. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time *will* mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, a thousands can testify.
SPALDING'S PREPARED GLUE, too well known to need puffing.
PREPARED MUCILAGE, always ready to stick a postage stamp, or fasten a loose leaf; will not mould or sour.

RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven to excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I took one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 25, 1861.

PLAIN STATEMENT.

The contest in which we are now engaged, is a struggle for the existence of the United States of America; and the question to be settled is, Are we a Nation, with a Government?

Our assailants assume that we are *not* a nation, and that we have *no government* that they are bound to respect; and they grab our forts, steal our money, seize our arms, and pirate our vessels, exactly as if their assumptions were self-evident truths.

In this view of the case, our duty is very plain, viz., to defend ourselves if we can, and to maintain our government if possible. The alternative, peace or war, has not been presented to us. The slave power at Charleston, a year ago, took the Democratic party by the throat, said the majority shall not rule, and absolutely choked it to death.

The same power clutched at the capital, aimed to choke the President, and actually committed murder in the streets of Baltimore; and the only reason why a usurper does not sit in the White House, and a secession rag float over the capitol at Washington to-day, is that 20,000,000 of freemen have sent 200,000 armed men to prevent it.

We have seen no evidence that the rebels have changed their programme in the least degree, from *Rule or Ruin!* If Davis, Floyd, Yancey & Co. could not rule their party, then destroy it! If they could not rule the country, then destroy it! If they can't rule the Southern States, destroy them by suicide or otherwise.

The duty of the United States government, army, navy and people, is, self-preservation, by all lawful and honorable means. But some one will say, What will become of the party? or parties? and what will become of slavery?

It may not be easy to answer these questions; but it is safe to say, that parties will *re-construct themselves*, to suit the new order of things. They have done so in Congress already; the Union, Government party rules there; and the Union party is gaining ground in Virginia, Tennessee and Kentucky. All parties must be ground over, and old hacks will be disregarded in the new ruth.

As to slavery, that old bone of contention, which troubled the republicans of Virginia in Jefferson's day—it *must* always be troublesome, as long as it endures; and in the present war, while the rebels fight *for* slavery—the United States are *not* fighting *against* it! but they fight for their existence as a Nation and a Government. Yet it is neither impossible nor improbable that events may occur in this very war, converting slaves into freemen, reducing the number of slave States, and regenerating the Southern States generally.

The Springfield Republican closes an article on the "Question" thus:

> They are talking about a "five years war" at the South. This seems ridiculous to us, of course. We unite with George Wilkes in the belief that a nation without money, lead or leather cannot fight a great while; but suppose the rebels should doggedly refuse to be whipped, and keep up a condition of harassing insubordination for a period of years. We should, at length, find ourselves face to face with this question of emancipation as a means of ending the war. We may as well think of it now, and get used to it. If it should ever become a question between the continued existence of the government of the United States and the continued existence of Southern slavery, certainly no Northern man would hesitate. We can imagine no Northern man so base as really to regard the enslavement of four millions of human beings as more desirable than the existence of a government under which they should enjoy freedom in common with twenty-six millions of whites.

The four hundred thousand men and the four hundred millions of dollars, called for by the President, mean, in reality, just this: the government and constitution of the United States are to be maintained at any cost of life and treasure. The attitude of the North means that rebellion shall be extinguished, and if, after a reasonable amount of blood and treasure shall have been expended, the destruction of slavery offers a short cut to the desired end, it will be destroyed. After a few battles have been fought, and the blood gets up, people will not think as coolly as they do now. If the great battles shall be fought and won, as we have sworn they shall be, and the rebels subside into a guerilla warfare, the North will become impatient, and demand that the infernal system shall be blotted out from America.

So, the rebels may be assured of just this—that if within a certain period of time, they return to their allegiance, their system will for the present be safe; and that just so sure as they make it a question between the existence of slavery and the existence of the government, slavery will be thrown overboard. It is useless for the rebels to say they cannot be conquered. It is nothing against the courage and character of the South to say that it can and will be conquered by the North. We have the advantage of them entirely in this affair. We are right and they are wrong. They are simply a rebellious minority, without money, or credit or character at home, and with nothing but a reputation for perjury and theft abroad.

It is, of course, impossible to foretell the results to slavery of this struggle. We recognize the hand of Providence in all the events connected with this war; and we can hardly doubt that the eye that watches over all, and the hand that moves all, regards those who are held in bondage, and designs that the events of the time shall have a bearing upon their deliverance. We have always confessed the problem of emancipation to be beyond our power to solve; and have felt that Providence must point the way. If emancipation is what this war means, we shall know it in good time. It would be cheaply purchased at the price of any sacrifice we are likely to be called upon to make.

☞ A correspondent of a New York paper says, among those entitled to especial praise for their conduct in the battle at Manassas is Col. Burnside, who behaved with great gallantry during the action, and brought in his troops in comparative good condition. He commanded the Brigade of which the N. H. Second formed a part.—His horse was killed and he was slightly wounded.

The correspondent of the N. Y. Times writes:—

> Our men fought with determined vigor, and accomplished results worthy of veterans. Only a small portion of the camp equipage was taken. It is universally agreed that up to 2 o'clock our troops were steadily gaining upon the rebels. Though they had been marching and fighting twelve hours, and were physically exhausted, they proved their superiority in the open field beyond all question. In no instance did the rebels stand their ground against a charge or in the open field with musketry. They had prodigious advantage in number, and still greater in their intrenchments.
>
> We shall not lose, in killed, wounded and missing, to exceed one thousand men. We have lost from eighteen to twenty-three pieces of artillery. About sixty to seventy baggage waggons will be lost. As near as can be ascertained the number of muskets thrown away on the retreat and lost on the field will reach four thousand. At least one half the blankets and haversacks were thrown away previous to battle, and on the retreat. We have lost but little provisions, and no ammunition.

CONGRESS.—Monday, July 23.

Senate.—Mr. Sumner reported back resolutions relative to fisheries. Postponed till the first Monday in next session.

Mr. Wilson reported back the bill to provide for the transportation of arms and munitions, &c., to loyal citizens in the rebel States. The bill appropriates two millions. Passed.

A bill in addition to the act authorizing the employment of volunteers. Passed.

Mr. Sherman reported back the bill for refunding duties on imported arms. Passed.

Mr. Cowan introduced a bill to punish fraud in making contracts with Government. Laid over.

House.—On motion of Mr. Blair of Missouri, a committee of conference was ordered on the disagreeing amendments to the military establishment bill.

Mr. Stevens reported a bill providing for additional revenue by assessing a direct tax and internal duties. Referred.

From Europe.—The Paris journals generally applaud the Emperor's letter relative to the introduction of free laborers into the French Colonies. The *Siecle* says, by advocating processes which lead to liberty, against those which directly or indirectly favor slavery, it very clearly shows the sympathies of the French Government in the conflict which now rages in the American Union.

Advices from Lisbon say that Prince Napoleon and his wife Clotilde would sail from there on the 8th inst., for New York.

It is asserted that the Dutch Government has resolved to recognize the Kingdom of Italy.

Steps have been taken for putting the Danish Army, excepting the artillery, on a peace footing.

The Sultan of Turkey has dismissed his seraglio, retaining only one wife. He has ordered the late Sultan's jewels to be sold to pay his liabilities.

A foreign nobleman, Baron de Videl, well known in London circles, had created considerable sensation, by attempting to murder his son by beating him on the head, as they were passing along a quiet lane, near London. The son is nearly of age, and report says that on reaching twenty-one he is entitled to a large fortune, which the Baron is unable to pay. The Baron made his escape to Paris, but is said to have been arrested, although there are difficulties about delivering him to the English authorites.

☞ The War Department has issued an order directing mustering officers to be careful that men from one company or detachment are not borrowed for the occasion to swell the ranks of others about to be mustered. In future no volunteer will be mustered into the service who is, unable to speak the English language.

☞ A newspaper correspondent, referring to the gallant bearing of the volunteers in the fight on Sunday, says that from the beginning to the end not a soldier flinched, and an Englishman who was present, and who had been in all the Crimean battles, said such charges as the Fire Zouaves and the 69th Regiment made he did not see at Inkermann or at Alma.

The Rebel Camp at Manassas.—The New Orleans Picayune of the 11th instant has an interesting letter from its special correspondent at Manassas Junction, bearing date July 7, from which we take the following extracts, giving a description of that place and the rebel estimate of its strength:—

> "This place continues the headquarters of the army of the Potomac. By nature, its position is one of the strongest that could have been found in the whole State. About half way between the eastern spur of the Blue Ridge and the Potomac, below Alexandria, it commands the whole country between so perfectly that there is scarcely a possibility of being turned. The right wing stretches off toward the head waters of the Occoquan through a wooded country, which is easily made impassable by the falling of trees. The left is a rolling table land, easily commanded from the successive elevations, till you reach a country so rough and so rugged that it is a defense of itself. The key to the whole position, in fact, is precisely that point which Gen. Beauregard chose for his centre, and which he has fortified so strongly that, in the opinion of military men, 2000 men could there hold 20,000 at bay.
>
> The position, in fact, is fortified in part by nature herself. Of the fortifications superadded here by General Beauregard to those of nature, it is of course not proper for me to speak. The general reader, in fact, will have a sufficiently precise idea of them by conceiving a line of forts some two miles in extent, zig zag in form, with angles, salients, bastions, casemates and everything that properly belongs to works of this kind.
>
> The strength and advantages of this position at Manassas are very much increased by the fact that 14 miles further on, (Fairfax C. H.) is a position of similar formation, while the country between is admirable adapted to the subsistence and entrenchments of troops in numbers as large as they can easily be manœuvered on the real battle field.
>
> The new comer, from what he sees at the first glance, puts down the number at about 30,000 men; those who have been here longest estimate his force at 40,000, 50,000, and some even at 60,000 strong.

Washington, July 23.—The President and Secretary of War are vigorously at work reorganizing a powerful army.

Within the last 24 hours over 60,000 fresh men, with a number of batteries of artillery, have been accepted. A number of regiments have arrived, and every day will bring immense reinforcements to the National Capital. Ten new regiments will be in Baltimore by evening. The response from every quarter has been most gratifying and truly patriotic.

The government is receiving hourly offers of regiments, which are accepted, and the misfortune has no disheartening effect. The loss is greatly reduced by recent information.

The whole of Sherman's battery has arrived in Washington. Eighteen cannon were lost in the retreat.

Our losses have been greatly exaggerated. It is now well ascertained that the killed fall short of 1000.

The rebels did not follow our retreating forces after passing Bull's Run.

Col. Einstein, of the Penn. 26th, returned to the battle field about 11 o'clock on Sunday night and brought off 6 pieces of artillery, which he delivered to the commanding officer on the Potomac last evening. He reports the field clear and not an enemy in sight.

Gen. McClellan is expected here to-morrow. His presence is awaited with much anxiety. His appointment is highly popular among the troops and distinguished civilians here congregated.

Some batteries and single pieces of artillery supposed to have been lost on Sunday, are being brought in safely. Among the pieces thus far received are the thirty-two pounder rifled guns.

The loss of the 71st N. Y., is not more than 50 killed, 100 wounded. This regiment was mustered out of the service to-day, their term having expired Sunday.

On the battle field balls were found of the pattern used in the English service,—showing that the rebels used rifles of English manufacture.

Nothing has been heard here about the reported death of Col. Corcoran.

Gen. Tyler, who is in the city to-night, says he knows nothing about Federal troops throwing up entrenchments at Centreville. He cannot explain Gibson's dispatch.

The utmost excitement continues in Alexandria, and the citizens seems to anticipate an advance of the rebels within forty-eight hours. It is known, however, that the Manassas Railroad is unobstructed as far as Springfield, and it may be safely stated that no Federal troops in a body are either at or south of Fairfax Court House. Gen. McDowell is at Arlington.

Col. A. S. Schimmelfang of Philadelphia, arrived to day and tendered a regiment of 1040 men, a large part of whom have seen service in Europe. Nearly all the officers are Prussians, who have distinguished themselves in service. The regiment has been accepted by the government.

Cairo, Ill., July 23.—The rebels are rapidly organizing opposite here, in Kentucky.

It is currently reported that Watkins, with 2000 men, is encamped within seven miles of Bloomfield, Mo. He has no field pieces, and his men are poorly armed.

Calib Jackson and staff were at Memphis on Saturday.

An attack at Bird's Point is threatened.

At Memphis, the loss of the rebels at Manassas is estimated at 3000.

☞ In the trotting race at the Franklin Course, Tuesday afternoon, Brown Dick beat Mary Taylor in three straight heats. Time, 2:41 1-8, 2:39, 2:40 3-4. Meddlesome was out of condition and did not trot.

Philadelphia, July 23.—A captain of the 69th New York regiment arrived at the depot this morning. The crowd took him on their shoulders, cheered, danced, and had a general ovation.

Affairs in Missouri.—*St. Louis, July 23.*—Advices from North Missouri state that on Sunday a body of Col. Smith's Missouri Zouaves went to Danville and arrested four men engaged in hanging Col. Sharp and Lieut. Jaeger, and took them to the outskirts of the town and shot them.—Two more men concerned in the same outrage were shot by a company of cavalry under Capt. Smith. Four others escaped on horseback. One of those shot was the captain of a company of regulars, named Moultrie.

There are fully 7000 troops stationed at different points on North Missouri Railroad.

It is reported that a large body of rebels from Southeast Missouri are marching on Pilot Knob, the southern terminus of the Iron Mountain Railroad, and that Col. Bland, stationed at that point, has sent for reinforcements.

New York, July 23.—The following despatch was received in this city last evening:—

Washington, July 22.—In reply to your despatch, I am happy to be able to say our loss is much less than was at first represented, and the troops have reached our intrenchments in much better condition than was at first expected.

The department is making vigorous exertions to concentrate at this point an overwhelming force, and the response from all quarters has been truly patriotic.

A number of regiments have arrived since last evening. There is no danger of the capital nor of the Republic.

Simon Cameron, Secretary of War.

At one of the Washington churches, last Sunday, a little Sunday School scholar answered the question, "Who is the Captain of our Salvation?" (very promptly) "General Scott," which quite confused the interrogator.

Grafton, Va., July 23.—Gen. McClellan leaves to-night for Washington. He will arrive there to-morrow night. General Rosencranz, who assumes command of the troops in Western Virginia, leaves this evening for the Kanawha Valley.

Baltimore, July 23.—The Massachusetts Sixth, at the Relay House, have reenlisted. Marshal Kane is sick at Fort McHenry. William Hood is appointed Assistant Deputy Marshal.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—Dyspepsia, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

Lake Village, N. H., Nov. 4, 1859.
Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the Oxygenated Bitters, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, Stephen Leavitt.

Local.

☞ Notwithstanding the "hard times," the war, and panics,—visitors to Rye Beach, the Isles of Shoals, and other delightful summer resorts in the vicinity of Portsmouth, are by no means scarce, this season. Probably there are not so many Southerners in attendance, as usual; but their places are filled, in many instances, by our own working people, who "in good times" (that is, when they are all so busy that they can't take time to breathe) would never have a spare week, but are now allowed, and almost forced to take, a little recreation.

Prominent among the summer hotels in this vicinity, are the Ocean House and the Atlantic House, on Rye Beach. The "Ocean" is an immense and splendid establishment, finely located near a superb beach, and well kept, as everybody knows; and the enterprising proprietors (Messrs. Job Jenness & Son) have considerably reduced their rates, "to suit the times," (as advertised,) so that no one can now complain of high prices. We understand that the elegant Omnibus which has heretofore run between the Ocean House and Portsmouth, is to commence its daily trips forthwith—which will be a great accommodation to the public.

The "Atlantic" is one of the most home-like and comfortable hotels we ever had the good fortune to visit--and "they *do* say," that, besides everything else nice, in particular the best fried fish is served up there, that you ever ate. Had "the multitude" near Judea, been supplied with *such* "small fishes," there would have been no "twelve baskets full of fragments" left, sure. Mine host J. C. Philbrick "is a host in himself," truly; and the combined marine and rural surroundings of his house are hard to beat, sure. Such good bathing-grounds are rarely found, so convenient to such walks, and swings, and seats, in "the wild old woods." You can't spend a day (or a month, as to that matter) better than in "doing" Rye Beach.

The Sagamore House, at Frost's Point, has been leased by Mr. Merrill, who has made great improvements in the premises. The view from here is one of the most diversified and picturesque in this vicinity.

☞ A well-fed young man in this city, ate three quarts of huckleberries in less than half an hour, shortly after breakfast, on Wednesday morning—on the wager that if he did the feat in forty minutes, the berries should be given him. Most men would feel some fear for their physical condition, after such a "cramming."

☞ There was a report in town, Wednesday forenoon, that the privateer Jeff. Davis, in the hands of a prize crew, was in our lower harbor, under the guns of Fort Constitution. It was not so true as one might wish.

☞ Mr. Charles L. Tidd has been appointed to a clerkship in the Post Office in this city, in place of Mr. Joseph C. Walker.

☞ The Mass. 12th Regiment, Col. Fletcher Webster, left Boston Tuesday evening, for the seat of war. The regiment was full: the boys all appeared eager to go on; and the people cheered them most enthusiastically.

☞ The schooner Lameyer, Capt. Lunt, arrived at Newburyport on Tuesday, was chased by a privateer brig, answering the description of the Jeff. Davis, for several hours, and only escaped by outsailing her.

☞ The act making additional appropriations for the naval service, for the year ending June 30, 1862, appropriates ten thousand dollars for repairs of all kinds at the Portsmouth Navy Yard.

☞ Mr. Crittenden, as a member of the present House of Representatives, has voted for every measure demanded for the support of the Government and the maintenance of the Union against rebellion.

THE CORN CROP promises to be larger than ever before. A greater extent of land is planted, and the growing corn never looked better. It is full two weeks ahead of last season, as well as hay, also.

PROVIDENCE, July 23.—A large and spirited public meeting was held in Market square this morning to express the determination of Rhode Island to redouble its exertions in behalf of the government. Mayor Knight presided. Eloquent speeches were made.

☞ Extraordinary exertions will be made in the Western States this fall, to manufacture sugar from sorghum, partially with the object of evading the prospective heavy duties on imported sugars, and to supply the deficiency caused by the loss of the crop in Louisiana.

☞ Cyrus Washburne, Esq., of East Boston, was thrown Saturday evening, in consequence of his horse being frightened by a dog, and his collar bone and several ribs were broken.

☞ The lists of those killed in the battle on Sunday, so far as published up to Wednesday noon, did not include any members of our 2d Regiment, and we hoped that the slight encouragement thus held out would not prove fallacious. But Wednesday afternoon's despatches stated that the Second N. H. Regiment went into the action with 850 men, and returned with 300, 52 of whom are wounded; of the others, 12 are dead and 44 missing. Cyrus W. Merrill was among the killed.

We find the following names mentioned as among the wounded.

Col. Marston was wounded in the arm and breast badly, by a musket ball, at the beginning of the fight, but refused to leave the field. The ball was cut out Monday night, and he is doing well. Another dispatch states that he was in the House, on Tuesday. Capt. Hiram Rollins, of Co. D, enlisted in Dover, was shot in the shoulder, receiving a severe wound, but will recover.

Charles Holmes and D. W. Whitney, of the Second, were wounded, and are at the Washington Infirmary.

It is stated that Andrew J. Straw, who lost a leg, belonged in Exeter.

NEW YORK, July 23.—A Washington dispatch to the Herald says 20,000 men have been ordered there from New York and New England.

Two Georgians, prisoners, say Johnston's division arrived at Manassas Sunday morning, and report that in an attempt to capture Sherman's battery their regiment was cut to pieces. They say they fooled Patterson.

The rebels carried an American flag during the fight, and when small squads of our troops approached they fired on them. The rebel sharpshooters were seen to pick off two vivandieres while dealing out water, and also shot at the ambulances and hospitals.

A dispatch to the Tribune states that letters from Richmond say Gen. Lee left there on the 18th with a large force, for Lynchburg, on his way to intercept Gen. McClellan's column.

The government has taken possession of the railroad between Baltimore and Washington.

Two hundred volunteer Philadelphia surgeons have arrived.

The revenue cutter Jackson arrived here to-day, from her search for privateers. On the 16th, 40 miles south of Cape Henry, saw a wreck, with 100 rebels around it, and dispersed them with shells.

WASHINGTON, July 24.—Fresh troops are continually arriving. All is quiet. No rebels are anywhere near our lines.

No doubt a panic among the rebels prevented a pursuit of our forces.

Illinois has offered 17 and Indiana 10 regiments. Some of them have already started.

The bill authorizing the President to accept 500,000 volunteers has passed the House.

FORTRESS MONROE, July 23.—An important movement was to have taken place to-day, but has been deferred on account of the sad news from Washington.

Our troops are anxious to avenge the battles of Big Bethel and Manassas.

The gunboat Penguin yesterday allowed a heavily laden schooner from Norfolk to pass up James River. She was probably loaded with cannon for Richmond.

ST. LOUIS, July 25.—Cols. Siegel and Solomon are reorganizing their regiments for three years. Nearly all the force now here, 5000, will re-enlist for three years.

McCulloch is at Camp Walker, Ark., with 5000 well-armed troops. Jackson is 15 miles this side, with 10,000 poorly armed and undisciplined troops.

49 men from Arkansas came here Thursday and enlisted for three years.

"As my strength was, then even so is my strength now," said Joshua. So will every one say who is now troubled with weak stomachs and worn out digestive organs. If they will now and forever use Herrick Allen's Gold Medal Saleratus—for whenever it has made an acquaintance, it "sticks closer than a brother,"—it will be your protector and shield, besides always giving you nice, light and digestible Bread, Biscuits, Puddings, Cakes, &c. Try it. Most of the Merchants sell it. Depot 112 Liberty Street, New York.

The power of Medicine over disease.—We know of no better illustration of this fact than the wonderful effects of the *Oxygenated Bitters* in eradicating from the system Dyspepsia, and functional diseases of the stomach, as well as restoring impaired digestion.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

WARREN SPRINGS, PERRY CO., PA., June, 7, '50.

PROF. WOOD—*Dear Sir*:—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from itching and other uncleanliness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order that my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, altho' I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it will do any thing to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARBITRATOR IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or false hair for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be revitalized. He tried his own case—almost bald and wholly gray at 37—he restored his own hair—and the article he did it with, he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OGLESBY, Ind., 6th June, 1859.

J. C. AYER & CO. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it broke out in blotches on my hands and arms; sometimes it turned inward, and distressed me at the stomach. Two years ago it broke out on my head and covered my only and comely skin one week, during which time it was painful and loathsome beyond description. I tried many medicines and the advice of physicians, but without much relief from any things. In fact, I grew worse and worse. At length I was advised to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing that you put up would be good. I went to Richmond and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful one a month, and used about three bottles. The new and healthy skin soon began to form under the scab, which after a while fell off, and my skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes.

Dr. Robert H. Noble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Erysipelas*, which threatened to terminate fatally, by persevering use of our Sarsaparilla. He says: "I have met *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goiter or Swelled Neck.

Zebulon Stone of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goiter*—a bad swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent, in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in those *Diseases of the Scrofulous Diathesis*. I have cured many severe cases of Leucorrhea by it, and seen where the complaint was caused by ulceration of the uterus, the ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbery, Ala., writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could apply, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but skilful tapping would afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks the symptoms of the disease were removed."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the cures I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic sores in his throat, which had been growing for months, and had eaten away a considerable part of it, so that he could hardly swallow without great difficulty. I gave him a bottle of your Sarsaparilla; the ulcers healed, and he is well again, and is able to swallow without disfiguration to his face. A woman who had been treated for the same disease by mercury was relieved from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her old bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Practically yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INGRAMSPORT, Preston Co., VA., 6th July, 1859.

Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and could be lost in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health in a most astonishing manner. I am far stronger than before I was attacked. I think it a wonderful medicine. J. STEAR.

John V. Gotcher, of St. Louis, writes: "I have been afflicted for years with an enlargement of the liver, which destroyed my health. I tried every thing, and every thing failed to relieve me, and I have been a broken down man for more than two years. I was advised to try Sarsaparilla for liver. My friend pastor, the Rev. Mr. Kapp, advised me to try your Sarsaparilla, because he said he knew you, and could place confidence in what you say. I do so, and am now in the flowing of health. It has cured me, and has so purified my blood as to make a new man of me. I feel young again. The liver complaint is gone. I can now eat any food I prefer, without fear or pain. I feel good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great number of cases have been reported to us where cures have been effected from the use of our preparation, but our space here will not admit them. Such cases may be found in our American Almanac, which, when not already supplied, we will send gratuitously to those who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

These formidable cases we have seen cured by the curative power of this medicine. It stimulates the vital energies into vigorous action, and thus expels the disease from the system. We have supported beyond its merits, as a remedy for long been regarded by the medical profession of the country, and we are confident that this will be found the most effective cure do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Confirmed Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other medicine of its kind, that all lung complaints, that it is needless to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it the household medicine of the civilized nations of the earth. Its superiority to all other preparations, or even families, among them who have used it, and its personal experience of its effects—its adaptedness to relief in the midst of its victory over the diseases of the pulmonary organs and of the throat and lungs. As all know the decided efficacy of this remedy, we need not in this place, but the effects of this remedy, we need not but that it has now all the virtues that it did have when making the cures which have won for it such a hold upon the confidence of mankind.

☞ The first graduate in the first examamining class at West Point, last week, was a poor Irish boy named Peter O'Rourke, who at the age of sixteen did not know his letters. This lad had saved the lives of several persons on Lake Erie, who, out of gratitude, offered him a considerable sum of money, which he declined, on condition that they would secure him an education. They complied with his request, sent him to school, and afterwards secured him a situation at West Point, where he has just graduated with the highest honors.

☞ On Saturday, the 13th, the engineer of a train approaching Milwaukee discovered a child creeping across the track. The train was too near the child to be stopped, and, as the only chance for escape, the engineer put on a full head of steam, in the hope of throwing the child from the track, instead of running over and crushing it.—Providentially the effort succeed. The child, when taken up, was partially insensible, but close examination discovered no other injury than a slight bruise on the thigh.—The mother came, and the child joyfully ran to her without manifesting any sign of pain or injury.

☞ The New Orleans Sunday Delta of the 14th inst., advises the planters to pick their cotton and store it unseeded in pens, well covered, and abide events. If the Northern army approach, the planters are told to commit the cotton to the flames. This applies to the present crop.

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as white wine.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.
SPALDING'S PREPARED GLUE, too well known to need puffing.

RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well. D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from suffering for several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W HAMMOND, 93 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir.—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

FRIDAY, JULY 26, 1861.

PANICS.—Soldiers are but men; and although a soldier must become a *sort* of artificial man, yet nature will occasionally assert her supremacy, and professional *sang froid* will give way to terror and flight.

It was so at the celebrated battle of Bladensburg.

Even the disciplined valor of regular troops is not always proof against those sudden terrors. The best and bravest soldiers of Napoleon, led on by Ney himself, were, at Waterloo, the victims of a panic most disastrous in its results.

Such a panic also occurred, it will be remembered, on the next day after the memorable and terrible battle of Solferino,—among the French soldiers and ammunition and artillery drivers, making great confusion, lasting for hours, in spite of all efforts of the best officers in the world to the contrary.

Thus it appears that the best disciplined troops of Europe, only two years ago, fell into a panic far less excusable than our men in Virginia—and performed the famous flight of French and Sardinian troops from Castiglione to Brescia. There the successful soldiers were resting from the fatigues of the fight, when five Austrians, who had been hidden in the bushes, came out to surrender themselves. Instantly the cry "The Austrians are coming!" was raised. From that simple incident arose a panic. For17 miles,all the way to Brescia, the road was filled with a flying mass of horse and foot; wagons and ambulances were emptied of their wounded, and every body seemed beside themselves with terror. Some 15,000 men were engaged in this panic, and the loss of life from it was very considerable.

In the war of the Revolution, our troops were terribly cut up on Brooklyn Heights; yet that calamity proved the salvation of the country, since it developed the masterly Fabian system of tactics subsequently pursued by Washington.

In the late panic at Manassas Junction and Bull's Run, the lookers-on, called "*civilians*" were very numerous, amounting to some thousands, it is said, — and when these respectable men, riding in carriages, took the back track with frightened teamsters, just disturbed by a charge of cavalry,—they told stories as big as their fears along the highway, enough to frighten every soldier who believed them,—and most would do so.

The wonder now is, as we get the details, piece by piece, not that the flight was so great, but that anybody made out to check it. Yet it was checked;—and as we read the items in detail, we come to the conclusion that the battle was bravely fought,—and the panic not half so disastrous as it might have been.

And finally, both sides seemed to have considered themselves beaten,—for it is said, bodies of the rebels were actually retreating south, at the same time a portion of our troops were rushing north;—and that the enemy did not understand the movement in the U. S. forces, and therefore did not make much pursuit. Their loss of life was probably the largest; and by this time all have learned that their opponents can fight, and that they themselves are not invulnerable.

A correspondent of the Boston Transcript thus explains the origin of the panic:

An order came to *change the position* of Griffin's Battery. As they retired, it was thought they were intending to retreat; and the regiment near by broke, and fell aside in confusion. Before Griffin's command had time to come about to the front, for action again, the stampede had begun.

Orders then reached the huge train of baggage wagons in the rear to move back, as they were in the way. They were turned toward the road, and this added to the believe that our column intended to fall back.

FROM NEW ORLEANS.—The Boston Transcript says the following is an extract from a letter dated New Orleans, July 12th, received on Thursday in Boston:—

"The W. H. Webb has not been below my house on the Mississippi River since the 13th of May. There is not one word of truth about her being fitted out as a privateer, and she cannot be unless she is sold out of the tow boat association to which she belongs.

"The report that Capt. Leach, who was captain of the W. H. Webb as a tow boat, commanded a privateer, is equally untrue. He is known to me as a worthy man and a first rate shipmaster. Nothing could induce him to engage in such a service." S. C. T.

N. H. SECOND REGIMENT.

WASHINGTON, D. C., July 23.

Dear Chronicle:—I hasten to inform you that the remnant of the 2d Regiment have just arrived from the scene of conflict which they have been engaged in;—and if you could be here and see the officers and brave men that have returned, your heart would melt. The N. H. Second was the first to engage the rebel batteries and the last to leave the scene of danger. All of the people here in Washington speak in the highest terms of the gallant conduct of the Granite State boys.

Col. Marston was wounded and taken from the field; but about an hour after he had his wound dressed, he returned and again entered into the contest. But a short time after, he was wounded again and was taken from the field. His wounds are not considered dangerous; although he may lose one of his arms. He exhibited the most undaunted bravery while he was on the field. His name will live in the hearts of the people.

Capt. Rollins of Company D. was wounded, but it is thought not dangerously. I have not been able to ascertain how many of our Regiment are wounded, killed or missing, but as soon as ascertained, I will forward the list, with the particulars. Our regiment, in its retreat, had to throw away their blankets and everything they had; so they are left pretty destitute of all their necessary things. It is almost impossible to give you a correct account of Co. K; there are many missing, but the probability is that more of them will yet return: we think that none were killed.—Company K. stood its ground nobly, each member doing his full share in the severe engagement. The officers of our Company behaved manfully, and the soldiers have confidence in their bravery. Before the awful engagement commenced, our soldiers had to march seventeen miles without anything to eat or drink; a great many of the men had to drink water that was covered with blood. Robert C. Sides, one of our teamsters, filled up his team with the wounded belonging to the regiment, and walked by the side of the wagon 26 miles. But the mail is about to start, and I must close. I have written very hurriedly.

—— Yours, D. F. S.

[A gentleman residing in Washington, whose initial will readily make him known to many in our city, writes us as follows:]

Such of the details of the unfortunate attack, which are known to us, have doubtless reached you. The individual fortunes of those now "missing" will require time to collect. Some of the missing of the 2d N. H. regiment are dropping in, and many, unquestionably, are not killed, but taken prisoners by the enemy; so there is good hope for the friends of those left in Virginia.

I write to speak of the conduct of your Second Regiment. It was worthy of New Hampshire. This regiment cannot be excelled in strength, coolness, or courage.—There was no instance in which a soldier did not discharge his duty; and this morning, at the camp, I heard of instances of individual courage which made me, as a New Hampshire man, proud of the sons of the Granite State. The regiment marched, or rather ran, seventeen miles, to the battle field; stood exposed to fire for five hours,and endured a march back of twenty-six miles.

Capt. Sides, I am told, distinguished himself as a cool, intrepid leader of his company; so of this company generally—they behaved as veterans; and this morning, after their dreadful work, were about, full of life, and ready for another effort.

There was no lack of courage in the officers who led the troops. They generally exposed themselves, with the men, wherever duty called. The error of the attack is to be attributed to the want of that knowledge which actual service only can supply. —— C.

Other letters received in this city, which we have been allowed to see, from members of the Portsmouth Company, add nothing material to the foregoing, except to confirm the statements.

Sergeant A. J. Sides writes, after the first battle, at Bull's Run:

* * * We are just 4 miles from Manassas Junction, and have had a fight, and a hard one, and hav'n't taken the batteries yet. They are masked, and under ground. Gen. Tyler's brigade was ahead, and ours (under Gen. Burnside,) next. Gen. T. was obliged to retreat three times, before the terrific fire of the rebel batteries, and the Union troops were cut up awfully. But we are now reinforced, and have a large number of batteries, and to-day we are going to work strong, and there will be an awful fight.

Yesterday our brigade took 14 rebels, and got them safe inside our lines, including a sergeant, a tough fellow. I saw them all to-day, and our boys were crazy to get at them.

We were surrounded by rebels, thicker than grass, but our brigade (N. H. 2d, R. I. 1st and 3d, and N. Y. 71st) was not hurt. Fifteen other brigades are encamped within three miles, and there will be fun. Two rebel prisoners were hung to-day, which were taken some time ago. Gen. Butler is coming with his brigade.

I tell you it is pretty hard times here.—We killed two cattle yesterday, and in fifteen minutes they were eaten; and we have to sleep on the ground, with nothing but our blankets.

You have no doubt heard from Washington,reports that we were all cut up, but it is not so, though we don't know how long before it will be. Gen. Scott has been here, and ordered hot shot to be thrown at the rebel batteries; the furnace to heat them in, is a roarer. * * * Our troops have just taken a lot more prisoners, since I have been writing. I hope they will shoot them. Some of our boys went up to see our dead and wounded; and the rebels came out of their batteries, and stabbed their bayonets in the poor fellows who were *hors du combat*.

After the battle near Manassas Junction, Sergeant Sides, at Washington, says:

We have arrived back here at Camp Sullivan, after a long, tedious march, and a horrid battle. * * We fought five long hours, in an open field. The rebels were in the woods, and had six or seven more batteries out o fsight. Our 2d N. H. Regiment was the first led on the field; we formed on line, the rebel batteries opened on us, we fired four rounds and then withdrew to a hill near, and our batteries opened on theirs, and our other troops advanced; and shot and shell and grape began to fly; and the rebels cut our men down dreadfully. We drove the rebels out of two batteries, but they were reinforced, and went at us again, and then other batteries were so powerful that we had to retreat. As we withdrew, the rebels drew out their troops, in sight, and I should judge they had 100,000 or more. We had 19,000. We fought them hard for five long hours, and if we had had three more batteries, should no doubt have defeated them. * * Our regiment suffered severely, but can't yet tell how much. We marched 17 miles and then commenced to fight, all tired out, and without leaving any thing to eat or drink. A. J. S.

CONGRESS,—WEDNESDAY, July 24.

SENATE.—The Senate refused to concur in the House substitute for its bill for the better organization of the Military Department. The bill regulating the pay, &c., of the revenue service was passed.

The bill to promote the efficiency of the volunteer forces was read a second time.—It allows the President to discharge officers who are incapable and inefficient, or violate official duty.

Mr. Fessenden, from the Committee on Finance, reported back the bill to provide for the payment of the Government Police of Baltimore.

Mr. Pearce from the same committee, expressed dissent from the bill. It was passed.

Mr. Johnson of Tennessee offered a resolution that the present civil war was forced on the country by the disunionists of the Southern States, now in rebellion against the Constitutional Government, and that in this emergency, Congress will only recollect its duty to the whole country; that the war is not waged in any spirit of oppression or subjugation, but to maintain and defend the supremacy of the Constitution and laws.—Laid over.

HOUSE.—Mr. Elliot, of Mass., reported a bill authorizing the president to appoint Consuls to any foreign ports where it may be deemed advisable for preventing piracy, at a salary not exceeding $1500, the office to cease when peace is declared. Passed.

The Senate bill appointing a Board Naval Officers on steel clad steamships, and if their report is favorable, authorizing the Secretary of the Navy to construct one or more, was passed. A million and a half of dollars is appropriated.

The Senate bill authorizing the appointment of an Assistant Secretary of the Navy passed.

The bill providing for an increase of the Naval Medical Corps was passed.

Mr. Stevens of Pennsylvania reported a bill appropriating $100.000 to pay the police organized by the Federal authorities in Baltimore.

WASHINGTON, July 24.—The debate in the House to-day between Messrs. Burnett, Richardson, Blair, and Stevens was highly exciting and interesting. Mr. Richardson concluded his speech as follows: "I repeat that Gen. Scott has been forced to fight this battle. I will tell the gentlemen what occurred yesterday morning. My colleagues, Messrs. Logan and Washburne, and myself were present with the President, the Secretary of War, and General Scott. In the course of our conversation, Gen. S. remarked, 'I am the biggest coward in the world.' I arose from my seat. 'Stay,' said Gen. Scott,'I will prove it. I have fought the battle against my judgement, and I think the President ought to remove me to-day for doing it.' "As God is my Judge," he added, after an interval of silence, "I did all in my power to make the army efficient, and I deserve to remove because I did not stand up when I could and did not." I stand here to vindicate Gen. Scott. I am indebted to the gentleman from Missouri for the compliment he paid me. I desire to say for myself that I stand here the last of a generation, my father and grandfather having fallen beneath the flag of their country. I too have fought under its folds at home and abroad, and, God willing, I will stand till the end of my life defending it against all foes.

Mr. Washburne.—As my colleague has referred to Gen. Scott's remarks, he might allude to what the President said.

Mr. Richardson—I will do so. "Your conversation implies," said the President to Gen. Scott, "that I forced you to battle." To which Gen. Scott replied, "I have never served under a President who has been kinder to me than you have." But Gen. Scott did not relieve the President from the fact of the latter having forced him to fight the battle. Gen. Scott thus paid a compliment to the President personally. I desire to say of the President that I have known him from boyhood. If you let him alone he is an honest man—(laughter)—but I am afraid he has not the firmness to stand up against the politicians around him.

NEW YORK, July 24.—The subscription list to the five million loan, on sixty days' Treasury notes at par, amounted to over three millions early this morning. It is supposed that all the balance will be taken before night.

NEW HAMPSHIRE ITEMS.

The new company, to be raised in Manchester for the 3d Regiment, is to be called the Stark Guards. The Abbott Guards (a second company with that name) already numbers nearly 70. The Irish volunteers there also number quite as many.

The Railroad Commissioners commenced on Tuesday to assess the land damages on the Candia Branch.

The Dover Enquirer says there is a rumor that in anticipation of the probable secession of the Gazette from that kind of democracy, the sympathizers with Jeff. Davis thereabouts are about to start a new organ.

David H. Babb, aged about 25 years, of Strafford, hung himself in a pine grove near his house on Monday, July 15,and was found two days afterward. He leaves a wife and one child.

E. A. Boardman, State Liquor Agent, is said to have paid $70,000 into the treasury last week, for duties on brandies and other liquors landed in Boston. The proposed tariff changes have caused parties "holders" of liquors to become quite lively for these dull times.

A letter from Mr. Taft of Co. I, (Abbott Guard,) 2d Regiment, states that of those killed in the late battle,none were residents of Manchester.

Capt. Gustav Von Gerber, of Manchester, has obtained a commission as Major in a regiment from New York, called the Cameron Rifles, in honor of the Secretary of War. Mr. Robert Rother, also of Manchester, leaves that city to-day to join the same regiment. It is thought that other German's will also leave Manchester to join the regiment with Major Gerber.

The hotel stand kept by Arthur Knapp, the dwelling house of Isaac Merrill, together with a large car house belonging to the B. C. & M. R., in Warren, were burned Monday night about 11 o'clock. Little of the furniture belonging to the hotel was saved. A cow in the stable was burned.—All of Mr. Merrill's furniture was saved.

Six full companies have already been offered and accepted for the 3d Regiment.—The remaining four will speedily be made up. Gov. Berry, with some of the members of the Council and other gentlemen, visited by invitation, on Friday last, Bear and Davis' Islands in Winnepisseogee Lake, to examine them with reference to selecting a place for the rendezvous of the 3d Regiment. Bear Island was found not at all adapted to the purpose. Davis' Island has very good camping ground, but is not as accessible as it should be in these hurrying times of war. The most accessible location is, especially at this time, the most desirable. The Governor and Council desire to locate it away from any large towns. The tents have already been procured. They will be pitched at once, whenever the location of the camp is decided upon. The troops, as soon as they arrive, will be furnished with rations in bulk by the Quartermaster, and do their own cooking. The recruiting officers are paid at so much per man for every soldier actually mustered into the service. The price of board before reaching the rendezvous is not to exceed $2.50 per week.

Mr. Albert Brown, of Kingston, has received an order for one hundred army wagons, which he is busily engaged in getting out. New Hampshire does an extensive business in the wagon and carriage line.

PHILADELPHIA, July 25.—A wealthy Virginian, who resided near Manassas Junction, a Union man, says it was fortunate for the Union troops that they did not drive the rebels beyond Manassas, for within two miles of the Junction, the ground for many acres is mined in the most artistic manner, and tons of gunpowder placed there.

He states that the rebel loss is between 3000 and 4000.

WASHINGTON, July 25.—No more offensive operations from this city need be expected before fall. Gen. Scott will now have his own way, and take his own time to suppress the rebellion.

A large number of additional guns and mortars have been placed on the defences surrounding the city. The fortifications are regarded as impregnable.

LOUISVILLE, July 25.—A dispatch (rebel) from Lynchburg, 23d, says the rebel loss is 250 killed and 1000 wounded.—Another dispatch says the rebel loss is 2000.

LOUISVILLE July 22.—The Union men here are rather depressed, but very resolute since the news adverse to the Federal forces at Manassas. The secessionists are rampant, but their outward demonstrations are checked by the death of Tompkins.

☞ Some mean fellow attempted to burn the lumber belonging to Messrs. Fernald & Wilson, on Wednesday night. A sailor, returning to his vessel which lay near, discovered the fire and extinguished it.

THANKS TO MCCLELLAN. The Wheeling Virginia Legislature has passed resolutions thanking Gen. McClennan and the officers and troops under him for liberating them from the oppression of the Confederate States Government.

☞ Gen. McClellan arrived at Philadelphia on Wednesday afternoon.

ADDITIONAL ACCOUNTS.—*Washington, July 24.*—The prompt appointment of Gen. McClellan has given undoubted satisfaction and has created great enthusiasm among the soldiers.

An order by Gen. Mansfield directs all straggling soldiers to join their respective regiments without delay. All stragglers found in the streets six hours after the promulgation of the order, will be deemed guilty of disobedience of orders, and will be taken care of. The wisdom of this is universally commended.

Early this morning the picket guard of the N. Y. 24th, at Fall's Church, 22 in number, with their captain, were attacked by about forty rebel cavalry and driven in. Half a dozen shots were exchanged, but none were hurt on our side. The rebel pickets are within five miles of us on the Columbia road.

There is no doubt that the rebels were actually retreating towards Manassas Junction at the very time when our soldiers were running towards Centreville. Long before the panic on our side occurred, the wagon train of the rebels was wending its way from the field, plainly indicating their intention to retire.

Among the prisoners taken, and brought to Washington, is Maj. Gen. George H. Stewart, the commander of the First Division of the Maryland rebel Volunteers.

It is stated that at least one thousand civillians witnessed the fight.

It is stated that the flag of truce sent to the rebels on Sunday, was returned with the answer that while they would not permit our surgeons and ambulances to come within their lines, they will take as good care of our wounded as if they were their own.

The report that the rebels shelled and burned Sudley church, used as a hospital by our troops, is confirmed, as is also the fact that the wounded found on the road were bayonetted by the rebels.

It is reported that the body of Col. Cameron was burnt in a house in which he had been deposited and which was destroyed by the fire.

The Secretary of War has issued general orders to-day that all officers of regiments will be subject to examination by a board of military officers to be appointed by the Department, with the concurrence of the Commander-in Chief, as to their fitness for the position assigned them. Those found incompetent will be rejected, and their positions be filled by competent officers that may have passed examination by the military board.

The ordance department at the Navy Yard is turning out rifle cannon with an extra force.

NAVAL.—A letter from the U. S. sloop-of-war Portsmouth, dated St. Helena, May 24, says that the Portsmouth sailed on that day from St. Helena for Loando (St. Paul de Loando)which port she expected to make by June 5,there to receive her orders home. She is to come to this Navy Yard.

Notice is hereby given that the undersigned, as Attorney for Hannah S. Kenney, of Eliot, Me.; on the twenty-ninth of May, A. D. 1861, made peaceable entry into and took possession of a certain lot of land and wharf situate in Portsmouth, in the County of Rockingham and State of New Hampshire, bounded westerly by Market street thirty-one feet, eight inches; northerly by wharf and land formerly of Thomas Harvey, now owned by the heirs of the late Samuel Pray, easterly by Piscataqua River, and southerly by land formerly owned by the late Joseph W. Leighton, and now occupied by Thomas S. Gammon,—together with the buildings thereon, conveyed to said Hannah S. Kenney in mortgage by Elisha Tripp of said Portsmouth, by his deed dated July 1, 1856, recorded in Rockingham registry of deeds, Lib. 836, Fol. 206, for condition broken, and for the purpose of foreclosing the right in equity of said Elisha Tripp, or of John M. The Oxygenated Bitters.

For years medical science has been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure the most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently,effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Merrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before an effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. The remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OXFORD, Ind., 6th June, 1860.

J. C. AYER & CO. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it broke out in ulcers on my hands and arms; sometimes it turned inward and distressed me with a cough. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any things. In fact, the disease grew worse. At length I was advised to send to the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got a bottle and began to fill it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the sore, which after a while fell off. My skin is now clean, and I have by my feelings that the disease has gone from my system. You may well believe that I am ready to do all in my power when I tell you, that I look you to be one of the apostles of age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. T. Ellis, Public notice from Salem, N. Y., 12th Sept., 1859, said he had cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous Mahogany Scrofula by large doses of the same; says he cures the common Erysipelas by it constantly.

Bronchocele, Goitre or Swelled Neck.

Sebastian Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a goitre on my child's neck swelling on the neck, which I had suffered from over the years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofulous diathesis. I have found it invaluable in cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured by your Sarsaparilla, and the vaginal edge equals it for those female derangements."

Edward S. Morrow, of Newberry, Ala., writes, "A dangerous ovarian tumor on one of the females in our family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 20th August, 1859.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, some of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Syphilis and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable portion of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison to her bones. They had become so sensitive to the weather that on a damp day she endured excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you have given me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not moved me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. AYER: Sir, I feel bound to be satisfied with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could think of, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. W. FRIEL.

Julia Y. Gotshall, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken down man for some years from no other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Depy, advised me to try your Sarsaparilla, and I have taken two bottles, and any thing you make was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. Yours, truly, J. Y. G. The best testimonial to its cold of you is not half good enough."

Scrofula, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this preparation, but our space here will not admit them. Some of them are published in our American Almanac, which the agents below named are pleased to furnish gratis to those who will call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many miserable cases of these affections have been made by the alterative power of this medicine. It stimulates the vital energies into vigorous action, and then overcomes diseases which would be supposed beyond its reach. Such a remedy has long been required by the medical profession, and they are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is possibly as universally known to surpass any other for the cure of throat and lung complaints, that it is to render unpublished the evidence of its virtues. Its wonderful cures of coughs and colds, and its truly marvellous control over pulmonary disease, have made it household words throughout the civilized nations of the earth. Its extensive employment among them familiarizes every one with its virtues, and many personal experience of its effects—so that we may simply in their minds of its victory over the terrible and dangerous disorders of the throat and lungs. As it knows the dreadful fatality of these disorders, and what they cost, too, the effects of this remedy, we need not do more than mention them that it may be borne all the virtues claimed for it, when making the cures which have made it so universally known and held in such high esteem.

FATAL FEASTS ON LAMB, WITHOUT PEAS.—N. Clark of Salisbury, Conn., recently found one of his lambs dead and badly torn. He sprinkled strychnine on the body and left it to be devoured by the murderer, and on the next day visited his bait and found a defunct bald-headed eagle, which measured seven feet and four inches across its wings from tip to tip. He again visited the spot, and found a large dead wildcat, and upon the third visit he found two dead crows and a skunk. On the fourth visit he found a—scent.

THOUGHTFULNESS IN LOVE.—The old proverb was that love was blind, and perhaps it is in the first attack, but occasionally there is evidence that in its intermittent terms it has its eyes wide open. A young widow, married in this city a few day since to a soldier, being questioned as to the inducements to commit matrimony a second time, when once she had been safely delivered from the restraining knot, said she had in mind the bounty paid by the State to the families of volunteers, which would give her and two children three dollars a week to carry them through the next winter, and possibly the husband might be shot and she become a pensioner in her old age.—*Newburyport Herald.*

☞ S. H. Chapman, Sergeant Major of the 4th Maine Regiment, who, it is reported, was the first man shot in the regiment, was the first volunteer who enlisted in Rockland. He leaves a wife and children.

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.
SPALDING'S PREPARED GLUE, too well known to need puffing.
PREPARED MUCILAGE, always ready to stick a postage stamp, or fasten a loose leaf; will not mould or sour.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

SATURDAY, JULY 27, 1861.

NEW HAMPSHIRE ITEMS.

The Claremont Eagle states that on Friday, June 19, a storm of wind, hail and rain, accompanied by vivid lightning and heavy thunder, came up from the southwest. The lightning struck a tree in that village, and the rain came down in torrents for two hours but the severity of the storm was experienced at North Charlestown. A great many acres of promising corn, potatoes, oats and other grains were nearly or quite ruined, and meadows of standing grass were flooded and spoiled. The fields and the woods were white with hail, and looked the picture of desolation where a few moments before all was smiling beauty and luxuriance.

Mr. John G. Simpson, well known in Manchester for many years as an excellent citizen and successful business man, died at his residence in that city on Wednesday night, of disease of the lungs, at the age of 45 years.

Charles Gay, formerly of Manchester, was murdered in California by the Indians on the 26th ult. They shot him twice in the back, then struck him with a shovel, and cut him with a knife most brutally.

A brother of the Straws who are in the New Hampshire Second Regiment, called, Monday evening, upon Nahum Wilson, living in Claremont, an old man of strong secession proclivities and inclined to express his hopes that every Northern man going to the war will be killed, &c. Here were the materials for a dispute and a fight. Hard names were called; Wilson took down his gun, and, it is said, discharged it at Straw, the charge passing through his hat. The old man Wilson and one of his sons then beat Straw severely about the head and face. Straw entered a complaint on Tuesday, and Wilson was held in $800 bonds to appear on Friday for a hearing.

How they Feel in New York.—We take the following brief and comprehensive summary of public opinion in New York from a private letter:

"*There is no flinching here, but everybody is mad.*"

The writer also says:—

"By the way, the hero of the war up to this date, is Tillman, the black man, who re-took the privateer. He is much talked of here. His desperate courage saved more than $100,000 of property. By the mere ordinary rules of maritime salvage, he is entitled to half of this. If he were a white man he would get it. At any rate, he ought to have $10,000 and be made independent."

☞ The Legislature of Tennessee has passed an act "for the relief of volunteers," which authorizes the Governor to impress into the army all the free negroes of that State between the ages of fifteen and fifty years, being sound in mind and body.—These "volunteers" are to perform such menial services in the camp as may be required, and receive therefor regular rations, with eight dollars per month as wages.

☞ The wife of John Larrabee, in South Danvers, Mass., attempted to murder her step-child on Wednesday. She first attempted to drown it, but not succeeding, she tried to beat its brains out with a stone. She then left the child for dead, and went home, where she was questioned by its father as to where the child was. She told several stories; among them that a wild beast came from the woods and took the child from her, etc. Nothing but a dislike to children seems to have been her motive. She had been married but about a fortnight to the father of her victim.

Another Great Race—Flora Distances Ethan Allen and Mate.—In the race on the Fashion Course, Long Island, Thursday, between Ethan Allen and his running mate, ("Socks,") and Flora Temple, to harness, (that is, to sulky) the double team won the first heat in two twenty-one and a half (2:21 1-2;) and Flora distanced the team in the second heat—time two twenty-one and a half (2:21 1-2.)—This was certainly an extraordinary race, and a singular result.

☞ Troops are arriving in Washington in equal numbers to those leaving, and the greatest activity is observable in all the departments of government.

Additional accounts confirm the horrible barbarity of the rebels toward our wounded soldiers.

☞ It is reported that Beauregard has gone to Harper's Ferry.

N. H. 2d REGIMENT.

The recent letters received in this city from A. J. Sides, Orderly Sergeant of Co. K, 2d Regiment, N. H. V., state that that company was not cut up so badly as some others in the regiment were. Wm. F. Oxford, Charles W. Patch, William Lawson, Christopher Marshall and Sampson Adams were reported as missing on Monday. He states that the regiment marched seventeen miles, "the last two double quick," and then commenced the battle, although extremely worn out. The rebels opening their batteries upon them, ours went to their work, and fired two shots to their one.

He bears testimony to the gallantry and intrepidity of Col. Marston and Lieut. Col. Fiske, complimenting them in the highest terms.

Second Regiment.—The Washington National Republican says "Col. Marston was on foot when he received the wound, but immediately mounted his horse and led his regiment for between one and two hours. Such heroism is worthy not only of note, but of high praise. He was brought into the city at 9 o'clock on Monday morning, in a common baggage wagon belonging to his regiment, and driven by Surgeon Hubbard, whose attentions to his brave commander have been unwearied."

Cyrus W. Merrill and John L. Rice, reported killed, came from Cornish and were members of the Cheshire Light Guard—George S. Heaton and D. N. Whittemore, reported wounded, are of the same company, from Keene. Heaton was wounded in the foot, and could not be brought off.—Whittemore was wounded in the leg, but is doing well. Andrew J. Straw, who has lost a leg, was from Claremont, and not from Exeter, as reported.

L. W. Derby, corporal, was wounded and is at the Georgetown Hospital. Sergeant Holmes is at the Washington Infirmary, wounded.

P. S.—Letters received in this city on Friday evening, dated July 24th, state that there are five members of Co. K "missing;" three of them were wounded, and of two nothing was known. These three were C. C. Marshall, Wm. F. Oxford, and O. F. Allen; the missing S. D. Adams and Chas. Ridge.

Charles Patch had returned to Washington.

Washington, D. C., July 24.

I was gratified to learn from Capt. Sides that the missing of the Portsmouth company, by subsequent arrivals, had been reduced to ten. Of these ten, two are reported safe; and it is not unlikely that others may come in, and that some may be prisoners. This renders the number of killed and wounded very small, considering the length of time this regiment was under the fire of the enemy. Report speaks highly of the bravery and power of endurance of this corps. Col. Marston showed courage and energy; he was severely wounded, but is in a fair way to recovery.

The number of missing of other regiments has been much reduced; and the unsuccessful attack, disastrous as it was, is found to be less unfavorable day after day, as more accurate information reaches us.

C.

Louisville, July 25.—The Richmond Examiner of Saturday says the retreat from Fairfax and Centreville was according to orders, Bulls'Run being selected as the battle-ground. Our troops, after firing several hundred rounds, withdrew in order before an advancing foe, and fell back on Bull's Run.

The Richmond Whig calls the fight a skirmish of first rate proportions. We hear that the Provost Marshal reports buried 986 of the enemy. Our infantry made a bayonet charge on the enemy which swept all before it. Among the unreported officers killed were General Mure of the New Orleans Artillery, Maj. Harrison Kirby Smith of Florida, and Colonel Johnston of South Carolina. Private dispatches to a gentleman in Louisville from Nashville, says that Jeff. Davis admits in his report to the Confederate Congress that their loss killed and wounded would be 3000. The same dispatch states that Wade Hampton's South Carolina Legion was entirely cut up.

Washington, July 26.—Prof. Lowe reports seeing from his balloon nearly all the country in the vicinity of Manassas covered with rebel tents.

The rebels are organizing large forces on the eastern shore of Virginia, and provisions, ammunition, &c., have been transported.

The rebels have pushed their pickets up close to our lines, and are now nearer Washington than before.

Rumors are current of an attack on Washington by Johnston, who is to cross the Potomac 16 miles above, coming down on the Maryland side.

It is also rumored that the rebels intend to make a movement against Harper's Ferry and Alexandria.

Fortress Monroe, July 24—Two important reconnoissances are taking place today.

Several rifled 42-pounders have recently arrived from New York. Some of them will be mounted on the Rip Raps.

A number of artillery officers recently from this fortress are among the missing at Manassas.

There was an alarm, last night. It is expected that Col. Magruder will soon make a demonstration in this direction.

Col. Weber commands at Hampton. The regiments have been drawn inside the village.

Congress,—Thursday, July 25.

Senate.—On motion of Mr. Johnson of Tennessee, the resolutions offered by him yesterday were taken up.

These resolutions are substantially the same as those offered by Mr. Crittenden, and were passed almost unanimously.—They are to the effect that the present war was forced on the country by disunionists in the Southern States, who are now in rebellion against the Constitutional Government.

Mr. Polk moved to amend so as to read, "that the present civil war forced on the country by the Southern and Northern States," and strike out what it says about being in arms against the Government.

The amendment was lost—yeas 4, nays 33. Messrs. Johnson of Mo., Kennedy, Polk and Saulsbury voted in the affirmative.

Mr. Polk asked that the resolution be divided. The Senate refused to divide.—There was further debate, Mr. Breckinridge expressing his belief that the President was responsible for the war, which was prosecuted for the purpose of subjugation, and not for the maintenance of the constitution; and if prosecuted twelve months longer, would be the grave of constitutional liberty.

Mr. Sherman thanked God the speech of the Senator did not represent the voice of Kentucky. The President had not brought about this war, but it was forced on the country by those who fired on its flag and committed acts of war. The truth is, the people forebore too long with Southern treason.

Mr. Doolittle, in the course of his remarks, charged the friends of the Senator from Kentucky with a design to break up the Union when they broke up the Charleston Convention.

Mr. Breckinridge denied such intention, and claimed for himself that he never uttered a word or cherished a thought false to the Constitution.

The resolution was adopted.

Yeas—Messrs. Anthony, Browning, Chandler, Clark, Cowan, Dixon, Doolittle, Fessenden, Foote, Foster, Grimes Harlan, Harris, Howe, Johnson, of Tenn., Kennedy, King, Lane, of Ind., Lane of Kansas, Latham, Morrill, Nesmith, Pomeroy, Saulsbury, Sherman, Ten Eyck, Wade, Wilkinson, Willey, Wilson. Thirty.

Nays—Breckinridge, Johnson of Mo., Polk, Powell, Trumbull. Five.

House.—Mr. Richardson of Illinois, apologized to the House for his unpremeditated language yesterday.

Mr. Burnett of Kentucky was not in his seat.

The taxes and internal duties bill was considered in Committee of the Whole.

Mr. Stevens moved to include slaves in the objects of direct taxation. A long debate ensued.

The amendment was adopted—59 against 25.

Washington, July 25.—The First Minnesota Regiment appears to have suffered the most severely of any on the field.—The men are undaunted and ready again for action.

There are ten thousand rebel troops at Fairfax.

The rumors that Gen. Johnson was killed are said to be confirmed.

Mr. Dawes, a member of Congress from Massachusetts, found among the rebel prisoners a young friend who graduated at Williams College, and also saw another prisoner who graduated at Harvard When Mr. Dawes told the former what his parents in Massachusetts said about him, he cried like a child.

The Connecticut regiment saved to the Government $200,000 by collecting stores abandoned during the retreat.

The Government holds Col. Miles responsible for the disaster of Sunday. He commanded the reserves and it is reported was negligent at a critical moment. He is now under arrest and will be tried by court-martial.

The Government has accepted a regiment of artillery from Pennsylvania, which consists of one thousand men, battery of thirty guns, five squadrons of cavalry, and a full equipment of rifles.

The war steamer Resolute, arrived from a cruise along the shores of Virginia, has captured two rebel schooners and a sloop, and found three new rebel batteries on the Potomac, one mounting six guns.

The reported occupation of Fairfax Court House is confirmed. The rebels are planting batteries of artillery there.

Philadelphia, July 25.—A wealthy Virginian, residing a few miles from Manassas Junction, who is of Northern birth and Union leanings, though forced to go with the Southern current, as his property and family are in that region, witnessed the battle and describes the conduct of the Federal troops as daring and brave in every respect. During Sunday night he took his chance to escape.

He thinks that Government is not at all aware of the extent of the rebel preparations to destroy our troops.

There are upwards of 12,000 negroes employed on the entrenchments at Manassas, and about the same number at Richmond.

Gen. Lee was not at Manassas when the battle occurred. He is now at Richmond commanding the active forces there, some 10,000.

The city is surrounded by mines like those at Manassas. If the rebels find that the Union men are going to take it, the city will be blown up.

There were not over 1000 rebel civilians allowed to witness the battle; the rest were kept back by the pickets.

The impression prevails at the South that the North has no money, and cannot get any.

The rebels are under the delusion that the heavy sums owed to the North by the South will make the North bankrupt, and in less than a year the North will "cave in."

There are two regiments of well drilled negroes at Richmond.

The informant has heard no rumors of trouble with slave insurrections, except in North Carolina and Alabama.

☞ Miss Adelaide Phillips, the American Contralto, is engaged to sing at the Italian Opera in Paris.

New York, July 26.—Hon. Alfred Ely and Col. Corcoran are prisoners at Manassas. The rebels are taking good care of the wounded and have buried our dead.

The rebel loss, by their own confession, is over 2000.

Monday was a day of mourning at Richmond.

Eight new Ohio regiments have been accepted.

☞ In the U. S. Senate, Friday, Mr. Kennedy presented a memorial from the citizens and Mayor of Baltimore, complaining of the usurpations of the military forces in that city.—The resolution for the maintenance of the integrity and supremacy of the Union was passed, only Breckinridge voting in the negative.

In the House, a bill was passed, authorizing the President to appoint commandants of Navy Yards from commanders as well as captains.

The Manchester Mirror states that the 3d Regiment will rendezvous at Camp Union, Concord. The troops will not occupy the old barracks, but new tents are to be provided for them, and the camp will be in readiness the latter part of next week.

☞ Gov. Morgan of New York has called for 25,000 more troops for three years.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—Dyspepsia, as well as its long train of evils and their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these elements from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

Lake Village, N. H., Nov. 4, 1859

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of DR. GREEN'S OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderate, accelerate and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawSm

Local.

☞ One of our citizens was severely bitten on Friday, by a large dog which rushed out at him from a shop. The injuries were such as to call for a surgeon to dress the wound.

Speaking of dogs; it is true some have lost their lives under the revival of the dog law in Portsmouth, within the last four weeks: and it is also true, *per contra*, that seventeen little juvenile dogs have come to town within the same time, in three litters, in a single neighborhood of no great extent.

☞ Two recruiting agencies have been opened in this city, and on Friday afternoon, twenty-six men had been enlisted for three years, or for the war. Of these, eighteen have connected themselves with the "Ellsworth Guards," which, it is intended, shall be composed as far as possible of the same materials as Col. Ellsworth's famous regiment—under command of Capt. Wm. Cornelius.

☞ This region is not generally supposed to afford very good opportunities for procuring game, yet Messrs. Henry S. Hartshorn and Joseph Blaisdell, two crack shots in our city, bagged fourteen fine woodcock one afternoon recently, and seventeen more one afternoon this week, not far from Portsmouth.

☞ We have already mentioned the attempt to set fire to a large quantity of lumber on the wharf of Mr. Wm. D. Fernald, at the North End, on Wednesday evening. About 11 o'clock, a fluid lamp was discovered under a pile of green hemlock boards, having burnt a place a few inches square. If the lumber had been dry, this would probably have caused another extensive conflagration. The lamp is at the City Rooms.

☞ The Lowell (Mass.) papers have had much to say about a single cherry which grew, and ripened, and was eaten, in that city. Apparently, they have plumed themselves a little over the fact that there was but one. Well, our city has not done quite so bad or so well as theirs, as is proved by a dozen or so, which have been presented to us from the garden of John S. Harvey, Esq. They grew upon a limb which was protected by snow from the severe cold, last winter. They were of fine quality—and it is not improbable, that Mr. Harvey has raised more cherries than any, perhaps every man, in the State this year.

☞ The Committee of the Ladies' Volunteer Soldiers' Aid Society give notice that there will be a meeting at the jury room in the Court House on Monday afternoon, at 4 o'clock; and respectfully ask a full and prompt attendance of all those interested in the cause.

There will also be a meeting of the ladies composing the committee of the Volunteer Soldiers' Aid Society, on Monday afternoon, at half past 2, previous to that appointed at 4 o'clock, for the transaction of any business which may come before them.

☞ We have within a few days chronicled the deaths of two young men in Greenland. One, Mr. Charles Packer, we learn, was so severely injured, several months since, while scuffling in a blacksmith's shop, by falling down backwards across an anvil, —that his death has now resulted in consequence. The other, Mr. George G. Ball, makes the third child of this family which has died within a few months, leaving but one other.

☞ Major John G. Reynolds, U. S. M., formerly stationed at this Navy Yard, and well known to many of our citizens, commanded the U. S. Marines, in the battle on Sunday. Of 350 men which they had at the beginning of the battle, 150 were killed, wounded, or missing on Wednesday.—They conducted themselves in the most gallant manner throughout the struggle.

PHILADELPHIA, July 25.—A private letter from Patterson, dated Harper's Ferry, July 23d, says that Johnson retreated to Winchester, where he had thrown up extensive entrenchments, had large number of heavy guns, had received large reinforcements. His force was less than 20,000. Nineteen regiments, whose term of service were up or would be within a week, all refused to stay an hour over their time but four. Five regiments have gone home, two more go to-day, and three to-morrow. To avoid being cut off with the remainder, he left back and occupied Harper's Ferry.

ST. LOUIS, July 25.—General Fremont arrived here this morning, and took up his quarters at the residence of the late Colonel Brant.

Several hundred rebels took possession of Memphis, Scotland county, Mo., Saturday last, and were entrenching themselves, in apprehension of an attack from about 1000 Union men, under Col. Moore, encamped near by. The rebels are disarming the Union men in northeast Missouri.

☞ All the muskets stored in the Arsenal at Augusta, Me.,—some 12,000 in number—were forwarded to Washington on Tuesday, a dispatch having been received to that effect.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring it, gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

LONG AND DANGEROUS RIDE.

The following letter from Mr. George F. Towle, son of Capt. G. W. Towle of this city, exhibits good pluck and a patriotic spirit. Mr. Towle has been a resident of Western Texas for two years past, and held the office of County Surveyor. He has a regular military education, and in our estimation is well qualified to take a commission in one of our New Hampshire Companies.

OSAWATTAMIE, KANSAS, 12th July, 1861.

I arrived here safe to-day on a horseback from Texas, all right, having ridden 300 miles. I have had no chance to write before—indeed I had enough to do to get through. When the first gun against Fort Sumter was fired, I had but one resolve, to go North and volunteer for the war, and fight so long as one single rebel dare stand out against the Government. The ports being blockaded, I had to come this way. I had rather an exciting time getting through—running the gauntlet of the Camanche Indians, who killed a man close to me one day—then through the secession troops in northern Texas. Came right through a camp of 1800 one day, and 1000 another. In the Indian nation they were taking up everybody bound North. I was made prisoner by a party of Cherokee Indians, on the Arkansas river, in the secession service. They were going to take me to the secession headquarters, to be tried for an abolitionist, but I got away from them. This was the night before July 4th. And a few days after, near the S. W. corner of Missouri, got into the midst of Ex-Gov. Jackson's forces of 10,000 men; and was obliged to run my horse at full speed for ten miles to get away—Run him right out of his front shoes. Never was in such a tight fix before. I shall go from here to Lawrence, and from there East, perhaps as far as Chicago. I am going to volunteer, sure—but would like to hear from home before doing so.—I shall volunteer in some regiment likely to see active service. I want to be where the heavy fighting is, and there I am determined to be. My office of County Surveyor in Texas is filled by a man who was willing to take the Southern oath. Those who refused that oath were put out of office.

In passing through the secession camps, I picked up all the information I could that would be of service to the Union, and shall take care to let the Kansas boys know it. The secession flag is flying all through the Choctaw nation. Albert Pike of Arkansas, with the Southern Commissioners, was at North Fork Town, on the Canadian river, holding a Council with the Choctaws, Creeks and Chickasaws, when I came through. 1000 Texans passed over Red river the day before me, bound to Fort Wichita. I passed within 12 miles of the fort and heard the artillery saluting. In coming up through the Cherokee neutral land I had another escape from being taken prisoner again.

It is 55 miles from here to Lawrence. I think I shall go up there, and then to Atchison, by horse. I shall sell my pony in one of those places.

Missouri is bound to be a free State I think. I reckon, between Red river and Arkansas in the Indian nation, 100 wagons rolling to Texas with negroes—Secessionists stampeding South. Some of these men left crops all standing in their hurry to get away from "the abolitionists." For myself I say if Slavery is to destroy the Union, then let it destroy Slavery and sweep the last vestige of it into the Gulf of Mexico.

Yours truly, G. F. TOWLE.

"Young man, you do not need this ride, so much as your mother needs what you are offering to pay for it—you had better give the money to her." This was rare language to be heard at a place where carriages and horses are offered to the public. The young man felt rebuked, went away, and doubtless bestowed his small funds where they were more needed, — while the new proprietor of the stable was gratified in the consciousness that his earnings should not intentionally be drawn from those who really are not able to pay. Such a spirit is highly commendable, and speaks well for the good influence of the establishment.

GONE.—The old Gains house (west of the old Bell Tavern yard), which was erected by John Gains (grandfather of the late John Gains) one hundred and thirty-three years ago, was retained in the family until about a year since. The property has just been disposed of to Mr. Woodbury Locke, who has taken down the house for the purpose of erecting a livery stable on the site.

Among the recent appointments made by Gov. Berry, we notice that of Woodbury L. Melcher, of Laconia, to be Register of Probate for Belknap County. Mr. Melcher is son of Woodbury Melcher, Esq. formerly of this city. He is a young gentleman of fine attainments and will make an excellent officer. The appointment is eminently fit to be made, and evinces the judgment of the Executive.

A COLLECTION will be taken up in all the Churches in the City on the forenoon of the next Sabbath, for the purpose of raising funds for the use of the LADIES' VOLUNTEER SOLDIERS' AID SOCIETY.

It is hoped that the call thus made on the public will receive a liberal response in favor of those who are at this time cheerfully devoting themselves to the good of our Country, and whose wants continue to be of a pressing nature. July 27

THE Committee of the *LADIES' VOLUNTEER SOLDIERS' AID SOCIETY* give notice that there will be a meeting at the Jury Room in the COURT HOUSE, on MONDAY, 4 o'clock, and respectfully ask a full and prompt attendance of all those interested in the cause. July 27

AYER'S Sarsaparilla
FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OXFORD, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my neck and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disease grew worse. At length I was reduced to yield to the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used about three bottles in all. New and healthy skin now began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has left my system. You may well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Fever and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Erysipelas*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a discouraging *Malignant Erysipelas* by large doses of the same; says he cures the common Erysipelas easily by it alone.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from ever two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. R. Chandler, of New York City, writes: "I must cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female complaints."

Edward S. Murrow, of Newbury, Ala., writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks the symptoms of the disease vanished."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: *Sir*, I cheerfully comply with the request of your agent, and report for your use some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic sores in his throat, which were commencing his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms a few years since, the alteration of his calon away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla, and the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disease by mercury, was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her hips and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of Physicians, and rendered me so lame that I had to use crutches. I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I can be better active than I was before attacked. I think it a wonderful medicine. J. FREAM.

John Y. Gatchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which defied every thing. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for years. Your pills, on other cases that *Sarsaparilla of the Liver*. My beloved pastor, the Rev. Mr. Epp, advised me to try your Sarsaparilla, because he said he knew you, and my faith in you was such that I did try it. The healing of God it has cured me, and has purified my blood so to make a new man of me. I feel young again. The best blood can be made by your Sarsaparilla. I feel good enough."

Scirrhous, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where Cancers have been cured by this Sarsaparilla, and from the use of this remedy, but our space here will not admit of them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these afflictions have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the profession of this people, and we are confident that this will fill the place of all that medicine can do.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivaled excellence for coughs and colds, and its truly wonderful power of pulmonary relief, have made it known throughout the civilized nations of the earth. You can't be ignorant, or even families, among them who have not proved by personal experience its efficacy when taking fright in their midst of its victory over the sudden and dangerous disorders of the throat and lungs. As you know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not ask you then to compel them that it has now all the virtue that it did have when making the cures which have won so strongly upon the confidence of mankind.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods**, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. PROSPECT OF PEACE.— The World's Crisis, Advent paper, begs its corresponding brethren to *rest their pens* on the subject of bearing arms, and says:

In addition to the matter which appears in this number, we have on hand at the time we write, eighteen articles on the question of bearing arms! Two of these maintain the lawfulness of war under some circumstances, while *sixteen* of them are against that view. Now we are *sure* that before *all* these articles are published in the Crisis, "the Prince of *peace*" will have commenced his glorious reign upon the earth; and we would suggest that it can hardly be serviceable to the cause of truth to send us any more matter on this subject for the present.

In a supplementary P. S. the editor says:

Since our article above was written we have received *four* more communications against fighting: one of them contains eighteen foolscap pages.

EXPLOIT OF A NEW HAMPSHIRE WAGON MASTER—The correspondent of the New York Commercial writes:

"I met a teamster going towards Centreville, who said he was the wagon master of the New Hampshire regiments, riding towards his teams at full gallop, from the battle field. He carried in his hand two cavalry sabres and pistols. I asked him where he came from, and he said, exultingly, "Hang them, I've killed two of the cusses already, and now my horse is worn out. I am going to get a fresh horse and go back to fight them with their own cheese knives, after my boys bring their wagons in a safer place." He went back, and the way he slashed about with what he termed a cheese-knife, was fearful. This one man must have killed five or six men, or at least terribly wounded them."

THE DUCHESS OF SUTHERLAND.—We find the following extraordinary story in the Kerry, Ireland, Star:—"The Dowager Duchess of Sutherland was received into the church by Father Fabe at the Oratory on the 27th ultimo, and has been seen by my informant (together with the Duchess of Buccleuch, another convert) attending the morning mass there."

BREAK DOWN.—A portion of Custom House wharf gave way Thursday noon, on account of unusual weight of coal, &c., upon it. A cargo of coal belonging to George Smith, and about seventy hhds. of Molasses, the property of N. O. Cram, were deposited in the dock. A portion of the property will be saved, but at considerable expense.—*Portland Advertiser.*

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
8. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time *will* mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.
SPALDING'S PREPARED GLUE, too well known to need puffing.
PREPARED MUCILAGE, always ready to stick a postage stamp, or fasten a loose leaf; will not mould or sour.

RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to try all sorts of patent remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

OPEN PORTS.

SEA-COAST OPERATIONS.

The Boston Traveller urges strongly that our base line of operations should be the sea-coast, and gives as a reason for it, that the enemy's strength is inland. His lines of unobstructed railroads enable him to concentrate immense masses of men in strong positions.

The editor goes on to suggest, that along the sea-coast we can in ten days transport armies to any and every port, and keep them reinforced and supplied. At all hazards we should seize these ports; fortify them against any approaches of the enemy, and at once open them to commerce, inviting the people of the interior to come in and ship their produce. By this course we shall place the whole burden of the attack upon the enemy, while we enjoy the defensive position in our intrenchments. We can afford to let the enemy enjoy this state of things for years, if he likes it, and defending our own lines along Kentucky, Missouri, East Tennessee and Western Virginia, we need care but little what system of "internal police" he exercises between our lines at these points and our gradual approaches from the sea-coast.

There is another advantage which this system will possess, and that is, it will at once protect our commerce without any extra labor or expense.

There are at least twenty-five strongly built clipper whale ships of 350 to 425 tons, laid up at New Bedford, which would make the very best of war vessels for Government service, and doubtless could be bought at reasonable prices.

There are also enough fast sailing schooners, and fast steamers, which might be armed, manned, and extemporized into ships of war,—a *volunteer navy*.

It is a thing that can hardly be done too soon. The rebels are getting a squadron together in Norfolk harbor, with which they mean to break the blockade there.

Why ought we not to be too quick for them? If such demonstrations were made at half a dozen ports at once, they could not gather *all* their force at Manassas, or Norfolk, or near Fort Monroe.

SOUTHERN ACCOUNT OF THE BATTLE. A dispatch from Richmond 22d, says, Congress met at noon, and after prayer was offered, the following dispatch was read:

Manassas Junction, Sunday night.—Night has closed upon a hard fought field. Our forces were victorious. The enemy was routed and fled precipitately, abandoning a large amount of arms, ammunition, knapsacks and baggage. The ground is strewed for miles with those killed, and farm houses and the grounds around are strewed with the wounded. Pursuit was continued along several routes towards Leesburg and Centreville, until darkness covered the fugitives.

We have captured several field batteries and stands of arms and Union State flags, and many prisoners have been taken. Too high praise cannot be bestowed, whether for skill of our principal officers or for the gallantry of all our troops. The battle was mainly fought on our left. Our force was 15,000, and that of the enemy is estimated at 35,000.

(Signed) JEFFERSON DAVIS.

Another dispatch says the entire rebel force was about 40,000, and the Federal forces nearly 80,000. No particulars have been received of the dead and wounded.

A LARGE INFERENCE. — The Newark, N. J., Advertiser of Tuesday evening, says:

From all accounts which have reached us, newspaper and private, we infer that the number of killed and wounded on the Federal side cannot be less than 8,000 to 10,000. A report from Washington to-day is that a large number of prisoners were taken by the Southerners.

With 10,000 killed and wounded, and a large number of prisoners—there would not have been much of a *crowd* to rush back toward Washington. Seen through two or three pair of secession spectacles, it is not wonderful that the figures loom up from hundreds to thousands.

☞ It is said that needles sell in the South for five cents each, and that two or three weeks since a man smuggled into Nashville, in his trunk and about his person, a sufficient number to clear upwards of two thousand dollars. He has since made a similar speculation upon spool cotton, also a scarce article, and like needles very likely to escape detection.

☞ A Washington dispatch says Griffin's battery is again equipped and ready for action.

☞ The "New York 7th," the pride of the metropolis, returns at once to the war.

SECOND N. H. REGIMENT.

The publishers of the Journal have kindly handed us a letter from a member of Co. K, intended for their columns, but which reached them too late for insertion. We make the following extracts:—

"About 4 o'clock we silenced three of their batteries and drove them before us. We thought we had the victory, but just then they were reinforced and charged upon us. We had to retreat. It was heart-sickening to hear the wounded beg to be helped off the field, that they might not be captured by the rebels. Two young men of Co. K helped one of Co A's men a mile, after the army had retreated. They were the last to leave the field, and had one regiment of rebels firing on them for about half a mile,—one shot going through the boot-leg of one of them, but not drawing blood.—Afterward they were cut off by rebel cavalry, which endeavored to cut off the retreat of the whole army; but travelling through the woods in another direction, they escaped, and arrived at Centreville at day break the next morning.

"In Co. K, there are five missing—three of them were wounded. Four others were wounded slightly.

Co. A, (Keene)	2 wounded;	7 missing;	1 killed
Co. B, (Concord)	4 "	7 "	0 "
Co. C, (Manchester)	4 "	2 "	2 "
Co D, (Dover)	13 "	6 "	0 "
Co. E, (Concord)	5 "	3 "	0 "
Co. F, (Littleton)	0 "	10 "	2 "
Co. G, (Peterboro')	0 "	3 "	1 "
Co. H, (Gt. Falls)	12 wounded & missing;	3 "	
Co. I, (Manchester)	5 missing;	3 killed.	

Of the missing, about one half were wounded and left on the battle field; some of them may yet return."

At the battle on Sunday last, Capt. Hiram Rollins of Co. D, 2d N. H. Regiment, had been shot in the shoulder, and was lying by the roadside under a fence, faint from loss of blood. Capt. Thomas Snow, of the 2d, passed at the time, and Capt. Rollins gave the cry of "Second New Hampshire," and the officer went back, and hailing an ambulance wagon, placed the wounded officer in it. A few moments after, Capt. Rollins, by some means unknown to himself, was thrown out of the ambulance, and almost immediately afterwards a cannon ball struck the ambulance, shattering it and scattering the pieces in a fearful manner. The officer was afterward picked up and conveyed to the camp of the Regiment.—*Traveller.*

NEW YORK, July 26.—Gen. Wool bandied a long letter to the Union Defence Committee yesterday, in vindication of his conduct. Several letters passed between the Secretary of War and the General, in one of which Mr. Cameron says, the issuing of orders by Gen. Wool, on the application of various Governors for arms, ammunition &c., without consultation with the Department, seriously embarrassed the Department, and was alone sufficient to order his return to his headquarters. But the President finds no fault with the General for his pure and patriotic motives.

In reply to this the General states that communication with Washington was closed at that time, and even a special messenger was not able to have an interview with Gen. Scott.

Gen. Wool also says that if he had failed to do what was required at that time, and was approved by Vice President Hamlin, the various Governors and several Senators of the different Northern States, he would have been denounced by the entire North as an enemy to the country.

Judge McKean, Gen. Bullard and Prof. McCoy, all of New York, had an interview with the President Thursday, to request the call of Gen. Wool into the field of active service. The deputation was kindly received, and represented to the President that New York, which has furnished 50,000 volunteers, had confidence in that veteran and wondered why he was retained at Troy. The President stated that there was no decision to keep him out of active service, and their representations would be duly considered.

RELIGIOUS REBELLION IN UTAH.—A new Prophet in Utah has just arisen to dispute with Brigham his absolute authority over the Faithful. His name is Joseph Morris, and he belongs to Weber county, near Ogden city. He predicts the breaking up of the present Church authority and a new organization under his leadership. The new prophet has created a great deal of excitement, and drawn so many of Brigham's followers off, that the latter has been compelled to denounce him as a false prophet. Brigham still claims to hold the "keys of death and hell," and he commands the Morrisites "to obey the fullness of my Gospel," and gather around the Salt Lake City Temple. On the other hand, Joseph prophesies that war will soon commence in Utah, and that Brigham will be cut off this year, and his posterity, and all the leaders of his Church—and that young Joseph Smith will lead the saints back to the Zion in Jackson county, Missouri.

CLEVELAND, Ohio, July 26.—The Republican State committee met at Columbus yesterday. Resolutions were adopted requesting the Democratic State Committee to join in a call for a Joint Convention to nominate a suitable State ticket. The call is to be addressed to all in favor of the unconditional preservation of the union of the States, the maintenance of the integrity of the Government, and the vigorous prosecution of the war.

CINCINNATI, July 26.—Gen. Cox occupied Charleston, on the Kanawha, yesterday. A rebel steamer was abandoned and burnt. It is supposed the rebels will be met by Rosencrans' column, sent out some days ago to intercept them.

☞ Miss Augusta Evans, of Mobile, the authoress of "Beulah," is now in the rebel camp at Norfolk, attending to the sick.

NEW HAMPSHIRE ITEMS.

Gov. Berry has accepted a requisition made upon this State, to enlist for three years a company to act as sharp-shooters, each man to select or furnish himself such rifle as he can most effectively use—the expense to be borne by government. For acceptance into this company, men will be required to demonstrate their ability to hit a mark six inches in diameter nearly every time, at a rest, at a distance of 250 yards.

Mr. George Perry, of Hopkinton, while fishing in Contoocook river, was overtaken by a shower, and taking refuge under some trees, was killed by lightning. His body was not found until next day. He left a wife and one child.

A Band for the Second Regiment, having been enlisted for three years, at Keene, uniformed and equipped, will start on Monday for Washington. Dr. Jeremiah Horne, of Dover, will accompany the Band, with articles of comfort for the sick and wounded of the Regiment, and remain as long as his medical services may be needed.

The Legislature, at its recent session, repealed all acts and parts of acts by which provision had been made for the support of Teachers' Institutes. This, it is true, does not abolish them, but withdraws the means by which they were sustained. They may be continued, as usual, by the friends of education, but the towns are no longer to be taxed. Selectmen will therefore reserve no portion of the school money of 1861 for their support.

Commencement at Dartmouth College took place on Thursday. The graduating class numbered 58. The honorary degrees are as follows:

Doctor of Laws—John P. Hale.

Doctor of Divinity—Rev. Samuel Colcord Bartlett, Rev. Silas McKean.

Master of Arts—Nath'l S. Perry, Erastus Claggett, Herman Foster, Edward H. Rollins, Paul J. Wheeler, Joseph F. Green, Aaron H. Cragin.

WASHINGTON, July 25.—Although no official returns have yet been sent into the War Department, I have it on high military authority that the following is about the fact:—

Killed	380
Wounded, (including about 100 struck, but not much injured)	500
Wagons loaded with provisions, lost,	25
Cannon spiked and left on the field and abandoned in the stampede, and not since recovered, ...	17
Small arms dropped, (about half of which number were picked up by ordnance wagons on Monday) 1500 or.	2000

The rebels are arresting all Union farmers within eight miles of Washington. They arrested an old man near the chain bridge last night and threatened to hang him.

Lieut. Budd of the gunboat Resolute, as certained that the rebels are organizing large forces on the eastern shore of Virginia, and that provisions, army stores, ammunition, &c., have been transported thither.

The whole of Accomac is a complete nest of rebels, and vessels manage to leave as coasters for Maryland, and leave their cargoes just below the Maryland line. The rebels have erected batteries there. The Rappahannock and York rivers seem not to be blockaded. The Resolute brought up three prizes.

The gunboat Reliance, reports that the rebels are erecting batteries on Mathias Point and Aquia Creek.

Gen. McClellan arrived to night and privately proceeded to his hotel.

The Secretary of War and a few friends visited the battlefield to view the engagement. After spending a few hours at Gen. McDowell's headquarters, and hearing the evidence in relation to the possibility of Gen. Johnston having joined Beauregard, they started for Washington to forward reinforcements. Four regiments, that were under marching orders for Harper's Ferry, were started South, and five others were ordered to be ready on Sunday morning. Three of the regiments thus ordered had reached Fairfax before the retreat commenced.

Ten thousand volunteers have arrived in Washington within the last 48 hours.

WASHINGTON, July 27.—The fortifications on the other side of the Potomac are being continually strengthened, and regiments keep going across the river.

Reports continue to be received of rebel movements on Harper's Ferry, and several regiments have been ordered there.

A dispatch to the World says a private letter from Virginia puts the rebel loss at from 1000 to 1500, including Gen. Eppa Hunter.

Schooner Enchantress has been re-captured from the pirates, near Cape Hatteras.

Fifty seamen have been detailed to work the batteries at Alexandria.

Everything is quiet at Mathias Point.

The daily average arrival of troops is three or four thousand.

Our outposts are being again gradually extended.

A large building is being constructed for the accommodation of newly arriving soldiers. Heavy timber, shot, shell and army stores are being transported across the river to the fortifications.

FORTRESS MONROE, July 25.—Lieut. Crosby yesterday took charge of an expedition to Back River, consisting of 300 men and seven field pieces, upon the propeller Fanny and six launches belonging to the ships of war in the harbor and to the Naval Brigade. Back River is an arm of the sea about midway between Old Point and York River.

The expedition was entirely successful.—Lt. Crosby surprised and burnt 9 sloops and schooners, and brought off a valuable prize schooner loaded with bacon, corn and furniture.

☞ Advices from Europe to the 18th inst., were obtained from the steamer City of Baltimore, which passed Cape Race on Thursday night. There is but little news. The King of Prussia had narrowly escaped death by the bullet of an assassin at Baden. The reception of the President's Message in England caused an advance of 1-3d. in the price of cotton, and a decline of 1-3 in consols, on the 17th.

The London Times thinks the heavy taxation recommended by President Lincoln, may lead the North to reconsider their rejection of a compromise.

Lord John Russell is to be created a peer.

The Great Eastern is to be employed regularly between Liverpool and New York.

The Irish census shows a decrease of 12 per cent. in 10 years.

Louis Napoleon's health was slightly improving.

The Americans at Genoa celebrated the 4th of July by a banquet. There were about 70 present.

HOUSEKEEPERS troubled with vermin, need be so no longer, if they use "Costar's" Exterminators. We have used them to our satisfaction, and if a box cost $5, we would have it. The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawSm

ANOTHER ANCIENT BREWERY. — An aged citizen informs us that there was a brewery in Portsmouth a little more than sixty years ago; the brewery was situated on the lot which is now the S. W. corner of Fleet street, adjoining Court street; and we think in the building now standing there. The brewer was James Foster, an Englishman or Scotchman, who remained in the business some years, and afterwards kept a grocery store. He married here, into the Call family, and his descendants are well remembered and known here. Messrs. David C. Foster and Robert Foster, both printers, were his sons.

Our informant speaks well of the brewer and his beer: it was, to his recollection, different from the beer now made here.

☞ Among the graduates of Dartmouth College at the commencement which occurred last week, were William W. Dow and George E. Hodgdon, of this city.—Joseph B. Upham Jr., graduates at Bowdoin College, Brunswick, Me., at the next commencement, Aug. 7. These, we think, complete the list of our Portsmouth graduates, the present year.

THE ORPHAN BOY.—"Why don't you go home?—why do you lie here?" said I to a thinly-clad little boy, crouched on a door step in our city, at a late hour last evening. "I have no home," he answered. "Where do your father and mother reside?" "I have no father or mother," was the reply of the little orphan, and a tear trickled down his cheek at the question. I had seen such sights in large cities, but here at home I was not prepared to meet a poor, homeless boy, ten years old, without a place to lay his aching head. On further enquiries, I learned that he was born in Boston, and had been at work in Berwick with a farmer, who had turned him away; that he walked to our city, thinking he might find something to do at the Navy Yard; that he had failed in his endeavors, and had made up his mind that he must sleep in the street. "Have you had any supper?" I asked. "No, sir, I have had nothing to eat since morning." "Then come with me, my little friend;" and taking him to a neighboring oyster house, I soon had the pleasure of seeing him appease his hunger. We then proceeded to the station house, where he found a comfortable bed. "Are you not afraid to sleep in the station house?" said the officer in charge. "Oh, no, sir," said the little fellow, "if I can go out in the morning;" and soon he was sleeping as quietly as if he had been in the old farmer's house in the country. H.

☞ We are informed that Mr. Supply Hodgdon, of Stratham, fell from his team on Monday last, in the road near his house, and one of the wheels passed over him,—breaking his thigh, besides causing other injuries. It is feared that he cannot recover.

A ROMANTIC INCIDENT.—The Levant Herald relates a romantic incident connected with the domestic life of the new Sultan. Oriental policy and usage have, it is well known, long compelled the practice of male infanticide in the families of heirs apparent to the throne; daughters are permitted to live, but sons are sacrificed to the sovereign jealousy at the moment of their birth. Four years ago, however, a son was born to Abdul Aziz, and by the aid of a devoted nurse, was spirited away to Eyoub, where he lived unknown. Upon his accession, his Majesty produced this child, who bears the name of Youssuf Selabeddin Effendi, and presented him to the Grand Vizier and other ministers as his first-born.

HARRISBURG, PENN., July 26.—Within four days 10 infantry regiments, consisting of nearly 11,000 picked men, thoroughly uniformed and equipped, and mostly regularly drilled in camp instruction for two months, have been thrown forward. Additional regiments will be sent before the close of the week. The State has also an artillery regiment and a regiment of 1200 cavalry, nearly ready for service.

ALEXANDRIA, July 26.—There has been much drunkenness among the soldiers today and the guard houses are nearly full of prisoners. The Provost Marshal's guard visited three drinking houses to day, that were selling liquor after having been notified not to do so, and destroyed all the liquor remaing on hand.

☞ The Commissioner of Patents has decided not to extend the patent for the machine known as Ketchum's Reaper, on the ground that Ketchum's assignees have made money enough out of it. The profit realized by somebody from this patent is said to exceed $1,250,000.

A SMART GOVERNMENT VESSEL.—U. S. Steamer South Carolina, Capt. Alden, formerly in the Boston and Charleston line, has captured eleven vessels belonging to the rebels since she commenced to blockade the port of Galveston.

☞ It is stated that Mr. Hinton, of Stockbridge, Mass., about 28 years of age, who has heretofore uniformly enjoyed good health, recently experienced a severe headache for several days, which resulted in the entire loss of the sight of both eyes.

A FATAL PRIZE.—The Cracow journals announce the death in that city of a man named Bricowski, who won the great prize of 250,000 florins in the Austrian lottery last year. To obtain immediate possession of his fortune, he paid a discount of 11,000 florins, but from the moment he got it in his possession, he seemed never to have enjoyed a moment's peace, so fearful was he that some robber would strip him of his unexpected wealth. He kept it in an iron chest, locked up in an arched vault, and visited it morning and night, to see that all was safe, till at last, from excitement and anxiety he fell ill, and typhus supervening, death soon delivered him from all his troubles.

AN ERRATIC CLERGYMAN.—The extraordinary conduct of an English divine attracts the attention of religious circles. The Rev. Mr. James of North Riding, was found dressed in a drab wide-awake hat, with blue ribbons. He also broke in colts for the farmers, visited them, (the farmers,) and got drunk. The farmers were delighted to "make the parson drunk." He also stole money and got into Maidstone jail—then into St. Pancras workhouse. He is a native of Oxford, and was educated at the grammar school attached to Magdalen College.

Secretary Cameron, being overrun with applications from ladies for the places of nurses in the army hospitals, thought to get rid of their importunities by issuing a decree that those who have accepted the post should not wear hoops. Finding this readily agreed to by his tormenters, his next dodge was to issue an order that no one should be accepted who was under thirty years of age. This did the business. There are no women of that age in the country!

The date of the disastrous reverse at Bull's Run is the anniversary of the battle of Shrewsbury, in 1403, between Henry IV, and Henry Percy (Hotspur.) Upwards of 8000 persons were slain in the conflict. The renowned Battle of the Pyramids was fought in Egypt July 21st, 1798. Bonaparte defeated Murad and the other Beys, Cairo surrendered to the French, and the whole of Lower Egypt submitted to the Corsican.

PROPERTY AND OPINION.—Once, a determined radical in Scotland, named Davy Armstrong, left his native village; and, many years afterwards, an old fellow-grumbler met him, and commenced the old song. Davy shook his head. His friend was astonished, and soon perceived that Davy was no longer a grumbler, but a rank tory. Wondering at the change, he was desirous of knowing the reason. Davy quietly and laconically replied, "I've a coo (cow) noo."

☞ The Committee of the Ladies' Volunteer Soldiers' Aid Society give notice that there will be a meeting at the jury room in the Court House on Monday afternoon, at 4 o'clock; and respectfully ask a full and prompt attendance of all those interested in the cause.

There will also be a meeting of the ladies composing the committee of the Volunteer Soldiers' Aid Society, on Monday afternoon, at half past 2, previous to that appointed at 4 o'clock, for the transaction of any business which may come before them.

CRITICAL CONDITION OF AFFAIRS IN RUSSIA.—Letters from Russia in the English papers state that when the Emperor Alexander entered the theatre at Moscow, all the company quitted it, as if they obeyed a pre-concerted signal. The Emperor's aides-de-camp were insulted by the crowd. But, what is still more serious, the insurrection among the peasants is extending every day, and is assuming alarming proportions. Hitherto, the troops have acted without hesitation against the insurgents, but fears as to their fidelity are now beginning to be entertained.

☞ Kentucky deserters from Camp Boone, Tenn., say that they were required to take an oath to support the Constitution of the Southern Confederacy, to serve three years, and to invade Kentucky at any time they are required to do so.

☞ Rev. H. C. Leonard, of Waterville, Me., has been unexpectedly (to himself,) elected Chaplain of the Maine 3d regiment, now in Virginia;—his people give him leave of absence; and he will write from Camp for the Gospel Banner, of which he is an editor.

☞ Rev. Zenas Thompson, of Portland, lately elected chaplain of the 6th Maine regiment, has two sons in the service,—and a third enlisted, but illness has prevented him from marching.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring the hair, gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BEACKEIT HUTCHINGS, 4 Market street. apr24

COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.

RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form, for long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can have no hesitancy in saying I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

TUESDAY, JULY 30, 1861.

SECOND N. H. REGIMENT.

A gentleman in this city has furnished us with the following letter, from a friend occupying a high official position in Washington, although it was not intended for publication.

WASHINGTON, July 25, 1861.

It may be gratifying to you to learn something of Col. Marston, and to hear of his heroic conduct at the terrible battle in the vicinity of Bull's Run on Sunday last.

Col. Marston's regiment belongs to Col. Burnside's Brigade, and with the two Rhode Island Regiments and the New York 71st, went early into the action.

Soon after the commencement of the action, Col. Marston, being then on foot, as most officers were, on account of the rugged ground, was struck by a common musket ball on the outside of the right arm about two inches below the joint of the shoulder, which fractured the bone and passed thro' into the right side of the chest, where it was afterwards cut out.

I have seen the wound and ball. The latter is flattened into a half sphere by the force of the blow.

When struck, Col. Marston fell over on his left side and face, saying to Lieut. Col. Fiske, that he was shot. He was then carried back from his line into the woods, where he expressed the strongest desire that his regiment should not fall back.

Some one said, "We hope you will not lose your arm, Col." "Never mind my arm" said he, "I had rather lose both than this regiment should run or we be whipped." He was then carried to the hospital and his wound was cared for.

He then expressed his desire to take his place at the head of his regiment. The surgeon told him he must take the responsibility if he did. His horse was then brought, and he was helped into the saddle. A servant led him to the head of his regiment, where he remained until it came off the field. He steadied them by his presence, and brought them off in good order in the subsequent disastrous retreat. A like performance the world has seldom seen!

The next day he was brought to his old quarters in this city, and the ball was then extracted. Fears were at first entertained that his arm would have to be amputated; but he has continued to improve, and it is now believed it will be saved. Young Mr. Sullivan is with him, and will take good care of him. I was at the camp of his regiment yesterday, and his men were loud in their declarations in his praise. I am happy to be able to state that this regiment behaved admirably. They fought bravely, and brought off all their wounded and wagons in their retreat.

We are much mortified but not disheartened at the sad result of the late battle. Our men fought admirably and performed prodigies of valor—had they been cared for and led as well, the result would have been different, in my judgement. We won the field, and lost it because the men were required to do more and fight longer than it was profitable for them to do. The disorder of the retreat was mainly owing to the want of discipline and experience.

☞ The Knickerbocker, for August, is published. The introductory article is entitled "The Romance and Reality of the Law," peculiarly pertinent at this time of the year, when so many young men are about to decide their profession in life.—"The Revelations of Wall Street" still form a prominent feature in the Magazine, and, month after month, increase in interest. We are pleased to welcome Maco Sloper back again, after an absence of several months. "Dr. Brown, and his 'Drowned Cares'" is a readable story, with a moral that tells a story in itself. We trust that our old favorite, here styled "An Indian Hymn," has not been palmed off on the editors as an "original" poem. The original is too good to be mutilated as published in the Knickerbocker. The July number has not been received at this office.

Among the Confederate officers reported killed, are Lieut. Col. Johnson, of Hampton Legion, Col. Thomas, of Gen. Johnston's staff, and Col. Fisher, of the 6th North Carolina regiment. The wounded reported, are Col. Stephens, of Gen. Bee's staff, Col. Gartrell, of Georgia, Lieut. Col. Montgomery Gardner, of the 1st Georgia regiment, Col. Nelson, of the 2d Virginia regiment, Col. Jones, of the 4th Alabama regiment, Col. Hampton, of the Legion.

There are rumors afloat that the secession troops are about to move towards Cairo, intending to land in Missouri, and attack Cairo from the rear.

AID TO VOLUNTEERS.—The U. S. Sanitary Commission have issued a circular, in which they state that all our volunteers are entitled, under the army regulations, to suitable clothing and equipment. The Quartermaster's Department is now able to supply nearly all proper demands upon it, and will soon be prepared to do so still more fully and certainly. Articles supplied by it are of much superior quality to those furnished by the State Governments or by patriotic societies and individuals. A large portion of the articles furnished soldiers gratuitously are soon found to be encumbrances, and thrown away as useless. So of regimental hospital supplies. Men severely wounded do not remain with their regiments; the wounded and sick are removed, as far as practicable, by means of ambulances, to general troop hospitals, in the rear, and regimental hospital supplies are thus of little use. But after great battles, or in case epidemics should rage in the army, large quantities of bed clothing would be much wanted; for, under the present regulations, only straw beds and blankets, without sheets or pillow-cases, can be at once provided. Precisely when and where these articles will be wanted cannot be known beforehand. The Government Sanitary Commission has, by advice of the Surgeon-General, arranged to receive all suitable articles contributed, and will supply them where they will be most needed, guarding against waste. For the present there is immediate need of all that can be sent, at Washington. Donations of materials and of money may be addressed to Fred. Olmstead, Resident Secretary of the Sanitary Commission.

☞ Mr. Johnson of Tennessee addressed the Senate, on Saturday, in support of the resolution approving the acts of the President. The House, in Committee of the Whole, after some debate, struck out the enacting clause of the direct tax bill, by a vote of 59 to 58. The House, however, did not concur in the action of the Committee of the Whole, but recommitted the bill to the Committee of Ways and Means, with instructions to report forthwith a bill on the basis of $20,000,000 by direct taxation, and that such other sums as may be necessary be raised on the personal income or wealth of the country.

☞ The New York Times' Washington dispatch says information has been received, which leaves no doubt that Patterson willfully refrained from holding Johnston in check. He was heard to say that he would take care of himself, and the army of the Potomac must do the same; that he was not going to do all the work and let McDowell's column reap all the glory.

☞ Mr. James E. Harvey has a card in the Philadelphia North American, denying the charges against him, and demands an investigation. He was Minister to Portugal, and is accused of having informed the secessionists of the intention to supply Fort Sumpter.

☞ The Mt. Kineo House, Moosehead Lake, Maine, presents many attractions to travellers, pleasure seekers and sportsmen. We are reminded of its fine qualities by the advertisement to be found in another part of to-day's paper.

ALEXANDRIA, July 27.—A most wanton murder was committed here to-day, about 10 o'clock, by William Murray, of Co. F, 2d N. H. The victim was a girl named Mary Butler, living in the lower part of the city. Murray, who was drunk, accosted her in the street, and after exchanging a few words with her deliberately shot her with his musket. The ball passed entirely through her body and caused her death in a few moments. Murray will be tried by a court martial on Monday.

The last of the troops stationed in the city went into camp to-day, much to the relief of the citizens.

Notwithstanding the Provost Marshal has destroyed upwards of 50 bbls. of liquor, drunkenness among the troops is still fearful.

☞ Before Monday, after the battle, had passed, thirty new regiments, 300,000 stand of small arms, new machinery for the manufacture of all kinds of ordnance, new war materials of every mould and form, were ordered. The energies of the Government have but just now begun to develop themselves.

☞ It is reported that the *enfants de troupe* of the French army, of whom there are between 6000 and 7000, are, after they have passed ten years of age, to be supplied with light muskets and bayonets, for the purpose of being instructed in their use, with a view to the formation of a corps, from which the non-commissioned officers are to be selected for the army. At seventeen years of age they are to be admitted into the ranks, so that their military education will have been completed on entering the service.

FORTRESS MONROE, July 28.—A flag of truce came into Newport News, with a proposition giving our troops 24 hours to leave. The sloop-of-war Dale at once went up from Old Point, and other vessels are ready to assist. Col. Phelps says he can hold the place against twice his force, which consists of four regiments.

Heavy firing was going on at Pig's Point.

FORSYTH, Mo., July 28.—Gen. Sweeney's command dispersed 150 rebels, and captured blankets, provisions, camp equipage, etc., in different parts of the town—in all valued at $20,000.

WASHINGTON, July 27.—The President has declined, from motives of public policy, to furnish the House with copies of the correspondence with the foreign Powers, relative to maritime rights, as well as the correspondence respecting the present insurrection.

Half a million in gold is on the way from the New York Sub-Treasury. The troops here are to be paid off on Monday.

The most advanced post of our army is four and a half miles from Alexandria—Col. Howard's Brigade, 3d, 4th and 5th Maine, and the 2d Vermont.

Gen. Cadwallader has been tendered the position now held by Gen. Mansfield.

Reports continue to be received of rebel movements on Harper's Ferry, and several regiments have been ordered there.

Fifty seamen have been detailed to work the batteries at Alexandria.

The daily average of arrivals of troops is three or four thousand.

A large building is being constructed for the accommodation of newly arrived soldiers. Heavy timber, shot, shell and army stores are being transported across the river to the fortifications.

Gen. McClelland's command will include General Mansfield's as well as General McDowell's department, and three counties in Maryland as well. The department of Gen. Banks is also enlarged by the addition of two counties in Maryland.

Business in the executive sessions of the Senate has so far been confined principally to action on appointments. Those for the army under the new bill will be thoroughly sifted, in order to obtain efficiency.

Five barrels, purporting to contain whiskey, on board the lately captured schooner Buena Vista, have been found full of excellent pistols.

Col. Webster's Massachusetts regiment has been ordered to Harper's Ferry.

Seventy thousand rations of bread were distributed to the troops yesterday.

There are now around Washington 25,000 men who were not in the late battle, and the artillery force is much greater than before our defeat.

The officers of the 2d Vermont regiment have requested their Colonel to resign, he having exhibited marks of cowardice during the late battle.

Reinforcements are pouring in. By a computation made at the War Department, to-day, there were at that moment 35,000 soldiers en route for this city.

During a pleasure trip on the Potomac to-day (Saturday), in the steamer Coatzacoalcos, several shots were fired from an 84 pounder James rifled cannon at the batteries on Aquia Creek, the shots taking effect at a distance of 4 1-4 miles.

Mrs. Hinsdale, whose husband is a member of the 2d Michigan regiment, has returned here from Manassas Junction. The enemy captured her and conveyed her thither. They employed her as a hospital nurse. On Thursday she procured a pass from General Beauregard and his consent to leave. Mrs. Hinsdale reports as being in the hospitals at Manassas a large number of our wounded troops. The enemy say they have as prisoners over 1000 of our men. She brings a verbal message from several of them to their friends, and says they are well cared for. The offer of liberty has been tendered to all, provided they take an oath not to take up arms against the Confederates. A Captain of a Maine regiment and several privates accepted of the conditions. Others refused.

BALTIMORE, July 28.—It became apparent early last evening that the rebels meditated an attack on Hampton, and Gen. Butler determined to abandon the town in case of a formidable advance, and at 7 o'clock an order was given for families and goods to be removed within an hour.

Orders were also issued to burn the town rather than have it fall into the hands of the enemy. Gen. Butler well understands that the possession of Hampton by the rebels will be of no particular importance.

A stampede of the negro population has taken place, and all last night and to-day the road has been lined with refugees to the Fortress, and army wagons bringing in goods from Hampton.

Nearly 1000 "contrabands" have come in during the last twenty-four hours. For the present those not employed will be quartered in and around the Seminary buildings, lately the headquarters of Col. Duryea.

An alarm occurred this morning and several buildings in Hampton were fired this morning by our troops. The rebels will doubtless occupy the place to-morrow unless it be burned.

LATER.—Our troops were entirely withdrawn Saturday night. A part of Hampton bridge has been destroyed to prevent communication with this side of the creek. The place has not yet been occupied by the rebels.

FORTRESS MONROE, July 26.—During the night an order arrived from Washington for four regiments to be immediately transported there.

Hampton is still held by a strong force.—Newport News, it is believed, can withstand any force that Col. Maynard can bring against it.

It is generally believed that the rebels will attack Newport News within a few days. During the last few hours they have extended their pickets a mile and a half nearer Hampton.

An arrival from Hampton reports that Col. Max Weber fully expects to be attacked to-night, the rebels being already some distance this side Newmarket bridge, with a strong forcee of infantry and cavalry.

BANGOR, ME., July 27.—The Down Easters were badly frightened last week by the appearance of a rakish looking schooner, curiously painted, which attempted to speak several vessels, which made all sail to escape, supposing her to be a privateer, as she carried a large number of men. The Potuguese schooner Jacinto arrived here to-day and reports, off Cape Sable she attempted to speak to several vessels, to ascertain her whereabouts, but that they were frightened and she did not succeed.—This is undoubtedly the key to the mystery, as the Jacinto answers to the description in every particular.

WASHINGTON, July 29.—Secretary Welles has ordered a powerful naval force to guard the river below Washington, so that it would be impossible for the enemy to cross it. Above it is equally secure.

Gen. Banks' division having been reinforced within the last few days with a force more than double those returned home, the story that Gen. Lee intended to cross the Potomac between Washington and Harper's Ferry is pronounced absurd.

It is said there is to be a change in the organization of the army, placing each brigade and division on a more satisfactory footing.

There was a collision, Saturday night, between our pickets and the rebels in the vicinity of Chain Bridge.

It is stated that Beauregard was making preparations to recapture Alexandria on Sunday or Monday, and that he had sent information to this effect to prominent secessionists in Alexandria.

Sherman's battery has gone into Virginia.

A gentleman who conversed with Gen. Anderson a day or two since, at Cresson, Pa., says he is recruited in health, and will soon take command in Kentucky.

A strong column of troops has been sent up the Maryland side of the Potomac, to watch the movements of the rebels and guard against their approach to Washington.

Gen. Dix has reinforcements to the extent of 7000 men.

☞ Our distant readers will be glad to learn that the somewhat severe drouth has been broken by the showers of Saturday night and Sunday morning, and by the more copious shower of Monday afternoon. The Manchester Union says the hay crop in the middle of the State is larger than has lately been expected; it has been harvested in fine order.

NEW YORK, July 29.—Prince Napoleon, who it seems arrived in the French gunboat, Jerome Napoleon, visited Camp Scott, Staten Island, yesterday.

HAIR RESTORATIVE
Is convinced of the fact that
It Will Restore the Natural Color of the Hair,
Where age or sickness has turned it gray, and that it will render it soft and glossy.

"ANYBODY"
Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the Hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.

Messrs. W. E. Hagan & Co.,—I hereby certify that my hair having become gray, and my head partially *bald*, I bought from Henry Reynolds, Druggist, one four bill bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested Falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will refer for any one to Henry Reynolds, Druggist, for the truth of my statements. WM. BOSBYSALL.

MOUNT KINEO HOUSE,

Moosehead Lake, Maine.

Mt. Kineo, "the Monarch of the East," is situated near the centre of Moosehead Lake, and towers upward to the height of 2700 feet above the level of the sea; on the easterly side, and in view from "Pebble Beach," the "Cliff" overhangs the Lake at a perpendicular height of 960 feet. Its summit, which is easy of access, reveals a picture of UNVEILED LOVELINESS BEAUTY.

The MT. KINEO HOUSE, J. R. CROCKER, Superintendent, is located at the base of Mt. Kineo, and within the last two months has been enlarged, refitted, and furnished throughout with entirely new furniture. In the addition, just finished, is a large billiard hall; and on the premises is a bowling alley, together with new and beautiful yall and fishing boats, etc.

The house commands a magnificent view of the Lake, and the adjacent forests and mountains;—while the mountain breezes pass over the waters of the Lake, causing the air to be delightfully cool and bracing, and rendering this place one of the most delightful summer resorts in New England for parties seeking health or pleasure.—Sportsmen will here find the best trout fishing in the country, while the surrounding forests abound with the stately moose and other varieties of game.

"Capt. Joe Barrows," and other popular and experienced guides, are engaged at the Mt. Kineo House, and will at all times be at the service of its guests.

Sail, yawl and flat boats and birch canoes furnished with guides.

☞ Parties wishing to visit the Mt. Kineo House, will take the early morning trains per Boston and Maine or Eastern Railroad, via Portland, daily, for Newport; or on Monday, Wednesday and Friday for Skowhegan and Bangor; or on Tuesday and Friday per steamer M. Sanford, for Bangor.

Coaches from either of the above places pass through a country of picturesque beauty, and connect at Greenville (foot of the Lake) with the elegant steamer "Fairy of the Lake," Capt. Thos. Robinson, which runs daily, Sundays excepted, to the Mt. Kineo House.

Through tickets from Boston to Mt. Kineo House, via Boston and Maine, and Androscoggin and Kennebec Railroads to Newport, thence by stage to Greenville (foot of the Lake,) and thence by steamer "Fairy of the Lake" to the Hotel,—are sold at the Boston and Maine Station in Boston and in Lawrence. FARE THROUGH $7.50. Passengers have the privilege of stopping over at Portland, or any place East.

WAR,—WAR on Rats, Roaches, and on all kinds of Vermin.

Boonsboro', Md., Mch. 21, '61.

Mr. Henry R. Costar—Dear Sir— Having occasion to visit a friend in Virginia, whose premises were so badly infested with Rats, that nothing could be kept out of their reach—he was, after trying various other preparations, persuaded to try your Exterminator.

The first test he gave it was in his barn; and to the astonishment of all—in the morning the floor was almost covered with dead rats. After seeing such a destruction of these horrid creatures, I have ever since recommended your invaluable preparation—and must, undoubtedly, pronounce your exterminator the most effective preparation for the destrubtion of Rats, Mice, Roaches, and such vermin, which has ever been brought before the public. Yours truly, F. H. ALLWIN,

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform any labor, and could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken proved no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with much strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James F. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B Safford, Exeter; J. W. Green, Hampton Falls; and by dealers everywhere.

American Women.

America is justly proud of its beautiful women, but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawsm

NAVY YARD.—The activity at this Navy Yard is unabated. Orders have recently been received to have the Sabine ready for sea in twenty days, and a large number of men are busily engaged, working every hour in the day when work can be done to advantage. Her tanks are now being put on board. The two steam gun boats, Kearsarge and Ossipee, alone employ nearly six hundred men; the frame of the former is entirely up, and last week that of the latter was nearly so. One of the most beautiful curves imaginable is presented to the eye of one standing in the bow of either of these and looking aft. To those who appreciate that "the curve is the line of beauty," it is worth a trip to the Yard, simply to look upon it.

These steamers are being constructed in the most thorough and workmanlike manner. Indeed, the uninitiated may easily be pardoned when they wonder at the large, solid timbers, placed accurately one upon the other, bolted through and through, while strong iron bands pass up and down the sides, crossing each other, and making a complete net-work of the whole, till apparently they are abundantly fitted to withstand any force that is liable to be brought to bear against them.

Yet we know that the incessant jar of machinery, the corroding finger of time, and the stealing influence of the elements, to say nothing of the more immediately destructive missiles which southern traitor may yet use against them,—all unite their energies to destroy the achievements of industry, and to nullify the fruits of the best efforts of skill, however near perfection these may be.

Our mechanics, however, are equal to the task. It is contended, and we believe with justice, that they are unsurpassed in the world. What they have accomplished is well known, and they are now constructing vessels which will, we doubt not, add greatly even to their well-earned name. Such vessels, to be employed for such purposes, are worthy of the men; and the men are worthy of being entrusted by the Government with any work, whether strength, or fitness, or durability, or all combined, are desired. We believe there have been no failures in the vessels which have been sent out from this Navy Yard: we do not fear for those which will follow them.

Yet however skillful the workmen may be, there is little to hope for, if they have not some efficient and faithful director, who shall pre-arrange the details, direct how they shall be carried out, and superintend the operations. Such a director the government now has in Constructor Hanscom, and the government is fortunate in having such a capable person at the head of affairs here. To a stranger, visiting the Yard for the first time, there seems to be an utter chaos; yet, should he go often enough, he will see that somehow, to him inexplicable, order is brought out of chaos; and from what appeared to him little better than an indiscriminate pile of lumber, an admirable vessel is constructed, exactly fitted, as all our vessels are, to answer the purpose desired. The attainment of this result is due primarily to the Constructor, who is unceasing in his labors, and seems to have a peculiar knack in selecting workmen and in deciding just how capable they are; and secondarily to the workmen, who are as faithful, and, in a different way, as capable as he.

But while the greatest activity is manifested in this direction, the Navy Yard itself is not allowed to suffer. Everything is kept in the best manner, and all is "neat as a pin." Recently, the former saluting battery has been removed, and a new one, of twenty-one guns, has taken its place. It is enclosed by a neat fence, to guard against undesired experiments by green horns, who are apt to investigate too closely. The ordnance building is well worth a visit, and the armory, especially, will be found in admirable order. The exterior of the dry dock has been newly painted. A large nine-inch pivot gun was taken from the Yard last week, to the U. S. steamer Cumberland, which has been fitting out at Charlestown, Mass., for the waters of the Potomac.

The Sabine will receive about five hundred men from the receiving ship Ohio, at Charlestown. Notwithstanding the great draft of sailors, which has been necessary to man vessels previously fitted out, the Ohio has now some seven or eight hundred men on board, and new recruits are enlisting every day. Could we organize the volunteer navy advocated, there would be an abundant supply of men.

Notwithstanding the large number of workmen employed on the Yard for the past few months, there have been very few accidents of any kind. But we regret to learn that last week Mr. Thos. Dennett fractured his arm,—a piece of oak, which he was turning, flying from the lathe and striking against it. The bone was promptly and skillfully set by Surgeon Delaney.

☞Col. Wm. Dulany, U. S. M., recently detached from this Navy Yard, has been returned, and has resumed his former position.

Messrs Editors:—Will you allow a friend of the deceased to say that the paragraph in the Chronicle of Saturday, concerning the cause of the death of Charles C. Packer, of Greenland, is entirely incorrect. The deceased on the occasion alluded to was engaged in no scuffle, and the statement that he was so engaged is calculated to convey a very wrong idea of the young man's habits and disposition. The injuries which he received at that time were the result of an unfair advantage, obtained by falsehood. The prominent actor on that occasion must constantly retain a vivid recollection of the sad result of his dishonorable treatment of an honest and truthful friend. x.

[We certainly did not intend to reflect upon anybody, nor to judge the case at all; but only desired to illustrate the uncertainty of life, and the danger of rough plays—And by no fair understanding of our item, need it convey any other meaning. The word "scuffle" may or may not mean quarrel, wrangle or contention; and one of its definitions is "to cheat"—so that, after all, our use of it was not inappropriate.—*Chr.*]

☞A visitor to Hampton Beach states that all the public houses there but one, are open, and contrary to the general impression or expectation, all but one of those open are full, and for that one many applications of visitors are on file, so that those who go will not find a solitude.

In one of the houses, last week, a company of ten Catholic priests were having a good time:—and outside all houses, a little tribe of Indians were encamped.

There was an abundance of blueberries; but with the swarms of pickers, the berries soon had their day.

☞It will be seen, by reference to our advertising columns, that Col. Dulany will enlist a drummer, a fifer, and one hundred marines. The pay is eleven to seventeen dollars per month, and good rations, clothing, &c., are guaranteed.

☞The fine Yacht Spray, of Portland, with a party of six gentlemen from that city, arrived here on Saturday, and remained until Sunday morning. It was their intention to pass Sunday at the Shoals, and to return to Portland, Monday.

Herrick Allen's Gold Medal Saleratus is cleaned of all impurities, and contains the largest amount of all necessary and wholesome properties which can be concentrated in the same weight; is guaranteed to give the most perfect satisfaction, or the money refunded. It will cure dyspeptic persons, and save the health of all who use it. Grocers and Druggists sell it. Depot 112 Liberty Street, New York.

"Healing on its Wings" say all who have made use of *Dr. Wistar's Balsam of Wild Cherry*, and by such use cured themselves of coughs, colds, and consumption. The prudent will always keep this remedy by them.

HENRY R. COSTAR:—All the summer I have been troubled with Roaches and Mice. I was actually ashamed of the house, for the Roaches were everywhere. I purchased a box of your Exterminator and tried it, and in one week there was not a Roach or Mouse in the house.
JOHN B. GIVENS, No. 94 Elm Street.

HOUSEKEEPERS troubled with vermin, need be so no longer, if they use "Costar's" Exterminators. We have used them to our satisfaction, and if a box cost $5, we would have it. We had tried poisons, but they effected nothing; but COSTAR'S article knocks the breath out of Rats, Mice and Bed Bugs, quicker than we can write it. It is in great demand all over the country.—*Medina (O.) Gazette.*

MORE GRAIN and provisions are annually destroyed in Grant County, by vermin, than would pay for tons of this Rat and Insect Killer.—*Lancaster (Wis.) Herald.*

HENRY R. COSTAR:—Your Exterminator is received, used, and pronounced a decided success. We used a box of it, and the way the Rats and Mice "raised Neil" that night, was a caution to sleepers. Since then, not a Rat or Mouse has been heard in kitchen or cellar.—*Magregor (Iowa) Times.*

I HAVE BEEN SELLING your Exterminator for the last year, and have found it a sure shot every time. I have not known it to fail in a single instance.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE.
Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

An Ordinance, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and Deputy Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof, dollars for each offence.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

JOHN T. HARVEY,
OREN BRAGDON, City Marshal.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many *thousands who have tried it well testify.*

The great superiority of this Dye consists *in its easy application*, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single bottle, by BRACKETT HUTCHINGS, 4 Market street. apr24

Are you sick, feeble, and languishing? Are your nerves unstrung, and your feelings unsettled? Do your spirits sometimes offer the prelude to serious illness? Some BLOOD sickness is swelling upon you, and should be attended to by a timely use of the right remedy. Ayer's Pills are diseases not the described here—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make the disorders they cure.

disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, exposed to the first epidemic, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous diseases. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly; and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cutbertight, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR SIR, AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on an efficient cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more efficacious for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses to bilious dysentery and diarrhea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in sickness. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am asking your Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.*

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the profession. I confess that complaint, which, although bad enough in itself, is the propentor of others that are worse. I believe on firmness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mr. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural action when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my kidneys, which ended in exercising rheumatic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Feb. 1856.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years.

☞ Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the *decided* control it exdoes that frequently follow its incautious use. These pills contain no mercury or mineral substance whatever.

PRICE, 25 cents per Box, or 5 Boxes for $1.

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
3. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time *will* mend any piece of Furniture, or anything made of wood.
5 Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, of thousands can testify.

TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well". D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

WEDNESDAY, JULY 31, 1861.

EXTRACT FROM A SERMON

Delivered in the Universalist Church by REV. MR. PATTERSON, *on resuming his labors with his people, Sunday morning, July 7th, 1861.*

A painful thought now presses upon me, —one against which, if it were possible, I would close my eyes and seal my lips, and bar and bolt the door of memory. But it is a stern reality—one which we must see, and feel, and contemplate, and which we must meet in the calm, dispassionate spirit of men and Christians,—I mean the distracted condition of our country.

It is a painful fact, that we are in the midst of intestine war. I need not discuss the causes which have led to this unhappy state of things. We have to deal with facts, not abstractions, now. And the fact is, that some of our brethren in this great family of States, have lifted up their hand against the common household, have contemplated and attempted the destruction of the Government established by the Fathers. There can be, it seems to me, but one opinion concerning the duty of loyal citizens—and that is, to defend the rights and preserve the honor and integrity of the Government.

But the question arises, In what spirit shall we meet the powers which are arrayed against us? It is with this question that the Christian pulpit has especially to do.—Shall we carry the spirit of our religion with us, to guide us through this dark and trying experience? or shall we repudiate religion now, when it is needed most, and follow the promptings of our evil passions, rather than the teachings of Christ, our great "Captain and Leader?"

I answer, We must recognize the principles of Christianity now, as really as when engaged in the peaceful pursuits of life.—We must not hate, or persecute, or trample on our erring brethren. We must regard their rights and interests as sacred as our own. We must restrain them from violence, and enforce the laws of government, for our good and for *their* good; and employ the force of arms only so far as the common good demands. It may seem like a contradiction in terms to speak of prosecuting a war in the Christian spirit, the Christian spirit being that of peace. The war-making spirit is indeed opposed to Christianity, and if all men were faithful Christians there would be no war. But may we not repel an invasion, or resist an attack upon our rights and liberties, and yet cultivate and exercise the spirit of forbearance and peace! May not the inhabitants of this city suppress a riot, enforce the laws, and preserve good order, without compromising their Christianity? And may not a Government, influenced by the best of motives, and desiring only the highest good of the people,—*the whole people*,—quell an insurrection, suppress a rebellion? This should be the only purpose of our Government in this struggle. Our armies should be regarded as a powerful *police force*, to protect the right, and enforce the laws, and restore order, harmony, peace and fraternity to our beloved country. Ours is, or should be, a war for Union, equality and harmony; not for conquest or supremacy. We should aim not only to restrain, but to reconcile and return to willing allegiance, our brethren who have lifted up their hand against us. Retaliation and cruelty can never consummate this object. If accomplished at all, it must be by waging, in the best sense, a Christian warfare—by manifesting, in connection with an unyielding adherence to the right, a spirit of kindness, mercy, forbearance and forgiveness. If we smite at all, it must be as God chastens his children; we must "smite only to bless, and wound to heal."

And we should be careful, my brethren, that our interest in our nation does not nullify our interest in religion. Religious liberty is the basis of all civil liberty. Our Government can never occupy an altitude above the moral and spiritual attainments of the people. If we degenerate in goodness, she must fall, and all the powers of fleets and armies cannot save her. If we would perpetuate her name and glory, we must cling close to that gospel and that Saviour, and cultivate that spirit, which were instrumental in moulding for us our nation and our liberties. No conflict of opinion in regard to national policy should be permitted to creep in and disturb the power of Zion. Here we should be "of one mind and one spirit, striving together for the faith of the gospel." We have never needed its sustaining and comforting influence more than now. Some of us have given the dearest treasures of our hearts,—husbands, fathers, brothers, sons,—a living sacrifice upon the altar of their country. They may never return to us again. Their lifeless forms may be returned, to receive our parting kiss and tear, and sleep among kindred graves; or they may be borne, bruised and bleeding, to die at our feet, or to drag out a wearisome life of misery. To what source, under such trying circumstances, can we turn for consolation, but to the gospel which teaches that an all-wise and loving Father rules amid the conflicts and darkness of time, and whether we live in peace at home, or die upon the field of carnage, we are his, and he will kindly guard, bless and keep our souls. I confess that I see no light at all but in the truth of an Infinite Providence. I confess that I see no hope for my country, but in the fact that God reigns. I have examined this problem, it seems to me, in every possible light, and it is all dark, dark. Only infinite wisdom can foresee the end. Only infinite power can restore us to our former peace and prosperity. If unaided human wisdom undertake to harmonize this strife, it will certainly fail. And when a night is about us, through which God alone can lead us, shall we refuse his help—shall we neglect his favors—shall we abuse his mercies? This is a time when our churches, instead of being sparsely filled, should be crowded with humble penitents, confessing their dependence, deploring their sins, and imploring guidance and protection from on high. I see poor prospects for my country, in the fact that so many of my countrymen have grown lax in their religion—have forgotten God. Reverent, praying souls procured for us our liberties. And when we return to the "old paths," and become a nation of devout, Godly men, loving right better than place, and truth better than power, we shall be a peaceful, happy, prosperous and united people—and not till then. If Americans will become Christians, cultivating the spirit and imitating the life of our great Exemplar, dealing justly, loving mercy, and walking humbly with their God, then our nation will arise, "fair as the moon, clear as the sun, and terrible as an army with banners;" and continue to be a guiding star among the nations, the light and hope of the world. But so sure as God lives, and holds the rein of a righteous government among men and nations—if we forget him, and trample upon his just requirements, and attempt to bolster up our Government by fraud, falsehood, intrigue, injustice and iniquity, we *shall become, and we ought to become*, a hissing and reproach among the nations of the earth, and at last be blotted from the map of empire.

By personal improvement, and purity of life, you and I can do much for the honor and perpetuity of our country. God help us to realize and discharge our solemn obligations. God help us to be loyal citizens, and faithful, devout sons, so that our community, our country, the church and the world may be blessed by our existence, and an influence may go out from us, and live a redeeming power, when we are passed from sight.

IMPORTANT FROM HAYTI.—By Port au Prince papers to July 26, it appears that, on the 6th, a Spanish fleet of six steamers anchored off there, occasioning great excitement and a suspension of business.—The Spanish Consul landed with dispatches demanding an indemnity of $200,000 and a salute of 21 guns, which were rejected by the President.

On the 9th the foreign residents were notified by the Spanish Admiral to leave within 48 hours, but a compromise was effected through the exertions of the British Consul. The indemnity is to be settled by Commissioners, and salutes were fired on the 10th. At the latest date only one frigate was in port, and the Spanish Consul had taken up his residence there.

This looks as if the difficulties there were settled, as the consul could have no place there if fighting was to be the order of the day.

☞ In the trot at New York, the other day, between Flora Temple (to sulky) and Ethan Allen and running mate Socks, (to wagon,) the double team won the first heat in 2 21 1-2; and on the second, Flora came in in 2 20 1-2! and the trotter and the runner both became runners, and ran away with the team, and kept on for a two-mile heat—so the little bay mare won the heat and the race and the money; and the runaways were declared "distanced," as they should have been, for running such a distance.

ALBANY, N. Y., July 29.—Under the new levy any regiment already organized for three years, or for the war, will be accepted. The Governor has ordered 10,000 new uniforms and the General Government assumes the entire expense and furnishes the Governor with funds for accruing outlays. This renders an extra session of the Legislature unnecessary, and throws overboard the State Military Board.

WASHINGTON, July 29.—Reports were circulated to-day that the rebels had either commenced moving, or made preparations to move, 40,000 troops across the Potomac, from the direction of Leesburg, into Maryland. Our correspondent has no means of verifying the statement.

THE SECOND.—Major Gustav Von Gerber writes from Washington, that the 2nd N. H. Regiment, when they returned to Camp Sullivan, looked as though they had had some pretty hard fighting; but must have fought well, because they brought back their flags. One of these flags had been torn to rags by the flying bullets. The other flag "was as full of holes as ever I saw a flag come out of a battle." As Major Gerber was through the whole Crimean war, his statements in regard to our troops will be read with no little pride.

Two of the Second were leaving the field, through the woods, when they were suddenly confronted by five rebels, who ordered them to "*halt!* or we fire." The Granite boys saw their dilemma, but the foremost of them presented his musket and answered, "halt *you*, or *we* fire!" and, at the word, both he and the rebel, discharged their pieces. The rebel fell, his assailant was unharmed. Seizing his companion's musket, he brought it to his shoulder, and said to the other, "fire!" Both fired their guns at once, and two more rebels fell. The others fled. The leader's name was Hanford—from Dover.

Martin A. Haynes, commissary clerk, made himself useful during the battle. At one time, resting his musket across a fence to sight at a rebel officer, a cannon ball struck one of the rails, which swung around and gave him a severe blow on the head, knocking him down. Those near by thought him killed, but young Haynes was soon up and again at the work.

The Washington National Republican pays the following high compliment to our Regiment:—

"During the late engagement, the second N. H. regiment behaved with the utmost gallantry. Arriving on the field the second regiment, they were instantly called upon to support the right of the Rhode Island battery, and with the coolness of veterans, although swept by the fire of the rebels, formed line of battle, and remained without breaking, in this trying position for more than an hour; when ordered to charge, they rushed on with great impetuosity, driving the enemy from their position to the woods, and sweeping everything before them. At one time, when a retreat was sounded, Companies I (Manchester,) and B (Concord Rifles,) remained in their position half an hour after every other company had retreated, and poured in a destructive fire upon the rebels, who were advancing to outflank them, only retiring when capture or annihilation became almost inevitable. Instances of personal bravery were not rare, and the conduct of Lieut. Hubbard, private S. Whitfield, and others, fully proved the descendants of '76 are not degenerate, and that it only requires the times to make the men. Throughout the entire engagement, the gallant second fought on without respite; and when at last the final order was given to retreat, forming under the Marshalship of Major Stevens, and in face of the enemy, they retired in good order, after having for nine hours borne the brunt of battle, and shown to the world that in the cause of right, the sons of New Hampshire were firm and true as their own granite hills."

WASHINGTON, July 29.—Capt. Allen, of the 11th Mass., E. P. Doherty, of the 71st N. Y., and Orlando Waldrop, of the 2d Wis., arrived from Centreville. They were prisoners in Sudley Church, and escaped Friday night while the guard was asleep. They worked their way here by devious paths, reaching the Potomac fourteen miles above Washington.

Two hundred and fifty of our wounded are at Sudley Church. No hospitals have been burnt, and our sufferers are well cared for. Six hundred of our men are prisoners and well treated, but the rebels refused to bury the body of a single Zouave. Any man with a red shirt or pantaloons fares badly at the hands of the enemy.

Several soldiers had died of wounds, among them Lord, of New Hampshire.

The men wounded are doing well at Sudley Church: viz. W. F. Oxford, Shaw, Walkor, Calligan, Gracey, and two brothers named Crosby.

The enemy claim to have forty-two federal officers and twelve medical men among their prisoners. The latter are employed in attending the wounded.

The Post Office Department has issued a notice that Postmasters can forward all prepaid letters to soldiers to any other point to which they may have been ordered other than the one directed to without additional charge.

BALTIMORE, July 29.—At last accounts Johnston was at Manassas. Gen. Lee is assigned the command of the upper Potomac in place of Wise, and is to unite his force with Garnett's for a movement against Rosencrantz.

The steamer Joseph Whitney, which left this afternoon, called at Fort McHenry, taking thence all the State prisoners confined there, against whom indictments had not been found, for the purpose of conveying them to Fort Hamilton, New York.—Their names are John W. Davis, W. H. Gatchell, and Chas. Howard, Police Commissioners; R. H. Alvey, J. H. Kusick, C. M. Hoghelin, S. H. Lyon and J. E. Murphy, all charged with treasonable acts.—A guard of two companies from Col. Pratt's 20th New York regiment accompanied the steamer.

NEW YORK, July 29.—Brig Falcon, a slaver, from Congo River, arrived to-night in charge of Lieut. Young. Capt. Kimball and five of the crew were on board as prisoners. The vessel was captured June 14th, by steamer Sumter.

Bark Casco spoke gunboat Albatross, off Cape Hatteras 22d, which reported saw a steamer with a schooner in tow on the 21st, which ran into a shallow inlet of North Carolina to get out of reach of the Albatross's shells.

THE SUMTER'S PRIZES IN CUBA.—(Correspondence of the Boston Merchants' Exchange.)—A letter from Capt. White, of the barque Louisa Kilham, dated Cienfuegos, July 18, says:—The barque Louisa Kilham will sail to-morrow under convoy of the U. S. steamer Crusader, who will keep company until after passing Cape Antonio.

All the vessels captured by the Sumter, taken into Cienfuegos, were liberated by order of the Captain General, and would sail the next day under the same convoy.—The U. S. frigate Niagara touched a few days and has gone in pursuit of the Sumter—which vessel will no doubt try to intercept one of the California steamers.

Capt. White states that the commander of the Sumter, took all his papers including register, roll and articles, and he was obliged to sail with a sea letter from the U. S. Consul. The report of the barque Louisa Kilham being spoken is an error.—It was no doubt the barque Louisa Eaton, from Manzanilla for Falmouth, Eng.

This letter of Capt. White shows that the Spanish Government of Cuba does not acknowledge the Sumter to be a *national* ship, as she pretends to be,—nor do they allow her prizes to be brought into their ports.

ALEXANDRIA, July 29.—On Saturday night Roche's Mill, four miles out on the Loudon Railroad, was burnt, and ten members of the N. Y. 29th regiment are under arrest as the incendiaries.

One of the 29th N. Y. regiment was shot yesterday while robbing a potato patch, in violation of orders. The tampering with soldiers by rebel residents here has become so bold that Gen. Runyon has issued orders to-day for the arrest of all parties suspected.

INDEPENDENCE, Mo, July 29.—Steamer Cloud, with a party of Federal troops for some point up the river, was fired into at Blue Mills landing on Monday last, and some of the troops killed and wounded. It is reported that the troops destroyed all the ferry boats on their way up the river, and committed depredations in the towns, which so incensed the people that they congregated in one or two places for revenge.

☞ Half a million per day is now produced at the Philadelphia Mint. The operatives are working over time to produce the sinews of war in sufficient quantity.—The coinage is principally double eagles.—Large quantities of money are also being coined for private account.

☞ The Lawrence Daily Journal says that "one-half the Dogs in Lawrence are owned by families who call upon the City for help every winter."

MOUNT KINEO HOUSE,

Moosehead Lake, Maine.

Mt. Kineo, "the Monarch of the East," is situated near the centre of Moosehead Lake, and towers upward to the height of 2700 feet above the level of the sea; on the easterly side, and in view from "Pebble Beach," the "Cliff" overhangs the Lake at a perpendicular height of 960 feet. Its summit, which is easy of access, reveals a picture of UNEQUALLED FOREST BEAUTY.

The MT. KINEO HOUSE, J. R. CROCKER, Superintendent, is located at the base of Mt. Kineo, and has within the last two months been enlarged, improved, and furnished throughout with entirely new furniture. In the addition, just finished, is a large billiard hall; and on the premises is a bowling alley, together with new and beautiful sail and fishing boats, etc.

The house commands a magnificent view of the Lake, and the adjacent forests and mountains;—while the mountain breezes pass over the waters of the Lake, causing the air to be delightfully cool and bracing, and renders this place one of the most delightful summer resorts in New England for parties seeking health or pleasure.—Sportsmen will here find the best trout fishing in the country, while the surrounding forests abound with the stately moose and other varieties of game.

"Capt. Joe Barrows," and other popular and experienced guides, are engaged at the Mt. Kineo House, and will at all times be at the service of its guests.

Sail, yawl and flat boats and birch canoes furnished with guides.

☞ Parties wishing to visit the Mt. Kineo House, will take the early morning trains per Boston and Maine or Eastern Railroad, via Portland, daily, for Newport; or on Monday, Wednesday and Friday for Skowhegan and Bangor; or on Tuesday and Friday per steamer M. Sanford, for Bangor.

Coaches from either of the above places pass through a country of picturesque beauty, and connect at Greenville (foot of the Lake) with the elegant steamer "Fairy of the Lake," Capt. Thos. Robinson, which runs daily, Sundays excepted, for the Mt. Kineo House.

Through tickets from Boston to Mt. Kineo House, via Boston and Maine, and Androscoggin and Kennebec Railroads to Newport, thence by stage to Greenville (foot of the Lake,) and thence by steamer "Fairy of the Lake" to the House,—are sold at the Boston and Maine Station in Boston and in Lawrence. FARE THROUGH $7.50. Passengers have the privilege of stopping over at Portland, or any place East.

☞ Return tickets can be obtained of Capt. Robinson, on board steamer "Fairy of the Lake." jy30 3awiw

WAR.—WAR on Rats, Roaches, and on all kinds of Vermin.

Boonsboro', Md., Mch. 21, '61.

Mr. Henry E. Costar—Dear Sir—Having occasion to visit a friend in Virginia, whose premises were so badly infested with Rats, that nothing could be kept out of their reach—he was, after trying various other preparations, persuaded to try your Exterminator.

The first test he gave it was in his barn; and to the astonishment of all—in the morning the floor was almost covered with dead rats. After such a destruction of these horrid creatures, I have ever since recommended your invaluable preparation—and must, undoubtedly, pronounce your exterminator the most effective preparation for the destruction of Rats, Mice, Roaches, and such vermin, which has ever been brought before the public. Yours truly, F. H. IRWIN,

(Editor of the Odd Fellow.)

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Gray* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; all the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James P. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B. Safford, Exeter; J. W. Green, Hampton Falls; and by dealers everywhere.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawów

The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. Local.

☞ This morning's issue of the Daily Chronicle, completes the ninth year of its publication; and to-morrow we shall commence on our tenth year—on which (to us) interesting occasion, we may perhaps have somewhat to say concerning our past success and future prospects. Suffice it now for us to return our sincere thanks to all who have contributed in any way to establish and encourage our enterprise.

☞ "Short settlements make long accounts," is a good motto—and the close of our volume and year, is a good time for settling all bills with us, pro and con.

☞ At a meeting of the South Parish in this city, (Unitarian) on Monday evening last, it was unanimously decided to extend to Rev. Henry W. Foote, of Salem, Mass., an invitation to become their pastor. The salary is $1600. Mr. Foote, we believe, is not at present settled anywhere, but has a short engagement to supply a pulpit in Cincinnati—where, also, he has received a call. It will be recollected that the Stone Church here has been without a pastor for about a year, since the departure of Rev. Dr. Peabody; and this call to Rev. Mr. Foote is, we think, the first extended by them. He is quite a young man, and has but recently completed his studies.

☞ It is stated that a receiving ship will probably soon get a permanent commission at this Navy Yard, in place of the Pennsylvania at Norfolk. Recruiting ships for the tuition of sailors are now stationed at New York, Boston and Philadelphia.

Recruiting for the navy is brisk, but does not keep pace with current requirement.—In ordinary times New York enlists 50 blue-jackets a week, which was considered good, as it answered all purposes; but although since Monday last week 163 men have been obtained there, they want twice as many.—Notwithstanding the many inconveniences of having in the service a disproportionate number of landsmen, offices in country villages and towns, may soon be opened for the enlistment of such men, leaving to luck the risk of making some of them sailors, and ordinary sailors.

☞ In reply to "Stinkerlinktum's" inquiries, a few days ago, another correspondent gives the names of that Jury which declared the Slaughter Houses no nuisance last year. Here they are:

Aaron Lang, Portsmouth;
J. B. Dalton, Rye;
David Gerrish, Deerfield;
John B. Taylor, Derry;
Geo. D. Brown, North Hampton;
Samuel Whittier, Newton;
Jonathan Sargent, Candia;
Jonathan B. Gardner, Salem;
George Shute, Derry;
John W Towle, New Market;
Thomas Pickering, Newington;
Parsons Doe, New Market.

Our informant also says that it was reported at the time of the trial, that one of these tough-nosed jurymen actually had his stomach turned by his official examination of the premises.

☞ The 10-inch Dahlgreen gun sent out from this Navy Yard to the Cumberland, at Charlestown, weighs 11,937 pounds.

☞ A noble-looking, much-petted, and highly-prized water-dog, belonging to a family in this city, bit the little daughter of the owner so severely, a few days since, that the gentleman had the brute killed at once.

☞ It will be seen by the telegraphic report, that William F. Oxford, of Company K, Second Regiment, who has been reported as missing since the battle at Bull's Run, is a prisoner in the hands of the rebels. He was wounded, but it is a relief to his friends to know that he is alive, and to be assured that he is kindly treated.

☞ We are indebted to Mr. Clarke M. Coleman, of Newington, for a baker's dozen of well-filled ears of green corn—received July 30th.

CONGRESS: Monday July 29.—In the U. S. *Senate* $1,000,000 was appropriated for the the purchase of ordnance and ordnance stores. An amendment to the Tariff was made, laying a tax of 5 per cent. upon incomes of $1000 and over, except those from government securities, upon which the tax is 2 1-2 per cent. The House bill *making* appropriation for the purchase of arms, was passed.

In the *House*, $10,000,000 for arming troops, volunteer and regular, was passed. The Direct Tax bill was reported back, reducing the amount to 20 millions, and imposing taxes upon articles of luxury. Mr. Cox of Ohio asked leave to introduce a resolution, that a committee be appointed, consisting of one member from each State, to propose amendments to the Constitution, upon the basis of which the Union could be reconstructed, but objections were made.

NEW YORK, July 29.—A special dispatch from Washington says Capt. Tompkins, of the United States Cavalry, captured twenty-nine rebels back of Camp Corcoran to-day.

☞ The Forts in Boston Harbor are to be immediately put in a state of defence, several U. S. officers having arrived in Boston to make arrangements to that effect.

WASHINGTON, July 30.—Walter Norris, son of the late ex-Senator Norris of New Hampshire, was killed at Bull's Run. He was a member of the Beauregard Rifles, and for many years a clerk in the Post Office Department.

The rebels were detected last night making soundings above the Chain Bridge. The Potomac is very low.

A squad of cavalry captured two rebels last night near Chain bridge. This is the origin of the reported capture of twenty-nine.

It is believed that the direct tax bill will fail in the Senate. That body is not likely to go further than an income tax.

Gen. Banks' whole force is only 10,000 or 12,000 men. A column of 5000 men, under Col. Stone, have left him, probably to guard the Potomac near Leesburg.

It is understood that Gen. McClellan is to be entrusted with almost plenary powers, substantially those of Commander-in-Chief within his division.

The Assistant Secretary of State has gone to invite the Prince and Princess Napoleon to make the White House there home while here.

Col. Corcoran lingered two or three days only.

Advices received to-day state that the rebels are not contemplating an advance on Washington, but are moving towards Harper's Ferry.

Some of the Federal soldiers have marbles that they picked up on the field of battle, evidently used as balls by the enemy. Several packages of cartridges thrown away by the rebels on their retreat were found; they were composed of powder and marbles. Some of their shells were also made of clay.

It is believed that both Generals Wool and Harney will be promptly placed in command of columns in the Grand Army now assembling here.

Gen. Johnston with his army, when last heard from, was on his way to Winchester.

The Fire Zouaves' insubordination reached a climax of open revolt Saturday evening. Col. McCunn, by energetic action, suppressed the rebellion and disarmed the regiment.

☞ The latest despatches, Tuesday night say, the rebels did *not* give the troops at Newport News notice to quit.

A party of rebels were observed Monday night sounding the Potomac, above Great Falls.

Beauregard has sent parties of troops into Loudon County, Va., for provisions and wagons.

Gen. Robert Anderson paid his respects to the Secretary of War, on Tuesday.

False alarms had occurred among the troops near Alexandria.

Gen. McClellan was on the Virginia side, actively engaged in the reorganization of the army.

HENRY R. COSTAR:—All the summer I have been troubled with Roaches and Mice. I was actually ashamed of the house, for the Roaches were everywhere. I purchased a box of your Exterminator and tried it, and in one week there was not a Roach or Mouse in the house.

JOHN B. GIVENS, No. 94 Elm Street.

HOUSEKEEPERS troubled with vermin, need be so no longer, if they use "Costar's" Exterminators. We have used them to our satisfaction, and if a box cost $5, we would have it. We had tried poisons, but they effected nothing; but Costar's article knocks the breath out of Rats, Mice and Bed Bugs, quicker than we can write it. It is in great demand all over the country.—*Medina (O.) Gazette.*

MORE GRAIN and provisions are annually destroyed in Grant County, by vermin, than would pay for tons of this Rat and Insect Killer.—*Lancaster (Wis.) Herald.*

HENRY R. COSTAR:—Your Exterminator is received, used, and pronounced a decided success. We used a box of it, and the way the Rats and Mice "raised Ned" that night, was a caution to sleepers. Since then, not a Rat or Mouse has been heard in kitchen or cellar.—*Magregor (Iowa) Times.*

I HAVE BEEN SELLING your Exterminator for the last year, and have found it a sure shot every time. I have not known it to fail in a single instance.

GEO. ROSE, Druggist, Cardington, O.

WE ARE SELLING your preparations rapidly. Wherever they are used, Rats, Mice, Roaches, and Vermin disappear instantly.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring it, gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

AVER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system disrupted, and your feelings uncomfortable? These symptoms are often the prelude to serious illness, some dire sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, must upset themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, opposed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Carhwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

BEAR BRO. AYER: I cannot answer you what complaint I have cured with your Pills better than to say all that *we ever treat with a purgative medicine.* I place great dependence on an efficient cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once. Yours with great respect, ED. W. BEEBLE, *Clerk of Steamer Clarion*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their peculiar influence upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can prescribe. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1857.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Wherever they have found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., Physician of *the Marine Hospital*

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I sold them in esteem as one of the best aperients I have ever found. Their admirable virtues in cases of dysentery make them an excellent remedy, when given in small doses, in *bilious dysentery and diarrhoea.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston

DR. AYER: I have used your Pills with extraordinary success in my family and among those of my charge who are in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent cathartic to clean the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada

The stomach cannot be said of your Pills for the cure of costiveness. Hundreds of our most respectable citizens, from as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the prepositor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and most other obstructions.

From Mrs. E. Hurst, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend them to other to my patients.

From the Rev. Dr. Hunter, of the Methodist Episc. Church

FUNGUS HOUSE, Savannah, Ga., Jan. 6, 1856.

RICHARD ADAMS: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating rheumatic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

STEAM CRACKER, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SELIMAN.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These Contain no mercury or mineral substance whatever.

PRICE, 25 cents per Box, or 5 Boxes for $1.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My age, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1855, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever tried.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, AUGUST 1, 1861.

OUR LESSON OF THE HOUR.

Not political—not national—not social;—but, rather, newspaporial, and perhaps general. We this morning commence the tenth year of the publication of the Daily Chronicle; and to those readers (and they are not few) who entertain a regard for the paper other than merely for what it is worth—as a home enterprise, and to them at first doubtful experiment, a few words as to our progress will not be uninteresting.—And for this, which we may perhaps as well call our annual address or self-congratulating soliloquy,—we shall draw a basis from a recent article by our friend Beard, of the Nashua Telegraph, on completing the 25th year of his connection with his paper. He remarks:

The occasion is one which cannot but give us pause, and may excuse us for turning aside from the current of great events which are so pressing upon the world, to indulge in some reflections which it cannot fail to awaken. It is a weakness of ours, some may think, to indulge in these things.

[N. B. It is the Telegraph man who says this—not we of the Chronicle.]

Twenty-five years is no inconsiderable portion of a man's life, and in these days of change it is a long time to remain in one position, and that so generally unstable [who said stable? Where's the editor of the Ballot?—*Pub. Chron.*] as the editor of a newspaper. With only the exception of our friends of the Portsmouth Journal and Dover Enquirer, we are of the longest uninterrupted standing of any editor in the State.

True, no doubt—though the Dover Enquirer recently styled "the senior editor of the Chronicle, the father of the New Hampshire press,—he having been connected with the profession longer than any other writer now in harness"—and even he has not seen three score yet.

And these twenty-five years — what changes they have made. * * * It was the day of small things in Nashua twenty-five years ago. The Telegraph was struggling for a bare existence, with only its few hundred subscribers, under an accumulation of misfortunes added to the inevitable difficulties of establishing a newspaper. * * Our twin brother, who had established the Telegraph a few years before, broke down under the labor and perplexity of the enterprise, and we came to his help. After a few years more of manly struggle he died, and the responsibility and the labor fell upon us.

And we have felt it to be no trifling matter, the responsibility of talking to thousands of human beings week by week. It could not be without effect upon the thousands of minds who have passed under its influence—whether for good or evil, the future may disclose. But the consciousness of this responsibility has been an ever present mentor with us, and though we may have often erred, we have aimed to merit the respect and the confidence of the community and to preserve our own.

They have been twenty-five years of hard labor. Few men have worked as many hours in twenty-five years as we—and it may be added, few have less to show for it.

Here we must hold a bit, even while we are adopting twice as much of Br. Beard's preachment as we intended, because we can so heartily say amen to it. But we do and will object to his pleading poverty, as he always has done, and as is so fashionable among editors, though perhaps no more than among people generally, only more publicly. What though he may not have much cash, or show a strong hand at the bank or stock exchange—yet he has enjoyed more of the world than most men can,—and shall he eat his cake and then cry for it? Let him board his money who chooses, but there are others who prefer to enjoy it as they go along. And to our certain knowledge, our friend has one of the most interesting and lovely homes and families in the land—and is this nothing "to show for it?" Don't, brother printers, don't cry poverty—but if your business don't pay, quit it and go to farming. And here we are reminded of a gentleman now dead, who told us once that his liberal contributions for charities and reforms he charged to his "home account," which never shew any credit side—but we asked him what he called home, and family, with all their blessings, which he enjoyed as much as any man we ever knew.

As to the "work," we'll endorse him on that. When we asked the then editor of the Newburyport Herald, (now of the Boston Traveller,) who first suggested to us the establishment of a Daily paper here—why it had not been done before, he replied:—"Because those competent to do it there, are not willing to work hard enough." We thought we were, and think the result has proved us both correct in our opinions.

But it has had its pleasures as well as its toils. It was the avocation of our choice at the very start in life, and we have devoted all the energy and all the talent we have, to success in it.

We are sorry here, that he should feel obliged to say that he has failed of "success"—for he has merited it, and we think has achieved more of it than he is aware of. For our part, the subject grows upon us, and we must close by saying that we are gratified to say and feel that we have "succeeded" as well as we expected or could reasonably ask—and that we think the prospects of Portsmouth, and so of the Chronicle, are bright for the future—particularly in view of our Navy Yard being declared "first-class," and the opening of the Railroad to Manchester.

"And so kind friends, we close our preaching here. With a grateful heart for the thousands of favors and honors at your hands, we enter upon another term. Who of us shall see its close?" PUB.

CONGRESS.—TUESDAY, July 30.

In the Senate the tariff bill was passed, 22 to 18. The bill to suppress insurrection was, after considerable discussion, postponed until Wednesday.

In the House a bill was reported, adding to the present number of Cadets at West Point, a number equal to that of the Senators and representatives; to be appointed in the usual way, and to take an oath to support the Constitution, paramount to any other allegiance. Mr. Vallandigham, of course objected; but after a short but sharp debate, he was overruled and the bill passed. A bill adding 184 pupils to the Naval Academy also passed. A bill appropriating $1,200,000 for the construction of twelve side-wheel war steamers of light draught, was passed. A bill to define and punish unlawful communication with the enemy, was referred to the proper committee. The Committee appointed to ascertain the number of disloyal men, retained in office, asked and received permission to continue their investigations through the recess of Congress. It was voted that, if the Senate agree, Congress adjourn on Friday.

WASHINGTON, July 23.—A careful examination of the chances of an attack upon Washington on the Maryland side has greatly diminished the apprehension on that account.

The President declines to furnish the House the reasons for the arrest and imprisonment of the Police Commissioners of Baltimore, as it would be incompatible with the public interests.

There is evidence before the Potter investigating Committee that there are employees in the Washington Navy Yard who are engaged in aiding the rebels.

Gen. McClellan has issued an order forbidding the departing soldiers taking arms with them.

Sixty rebel prisoners are now confined at the old capitol building.

The regiment of teachers and students, tendered by President Hovey of the Illinois Normal University, has been accepted.

R. H. Gray of Company I, of the 4th Maine, escaped from Manassas and has arrived here. He saw Lieut. Dempsey of the 2d N. H., and Henry Pollard of Bangor in the Hospital at Manassas.

The assistant Secretary of State has gone to invite the Prince and Princess Napoleon to make the White House their home while here.

The bill which has passed both Houses, prohibiting the sale of intoxicating liquor to the soldiers, is in accordance with the reforms instituted by Gen. McClellan, and is highly commended. He has issued orders restricting the absence of both officers and men from camp, and appoints Col. Porter Provost Marshal of this city.

In accordance with the President's request, several Congressional delegations have furnished him with lists of suitable persons in their States to be appointed to high military grades. The President merely asks this to assist him in making selections.

Six government clerks resigned to-day, owing to the passage of the ordinance by the rebel Virginia Legislature, that any Virginian holding office under Government after to-morrow shall be banished from that State. It also provides that any person undertaking to represent Virginia in Congress shall be guilty of treason, and his property confiscated to the use of the State.

BALTIMORE, July 30.—The following though not from the reporter of the Associated Press, is thought reliable:—

Harper's Ferry, July 30.—The whole army save three companies of the Massachusetts 2d, are lying on the other side of the Potomac. Gen. Banks' headquarters are at a farm house, two miles below the Ferry. His disposition of the troops and management of the army so far has given great satisfaction to the officers and men.

None of the enemy but guerilla scouts are seen anywhere in this region.

Reinforcements by Hagerstown and Baltimore come in so rapidly, that the three months men who have gone to their homes are scarcely missed.

BALTIMORE, July 30.—A Lieutenant of the Naval Brigade accompanied the flag of truce from Hampton to Newport News. He reports a large body of rebels near Newmarket bridge.

The rebels were very inquisitive as to our batteries near Hampton, the rifled cannon in the Fortress, and the regiment of mounted Riflemen expected at Old Point, of which they seemed apprehensive.

On the arrival of the steamer at Baltimore with Col. Duryee's Zouaves, on Saturday last, several "contraband" negroes, who smuggled themselves on board, were pointed out to the police by the Colonel and placed in custody.

LOUISVILLE, July 30.—The Goverment gunboats have crossed to New Albany, where they will be equipped.

NEW HAMPSHIRE ITEMS.

A man by the name of Griffin from Concord, murdered Wm. H. H. Niles with a large knife, at Haverhill, on Saturday last. This is the sixth murder committed in Grafton county within the past year and a half. Griffin was trespassing upon the lands of young Niles' father. Mr. Niles had requested him to leave. He refused to go. Young Niles also requested Griffin to leave. The latter again refused, used insulting language and dared Niles to touch him or a pail of berries which he had picked on Mr. Niles' land. Young Niles kicked the pail, and Griffin immediately stabbed him with the dirk. Niles died at two o'clock on Sunday. Griffin was arrested.

Rev. A. W. Burnham, D. D., of Rindge, preached last Sabbath his fortieth anniversary sermon. Dr. Burnham was settled in 1821 as the immediate successor of Rev. Dr. Payson, and still continues his pastoral duties over one of the largest and most flourishing churches in Southern New Hampshire. Sixteen persons were present last Sabbath who were also present forty years ago, when the first sermon was preached.

The three months' service of the First Regiment expires on Friday, and the men will undoubtedly be at home next week. They have had but little hardship and hardly any peril, and it is thought that many of them, probably a majority of them, will reenlist.

A young lady in Manchester, was bitten by a dog a few days ago on the neck. The dog had before bitten another young lady in the hand, but it was supposed that it was in play or by accident. But the repetition of the act subjected him to the penalty of death.

☞China dates are to June 12th. Political affairs were satisfactory, though not much progress was being made. There was no immediate prospect of the Emperor's return, but his brother, who was in charge of the government, maintained the most friendly relations with the British and French legations at Pekin. The movement of the Northern rebels still continued enveloped in mystery. It is stated that they were being driven south, and that Tiensin was relieved from their presence. The United States squadron had returned from the expedition up the Yangtze, having succeeded in adopting the course previously followed by the British.

Trade at Canton was utterly prostrated. A rumor prevailed at Canton that there are 10,000 rebels in the city ready to take it whenever the foreign troops leave.

☞A German of Chicago, named Henry Geyer, some years ago procured an Indiana divorce from his wife. This he kept, to use as occasion offered, and continued to live with Mrs. G. as before. Recently he thought it would be a pleasant thing to bring the document in force, and so produced it, when the sharp woman's wit of the wife checkmated him entirely, by procuring his arrest for bastardy, as the father of her unborn child. So Mr. Geyer was taken to jail, and is there held awaiting a hearing. He professes himself willing to marry her over again, and sink the Indiana divorce.

☞The Memphis Appeal urges planters to keep their cotton at home. It says, should the usual quantity be brought to Memphis, say 400,000 bales, and be stored in warehouses this fall, the temptation for the enemy to essay its capture would be very great, particularly as cotton will be very scarce at the North this winter, and be tantamount to offering a bonus of twenty millions for the invasion of the Mississippi valley, and for a successful expedition against Memphis.

☞Lieut. John T. Swett, 11th regiment M. V., writes that his life was saved by the noble conduct of Surgeon Luther V. Bell, after the Sunday battle, at Bull Run.—Lieut. Swett had been wounded in the hip, and in the stampede a baggage wagon had run over him. There was no ambulance at hand, and Dr. Bell dismounted and placed Lieut. Swett upon his own horse and tied him on, and started him toward Washington. He went into hospital on arrival, and is now able to attend to duty.

☞One great trouble in the Navy Department at the present time, is the scarcity of seamen, the scarcity causing, at times, serious delays. If the department would ship men for the *war* instead of for three years, there would be little difficulty in getting good seamen, but many do not wish to serve after the war, fearing that they may be sent to out-of-the-way stations.

☞The Salem Gazette mentions a man and his wife and son, natives of Salem, who have just arrived there, destitute, from Memphis. Tennessee rebel officers had visited the man, to compel him into their army:—but they left all their goods, concealed themselves on board a steamer, and escaped into Ohio. From Cincinnati, their fares were paid home to Salem, by some Quakers.

ST. LOUIS, July 30.—Gen. Fremont's headquarters were to-day connected by telegraph with all the lines east and north

A STRANGE AFFAIR. — The Boston Traveller is informed that some weeks since a man appeared at Portsmouth, N. H., who represented himself as a captain in the U. S. Navy, in want of a clerk, and he finally hired a Mr. Champion, at a salary of $800 per annum. He arranged to meet him in Baltimore. The remainder of the story is told in the following letter, dated Baltimore, July 19, to his brother:—

BALTIMORE, MD., July 19.

The captain that I engaged with has joined the rebel army. I was out to ride with him last evening and he tried to press me in too by all sorts of promises, but I told him that I would sooner die than fight against the stars and stripes.—I was then seized and bound by some of his companions and was to be forced away during the night. But while they were asleep I got my hands off and taking my revolver, which one of them had, I started, but had not gone far before they discovered it. I hid myself under some bushes and when they came near enough I fired two barrels at them, and I guess I hit one of them, as he did not come any farther. They fired at me and the ball just passed through my hat; but I did not get hurt, only a few scratches, and made good my escape. I am going to Washington this afternoon to see what can be done.

We have no knowledge of any such man as the Mr. Champion referred to.

CHICAGO, Ill., July 30.—A special dispatch from Cairo says there are rumors of an intended attack by the approaching rebels, but they cannot be traced to any reliable source. Scouts report that large numbers of mounted rebels are daily coming up through Sykesville, the terminus of the Cairo and Fulton Railroad, and are concentrating in the vicinity of Col. Watkins' camp, forty miles hence. They threaten our position at Bird's Point, but our troops there are doubly diligent and thoroughly prepared.

LOUISVILLE, July 30.—The Richmond Bank Convention has adjourned, after advising the rebels to issue one hundred millions in so-called treasury notes.

Mr. Toombs has resigned the office of Secretary of State, and Mr. Hunter of Va. has been appointed his successor.

NEW YORK, July 30.—A dispatch to the Herald from Clarksburg, Va., says it is rumored that Col. Tyler, at the head of 3000 loyal Virginians, repelled Gen Wise and 7000 rebels at Bulltown. The rebels lost 1200 killed and the Unionists 600. Wise was retreating.

Messrs. W. E. Hagan & Co.,—I hereby certify that my hair having become gray, and my head partially bald, I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "inimitable" as being the very best and cheapest hair preparation in our market. WAR.—WAR on Rats, Roaches, and on all kinds of Vermin.

Boonsboro', Md., Mch. 21, '61.
Mr. Henry R. Costar—Dear Sir—Having occasion to visit a friend in Virginia, whose premises were so badly infested with Rats, that nothing could be kept out of their reach—he was, after trying various other preparations, persuaded to try your Exterminator.
The first test he gave it was in his barn; and to the astonishment of all—in the morning the floor was almost covered with dead rats. After seeing such a destruction of these horrid creatures, I have ever since recommended your invaluable preparation—and must, undoubtedly, pronounce your exterminator the most effective preparation for the destruction of Rats, Mice, Roaches, and such vermin, which has ever been brought before the public. Yours truly, F. H. IRWIN,
(Editor of the Odd Fellow.)

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.
Messrs. Seth W. Fowle & Co., Boston,—Gentlemen.—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by
Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James P. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B. Safford, Exeter; J. W. Green, Hampton Falls; and by dealers every where.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawâm

DOWN WITH TRAITORS!

Editors of the Chronicle:—Since the departure of the 2d Regiment from this city, the secession element, which dared not before show its infernal head, has begun to manifest itself. To this circumstance I wish to call the attention of the public.

That there are those of our citizens (to our shame be it said) who are, at heart, the enemies of their country, and who do not hesitate openly to avow their treasonable sentiments, is a notorious fact.

What is the duty of all good citizens, and of all lovers of their country, toward this class of people?

We would go as far as any one in favor of free speech, law and order, but there are times when there should be a limit even to the freedom of speech, and in times like these, no man should be allowed to talk and plot treason with impunity. If we are to fight the infernal demon of secession, we might as well begin here in Portsmouth, as in South Carolina, or Virginia; and as our brave boys have gone to carry terror among the rebels South, it belongs to those who do not go, to see that they leave no traitors behind them, unless they are left, as Gen. Butler suggested,—"hanging on a tree." It is needless to call names, as most of the leading spirits in this city are well known; and if they are not visited, as they ought to be, with a traitor's doom, let them at least be "*let alone*," and that most emphatically. Let us hold no intercourse with them, either socially or otherwise, but let us rather shun them as we would the very spirit of evil.—Some of these fellows are those who for years have been living on the pap of the very government they now do not hesitate to denounce, and for whose overthrow they would willingly labor. The man who now talks against the Union is a villain, and should be avoided by all decent people; or if visited at all, let it be with the retribution he deserves. "A word to the wise is sufficient." T. L. C.

☞ Not many days ago, a German shopkeeper in this city received a letter from his former partner in business here, who is now at their old home in the fatherland.—The letter was directed to a third party here, also a German, with a request that he would forward it to the owner, wherever he might be. The reason for this direction and request was, that the writer supposed everything here was gone to destruction, or at least was rapidly going thither; he had received no Northern American papers for a long time, but had seen New Orleans papers. From their contents he had inferred that all Yankeedom was conquered, overrun or starved. His partner, in return, has mailed a good package of Northern papers.

☞ Major Stevens, Capt. Carr, of the Manchester Rifle Rangers, and Sergeant Cobb of Keene, Second Regiment, N.H.V., arrived in Concord on Wednesday from the seat of war. Major Stevens' report of the Goodwin Guards, (enlisted in this city) is: Wm. H. Goodwin, wounded in the breast; James E. Seavey, wounded in the leg by a ball; Alexander Stuart, wounded in both legs; W. S. King, wounded in the hand; and Daniel Nelligan, wounded in the neck.

The whole number killed in the Regiment was 9, wounded 35, missing 63.

Major Stevens wishes to recruit 200 men to fill up the Second Regiment to its maximum capacity.

The Governor and Council have appointed Hawking Fearing, Jr., of Manchester, Colonel of the Third Regiment; John H. Jackson, of this city, Lieut. Col.; and John Bedell, of Bath, Major.

☞ Lieut. George M. Colvocoresses, recently detached from this Navy Yard, is Commander of the U. S. store-ship Supply, which went into commission at Brooklyn, on Monday. She takes, besides her own ship's company, one hundred men, and is, it is thought, destined for the Florida Division.

☞ The Lawrence, Mass., Journal states, that two men, who had enlisted in the navy, and were on their way to this Navy Yard, were arrested in that city for causing a disturbance at the depot. They had been imposed upon by a gang of young rowdies, and the City Marshal ordered their release.

☞ It is stated that Col. Wheat of Louisiana was killed by an orderly sergeant of the 2d N. H. Regiment. The sergeant, after killing him, walked to the body and took a letter from the pocket, which had his name thereon.

☞ Dr. George H. Hubbard, Surgeon of the 2d N. H. Regiment, in a letter published in the Manchester Union, states that at Bull Run, "We lost all we carried on to the field, except instruments. Our ambulances were fired on by cannon during the retreat, and we were forced to leave them and run for our lives."

☞ The members of the Ellsworth Guards, (Capt. Cornelius,) enlisted in this city, on Wednesday *marched* to New Market—which is to be their rendezvous hereafter.

☞ A letter from an officer on board the U. S. steam gun-boat South Carolina, dated off Pensacola, July 15, states that they had captured, off Galveston, the schooner Sam Houston, which was running on the route betwen Galveston and New Orleans. She had on board the mail, consisting of about two cart loads of letters and papers. They had also "captured the pilot boat Dart, and a fine schooner called the Shark, built last November in New Hampshire, at a cost of $8000; also eight other small coasters. Some of them will be sent North as prizes, and others—the fastest sailers—will be mounted with 24-pound howitzers, and used to scour the coast."

The Shark was built in this city by Mr. E. G. Peirce. She was owned by Mr. George E. Paterson, of Galveston, Texas, and is of 87 tons burthen.

☞ A "valuable" dog—one "never known to injure any body," was killed by order of his owner at the Navy Yard, a short time since, for the reason that he had bitten a son of his master.

☞ Mr. Oliver P. Stimpson of Kittery, has been appointed Carpenter in the Navy.

NEW YORK, July 31.—Special dispatches from Washington state that the gunboats Reliance and Yankee engaged a new rebel battery at Marlborough Point, below Aquia Creek, on Monday. Neither of the vessels were much injured. The effect on the battery is unknown, though the shells from the vessels were seen to burst over it and the camp in the rear. There is, probably, at least a regiment of rebels there. The battery consists of five rifled guns.

The steamer Freeborn lies at Fort Washington with a prize schooner. She has on board two women connected with the Jeff. Davis Mail and Express company. They were caught going over to White House Point.

Nine employees at the Arsenal have been arrested by order of General Scott, at the instance of Mr. Potter of the House Investigating Committee.

Col. Stone has arrived from Harper's Ferry, and reports that Banks has not evacuated Harper's Ferry. A portion of his forces have taken a strong position on the Maryland side. He is receiving reinforcements daily. He had yesterday 14,000 men. Col. Gordon's regiment is at Harper's Ferry, ready for an attack.

Col. Stone says the rebels have always had two or three regiments at Leesburg, and doubts whether there are any more there now.

A number of the officers of the Fire Zouaves and 69th New York regiments have resigned. Others will follow.

The 25th New York regiment has been pushed forward to Bland's Mills, five and a half miles from Alexandria.

Cols. Hunter and Heintzelman have so far recovered from their wounds that they will be able to report for duty on Monday next.

Lieut. Col. Fowler, of the New York 14th, is here alive and well.

The Union men about Blandensburg fear that some of the neighboring disunionists design destroying the fine stone bridge of the Baltimore and Washington Railroad across Current Creek. Troops are now guarding the railroad.

Morning Chronicle.

PRENTICE ON THE CONFEDERACY.—"I feel patriotic," said an old rowdy. "What do you mean by feeling patriotic?" inquired a bystander. "Why, I feel as if I wanted to kill somebody or steal something." The Tennessee authorities felt the same kind of patriotism on the 4th of July, and as they didn't like to venture upon killing anybody, they stole the trains on the Louisville and Nashville Railroad.

The disunionists of Kentucky say they are not for *secession*, but they are for *going with the South*. "Will you have me?" said John to Julia. "No," said she, "I will not have you—but you may have me!"

The Arkansas State Convention, passed an ordinance that any citizens of that State guilty of paying their debts to citizens of non-slaveholding States, should go to the penitentiary. We don't believe that any such severe penalty was necessary. The slightest possible would have been ample.—*Louisville Journal.*

HAVELOCKS.—The name of the gallant Indian General is almost universally applied to the sun-shades of our troops. Anybody who will study the Egyptian paintings will see that shades of the same cut were used in the same way by the Egyptian troops before Moses' time. The army which was lost in the Red Sea wore Havelocks.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

COSMOPOLITAN ART ASSOCIATION.—We regret to learn that this Association in New York, has been obliged to suspend its operations and discontinue the Art Journal. *Boston Journal.*

War of course plays havoc with the fine arts—but the Association are the losers, after all; for although they cannot do as they agreed with their subscribers, yet the latter have each an engraving worth more than they paid for the book and all.

ST. LOUIS, July 30.—It is stated that Gen. Watkins, who has been in command of the rebels in the southeast part of Missouri for some time past, resigned on Saturday last, and strongly urged all the troops to disband, as he would have nothing more to do with this rebellion. Watkins is a man of large property, and the reason assigned for this sudden change in his conduct is the contemplated passage of a confiscating bill by Congress.

☞ Ichabod D. Bartlett, Esq., of Bangor, died suddenly at Mt. Desert, Saturday morning. He went there the day before on a pleasure excursion. Mr. Bartlett was a lawyer of ability and was about 40 years of age.

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W HAMMOND, 59 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I leg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. H. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

Kineo, "the Monarch of the East," is situated near the centre of Moosehead Lake, and towers upward to the height of 2700 feet above the level of the sea; on the easterly side, and in view from "Pebble Beach," the "Cliff" overhangs the Lake at a perpendicular height of 960 feet. Morning Chronicle.

Portsmouth, N. H.

FRIDAY, AUGUST 2, 1861.

☞ In compliance with a resolution of the House of Representatives, of July 16, Hon. Gideon Wells, Secretary of the Navy, has transmitted to that body the correspondence relative to the destruction of he U. S. vessels and other property at the Navy Yard at Norfolk. The N. Y. Times gives an outline of the document, which it precedes with this sweeping statement:

The transaction must remain stamped on the page of American history as the most disgraceful that ever befel our Navy, and one of the most disastrous that ever happened to the Government. The blame of the affair will chiefly rest, perhaps, on Com. McCauley, whose conduct is wholly inexplicable, but seems to be a compound of imbecility, drunkenness and treason.

☞ The Boston Courier of Thursday, in an article signed by its publishers, alludes to its diminished income, by the falling off of advertising, which it suffers in common with other papers, which "has rendered it necessary for it to seek some extraordinary aid from those friends of the national cause it has advocated, since a considerable portion of the main source of its support is for the present taken away."

☞ Capt. John H. Jackson, of this city, who has just been appointed Lt. Col. of the 3d Regiment, is a tried soldier, a competent officer, and an exemplary man in private life. He was in the U. S. service in the Mexican war; and of late years has held a place in the Boston Custom House. He comes of good old military stock—his father having been killed in the last war with England, and his grandfather we think was in active service in the Revolution. His appointment gives great satisfaction to our citizens generally.

Cook of the Ship Orion Shot by the Captain.—Letters and documents received in Boston give an account of the shooting of Joseph Park, cook of the ship Orion, at Whampoa, May 23d, by Capt. Henry Libbey, master of that vessel.—The officers and crew have certified to the following facts, which were given in evidence before the coroner's inquest, which found simply that Park came to his death at the hands of the captain. Towards evening, Capt. Libbey notified the steward that he was to have two gentlemen at tea. The steward went into the galley, where he found Park in liquor. When he told Park that the captain was to have company to tea, he commenced swearing, and wanted the steward to fight, and professed to be able and ready to fight any man in the ship. As the steward could not get rid of him, he called the captain from the poop.—The captain met Park near the mainmast, and, taking hold of him by the collar, told him he must keep sober and attend to his work. Park jerked himself away, squared away at the captain, and told him he would strike him hard. The captain then ordered the irons to be brought up, and Park rushed to the galley, armed himself with a knife and steel, and, continuing his threatening and defying language, whetted the knife in the presence of all hands. He kept facing the captain, and stopped as if purposing to make a spring at him. The captain then fired, without effect, and Park said—"Fire straight, captain." He then flourished his knife, swearing he would have the Captain's heart's blood. Capt. Libbey fired two more shots, one taking effect under the left shoulder-blade, the other on the outer surface of the left arm, and Park fell and died. Capt. Libbey was put under nominal arrest in the house of the Vice-Consul, F. H. Haskell.—*Bost. Cou.*

☞ A man, on Market Square the other evening, on hearing of the repulse of the Federal troops at Bull Run, cheered most uproariously, and was knocked down most expeditiously. Had he not been rescued by a gentleman from the hands of the small crowd that quickly assembled, he would undoubtedly have suffered greater injury. He had previously been employed in the Navy Yard, but, we understand, has not since been permitted to enjoy the blessings of the government, towards which he entertained such treasonable sentiments. This is right: no man should be employed there, whose conduct excites suspicion even, in such times as these. "Show your colors."

Spain was overlooked by the rebel commissioners sent to Europe,—probably, as it was not thought advisable to recall the Ostend Manifesto and the connection of Jeff. Davis with Gen. Quitman. The action of the Cuban Viceroy, in the case of the prizes carried into Cienfuegos, has given a staggering blow to the piratical schemes of the Confederate leaders, and the Spanish authorities have, in some degree, revenged the indignities offered their country by Slidell, Yancey, Benjamin, and other prominent secessionists.—*Boston Transcript.*

☞ Currants are usually a sure crop in this region, but they have failed the present season.

CONGRESS,—Wednesday, July 31.

In the U. S. *Senate* a bill supplementary to the act for increasing the military establishment, was passed; also a bill increasing the number of U. S. Consul Agents abroad, during the rebellion. The bill to suppress insurrection was postponed on motion of Mr. Hale.

A copy of instructions to foreign ministers in relation to the rebellion, was received from the President. Mr. Powell of Kentucky introduced a bill to repeal the fishing bounty law—referred to the Committee on Commerce.

In the *House*, a bill providing for the monthly pay of troops was passed. The thanks of the House were tendered to the Massachusetts Eighth Regiment, for their patriotic alacrity in answering the call of the President for troops. A bill was passed in concurrence, transferring the control over District Attorneys to the Attorney General. A bill to restrict the franking privilege was reported from the committee appointed at the last session.

Washington, July 31.—Yesterday a new rebel battery on the Potomac, a short distance below Aquia Creek, was discovered by the Potomac fleet. The gunboat Reliance and steamer Yankee proceeded to engage the battery, at a distance of two third of a mile from the shore. Their fire was answered by three rifled 12-pounders in the battery. The Yankee was struck just forward of the pilot house, the shot lodging in the storage room, doing no great amount of damage. The Reliance was not hit. The gunboats, using 24 and 32 pounders, threw round shot and shell, and their shells were seen bursting immediately over the rebel battery and in the camp in the rear.

The Potomac fleet is indefatigable in the performance of this river police duty. Nothing larger than a common rowboat can possibly escape its vigilance.

Col. Stone, from Harper's Ferry, arrived here to-day. Gen. Banks has not evacuated Harper's Ferry. A portion of his forces have taken position on the Maryland side, where they are strongly fortified and intrenched. Col. Stone states that Gen. Banks occupies a most favorable position, and will be able to defend himself in every emergency, if attacked. He is receiving reinforcements daily.

Gen. Scott is greatly incensed at the publication of copies of the official reports of regimental and brigade commanders. He objected to it as improper, unmilitary, ill-timed and mischievous. He has directed strict orders to be promulgated, prohibiting the publication of these reports.

Senator E. D. Baker of Oregon has been authorized to increase his regiment to a brigade, and to receive one regiment of cavalry. The Senator commanded the Second Illinois Volunteers during the Mexican war. He acted as Brigadier General after General Shields fell at the battle of Cerro Gordo, and turned the Mexican left wing, capturing a battery of five pieces at the point of the bayonet.

The United States paymasters are busy at work paying off the troops in this department. The aggregate amount of money paid to the troops yesterday was about $100,000.

Beauregard's chief surgeon reports their loss to be 300 killed and over 1000 wounded.

New York, July 31.—The Tribune's Washington dispatch says—Gen. McClellan expresses the opinion that this will be an artillery war, and asks for as many batteries as it is possible to provide. A regiment has been sent by him to extend a line of pickets along the Potomac to Harper's Ferry. Seven additional regiments have gone up to Chain bridge to-day, where three or four are now posted. There are fresh indications of the inauguration of a more vigorous policy. Gen. McClellan inspires and supervises everything.

The same dispatch says—We learn from creditable sources that Fort Fillmore, in Texas, has been reinforced by ten companies. Also that Col. Canby has fitted out such an expedition against Fort Bliss, now held by the Texans, as will make its capture certain.

Brownsville, Nevada Territory, July 25.—There is a large number of Indians on the Republican Fork and Platte River, ostensibly on their annual hunt, but really to fight the Pawnees.

The Secessionists in Southern Nebraska have been in constant communication with the Indians there and the Attas acknowledge that they have been solicited to aid the rebels; and at one time a majority of the Indians were in favor of so doing, but were dissuaded. The settlers on the Big Blue are in great alarm, many having moved away their families and stock.

Scouting parties have been sent out from Kansas and some of the eastern counties of Nebraska, to assist the Union men and prevent Indian and rebel outrages.

☞ We have received a letter from a member of the Ellsworth Guards, stating that they reached New Market, about half past one on Wednesday, after enjoying the hospitalities of apparently almost every house on the road. They called at the house of a secessionist, who left this city some weeks ago, in the most indecent haste, his movements being accelerated by the energetic measures of some of the volunteers then here; but we are pleased to learn that he was not at home to them.

☞ Jeff. Davis has sent for another regiment from Georgia, saying that he has taken 22,000 stand of arms. The rebels at Manassas report that 1000 of our dead are still unburied, and that prisoners are continually being brought in.

☞ Rev. F. F. Hicks, of Dover, is to preach in the Universalist Church in Le Roy, N. Y., for three months, on leave of absence from Dover.

The above is a correct list of the casualties, prepared and certified to by Adjutant Langley, on the 29th of July.

The Boston Courier's report of the Stock Market July 31, says:—

A lot of 400 shares Eastern, as collateral, went at 60 1-4, a decline of 2 3-4 per cent from Monday. The fact of this stock being held, to a considerable extent, in large "blocks," liable to come to the market at any time, operates adversely on the market value. Besides, there is doubt with many as to the Company's ability to keep up even the 4 per cent dividends, with so stagnant a state of business as now exists.

Increasing the Blockade Squadron. Naval Constructor Pook, of Charlestown, Mass., a Commodore, and another United States officer, are in New York, looking up vessels to assist in the blockade. They have thus far got the steamship James Adger, towboat Satellite, propeller Stars and Stripes, propeller Valley City, and barque Brazilera, all reported chartered long ago

☞ In answer to the query "why the stars on the United States flag are five-pointed, and those on the coins six-pointed," the editor of the Historical Magazine answers, that the designer of the coin followed the English, and of the flag French custom.

Fortress Monroe, July 30.—Col. Allen's examination closed to-day. The case will be referred to the War Department.

It is thought by many that the charges against him will not be sustained, especially those of breaking his parole.

Gen. Butler, it is said, is about to make a hasty visit to Washington.

☞ Robert J. Walker is in Washington, entering heartily into the movements for putting down the rebellion. Mr. Walker predicted the present state of affairs in his letter to Mr. Buchanan, in the winter of 1857-58.

☞ Gen. McClellan has issued an order prohibiting any officer or soldier to absent himself from his camp and to visit Washington, without a written permit, stating the object of the visit.

Jefferson City, Mo., July 30.—The Convention to-day declared vacant the offices of Governor, Lieut. Governor and Sec. of State, by a vote of 56 to 25, and the seats of members of the Legislature by a vote of 52 to 28.

The Bull Run Battle was a very hard one, and from the rebel accounts of it, their losses in killed and wounded may be fairly set down even greater than ours.

Jeff. Davis, in his dispatch to his wife, says:—"We have won a glorious, though dearly bought victory."

Myers, the rebel Adjutant General, says there was a "heavy loss on both sides."

Their surgeon general puts it down 300 killed and over 1000 wounded.

Beauregard's official report states that their loss is about 400 killed and 1200 wounded.

New York, Aug. 1.—A Washington dispatch to the World says Beauregard was reconnoitering in person yesterday within three miles of Chain Bridge. He left ten or fifteen of his troops scouting, who ten minutes after were captured by Capt. Motte and a Union party at a distance of six miles from Washington.

The house of Mr. Throckmorton, in Fairfax, county, who invited General Tyler to make it his headquarters, was ransacked yesterday by Throckmorton's brother, with twenty-five rebel cavalry, and the furniture, out-buildings and crops destroyed.

The Herald's dispatch says it is stated by an army officer who was taken prisoner at Bull Run, and made his escape into Washington, that the rebels had not less than 240,000 men in Virginia. He reports further that no intention exists to attack Washington, and Gen. Beauregard is in favor of acting on the defensive entirely. He represents Fairfax as being rapidly put in a state of defense by the construction of fortifications and entrenchments.

There has been no confirmation at headquarters of the reported defeat of Governor Wise at Bullstown, Va.

The latest dispatches Thursday evening, state that surveying schooner Vixen, at New York, reports seeing eleven vessels ashore within ten miles of Cape Henry—five being ships, and all more or less stripped.

Gen. Scott, having ascertained that Mount Vernon "has already been overrun by bands of rebels," has issued an order, desiring the U. S. troops, should they be called in that direction, to "approach with due reverence and leave uninjured not only the tomb," but also the house, groves and walks which were so loved by the greatest and best of men.

La Mountain made a balloon ascension of a thousand feet at Fortress Monroe, Wednesday; was able to make observations in a circuit of 30 miles. There were no traces of the rebels near Hampton.

Sixteen officers of the Garibaldi Gurad, have resigned, dissatisfied with their inexperience and incompetency.

Pittsburg July 30.—The Duquesne depot of the Pennsylvania Railroad Company accidentally took fire this afternoon, and was entirely consumed, with all the contents. In the basement about 3,000 barrels of Petroleum oil were deposited

In fifteen minutes the entire structure was in a sheet of flames. It is supposed that all the oil was consumed, with freight cars and goods supposed not to exceed in value $5000.

The depot was valued at $120,000, and was built in 1854. The amount of insurance is large, but not yet ascertained.

Twenty houses in the rear alley, mostly occupied by poor families, and some dwellings on Penn and Liberty streets were consumed.

☞ We regret to learn that the destructive army Worm, which has done great injury to gardens in Rhode Island and Massachusetts, has made its appearance in this city. It is said that hogs will clear the premises of the undesirable guest in a very brief period.

It resembles a caterpillar, is black, and about two inches long. It remains near the ground,—never, it is said, being found upon trees. It feeds upon grass, corn, etc., and is a terrible scourge. It has also appeared at Concord, Manchester, and other towns in this State, and should any one know how the pest may be destroyed without injury to the crops at the same time, he would confer a great favor upon the public by making the method known immediately.

☞ The Mr Champion referred to in our item we copied from the Traveller, Thusday morning, is no doubt, "The Champion Hose Man" of Dover—whom we mentioned recently (copied from a Dover paper) as having been appointed clerk to a U. S. Naval officer, in this city, and receiving a sword, &c., from his Dover friends. But *who* the officer was, we never heard, and cannot learn—and it is only one of the singularities of the whole affair, that he is not named at all in Mr. C's letters.

Sandy Hook, Md., July 31.—The camp is quiet. There are no indications of any rebel troops in this vicinity. Gen. Banks and staff are busily occupied in forming the Army into brigades. The present position commands Harper's Ferry, and is easily and quickly made almost impregnable.

Jefferson City, Mo., July 31.—The Convention this morning elected R. H. Gamble Gov. of Missouri, W. P. Hall Lieut. Gov., and M. Oliver Sec. of State. The opposition protested against the proceedings. Gamble will be inaugurated this afternoon.

☞ A special despatch to the New York Commercial says John Holahan of Washington, has been arrested on a charge of treason, in having aided the panic at Bull Run.

JOHN B. GIVENS, No. 94 Elm Street.

HOUSEKEEPERS troubled with vermin, need be so no longer. If they use "Costar's" Exterminators. We have used them to our satisfaction, and if a box cost $5, we would have it. AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

Ask for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gentlemen: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Scrofula would break out in ulcers on my hands and arms; sometimes it would swell and distress me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without relief or even much relief. In fact, the disease grew worse. At length I was advised to try your Sarsaparilla. I did so, and I have by my use of it, been brought to a healthy state. I am now free from the disease, and I know by my feelings that the disease has gone from my system. You are at liberty to use this letter in any way you think best; yet I feel that I hold you to be one of the benefactors of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 11th Sept. 1859, that he has cured any number of cases of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and adds a complaint of Malignant Erysipelas by large doses of our Sarsaparilla; says he cures the common Erysipelas by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Some further of your Sarsaparilla cured me of a very dangerous swelling on the neck, which I had endured from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most efficacious alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Generative Organs. It have recently invariably cured cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the womb, the ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Ulcerated Sore Throat.

Edward S. Marrow, of Newbury, Ala., writes: "I had a most grievous sore throat on one of the females in our house, which had defied all the remedies we could employ, but at length been completely cured by your Extract of Sarsaparilla. Our physicians thought nothing but amputation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before resorting to the proposed effectual. After taking your remedy for a week no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

Dr. J. C. AYER: *Sir*, I cheerfully comply with the request of your agent, and report to you some of the cures I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the cases of Syphilis for which it is recommended, and have found its effects truly wonderful in the cure of a peculiar form of *Secondary Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, so skillfully, cured him in five weeks. Another was attended by secondary symptoms in his nose, and the ulcerations had eaten away a considerable portion of the bone. The disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not a trace of the disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison to her bones. They had become sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla. I have no doubt, if I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, I have found it truly remarkable, and will leave not surprised me.

Fraternally yours, O. S. LARRIER, M. D.

Rheumatism, Gout, Liver Complaint, Incontinence, Poston Co., Va., 6th July, 1859.

Dr. J. C. AYER: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, and have tried the skill of physicians, and attack to no in spite of all the remedies I could find, until I tried your Sarsaparilla. one bottle cured me in two weeks, and restored my general health so much that I am far better than I was before I was attacked. I think it a wonderful medicine. J. FREAN.

Jules Y. Gotchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, but everything failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My father, Rev. Mr. Kopp, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me of my disease, and I feel as if it had set me a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have been effected by the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the medical of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other in the cure of throat and lung complaints, that it is useless now to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. For sale the consumption, or even hopeless, diseases when your lungs begin to give way, the experience of its effects—your living trophy to their model of its victory over the direst and distressing disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not detain them to assure them that it has now all the virtues that it did have when making the cures which have won so deeply upon the confidence of mankind.

RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

MOUNT KINEO HOUSE,
Moosehead Lake, Maine.
Mt. Kineo, "the Monarch of the East," is situated near the centre of Moosehead Lake, and towers upward to the height of 2700 feet above the level of the sea; on the easterly side, and in view from all "Pebble Beach," the "CHIEF" overhangs the Lake at a perpendicular height of 960 feet. Its summit, which is easy of access, reveals a picture of TRANQUILLED POWER BEAUTY.
The MT. KINEO HOUSE, J. R. CROCKER, Superintendent, is located at the base of Mt. Kineo, and has within the last two months been enlarged, refitted, and furnished throughout with entirely new furniture. In the addition, just finished, is a large Billiard hall; and on the premises is a bowling alley, together with new and beautiful sail and fishing boats, etc.
The house commands a magnificent view of the Lake, and the adjacent forests and mountains;—while the mountain breezes pass over the waters of the Lake, causing the air to be delightfully cool and bracing, and renders this place one of the most delightful summer resorts in New England for parties seeking health or pleasure.—Sportsmen will here find the best trout fishing in the country, while the surrounding forests abound with the stately moose and other varieties of game.
"Capt. Joe Barrows," and other popular and experienced guides, are engaged at the Mt. Kineo House, and will at all times be at the service of its guests.
Sail, yawl and flat boats and birch canoes furnished with guides.
☞ Parties wishing to visit the Mt. Kineo House, will take the early morning trains per Boston and Maine or Eastern Railroad, via Portland, daily, for Newport; or on Monday, Wednesday and Friday for Skowhegan and Bangor; or on Tuesday and Friday per steamer M. Sanford for Bangor.
Coaches from either of the above places pass through a country of picturesque beauty, and connect at Greenville (foot of the Lake) with the elegant steamer "Fairy of the Lake," Capt. Thos. Robinson, which runs daily, Sundays excepted, to the Mt. Kineo House.
Through tickets from Boston to Mt. Kineo House, via Boston and Maine, and Androscoggin and Kennebec Railroads to Newport, thence by stage to Greenville (foot of the Lake,) and thence by steamer "Fairy of the Lake" to the House,—are sold at the Boston and Maine Station in Boston and in Lawrence. FARE THROUGH $7.50. Passengers have the privilege of stopping over at Portland, or any place East.
☞ Return tickets can be obtained of Capt. Robinson, on board steamer "Fairy of the Lake."

Morning Chronicle.

SATURDAY, AUGUST 3, 1861.

LETTER FROM NEW YORK.

NEW YORK, August 1.

Dear Chronicle: — We've had a real prince to dine with us! A live prince, who visited our Central Park, High Bridge, and Astor Library, as "common people" do!—Not a beef-eating descendant of John Bull, but a modest-looking scion of the house which has made Waterloo, St. Helena and a host of other places famous. A prince reminding us of twisted mustachois, "parley vous" and fricaseed frogs!

The Prince, as your readers are probably aware, is the son of Jerome Bonaparte, and nephew of the present Emperor of the French. He attended divine service on Sunday, but declined any public reception whatever.

The Princess (as pretty a specimen of feminine humanity as it has been our fortune in life to see, with a beautiful blonde complexion) rode up Broadway in an open carriage; but those only who had read the notice of the arrival, recognized in her the daughter of Victor Emmanuel, and a member of the imperial family of France. She remains at the New York Hotel a few days, while her husband journeys to Washington

Fletcher Webster paraded a fine regiment (the 12th Mass.) down Broadway a few days since, and another from the same State passed through yesterday. While on the march, Webster's regiment sang,

"We'll hang Jeff. Davis on a palmetto tree,
Glory Hallelujah! Glory Hallelujah!
The Union then will be great and free,
Glory Hallelujah! Glory Hallelujah!

Reminding us of the story of the man who inquired of another if he knew what was to be done before they cooked a rabbit, and being replied to in the negative, informed his companion that "the first thing was to catch it!"

The 71st and 69th Regiments, N.Y.S.M. were welcomed back to their homes and firesides,—the woolsheds and door steps which constitute the resting places of the poorer portions, — with all the enthusiasm with which regiment after regiment was dispatched from our city.

The 7th and 71st have long been considered as our crack regiments, the 7th the better of the two, though now the 71st is vastly more popular. There has always existed a rivalry between them, which has become more settled since the refusal of the 7th to participate in the funeral of the late Colonel of their rival regiment.

After escorting the Mass. 8th up Broadway, the 7th marched to the pier to receive the returning troops, who refused the escort. So the two divisions paraded separately, the 7th in silence, the other amid wild enthusiasm. Much dissatisfaction has arisen in the ranks of the National Guard, and many of the officers have attached themselves to volunteer regiments. The Herald informed its readers in large capitals that "the 7th returns immediately to Washington!" The public were pleased, supposing the sentence to be one of those ebullitions of truth to which that paper is occasionally subject; but they were doomed to disappointment. The men, *as the Seventh Regiment*, will never return to the war.

At sunrise the streets were again filled, and till 10 A. M. there were constant accessions to the half million assembled to do honor to the 69th, (Irish,) which came up Broadway escorted by a sufficient number of Irish associations to form a small colony. The view to one comfortably ensconced in a window was grand. Imagine a vessel so full of water that one drop more would cause it to overflow, and you will have some idea of our main thoroughfare on the occasion. Every green son of Erin, or rather son of green Erin, was crazy in the exuberance of his pride and enthusiasm, and rushed into the crowd, which resembled a swarm of bees clustering around the gallant troops.

In answer to the call of the President proclaimed last week, New York city offers 14 additional regiments, being more than one-half the State quota, and making in all forty-two regiments accepted from *this city*.

NEWINGTON.

☞ By the Ordinance of Virginia, all the property of Gen. Scott, in that State, has been confiscated to the public Treasury. Before the State can realize it, Gen. Scott will probably make good his title with his sword.

LEE AND HIS ESTATE.—By recent act of Congress, confiscating the property of rebels in arms, Gen. Lee will be deprived of his Arlington estate. It embraces 300 acres, and is the most valuable estate in the vicinity of Washington.

NEW HAMPSHIRE ITEMS.

A bounty of $10 to each volunteer enlisting in the 3d Regiment, is to be paid before they leave the State. Congress has already passed a law appropiating 130 acres of land to each soldier as soon as he is discharged from the service, and, if we remember right, $100 besides the regular pay.—The soldiers will be marched into camp at Concord as soon as they are enlisted. The Camp will be ready next Tuesday. Much of the clothing for the soldiers has already been purchased.

Operations have been suspended by the Exeter Manufacturing Company, for two months.

The Ballot states that Capt. Wilbur, enlisting the "Gov. Berry's Rifle Guards," in Exeter, had on Tuesday evening forty-four men enrolled.

A party of sixteen Exeter Academy boys, are spending a portion of their summer vacation at Hampton Beach, in two camp tents, and are enjoying themselves vastly. They have christened their encampment 'Camp Sardine.'

Jacob H. Ela, Esq., of Rochester, has been nominated, and confirmed by the Senate, as U. S. Marshal for the District of New Hampshire.

Hon. N. B. Baker, ex-Governor of this State, has accepted the office of Adjutant General of the State of Iowa, where he now resides.

Mr. Supply Hodgdon, who was so severely injured by being run over by his team in Stratham, died on Sunday last, after enduring much agony. He was 60 years of age.

G. W. Ingalls of Concord, has been appointed to recruit a Band for the 3d Regiment. The Band is nearly made up, but a few more first class Musicians are wanted.

Joseph B. Walker, Esq., of Concord, has been appointed Quartermaster of the State, under the new law.

CONGRESS—THURSDAY, August 1.

In the U. S. *Senate*, the bill to punish frauds on the part of officers making contracts for the Government, was passed.—The bill for the better organization of the army, and the loan bill were passed in concurrence. The bill for the suppression of insurrection occasioned a long debate, between Mr. Breckinridge in opposition, and Messrs. Baker, Doolittle and others in its favor. A motion to postpone the bill to the next session was lost.

In the House, a bill appropriating $100,600 for the defence of the Capital, was passed. The Senate bill appropriating $10,000,000 for ordnance and ordnance stores, was passed. The House committee of conference reported a compromise on the amendments to the supplemental loan bill, which was agreed to. A resolution of inquiry was adopted, in relation to Mr. Ely, the member of the House who was lost at Bull Run. Mr. Blair made a personal explanation, defending himself against the charges of Mr. Weed in respect to the conduct of the war. His remarks called up Mr. Richardson of Illinois, who said he had not intended to make any attack on the President in his speech a few days ago, and that his meaning had been misunderstood.

☞ A rebel dispatch from Richmond, July 24, says:

The battle was contested so hardly and so closely that for an hour the fate of the day was trembling as in a balance.

Gen. Beauregard was under a terrific fire. His horse was killed under him, and had part of its head shot off.

President Davis, in recognition of his intrepid behavior and soldiership, has taken him from the provisional army and appointed him a General in the regular service.

NEW YORK, Aug. 2.—A Washington dispatch says a flag of truce was brought to Arlington Heights last night, purporting to bring letters from wives and relatives of rebel prisoners now here. What disposition was made of it is not known.

Col. Buell has been appointed a Brigadier General, mainly at the suggestion of Gen. McClellan. Col. Buell has been summoned from California.

Ex-President Buchanan is so ill as to be obliged to forego his customary visit to Berkley Springs.

Secretary Cameron has directed the release of all the slaves from the prison at Alexandria, and their employment on military works, to be paid as day laborers.

Twenty tons of ordnance were shipped to the west to-day.

CAIRO, Aug. 1.—Scouts from the South report the rebels at New Madrid well armed and well drilled, and that they have five batteries of ten-pound field pieces, which are officered by foreigners; also two regiments of cavalry, well equipped. Gen. Pillow, who is in command, promised Jackson to put 22,000 men into Missouri at once. He has issued a bombastic proclamation to the people of Missouri, declaring that he intends to drive the invaders from that State. He says he will show no quarter to those taken in arms.

CAIRO, ILL., Aug. 1.—Scouts just in, report Jeff. Thomson with five hundred rebels is encamped thirty miles south of Bird's Point. There are 3000 between Charlestown and New Madrid, and 7000 at the latter place.

LOUISVILLE, Aug. 1.—A dispatch from Nashville says that McCullough defeated Seigel in Southern Missouri, killing 900 and losing 600.

SYRACUSE, N. Y., Aug. 1.—The Onondaga cavalry left here, this evening, for Washington.

WASHINGTON, Aug. 1.—Information has been received here, that, since the affair at Bull Run, the rebels have concentrated an immense army in Virginia, and have now an available force of two hundred and forty thousand men. North Carolina, Tennessee, Mississippi and Alabama, at once agreed to double the quota levied upon them.

Col. Porter has already entered upon the duties of Provost Marshal. He has a large body of regulars, cavalry and infantry on duty to-day, and has ordered everybody to quarters not provided with a pass, and intends to close the groggshops throughout the city until such provision is made as will insure the prevention of the indiscriminate sale of liquors to soldiers.

Thus the reorganization of the army has been begun at the very foundation, in the restoration and enforcement of discipline. This will be followed by the permanent arrangement of brigades and brigade drills. In a little while complete order will be brought out of chaos, and the highest condition of efficiency will be speedily given to the army of the Potomac.

Gen. Scott has received various communications and protests, from both lay and clergy, against the propriety of fighting the battle of Bull Run on Sunday, all of which the old hero has snugly stowed away for future reference. Neither Gen. Scott nor Gen. McDowell were responsible for what occurred on that day. There were circumstances surrounding that affair over which they had no control.

It is reported that Hon. Benjamin Wood has offered to go to Richmond to endeavor to procure the release of his colleague in Congress, Mr. Ely, and Col. Corcoran, and that the President has the matter under advisement.

It is rumored that Gen. Butler will be ordered here to co-operate with Gen. McClellan, and that Gen. Wool is to assume command at Fortress Monroe.

The Select Committee to examine into the loyalty of government employees have in no instance directed the arrest of any one. Where the evidence is satisfactory, they report the fact to the proper authorities, and there the functions of the Committee cease.

A letter from a resident of Washington, now in Richmond, says recruits for the rebel army are smuggled down the Maryland shore of the Potomac from here, and then taken across the river by vessels in the employ of the enemy.

Capt. Rowan, of the Pawnee, received a letter from Alexandria, stating that the rebels had taken all the upper works off the steamer Page, and put six guns aboard of her, and that all the flat boats on the Rappahannock have been brought over to the Potomac. It is said there will be a great many at Aquia Creek. The Pawnee has been ordered to Aquia Creek by the Navy Department in consequence.

The Government has arranged with four manufactories to have sixty rifled cannon turned out per week. With one firm a contract for three hundred has been made.

Prince Napoleon will be the guest of the French Minister while here.

Mrs. General Gaines has returned from New Orleans. She is a strong Union woman. She considers the Southern Confederacy a failure, and says such is the general feeling there.

The War Department received the following direct from Gen. Rosecrans to-day:

"Gen. Cox reached Ganly bridge on the 29th. Wise fled without fighting, destroying the bridge to prevent pursuit. We have captured 1000 muskets and several kegs of powder. Many of the inhabitants in that section hitherto strong secessionists, denounce Wise for the wanton destruction of property and are abandoning him and his cause. His Western troops are rapidly disbanding.

SANDY HOOK, July 31.—New and well disciplined regiments are daily augmenting the column here. Reconnoitering parties and scouts are thrown out continually, and it is impossible for the enemy to arrive in any force without our being timely notified.

The Rhode Island battery which fought at Bull Run, arrived here this afternoon.—The point formerly occupied by the Ky. rifle regiment is garrisoned by our troops, and the works commenced by the former are being completed and its approaches well fortified. An observatory 50 feet high has been erected on the pinnacle.

Rumors of Johnson's approach towards Leesburg have induced Gen. Banks to keep a sharp lookout in that direction.—No rebel pickets have yet been seen.

SANDY HOOK, MD., Aug. 1.—No important movements have yet been made. An additional force has been sent to guard Harper's Ferry. Scouts on Tuesday night reported that a considerable number of foragers were within six miles of the Ferry, which gives rise to the suspicion that a much larger force is nearer us than Leesburg. Some think Johnson's army is moving northward.

Scouts frequently bring us evidence of rebel combinations in this section of Maryland, as well as frequent communications with the rebels in Virginia. Stringent measures will be instituted to stop such correspondence and break up the organization.

PHILADELPHIA, Aug. 1.—Arrived prize brig Herald, with naval stores and tobacco, from North Carolina for Liverpool. She was captured by the St. Lawrence on the 16th of July.

Prince Napoleon visited the Girard College and the Penitentiary to-day. He leaves to-morrow, for Washington.

H. R. Stephenson, in a card in the Nashville Union, says:—"Judge Catron will not undertake to hold a Federal court in Nashville again, no matter what may occur."

NEW YORK, Aug. 2.—A Washington dispatch to the Times says:—

Private advices from Mexico say that Juarez has been forced to resign under a threat of impeachment for the McLean treaty. Gen. Ortega has been appointed Provisional Dictator. All parties have united in calling Gen. Comonfort to assume the Presidency, when it is proposed to amend the Constitution of 1857.

☞ The Parisians are undergoing quite a fright about the Emperor's health. The report most generally circulated is that His Majesty has been poisoned by some slow process which the physicians find it difficult to counteract.

By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. WAR.—WAR on Rats, Roaches, and on all kinds of Vermin.
Boonboro', Md., Mch. 21, '61.
Mr. Henry R. Costar—Dear Sir—Having occasion to visit a friend in Virginia, whose premises were so badly infested with Rats, that nothing could be kept out of their reach—he was, after trying various other preparations, persuaded to try your Exterminator.
The first test he gave it was in his barn; and to the astonishment of all—in the morning the floor was almost covered with dead rats. After seeing such a destruction of these horrid creatures, I have ever since recommended your invaluable preparation—and must, undoubtedly, pronounce your exterminator the most effective preparation for the destruction of Rats, Mice, Roaches, and such vermin, which has ever been brought before the public. Yours truly, F. H. IRWIN,
(Editor of the Odd Fellow.)

The Oxygenated Bitters.
For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.
No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of
The Oxygenated Bitters.
Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.
Typhoid Fever, Dyspepsia and Debility.
The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:
LAKE VILLAGE, N. H., Nov. 4, 1859.
Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite extended the contents of the bottle before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

American Women.
America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed;—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.
One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawSm

A RIGHT PLEASANT EXCURSION.—*Dear Chronicle,*—One of the numerous attractions and pleasures of your beautiful city, is a drive in the suburbs or an extended ride in any direction—particularly to "the Beach." So thought a party of twenty, as they left here on Tuesday, P. M, full of mirth and anticipation. The distance to the Ocean House was wholly taken up in the beautiful scenery along the Sagamore, and through Rye—varied with the excitement of each carriage striving to lead the party—so that the horses were put up at the "Ocean" stables, and the party scattered within the space of one short hour. Some sought the beach at once—some the garden, while others amused themselves in romping *over* as well as around a quantity of hay coc s close at hand. All were enjoying themselves to the utmost until the gong sounded for supper—which took place about 8 o'clock. The table was bountifully supplied,—and laid decidedly tastefully, and reflected credit upon the house. There seems to be but few boarders there as yet though much transient company, which are the better accommodated.

The evening was spent in the spacious and elegant parlors—dancing and singing, making it a perfect scene of life and gaiety. At an early hour, with a general "good night," the twenty turned homeward, filling the air with song and laughter.

Let those lamenting the departed "Clipper," take heart. A day spent at the beach will long be remembered, especially such an one as that of Tuesday. Q.

☞ The Gazette don't seem to believe there are any secesheirs here: but a black or red republican, late from Boston, tells us he thinks there are more rebel-sympathizers in Portsmouth, than in the whole State of Massachusetts.

NEW LAW FIRM.—The numerous friends of Francis Bacon, Esq., in this county and elsewhere, will perceive by a card inserted in this paper, that he has associated himself with Cyrus Hamlin, Esq., and that the firm has located in the thriving town of Kittery, and propose to attend to legal business in the Courts in this State and in the border counties of New Hampshire, and to transact the general business of a law partnership. Mr. Bacon's experience of twelve years as Register of Deeds and Register of Probate, has made himself familiar with Conveyancing and the performance of Probate business, and added to this he enjoys the reputation of being one of the most methodical and correct business men in the county. Mr. Hamlin is a son of our Vice President, and is a regular chip of the old block, intelligent, courteous in manner, well read in the law, and just the man to succeed in a thriving go-a-head, sensible community, such as Kittery is. We have no doubt the firm will succeed at once in obtaining, not only the confidence of the community, but a good share of its legal business.—*Biddeford Union.*

NEW YORK, Aug. 2.—Steamship Northern Light from Aspinwall has arrived. She brings $2,128,000 in specie.

Joseph Scote, agent of the Vanderbilt steamers at Aspinwall, has been imprisoned for refusing to pay the taxes demanded by the authorities. The interference of the commander of the U. S. brig Bainbridge induced his speedy release.

PERSONAL.—Capt. Fox, who has been selected to fill the office of Assistnt Sec'y of the Navy, is a son-in-law of the late Hon. Levi Woodbury. He was recently connected with the Washington Mills at Lawrence, Mass., and is a man greatly superior to the person under whom he immediately serves. Everybody is pleased with the selection of Capt. Fox.—*Boston Transcript.*

☞ The Coast Guard Organization, enlisted in Boston, by Capt. Forbes, has been dissolved. The guns and equipments, have been sold to the National Government.—It is proposed to form a company of foot artillery, as the Secretary of War is willing to accept such an organization.

☞ The "gallant Eighth" arrived in Massachusetts on Thursday, without the loss of a man, having completed their three months' service. The Cushing Guard reached Newburyport about 6 o'clock, and were most enthusiastically and hospitably received.

☞ It is reported that Beauregard shot one of his Generals on Thursday last, for failing to intercept the retreat of our troops in their run from Bull Run.

☞ On Tuesday P. M. Lieut. Crosby of the Navy left Fortress Monroe with 300 men and several pieces of artillery, on board of three propellors, for the purpose of firing upon a number of boats said to be carrying supplies to the rebels from Baltimore. On Friday, the Baltimore Exchange (rebel) states that in attempting to ascend the river they were repulsed, and endeavoring to retreat, ran aground. The Virginians sent for reinforcements. The capture or destruction of the vessels is anticipated.

From the N. H. Gazette.

A SLANDERER.—An anonymous writer in the Chronicle presumes to declare that a portion of our fellow citizens are secessionists, traitors and plotters of treason, and he very distinctly invokes mob law against them. The writer of such an article must be himself both a traitor and a coward, or he would not in such a manner have attempted to disturb the public peace by publishing an atrocious libel upon our city. Except the Abolitionists who have long been avowed disunionists, no man in his senses believes, that we have among us either secessionists or traitors. But if there be, the law is ready, the tribunals are open and the punishment severe.—Why are they not prosecuted?

The writer in the Chronicle probably wishes to divert some private or party malignity upon the heads of unoffending citizens, by making them objects of public suspicion and distrust. Let him make his charges openly, if he believes them to be true, or dares to incur the legal responsibility of doing so. But let all such white livered scoundrels understand that the mob law game is played out. Our people will not tolerate it.

☞ The publishers of the Atlantic Monthly and also of the Lady's Book, caution the public against a deaf and dumb woman, calling herself by different names in different parts of the country, who has been, without authority, getting subscriptions for those works. They say that if she exhibits any document with their signature attached, it is a forgery.

Several of our citizens were taken in by this young woman. She was provided with several *bona fide* testimonials from well known individuals in this State, which were probably obtained by falsehood and misrepresentation. Her favorite field of labor here was among the members of the Masonic fraternity, whose aid she solicited as the orphan daughter of a Mason.

A PONTOON BRIDGE.—The annexed description of a pontoon train recently constructed for the Government, will give the reader an idea of what these structures are:

"It is composed of forty-two wagons, with spare wheels, axles, spokes, hubs, etc., 256 harnesses, thirty-six India rubber pontoons or floats, with all the timber, planking, cables, anchors, forges, etc., sufficient to form a bridge of 600 feet in length and 13 1 2 feet in width. It can be thrown, ready for the passage of troops, in thirty-seven minutes. If used as rafts, a brigade of five thousand men, with equipage, artillery, etc., can be passed over the Hudson, at Sing Sing, or the Mississippi, in ten hours.

THE EXTENT OF OUR DISASTER.—The New York Herald publishes in alphabetical form the names of the killed, wounded and missing at the late battle, of which the following is a recapitulation:

Killed,	380
Wounded,	729
Missing (supposed prisoners,)	476
Total,	1486

Most of the wounded will probable recover, and no doubt the number reported as missing, will be diminished.

☞ Several accidents have happened on board the U. S. ship Sabine, at the Navy Yard, the past week. On Monday, Franklin C. Hoyt fell through the hatchway from the berth deck to the hold, and was considerably injured, though no bones were broken. On Tuesday afternoon Mark Tucker fell through the same hatchway, and suffered about the same amount of injury. It is thought that both of them will be able to resume work in a few days.

From the Portsmouth Journal.

"Oh carry me back to Ole Virginny."

THE THE SECESSIONISTS.—There are no small number of the friends of the Southern Rebels among us,—men who are likely more readily to co-operate with the South than with the North, and are really in the position of spies and traitors among us. Why not test the doubtful men with some form of oath similar to that which is administered to all visitors who pass over the bridges from Washington and within the lines of the American camp, in which they promise, "to be ever loyal to the United States," and submit to the penalty of death "if hereafter found in arms against the Union, or in any way aiding her enemies."

No true patriot would object to signing a test oath—a man who would object should be marked and sent where he rightly belongs.

THE ARMY WORM.—It has been said that this worm never visits the North. This is a mistake. About sixty years ago they visited this neighborhood. In their progress, they cut down whole fields of young corn in a single night. They moved onward in one direction, and were drowned when they met the river.

THE LONG RIDE.—In the letter of Mr. G. F. Towle, published last week, was omitted a paragraph stating that he was fifty days on the 1000 miles of road between Texas and Kansas, and that he slept on the ground every night. When captured by the Indians, they took from him his rifle and revolver, leaving him to complete his journey without means of defence.

About $60 were collected in the North Church last Sunday, in aid of the soldiers. In several other churches the collection was postponed to Sunday next.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & CO. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and ulcerated me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and troublesome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was advised to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I went to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New skin and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 17th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common Erysipelas by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. Canning, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many intractable cases of Leucorrhœa by it, and know others in my practice, who have used it with the same result."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised this trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have had the effects truly wonderful in the cure of *Tertiary and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in few weeks. Another one attacked by secondary symptoms in his bones, had tried all he had eaten away a considerable part of it, so that I believe it therefore would soon reach his brain and kill him. He treated for the same disorder by mercury was suffering from this poison in her bones. They had become so ex-ediles to the weather that on a damp day she suffered excruciating pain in her joints and bones. She too was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. Six bottles cured me in two weeks, and restored me to general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

John Y. Gotcheil, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been for months worse than for some years from an obscure disease then *derangement of the Liver*. My beloved pastor, the Rev. Mr. Epps, advised me to try your Sarsaparilla, and I feel bound to say, that any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel, speaking again, the best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of these cases have been published in our Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into healthy action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the medical of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy to their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 7 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1859, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 18t, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

MOUNT KINEO HOUSE,
Moosehead Lake, Maine.
Mt. Kineo, "the Monarch of the East," is situated near the centre of Moosehead Lake and towers upward to the height of 2700 feet above the level of the sea; on the easterly side, and in view from "Pebble Beach," the "Cliff" overhangs the Lake at a perpendicular height of 960 feet. Its summit, which is easy of access, reveals a picture of UNEQUALLED FOREST BEAUTY.
The MT. KINEO HOUSE, J. R. CROCKER, Superintendent, is located at the base of Mt. Kineo and has within the last two months been enlarged, refitted, and furnished throughout with entirely new furniture. In the addition, just finished, is a large billiard hall; and on the premises is a bowling alley, together with new and beautiful sail and fishing boats, etc.
The house commands a magnificent view of the Lake, and the adjacent forests and mountains;—while the mountain breezes pass over the waters of the Lake, causing the air to be delightfully cool and bracing, and renders this place one of the most delightful summer resorts in New England for parties seeking health or pleasure.—Sportsmen will here find the best trout fishing in the country, and the surrounding forests abound with the finest moose and other varieties of game.
"Capt. Joe Barrows," and other popular and experienced guides, are engaged at the Mt. Kineo House, and will at all times be at the service of its guests.
Sail, yawl and flat boats and birch canoes furnished with guides.
☞ Parties wishing to visit the Mt. Kineo House, will take the early morning trains per Boston and Maine or Eastern Railroad, via Portland, daily, for Newport; or on Monday, Wednesday and Friday for Skowhegan and Bangor; or on Tuesday and Friday per steamer M. Sanford, for Bangor
Coaches from either of the above places pass through a country of picturesque beauty, and connect at Greenville (foot of the Lake) with the elegant steamer "Fairy of the Lake," Capt. Thos. Robinson, which runs daily, Sundays excepted, to the Mt. Kineo House.
Through tickets from Boston to Mt. Kineo House, via Boston and Maine, and Androscoggin and Kennebec Railroads to Newport, thence by stage to Greenville (foot of the Lake,) and thence by steamer "Fairy of the Lake" to the House,—are sold at the Boston and Maine Station in Boston and in Lawrence. FARE THROUGH $7.50. Passengers have the privilege of stopping over at Portland, any place East.
☞ Return tickets can be obtained of Capt. Robinson, on board steamer "Fairy of the Lake." jy30 3awtw

Portsmouth, N. H.

MONDAY, AUGUST 5, 1861.

AN EXCELLENT CHAPLAIN.

Under this expressive head, Burleigh of the Boston Journal, gives the following lively sketch of a New Hampshire Chaplain, known to many of our readers.

The New Hampshire 2d Regiment is blessed with a most excellent Chaplain—Rev. Mr. Parker, pastor of the South Congregational Church, Concord. When the regiment was raised he felt it his duty to leave his people and do what he could at the seat of war. He accompanies the regiment everywhere, and shares all the hardships of the soldiers. He takes the boys affectionately by the hand with a hearty "How do you do?" He inquires into their personal wants and makes himself their servant. He rides a beautiful horse, which is completely under his control. In the fight at Bull Run he took his regimental position, and all day long was a faithful attendant. He carried many a wounded soldier to the hospital on his horse, spoke words of comfort and cheer, and supplied the men in the ranks with water when they were suffering intolerable thirst. He has true pluck as well as patriotism. Conversing with him this morning, the remark was made that it was a painful sight to see men killed which elicited the instant reply, "But more painful to see them retreat?"—A regiment with such a Chaplain, if otherwise well officered, will be a tremendous power in the day of battle. Moral force is superior to physical, and when the two are united, there is no standard by which results can be calculated. Failure is hardly possible. This regiment was one of the most effective on the field. It is thought that a Chaplain in an army is a superfluity, that his preaching and praying is to keep up appearances, to make a mere formal recognition of a Supreme Being, as the director of human events, but in truth the office is one of great moment. The true hearted christian minister, who is willing to be a servant of the Lord in small things—to wash the feet of the disciples, and give a cup of cold water in the name of a disciple, who can enter into the wants of the soldiers, who can sleep on hemlock boughs, stand with him in the storm, eat hard bread and salt junk, who can sit down and talk of little things as well as great things—who can sympathize as well as reprove, who can ride calmly through the leaden rain and iron hail to reach the wounded—the influence of such a man is as omnipotent as the word of the officers who lead them to meet the enemy.

CONGRESS.—Friday, August 2.—In the *Senate*, the bill authorizing the charter or purchase of vessels for the revenue service, was passed; also the bill authorizing the construction of twelve small steamers. The resolutions of respect to the soldiers who have fallen in the war, were passed.

In the *House*, resolutions of respect and honor to the soldiers who have fallen in the war, were passed. A bill making the recruiting of men in a State or Territory hostile to the general government, a crime punishable by a fine of from $200 to $1000, and by imprisonment from one to five years, was passed.

The Revenue bill, which has just passed both houses, is based on the House revenue bill, but some important alterations have been made. The duty on coffee is reduced from 5 to 3 cents per pound, sugar from 2 1-2 to 2. The duty on brandy is $1 25, and on other liquors, ten per cent. *ad valorem*. The income tax has been altered, making the smallest income taxed $800 instead of $600, the rate being 3 per cent., except in the case of absentees, where it is 5 per cent.; 10 per cent. *ad valorem* has been added to the duties upon silks.

☞ A dispatch from Springfield, Mo. dated Aug. 2, states that McCullough and Jackson, having devastated the country near them, are slowly moving northward in three divisions, for the better subsistence of their troops. The Union forces were quietly awaiting their approach, ready for battle, the unfavorable news from Virginia having inspired them with a fresh desire to recover in the West whatever may have been lost at the East.

☞ Advices from Cairo, Ill., state that Gen. Fremont, with eight steamers, four regiments and several detached companies of Infantry, and two companies of Light Artillery, arrived on the 2d. The troops were landed at Bird's Point, increasing the force there to 8000. They were enthusiastically received.

IT WAS THE NEGRO WHO DID IT.—The negro on board the recaptured Newburyport schooner Enchantress, will rank well with him who saved the S. J. Waring. A letter from Fortress Monroe to the New York Evening Post says:—

"A curious incident occurred in connection with the capture of the secession prize Enchantress. As the gun boat Albatross approached her she 'fought shy,' and when hailed replied that she was from Newburyport, bound to Santa Cruz.' At this moment the negro cook appeared on the gunwale, crying out as he leaped into the sea with uplifted hands: "For God's sake save me, captain! She's a secesher, bound to Charleston!" A boat was immediately lowered to save the negro and board the brig. On examining her papers it was found that her reply to the hail was true, but she was a prize to the Jeff. Davis, and had a prize crew on board. Her cargo is first class assorted goods suitable for the Union army. The Jeff. Davis' crew behaved very badly with their prize, destroying articles of the cargo they could not use. The Enchantress is built upon a beautiful model, and is probably worth $8000."

We had no smarter sailors or braver ones in our navy or privateers in 1812, than the negro seamen. This negro cook, and the hatchet negro, show very plainly what free negro sailors will do and dare, rather than go into Charleston. There should be a few of them in every vessel of our *temporary navy*.

☞ Gen. McClellan is watching the rebel engineers who are making observations in the vicinity of Chain Bridge. There is no danger of an attack on Washington, from that quarter, although it is beyond question that the enemy are making vigilant reconnoissance there.

A surgeon in the rebel army has written home to Winchester that the loss of the rebels at Bull Run is not less than six thousand killed and wounded.

Two ladies were passed through our lines on Saturday, under the auspices of Miss Dix, to attend our wounded in the hands of the rebels. They take with them a full supply of hospital stores.

Col. Thos. A. Scott has been appointed Assistant Secretary of War, and is authorized to act as Secretary during the absence of Mr. Cameron, who is going home for a few days.

A large number of nominations for the volunteer force were sent to the Senate on Friday, including Colonels Hunter, Sherman, C. S. Hamilton of Wisconsin, Buell, and Major Oaks, as Brigadier Generals. Their commissions all date May 17. Col. Hunter has been recommended by the Illinois delegation as Major General of the Illinois volunteers.

☞ It is suspected at Washington, that the army of the Potomac will not be kept idle so long as has generally been predicted. Its re-organization proceeds with great rapidity. The new troops arriving are placed at once in brigades, and at farthest only a few weeks will be requisite, at the present rate of progress, to make a forward movement that shall be more successful than the last.

No doubt is entertained that Gen. McClellan will strike as soon as he is ready, without waiting for the weather. His plan of operations will not be disclosed until the precise moment for its execution. It is regarded as an evidence of preparation for bold and energetic action, that the military authorities decline to give any information whatever to the press.

☞ A dispatch from Baltimore, Aug. 2, states that a steamer, from Pocomoke river, reports the three gunboats sent from Fortress Monroe as anchored off the mouth of the river, Wednesday. They had been six miles up the river and communicated with the people, informing them that they came there to prevent contraband goods being sent to the eastern shore of Virginia.

They also landed at Shelltown, Md., and and found the reported erection of a battery there false.

So, the report of the Baltimore Exchange, that they were aground, is, probably, false.

☞ The appropriations thus far by Congress amount to two hundred and forty millions. The Secretary of War has asked for twenty millions more, on account of volunteers now being mustered into service. By the two volunteer bills the President has power to call a million of men into the field, although that extent of authority was not, it is believed, designed. It is not thought that over 500,000 will be accepted. Congress will probably adjourn on Monday.

☞ No confirmation is received of the rumored defeat of Col. Siegel. Siegel's regiment will be disbanded soon, their time having expired; but most of them will re-enlist for the war. Fugitives from Arkansas and Texas say, that if the government would send a force and arm the people, more than half the inhabitants of these two States would prove loyal.

☞ We perceive, that our old friend Peter Sinclair, has written a good Liberty and Union letter, which is published in the Manchester, Eng., Examiner. His influence is very great among the best Scotch and English people.

☞ The Army Worm, so far as we can learn, made its first appearance in this city, in Concord, and in Manchester, on Sunday morning July 28. After they are first noticed, they are found to increase very rapidly in size and numbers. Its proper name is the grass Caterpillar. They completely destroy the grain fields which they attack, but ditches, with guano in them, will arrest their progress. These worms are also "death" on grass—except clover, which they will not touch. At Middletown, Conn., they swarmed up in immense numbers, covering the ground with a wriggling mass, and squirming onward with astonishing rapidity. An alarm was sounded, and the citizens came to the defence of the town, laid siege to the enemy, and soon hemmed him in with ditches of coal tar. In New London they swarmed on the streets, so that persons could not walk among them without crushing them at every step; and desolated gardens in their path.

This worm is often found in the cotton fields of the South, and when pressed by hunger has been known to destroy the leaf of that plant. In the south they have a smaller and darker appearance than those in this region. We hear of their ravages in the South and West at the present time. In Illinois and Indiana they are particularly destructive to the cereal crops. How long they will remain here is uncertain, as little is known of their habits. When about to change they form cocoons of silk under stones or in the ground near the surface, interwoven with particles of earth.

☞ Private Murray, of the 2d N. H. Regiment, was executed at 4 o'clock, Friday afternoon, for the murder of Mary Butler, while intoxicated. In order that his fate might be a warning to all evil disposed soldiers, the scaffold was erected upon the walls of Fort Ellsworth, affording an unobstructed view to all. All the regiments in the vicinity of Alexandria were present, and notwithstanding 20,000 witnessed the execution, everything passed off without unnecessary excitement.

The culprit ascended the scaffold with a steady gait. In some remarks he made no allusion to his guilt, but called upon his friends to sustain his family in their hour of trial.

PICKPOCKETS.—Mr. P. K. Hill, of Newburyport, had his pocket book stolen at the B. & M. Railroad depot in Boston, on Thursday. It contained a note of the city of Boston for $15,000; checks and other valuable papers and $40 in bills. Through the agency of the police the pocket book and papers were recovered, but the money was gone with the exception of two gold dollars which were overlooked by the thief. Within a day or two a man has had his pocket picked of $500, and a Californian was robbed of a considerable amount in gold, in Boston.

☞ The clipper schooner Thomas Potter was chased three hours, July 30, by a suspicious looking brig, supposed to be the privateer Jeff. Davis. A few hours after escaping, they heard heavy cannonading.

The towboat Mariner with twenty-two men and two guns, is said to have left Wilmington, N. C., on the 23d of July, with letters of marque.

☞ The telegraph reports that both at Manassas and Richmond the talk is of a strong force to be concentrated on the lower Potomac, and a descent made into Maryland. It is understood that Beauregard wants to make an immediate advance, to which Davis is strongly opposed.

☞ The news from Gen. Banks, at Harper's Ferry, is most encouraging. He is reorganizing his army, and placing it in an impregnable position. He has no fear of an attack from Gen. Johnston, and if attacked is sufficiently strong to defend himself.

☞ The New York Fifth was assailed with a volley of paving-stones by a mob, while passing through Baltimore en route for home. Some arrests were made, but the culprits were all released after going through the form of taking the oath of allegiance.

☞ The New Orleans True Delta incidentally asserts that three-fourths of the gallant men from that city and State who have abandoned home, to march to the battle-field in defence of Southern rights, are Irishmen.

☞ There having been an attempt on the part of some persons, to foist upon Gen. McClellan mere politicians for important military commands, he gave them to understand that unless he could choose his own subordinates he would resign.

☞ The editor of the Portland Transcript says he saw a horse the other day, on one of the wharves in that city, "deliberately" pull out the bung of a molasses hogshead with his teeth, and proceed to regale himself with the sweet contents.

☞ Col. Corcoran is reported to be still alive, and not wounded. The rebels acknowledge a loss of 1200 at Bull Run. Troops are rapidly mustering at Richmond, and at Aquia Creek.

☞ The latest dispatches to Saturday evening's Extra Traveller state that Lieut. Crosby's expedition explored the Pocomoke, for a number of miles, dispersed several parties of armed rebels, burnt two vessels, and captured another. They have returned in safety to Fortress Monroe. An educated German, private of the 10th N. Y. Regiment, has been arrested at Fortress Monroe. A letter to Gen. Lee was found in his possession.

A large quantity of liquor was destroyed on Thursday at Newport News, by command of Gen. Butler.

Privateers are apparently increasing in number. A brig, at New York, reports that on the 26th she was chased by a barque, 27th, by a brig, and 28th, by a schooner, but out sailed them all.

☞ Gore Block, on Green street, Boston, was much injured by fire on Saturday morning. It was of brick, six stories high. Loss $50,000: mostly insured. It contained a large quantity of military equipments, made under contracts with the War Department.

A member of the Connecticut First had a Bible in one pocket and a pack of cards in the other. A ball struck the cards, and, when half way through, it "begged" at the sight of an ace somewhere, thereby probably saving his life.

WAR.—WAR on Rats, Roaches, and on all kinds of Vermin.

BOONSBORO', Md., Mch. 21, '61.

Mr. Henry R. Costar—Dear Sir—Having occasion to visit a friend in Virginia, whose premises were so badly infested with Rats, that nothing could be kept out of their reach—he was, after trying various other preparations, persuaded to try your Exterminator.

The first test he gave it was in his barn; and to the astonishment of all—in the morning the floor was almost covered with dead rats. After seeing such a destruction of these horrid creatures, I have ever since recommended your invaluable preparation—and most undoubtedly, pronounce your exterminator the most effective preparation for the destruction of Rats, Mice, Roaches, and such vermin, which has ever been brought before the public. Yours truly, F. H. IRWIN,

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure the most distressing of all diseases—Dyspepsia, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

NO TRAITORS HERE.

Messrs. Editors:—It is somewhat amusing to observe the air of injured innocence with which one traitor pleads not guilty for all the rest as well as himself. But does the "anonymous writer" who makes this plea suppose that the traitors and *quasi patriots* here, are unknown to their fellow citizens, or that their talk and actions are unheard or unobserved? If he does, he greatly deceives himself. They are as easily known from others, as black men from white, or drunken men from sober.

It is very pleasant to know that the mob law game is played out, especially when the assurance comes from the quarter in which mobs have usually been stimulated, aided and defended.

The little knot of "white-livered scoundrels" who sympathize with the rebels, who rejoice in their successes and our defeats, and who give such aid as they can to traitors in Congress and rebels in Richmond, are probably in no personal danger here, especially if they keep quiet. But their own words, which their neighbors cannot help hearing, have already made them "objects of public suspicion and distrust."

The public are not to blame for this, and the traitors themselves can't help it now;—but they can exercise the liberty of speech a little more discreetly, even the slyest of them; and like little boys, they can be seen and not heard.

But open treason, in speech or action, in a time like this, is offensive to patriots, and may prove unprofitable to the traitor.

PAX.

Messrs. Editors:—If it were necessary, in the period of the American revolution, that committees of public safety should be appointed and organized, to counteract the mischief which those whose sympathies for the common enemy might induce them to inflict upon the cause and its friends,—much more is it now necessary that such committees should be raised, when there are those among us who are at heart the friends of our country's enemies — those whose entire and warmest sympathies are with the secession States, and who do not hesitate openly to avow their treasonable sentiments.

And may not such persons (some of whom are now among us as visitors from the South, where they have resided for several years past,) be now serving the rebels as *spies*, and as *authorized confidential agents?* Should not such enemies of the government be constantly and closely watched? Should not every treasonable sentiment and expression from their lips be carefully noted? To do so, would not be trenching on the freedom of speech. Freedom of speech and of the press is no license to encourage rebellion and treason. And ought not newspapers containing articles encouraging treason and rebellion to be preserved?

The writer would suggest that in the formation of committees, each of them should be composed of a sufficient number of persons to act efficiently in their respective districts, designated as convenience may indicate; and that the chairman of the several committees form a central or grand committee, to which reports from the district committees shall be made. In the beginning of the organization of the committees, it may not be necessary or proper that the members should be known to the public. Being known to each other will be sufficient. When the period arrives for the development of their discoveries, they will be known.

If the present military movement, forced upon us by the rebels and traitors at the South, be protracted,—before the rebellion shall be suppressed, and order restored to the distracted States, and the lovers of the Constitution and friends of the Union in the seceded States be placed again in possession of their constitutional rights, (for the suppression of this rebellion will ensue sooner or later,)—it will be known and appreciated, that the method here suggested was not ill-advised, but the result of timely foresight; and it will be proved to have been an important auxiliary in effecting the desired result.

The remarks of "T. L. C." in the Chronicle of Thursday last, were timely and appropriate, and the writer is entitled to the thanks of every friend of our country's cause.

Let Portsmouth set the example of raising committees of safety. Now is the time! Now, while your sons are sacrificing their lives for you on the battle field, and *traitors* in your midst are exulting over any disaster which befalls them! Who will move in this important procedure? "'76."

☞ We regret to learn that Charles Sawyer, a lad of ten years of age, son of Mr. William Sawyer of this city, was drowned at Deerfield, on Thursday last, while bathing.

☞ The First Regiment of Maine Volunteers passed through this city on the Eastern and P. S. & P. Railroad, Saturday, for Portland. They filled nineteen cars.

THIRD N. H. REGIMENT.

Correspondence of the Boston Courier.

PORTSMOUTH, August 1.

Gov. Berry has carried out his determination not to locate the camp of the Third New Hampshire Regiment "near a large city," and has designated the staid and solid town of Concord as the spot more exempt from the temptations which ensnare men than any other locality in the State.

Several hundred troops are reported as having already enlisted. The citizens of Portsmouth have hoped that in view of the present exposed state of our harbor, and the large amount of public property here, the healthy location of a seaside camp at this season, and the advantages of target practice with artillery from Fort Constitution and vicinity, seaward, (the want of which has been freely acknowledged,) and the transhipment of men by water in case of a sudden emergency, the Governor and Council would have been able to withstand the pressure of outsiders in and about Concord, and order this regiment to rendezvous at Portsmouth; but these considerations seem to have been counterbalanced by other influences brought to bear upon the Executive.

"Squinto" wants to know if the "wine and women" of the capital are any better, or less injurious or seductive, than those of the seaboard.

☞ About a dozen members of the Second Regiment, N. H. V., arrived in this city on Saturday evening.

☞ Hon. S. B. Clay, son of Henry Clay, while endeavoring to smuggle several wagon loads of bacon to West Tennessee, for the use of the rebels in that quarter, was intercepted by Union troops, who seized it as contraband and obliged Mr. Clay and his wagoner to take the oath of allegiance.

A Zouave recently took a horse belonging to a rebel and ever since has been much elated with his capture. But the owner presented himself and demanded the horse, "I have taken the oath of allegiance," said he, "and the horse is mine." "You may have taken the oath," answered the New Yorker, "but the horse ha not, and I shall keep him till he does!"

☞ The State of North Carolina, through Marshal Parks, Esq., has just transfered to the Confederate Government a clever little fleet of five war steamers.

☞ It is said that no monument has ever been erected in France on in America, to Lafayette.

MARRIED,

In Effingham, Mr. HUGH WALLACE of Saco to Miss SARAH L TOWLE of Effingham.

DIED,

In this city, Aug. 3d, CHARLES MILLS SHELDON, aged 5 months, son of George M. & Mary Sheldon.

HENRY R. COSTAR:—All the summer I have been troubled with Roaches and Mice. I was actually ashamed of the house, for the Roaches were everywhere. I purchased a box of your Exterminator and tried it, and in one week there was not a Roach or Mouse in the house.

JOHN B. GIVENS, No. 94 Elm Street.

HOUSEKEEPERS troubled with vermin, need be so no longer, if they use "Costar's" Exterminators. We have used them to our satisfaction, and if a box cost $5, we would have it. We had tried poisons, but they effected nothing; but COSTAR'S article knocks the breath out of Rats, Mice and Bed Bugs, quicker than we can write it. It is in great demand all over the country.—*Medina (O.) Gazette.*

MORE GRAIN and provisions are annually destroyed in Grant County, by vermin, than would pay for tons of this Rat and Insect Killer.—*Lancaster (Wis.) Herald.*

HENRY R. COSTAR:—Your Exterminator is received, used, and pronounced a decided success. We used a box of it, and the way the Rats and Mice "raised Ned" that night, was a caution to sleepers. Since then, not a Rat or Mouse has been heard in Kitchen or cellar.—*Magregor (Iowa) Times.*

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you costive, with your system disarranged, and your feelings uncomfortable? These symptoms are often the precursors of serious illness. Some ill or sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous action, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, followed by the disarrangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. Which true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous diseases to which flesh is more peculiarly subject. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Testimonials from leading physicians in some of the principal cities, and from their well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you *what* complaint. I have *cured* with your Pills better than to say *all that never treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a bad stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a cathartic which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

SIR: I have used your Cathartic Pills in my hospital and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quite marked and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses to bilious dysentery and diarrhea. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those who have called to me for distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If those of our profession who have found as efficacious as I have, they should join me in proclaiming it for the benefit of the multitude who suffer from that complaint, which is the parent of more than all others put together. I believe ye *Diseases* to originate in the liver, but your Pills affect that organ and cure the disease.

From Rev. E. Beard, Physician and Minister, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural move lion when wholly or partially suppressed, and also very effectual to cleanse the stomach and clear great worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hunter, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on cases clating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SEVIER CORNERS, Dates Rouge, La., 5 To 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SAUDELL.

☞ Most of the Pills in market contain Mercury which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

PRICE, 25 cents per Box, or 5 Boxes for $1.

RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pains to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 50 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.
The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. MOUNT KINEO HOUSE,
Moosehead Lake, Maine.
Mt. Kineo, "the Monarch of the East," is situated near the centre of Moosehead Lake, and towers upward to the height of 2700 feet above the level of the sea; on the easterly side, and in view from "Pebble Beach," the "Cliff" overhangs the Lake at a perpendicular height of 960 feet. Its summit, which is easy of access, reveals a picture of UNRIVALLED POWER BEAUTY.
The MT. KINEO HOUSE, J. E. CROCKER, Superintendent, is located at the base of Mt. Kineo, and has within the last two months been enlarged, refitted, and furnished throughout with entirely new furniture. In the addition, just finished, is a large billiard hall, and on the premises is a bowling alley, together with new and beautiful sail and fishing boats, etc.
The house commands a magnificent view of the Lake, and the adjacent forests and mountains; while the mountain breezes pass over the waters of the Lake, causing the air to be delightfully cool and bracing, and renders this place one of the most delightful summer resorts in New England for parties seeking health or pleasure.—Sportsmen will here find the best trout fishing in the country, while the surrounding forests abound with the stately moose and other varieties of game.
"Capt. Joe Barrows," and other popular and experienced guides, are engaged at the Mt. Kineo House, and will at all times be at the service of its guests.
Sail, yawl and flat boats and birch canoes furnished with guides.
☞ Parties wishing to visit the Mt. Kineo House, will take the early morning trains per Boston and Maine or Eastern Railroad, via Portland, daily, for Newport; or on Monday, Wednesday and Friday for Skowhegan and Bangor; or on Tuesday and Friday per steamer M. Sanford, for Bangor.
Coaches from either of the above places pass through a country of picturesque beauty, and connect at Greenville (foot of the Lake) with the elegant steamer "Fairy of the Lake," Capt. Thos. Robinson, which runs daily, Sundays excepted, to the Mt. Kineo House.
Through tickets from Boston to Mt. Kineo House, via Boston and Maine, and Androscoggin and Kennebec Railroads to Newport, thence by stage to Greenville (foot of the Lake,) and thence by steamer "Fairy of the Lake" to the House,—are sold at the Boston and Maine Station in Boston and in Lawrence. FARE THROUGH $7.50. Passengers have the privilege of stopping over at Portland, or any place East.
☞ Return tickets can be obtained of Capt. Robinson, on board steamer "Fairy of the Lake." jy30 3aw4w

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, AUGUST 6, 1861.

OFFICIAL DENIAL.—Admiral Sir Alexander Milne, Commander-in-Chief at Halifax, in a private letter to the British Consul in Boston, says:

"I see a long article in some of the newspapers, and extracts from a letter from Fort Pickens, alluding to orders I have given; all I can say is that it is not my version of the blockade nor my orders on the subject."

The article in question was doubtless the production of some sensation writer, and must have been written to help the rebel cause, by creating the opinion, North and South, that Great Britain, represented by Admiral Milne, would forcibly break the embargo or blockade.

We would like to see this whole game broken up, by a good strong naval force of our own, which should open two or three cotton ports at once, say New Orleans, Savannah, and one other, to lawful trade under our new trade laws.

Were the *attempt* made to do this, there would be a speedy scatteration of the rebel forces for the several points attacked or menaced Some of the attacks would probably be successful;—and the opening of *one* fortified point, to trade, under United States laws, would produce great effect on all the others.

NEW HAMPSHIRE ITEMS.

The Great Falls Advertiser states that on Monday evening, a young man in that town who had been disturbing the quiet of their streets, in company with several others, was taken by his friends and locked into a room in the Great Falls Hotel, to await the return of sobriety, and undertook to effect his escape by lowering himself from the window by means of the bed-spread. The spread not being strong enough, he fell to the sidewalk, a distance of twenty feet, breaking one of his ankle-bones and otherwise injuring him.

During a thunder shower, Monday, 29th ult., the barn of George H. & Gershom L. Fall, in Lebanon, was struck by lightning and entirely consumed, together with twenty tons of hay, a shed adjoining, in which were their farming tools, and an L of the dwelling house.

The Annual Meeting of the N. H. State Teachers' Association has been postponed till some time in the Autumn. Due notice of the time, place and business of the meeting will be given.

The Mount Washington summit road is now open to within eighty rods of the top. It will be finished in a few days, when a public opening will take place.

A meeting of those in favor of sustaining the Government, of putting down rebellion and preserving the Constitution and the Laws, was called in Manchester by Mayor Barton, for Friday evening last. Short speeches were made by different gentlemen, patriotic songs sung, and appropriate resolutions were passed. Walter Harriman Esq., and Judge Wm. Clarke spoke.

The Manchester American says fruits of all kinds in that section will be very light the present season. Thomas G. Holbrook of Bedford, who usually raises 300 barrels of apples, will not gather more than one-third of his usual crop, and his trees promise as well as those of most of the extensive growers. The pear and peach crop will be very light; and as to plums, where bushels were raised last year, there will be single quarts this year.

The Wolfborough News says that Mr. Lyman McDuffee, of that town, cut upon three acres of land nine tons of good herds-grass and clover hay.

☞ The first cotton from Nicaragua has been sent down on the Columbus (about thirty bales.) Mr. John E. Rossel, an enterprising American gentleman, is the planter and shipper, and is doing a great deal toward the growing of cotton in that State, having already distributed some fifty thousand pounds of seed in the department of Chinandagua. It is expected that next year's crop will be very large.

☞ Messrs. Claflin, Mellen & Co., of New York, the largest dry goods jobbing house in this country, suspended on Friday. It is reported that their liabilities exceed $3,000,000, and their assets are about $5,000,000. The suspension was rather unexpected to the trade, on account of the resources of the firm. Much satisfaction is expressed among the Eastern creditors, at the fact that the firm has *no preferred debts.*

Cavalry regiments are expensive. It costs about $200,000 to put one in the field.

LETTER FROM WASHINGTON.

[The following, from a native of Portsmouth, living in Washington, will prove interesting.]

WASHINGTON, July 28, 1861.

It is now just one week since the fight, and I embrace the opportunity to write you some account of my experience of the "horrors of war," so often read of, but fortunately so seldom brought home to us. Sunday was as lovely a day as could be desired; the absence of the thousands of soldiers, who till within a few days thronged the streets, made the city unusually quiet.—What a contrast to the dreadful strife that was taking place, so near us that on the elevated situations just across the river, the heavy reverberations of the big guns could be distinctly heard, and were the first indications of the engagement.

By the afternoon, however, the battle became generally known, and the Avenue was filled with anxious faces, all eager for news. Soon couriers arrived in hot haste from the battle field, bringing the first definite intelligence from the fight. They were constantly surrounded by dense crowds, eager for some account of the result of the first great fight in this second war of independence.

The news spread like wildfire of a "glorious victory" for our troops, and the complete rout of the rebels. The city slept that night in the full belief that Right Liberty and Humanity had triumphed over their foes. But with the morning light came far different tidings. Monday, "the day after the fight," will never be forgotten by those so unfortunate as to be sufferers in its miseries, or even witnesses of its unhappy scenes.

The weather, yesterday so lovely, had changed; and from morning till late at night, the rain descended in torrents, adding to the general gloom which settled on the federal metropolis. As the truth leaked out,—that our army had been defeated, and that the rout was complete,—the excitement became intense. On the faces of the knots of talkers and listeners at the corners of the streets, there was not the vestige of a smile. The talking was almost in a whisper, and the depth of feeling was indicated when friends met, by a silent pressure of the hand, words being superfluous at such a time. The door-steps and porches of the houses were crowded with the inmates—the men sad and dejected, the women tearful, and some lamenting a father, brother, husband or lover. A dark pall seemed to have settled over the whole city, and for the first time we experienced a taste of the "horrors of war," as felt by those at home; but what were our own sufferings, however great, compared with those of the gallant defenders of our liberties?

We needed now no couriers to tell us the news—for now commenced to pour into the city the weary and dejected soldiers.—May we never again witness the gathering together of the remains of a defeated army. Drenched with rain, covered with mud from head to foot, ragged; many without hats or shoes, with rusty guns slung carelessly under their arms; hungry, foot-sore, and completely dejected,—the poor soldiers came straggling over Long Bridge, singly, and in little squads of two or three or half a dozen. What a contrast to their appearance a few days before, when, with colors flying and drums beating, they marched over this same bridge, every heart light at the thought of fighting for their country.

But there was no time for thoughts like these. The living demanded our care, and we were fully occupied in alleviating their distress. Nobly did the citizens of Washington hasten to care for the poor fellows who had risked their lives to defend them: and their kind deeds form a bright feature on the otherwise gloomy scene. There was scarcely a house in the city where the inmates were not busy in providing food and warm drink for the weary and hungry soldiers. Ladies of the best families were to be seen in the street, offering the contents of their neatly prepared baskets to those whom they met. The kind sympathy received from the ladies, and the little attentions so grateful to men in their condition, went far to relieve the distresses of the survivors of that unhappy battle.

It is natural that men under such circumstances should exaggerate the losses sustained; and as reports first received were immediately telegraphed to all quarters, most erroneous ideas of our loss have gained credence. Most of the soldiers with whom I conversed affirmed that half of their regiments were left on the field. The survivors of the Fire Zouaves were rated at two hundred; now more than seven hundred answer to their names at the roll call. The New York 69th were thought to be entirely cut to pieces. I saw over twelve hundred of them drawn up before the President's house. This is about the ratio of the number killed by the newspapers and by the enemy!

Of the details of the fight, the noble stand made by our troops in open field against thrice their number strongly entrenched, the victory nearly gained, and then the disgraceful rout,—I need not speak; you have already learned them from the papers. Many were the heroic deeds performed by our men on that memorable day. That reception and the annihilation, by the Fire Zouaves, of the "Black Horse Cavalry," was never surpassed. But to particularize is unnecessary; all were brave. I must mention, however, the gallant 2d New Hampshire Regiment, from our State,—whose coolness, bravery and good discipline is universally spoken of with admiration. The loss of this regiment, which has been greatly exaggerated, is small; the stragglers come in every day, and the number of missing is greatly reduced.

There is one thing about which the papers cannot exaggerate, this is the inhuman barbarities practiced upon our wounded—these atrocities reminds us of Indian rather than of civilized warfare. The more prominent acts of cruelty—the firing into ambulances, charging on and burning temporary hospitals, are well known. A surgeon with whom I talked, had dressed the wounds of a dozen men, and left them as he supposed in a safe place; went to procure a conveyance—on his return every one had been bayonetted. Such is but one instance of many that could be cited of the cruelty of the enemy, and it shows us the character of those against whom we fight; but such acts bring a fit reward—the feelings of hate, the longing for revenge, stirred up in the hearts of our men, is fearful, and the thought of friends inhumanly butchered, who other wise might have recovered, will nerve with irresistable power, the arms of our soldiers when next they meet the foe! God grant right may then triumph over wrong! E.C.

☞ A letter dated Hilo, Sandwich Islands, June 7, reports that a ship's mast has drifted ashore just below the harbor of Kawaluualu, in Kars. The lower part of the mast, which was in between decks, is squared and finished, as if it had been used as a rack for guns, while on one side are large spikes driven in, as though it had been used as a raft. Who knows but it is the missing sloop-of-war Levant's mast.—Another account says that it had drifted ashore but a few days previous to the date of the letter. But whether it had been there a longer or shorter time, should it turn out to be the Levant's mast, the fact of the entire mast being used as a raft, would go far to sustain the belief that the ship had been wrecked on some shoal reef, rock or island, and not foundered, as is now generally believed; and in the former case, there is still a chance that some of the ill fated crew may yet survive, or be heard of.

BALTIMORE, Aug. 3.—Steamer Georgiana met, last night, while coming up the Chesapeake, the expedition sent up the Pocomoke river, under Lieut. Crosby. They were obliged to fight their way out, which they did, without loss. The enemy were observed carrying off bodies in carts from the battery they had brought to bear on the Ocotoroa, which had got aground. The success of the expedition was complete. Two schooners were burned and one captured.

This expedition consisted of three small vessels, and they are the same which were reported to be in great danger, a day or two ago.

BALTIMORE, Aug. 3.—Captain Cooper, President of the Board of Pilots, states that pilot boat Coquette has just returned from a cruise along the coast where the United States schooner Vixen reported some eleven vessels ashore, and reports that they are old wrecks. She saw nothing new whatever.

We have had news once before, from these old wrecks.

Montgomery Blair called to see Gen. McClellan on Saturday, and began to give him his views. "Gen. Scott and myself will be responsible for the campaign," he replied, "and we shall conduct it as we think best." Mr. Blair took his hat and departed —*Washington Letter.*

Rather doubtful.

☞ The papers say General Scott, has pronounced General McClellan to be the only man in the Federal Army capable of manœuvring one hundred thousand soldiers into the field. Doubted again.

WASHINGTON, Aug. 4.—The reports of cannon have been heard down the river this evening. Steamer Freeborn is in sight coming up the river. It is supposed that she has been fired upon from a new rebel battery beyond Alexandria.

The rebels are appearing all along the Potomac. It is supposed that they have withdrawn from Northern Virginia, and that a new line of defence has been formed, from the Potomac and Occoquan Rivers to Manassas.

There is no truth in the report that forty of Cass's regiment were captured on the twenty-eighth, as was published in the Boston Herald.

LOUISVILLE, Aug. 3.—A reliable gentleman, just arrived here, says that seven boats left Memphis last night, conveying troops to New Madrid. Not less than 20,000 Tennessee troops have been landed in Missouri.

Gen. Flournay, of Arkansas, died here yesterday.

Drafting for troops has already begun in Virginia. The Adjutant General orders the militia to repair to the Court Houses in their respective counties without delay.—About 20,000 men are wanted.

☞ Gen. McClellan was selected by Jeff. Davis himself, then Secratary of War, to go to the Crimea to observe the great battles It will be a little curious if the knowledge which he there gained should be the means of overthrowing the man who put him in position to receive the instruction.

☞ A large number of army appointments were confirmed by the Senate on Saturday. The flag of truce sent to recover the body of Col. Cameron was unsuccessful, but will probably recover it soon. Another gunboat has been employed in showing the enemy the strength and weakness of their battery at Potomac creek.

☞ Governor Sprague, finding that one of his batteries was lost, ruined the insides by shooting slits out, and then spiking them, so that they are not worth anything except for old iron.

☞ A daughter of the author of the Star Spangled Banner was compelled recently to permit her house to be searched by the Baltimore police for Secession arms.

While one of our chaplains of the army was repeating this line of the Lord's prayer —"Give us this day our daily bread"—a soldier added, with a loud voice—"fresh."

WAR.—WAR on Rats, Roaches, and on all kinds of Vermin.

Boonsboro', Md., Mch. 21, '61.

Mr. Henry R. Costar—Dear Sir—Having occasion to visit a friend in Virginia, whose premises were so badly infested with Rats, that nothing could be kept out of their reach—he was, after trying various other preparations, persuaded to try your Exterminator.

The first test he gave it was in his barn; and to the astonishment of all—in the morning the floor was almost covered with dead rats. After seeing such a destruction of these horrid creatures, I have ever since recommended your invaluable preparation—and must, undoubtedly, pronounce your exterminator the most effective preparation for the destrubtion of Rats, Mice, Roaches, and such vermin, which has ever been brought before the public. Yours truly, F. H. IRWIN,

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

HAVE WE TRAITORS AMONG US?

Editors of Chronicle:—"An annonymous writer" in the Gazette seems to be terribly alarmed on account of a short article which appeared in your issue of Wednesday last. We should judge he felt as though he "*heard something drap.*" We have always entertained too good an opinion of the supposed writer in the Gazette, to think him to be a plotter of treason,and had thought him too much of a gentleman to indulge in such Billingsgate as his article abounds in. But we are all liable to sometimes be mistaken.

If he is not a traitor we cannot see why he is so ready to espouse the cause of those who are. We only intended the coat for those it might fit. As he seems to discredit the statement that there are traitors among us, I will try and convince him of his error.

He says, "with the exception of the abolitionists who have long been avowed disunionists, no man in his senses believes that we have among us either Secessionists or Traitors." Let us see. We know a man in this city who entered the sanctuary one fine Sabbath morning when the minister prayed and spoke most fervently for the country and that the right might prevail, when he immediately took his hat and left. He afterwards remarked that he was "not going to church to hear such doctrine as that. Was he an Abolitionist?

Another man in *this city* when he heard of the defeat of our army at Manassas, was *glad of it and wished every one of our volunteers had their throats cut.* Was he an Abolitionist? We know another who on the same occasion proposed "three cheers for Jeff. Davis." Was he an Abolitionist? And we know other men who have given utterance to similar sentiments, who so far from being abolitionists, have been office-holders under the most pro-slavery administration with which our country was ever cursed. Further, we know other men, "in their senses" too, who not only *believe* but know that Jeff. Davis has as radical supporters here in Portsmouth as he has in South Carolina.

Far was it from our intention to instigate mob violence, and we think our neighbor must stretch his imagination as far to draw such an inference, as he does his conscience in upholding such a cause. Nor did we wish to "vent some private or party malignity" in the article he refers to. We hold that no man has a right to know more than two parties at the present time, viz. Loyal citizens and traitors.

He who does not belong to the one, must of necessity belong to the other. Had we intended to "vent some private malignity," we should have done so through other channels than the columns of a newspaper. Our neighbor seems all of a sudden to have a great dread of mob law. We reccollect some years since when one of our Western territories was invaded by relentless mobs of barbarians from Missouri, and still later when an *Abolitionist* was mobbed in the streets of Boston, and refused permission to speak in Tremont Temple, the Gazette had very little to say then against mobs or mob laws. Perhaps however this sudden regard for law and order is owing to the fact that in the present case the matter comes a little nearer home. If so, it is perfectly natural. We can only hope that when that "white-livered scoundrel" tries again to screen Treason from the public gaze, he will make out a better case than he has on this occasion. T. L. C

The bill to increase the engineer corps was passed. The bill supplementary to the act to punish piracy was passed.

Both Houses agreed to adjourn on Tuesday.

The Senate on Monday concurred in the House confiscation bill—24 to 11.

The young lady who had a thousand acres of valuable land, which the young men said was sufficient grounds for attachment, did not marry as well as the young lady without a fortune, who had learned to discard *all* kinds of Saleratus or soda, save Herrick Allen's Gold Medal, which has no equal on this or the other Continent. Go, ye young ladies, and do likewise, and Dame Fortune will smile on you also. Everybody retails it, and most of the wholesale Grocers wholesale it. Depot 112 Liberty Street, New York.

Dyspepsia is known as one of the most distressing complaints which afflict humanity; and until the advent of the Oxygenated Bitters, had been considered incurable, or when curable, requiring years to accomplish it. The *Oxygenated Bitters* perform in a few days, cures, which other medicines take years to alleviate.

JOHN B. GIVENS, No. 94 Elm Street.

HOUSEKEEPERS troubled with vermin, need be so no longer, if they use "Costar's" Exterminators. We have used them to our satisfaction, and if a box cost $5, we would have it. We had tried poisons, but they effected nothing; but COSTAR's article knocks the breath out of Rats, Mice and Bed Bugs, quicker than we can write it. It is in great demand all over the country.—*Medina (O.) Gazette.*

MORE GRAIN and provisions are annually destroyed in Grant County, by vermin, than would pay for tons of this Rat and Insect Killer. —*Lancaster (Wis.) Herald.*

HENRY R. COSTAR:—Your Exterminator is received, used, and pronounced a decided success. We used a box of it, and the way the Rats and Mice "raised Ned" that night, was a caution to sleepers. Since then, not a Rat or Mouse has been heard, in kitchen or cellar.—*Magnoger (Iowa) Tomc.*

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed to health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangement, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What language need we employ in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels from the system, under similar circumstances and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. Hence, when the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons:

From a Forwarding Merchant of St. Louis, Feb. 4, 1858.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA NORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain, and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

DEAR REV. AYER: I cannot answer you other complaints. I have cured with your Pills better than to say all that we ever tried with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1858.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PRESLE, *Clerk of Steamer Clarion*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely believe that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1859.

SIR: I have used your Pills in my general and hospital practice ever since you made them known to the public, because they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease to withstand that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhea. Their purge-cooling nature them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in sickness. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1858.

DEAR SIR: I am being your Cathartic Pills to my patrons, and find them an excellent purgative to cleanse the system and purify the fountain of life.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. P. D. Wardwell, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitude. I believe that complaint, which, although bad enough in itself, is the parentage of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sherr, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are equally efficacious in cases of the natural sickness when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkins, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1858.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not compare my case to you. A cold settled in my leg and brought on extra coating scurvy-like pains, which ended in sores or ulcers. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Jan. 1857.

DR. AYER: I have hitherto been entirely cured, by your Pills, of Rheumatic Gout—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These Pills contain no mercury or mineral substance whatever.

ITEMS FROM THE POST.—The rabbis of Cracow have interdicted crinoline. Some Jewesses there, however, would wear it.—The consequence was a row with the authorities, and much bloodshed.

A viandiere in the 5th Wisconsin Regiment is heiress to millions, though her papa is in lamentably robust health. She goes for glory.

In Buffalo the other day, a young girl could not be mustered into service, as she was discovered to be not an able bodied man, though wearing pantaloons naturally. Same sort of thing in Lafayette, Ind., on the 29th ult.

Gen. Miles, of the reserve force at Manassas, failed at the critical moment. Instead of being Miles on hand when wanted, he was Miles away.

Some of the papers accuse Gen. McClellan of being only thirty-five years old!—Don't say anything more about it—we were so once, ourselves, and shouldn't grumble if we were no more "so," now.

The endeavor to organize in New York a German regiment to be armed with scythes, it is said, will probably be successful. The scythe is attached to a pole, with a tomahawk or hatchet on one side and a hook of piercing steel on the other. In the Baden revolutions, where a division of the sythes were, they destroyed every man of the troop sent against them. By an edict of the Government, the possession of such horrible arms was designated as crime and treason: and after the war, in order to get rid of them, they were buried in cellars and pits, where they still lie concealed in large quantities.

NOTHING NEW UNDER THE SUN.—A wrought gun, made in the reign of Henry VI., was cut open in the Royal Gun Factories, Woolwich, last week, for the purpose of ascertaining the nature of its construction. The gun has proved to be similar to the ordnance designed a few years ago by Mr. Dundas, and consists of longitudinal staves, or bars, built up, and hooped with a series of outer rings, the interstices being run in with lead.

Moosehead Lake, Maine.
Mt. Kineo, "the Monarch of the East," is situated near the centre of Moosehead Lake, and towers upward to the height of 2700 feet above the level of the seas on the easterly side, and in view from "Pebble Beach," the "Cliff" overhangs the Lake at a perpendicular height of 800 feet. Its summit, which is easy of access, reveals a picture of UNCIVILIZED POLAR BEAUTY.
The MT. KINEO HOUSE, J. R. CROCKETT, Superintendent, is located at the base of Mt. Kineo, and has within the last two months been enlarged, refitted, and furnished throughout with entirely new furniture. In the addition, just finished, is a large billiard hall; and on the premises is a bowling alley, together with new and beautiful sail and fishing boats, etc.
The house commands a magnificent view of the Lake, and the adjacent forests and mountains;—while the mountain breezes pass over the waters of the Lake, causing the air to be delightfully cool and bracing, and renders this place one of the most delightful summer resorts in New England for parties seeking health or pleasure.—Sportsmen will here find the best trout fishing in the country, while the surrounding forests abound with the stately moose and other varieties of game.
"Capt. Joe Barrows," and other popular and experienced guides, are engaged at the Mt. Kineo House, and will at all times be at the service of its guests.
Sail, yawl and flat boats and birch canoes furnished with guides.
☞ Parties wishing to visit the Mt. Kineo House, will take the early morning trains per Boston and Maine or Eastern Railroad, via Portland, daily, for Newport; or on Monday, Wednesday and Friday for Skowhegan and Bangor; or on Tuesday and Friday per steamer M. Sanford, for Bangor.
Coaches from either of the above places pass through a country of picturesque beauty, and connect at Greenville (foot of the Lake) with the elegant steamer "Fairy of the Lake," Capt. Thos. Robinson, which runs daily, Sundays excepted, to the Mt. Kineo House.
Through tickets from Boston to Mt. Kineo House, via Boston and Maine, and Androscoggin and Kennebec Railroads to Newport, thence by stage to Greenville (foot of the Lake,) and thence by steamer "Fairy of the Lake" to the House,—are sold at the Boston and Maine Station in Boston and in Lawrence. FARE THROUGH $7.50. Passengers have the privilege of stopping over at Portland, or any place East.
☞ Return tickets can be obtained of Capt. Robinson, on board steamer "Fairy of the Lake."

WEDNESDAY, AUGUST 7, 1861.

TAKING THE BULL BY THE HORNS.—Gen. Ben. Butler has written a very interesting letter to the Secretary of War, which is too long for our columns; but its contents are too important to pass without notice or comment.

Gen. Butler states that at the time of receiving the order to forward troops to Washington, he was preparing an advance movement on Yorktown, hoping thereby to cripple the resources of the enemy there, especially by seizing a large number of negroes, who were being impressed into their service for building intrenchments there.

He states that he has now this side of Hampton Creek 900 negroes, 300 being able-bodied men, and was desirous of instructions from the Department as to what he should do with them. After discussing the status upon which the slave women and children thus freed from their masters are to be considered, he is compelled by his own reasoning to look upon them as men and women,if not free born yet born slaves and manumitted, and sent forth from the hands that held them, never to be reclaimed. From many of them the masters had run away.

He would have no doubts as to how to proceed, had he not seen an order from General McDowell forbidding all fugitive slaves to be harbored within the lines.—And he asks:—

"If that order to be enforced in all Military Departments? If so, who are to be considered fugitive slaves? Is a slave to be considered fugitive, whose master runs away and leaves him? Is it forbidden to the troops to aid or harbor within their lines the negro children who are found therein, or is the soldier, when his march has destroyed their means of subsistence, to allow them to starve because he has driven off the rebel master? Now shall the commander of a regiment or battallion sit in judgment upon the question, whether any given black man has fled from his master, or his master fled from him? Indeed, how are the free born to be distinguished? Is one any more or less a fugitive slave because he has labored upon the rebel entrenchments? If he has so labored, if I understand it, he is to be harbored. By the reception of which are the rebels most to be distressed, by the taking of those who have wrought all their rebel masters desired, masked their batteries—or those who have refused to labor and left the batteries unmasked?"

If the enforcement of that order is the policy of the Government, as a soldier he is bound to enforce it steadfastly if not cheerfully, but he would take widely different course if left to his own discretion. Gen. Butler concludes as follows:—

"In a loyal State I would put down a servile insurrection; in a rebellious State I would confiscate that which was used to oppose my arms, and take all that property which constituted the wealth of that State, and furnished means to prosecute the war, beside being the cause of the war. And if in so doing it should be objected that human beings were brought to the free enjoyment of life, liberty and pursuit of happiness, such objection might not require much consideration."

No one who knows Butler, would think of counting him in among abolitionists: but he sees a *military necessity* for emancipation in some cases; and comes to the common sense conclusion, that in this war, if slavery cannot take care of itself among the rebels, the United States army had better "let it slide."

He is also disposed to take the same care of loyal negroes in a rebel country, as he would of loyal white men, women and children, in the same place.

MISSOURI. — The *political* news from both these States is most encouraging. The address of the Missouri Convention to the people of that State, is strongly against secession, treason and rebellion. It will be recollected that the Convention was called by an anti-Union Legislature; but the people elected delegates who favor "the Union, the Constitution and the enforcement of the laws."

The election for members of the Legislature and for State Treasurer, took place in Kentucky on Monday. The few returns received indicate that the Union majority will be as large as at the last Congressional election. The Governor and other State officers are chosen for four years, and the legal term of the present executive does not expire until September, 1863. Magoffin, the Governor, is a thinly-masked battery, to defend the secessionists.

☞ The Chicago Democrat, "Long John" Wentworth's paper, has been absorbed by the Tribune of the same city.—Mr. Wentworth retires—on a princely fortune.

CONGRESS did a large amount of business on Monday. Among other things, the bill legalizing the military call of the President, for volunteers, &c., passed both Houses.

In the House, Mr. May of Baltimore offered resolutions against the Republican party, in which he states that "it is impossible to subjugate the seceded States, which are united to a man in defence of their *sacred rights*,against the most *cruel* usages,"&c.

[Of course they did not pass; but they gave Mr. May a chance to show his cloven foot, and he showed it. The Union man who voted for him, fooled themselves. May is just as much a *Union* man as Breckinridge, Jo. Lane and Jeff. Davis—and no more.]

Mr. Porter of Indiana reported a bill requiring an oath of allegiance, and to support the Constitution, from the civil officers of the United States. A refusal to take the oath is to be cause for dismissal, and the breaking of the oath will subject the offender to an indictment for perjury. The bill passed.

A GOOD MOVE.—The most important action by Congress, Tuesday, was the passage by both Houses of a bill increasing the pay of non-commissioned officers and privates in the volunteer force, four dollars per month. That's right; the officers' pay was good before. Now, the sergeants and privates are to have a better chance. The army will increase as fast as it can be armed.

BIG GUNS.—The largest gun ever made in England, is called the "Horsfall gun." It weighs 22 tons, throws a solid shot of 360 pounds, with fifty pounds of powder, has been fired 130 times, and its range is 5000 yards. It is much inferior to the great American gun, "Union," which has been fired 300 times without the slightest injury. The latter gun throws a solid shot of 425 pounds 5,730 yards, with a charge of 40 pounds of powder; and a single shot striking an iron cased frigate, would make it reel as if it had received the concentrated kick of 34,000 horses.

BATTLES—Duane, in his Military Dictionary says:—Battles have ever been the last resources of good Generals. A situation where chance and accident often baffle and overcome the most prudential and most able arrangements, and where superiority of numbers by no means insure success, is such as is never entered into without a clear necessity for so doing. The fighting of a battle only because the enemy is near, or from having no other formed plan of offence, is not the way of making war. Darius lost his crown and life by it. Harold, of England, did the same; and Francis the First, of Pavia, lost the battle and his liberty. King John, of France, fought the battle of Poictiers, though ruin attend his enemy if he had not fought.—The King of Prussia lost his country, and the reputation which Prussia acquired from Frederick II, by the battle of Fena. A skillful General will give battle when his army and situation cannot be worse if defeated, than if he does not fight at all, and when the advantage may be great and the loss little.

☞ A bill which has passed both Houses providing for the punishment of offences against the United States, visits with imprisonment and fine any one who enlists persons, white or black, to aid rebellion.—While another kindred bill debars the owner of a slave who employs him in a similar service, from any claim for his recovery, thus freeing the slave from his disloyal master.

☞ An important provision has been adopted by Congress, to the effect that all volunteers accepted by the President and mustered into the service, for one, two or three years, or for and during the war, are to be paid from that time, without waiting until they reach the rendezvous.

☞ Gen. Dix caused to be searched, Saturday morning, at Baltimore, the steamer George Weeks, bound up the Patuxent river, and found 80 Colt's revolvers, 40,000 percussion caps, and a quarter of a barrel of quinine. The steamer will be confiscated, and the captain held in custody.

☞ The Washington correspondent of the N. Y. Journal of Commerce states that Senators and members have been known to absent themselves from public business and sit at a private gaming table for forty-eight hours, until they have lost from $40,000 to $50,000 each. Don't believe it.

☞ The regiment of Captain Montgomery, the man who figured so conspicuously during the border ruffian troubles in Kansas, has finally been mustered into service. It is known as the Third Volunteer Regiment of Kansas, and is composed of two companies of cavalry, one company of artillery, and four of infantry. A nephew of Louis Kossuth is the Adjutant.

☞ General McClellan is quietly but effectively progressing with the re-organization of his army, but there is so much secrecy observed in all his movements, that very little of the details is permitted to leak out. That the troops are being rapidly put upon a perfect war footing, however, appears to be certain.

LATE WAR ITEMS.—A New York item of the 5th, says:—

The steamer Coatzacoalcos arrived this afternoon from Washington. She saw no rebels or batteries on the Potomac.

She would have seen some, if she had not had a few guns mounted.

Misses Rogers and Hazlehurst, who went on a mission to our wounded men in the hands of the rebels, have returned. Upon arriving at Fairfax Court House, they were informed by the rebel officer in command there, that they would be allowed to proceed, and to bestow whatever attention they pleased upon the wounded soldiers, but they would be considered prisoners of war, and would not be allowed to leave the lines of the rebel army during the war. The ladies were unwilling to accept this condition.

The newspaper assaults upon the Blair family, charging them with having imprudently urged the "forward to Richmond" movement, has so much aroused the Maryland secessionists against them, that it has been deemed necessary to station a military force in the vicinity of Silver Springs, the residence of F. P. Blair, for the protection of his property.

It now appears certain that the rebels have only 15 cannon belonging to our army. Several nights ago they were greatly alarmed, fearing an attack was to be made upon them in the neighborhood of Fairfax Court House. Accordingly about 1500 men were sent to that vicinity. Strong parties of their cavalry are continually scouring the country this side of Fairfax. It is not known what number of troops they have there, but they are making preparations by means of railroads to reinforce Vienna, Centreville and Fairfax Court House, whenever they may deem it necessary. Lato events have emboldened them in their operations.

A special dispatch to the Post says that Col. Corcoran told the rebels that he would not accept a parole if one was offered him.

LOUISVILLE, Ky., Aug. 5.—At the Legislative election to-day, Harney, editor of the Democrat, was elected over Ex-Governor Merriwether, by from 900 to 1100 majority, which represents the Union majority in Jefferson county The Union majority in this city was about 6000. Judge Buckner, Union, is elected over James B. Clay, in Fayette county, by from 500 to 600 majority.

Richard C. Anderson, Union, nephew of Gen. Anderson of Fort Sumter, is elected in Franklin county by from 300 to 400 majority. J. W. Jacobs, Union, is elected in Oldham county. The returns thus far indicate a relative Union majority as large or larger than at the last Congressional election. All was quiet at the polls to-day.

These returns of votes do not afford much aid or comfort to Senator Breckinridge.

KANSAS CITY, Mo., Aug. 5.—Steamer West Wind, with 460 of the 1st regiment Nebraska volunteers and one company of regulars from Fort Leavenworth, under Col. Thayer, arrived last evening and proceeded this morning to Independence, where they liberated four Union men who were in jail there, and who were to have been executed this afternoon as Government spies.

The troops then returned and are on their way up the river. Col. Thayer says he saw nothing like rebellion at Independence, there being no organized body of rebels in the neighborhood. Several of the most prominent Secessionists fled on the approach of the troops, and others proclaimed themselves good Union men.

FORTRESS MONROE, Aug. 4.—More order is observable since the prohibition of intoxicating drinks.

Gen. Butler has arrived from Washington.

The S. R Spaulding will take to Boston the celebrated Winans' steam gun.

La Mountain has discovered that the rebels are mounting two very large guns on Sewall's Point. Is is supposed the guns are put up to annoy the shipping, if not the Fortress itself.

FAITHFUL MINISTERS OF HEALTH.—In examining the vessels at our wharves, we find among the curiosities of our commerce the brig Miranda, just in from Truxillo, with a cargo of Honduras Sarsaparilla for Dr. J. C. Ayer & Co., of Lowell. So particular are this firm as to the articles used in compounding their various remedies, that they have this drug, like some others they consume, gathered for them by a skillful agent of their own in the tropical regions of its growth. He informs us that there are many species of this plant, but two of which are really valuable in medicine; the qualities of these are also affected by the time of gathering, mode of curing, etc., operations which in that region of unreliable workmen impose a heavy labor on him. One of the inert varieties of Sarsaparilla grows wild in our own forests, and several others, nearly worthless, abound in Central and South America. The intelligent agent assured us that the virtues of this drug had never been fully told, and that the reason of the low esteem in which many hold it, is due to the importation of such immense quantities of the worthless varieties. His accounts of his trips to Honduras and his business excursions along the Gulf of Dulce and the rivers of Montagua and Santiago and among the adjacent mountains were of intense interest. We can but commend and honor his employers for the faithfulness and energy with which they execute their trust as ministers to the public health, and we suspect that this course is at least one of the reasons why their medicines are held in such extraordinary favor throughout the civilized world. —*New York City News.*

HARPER'S FERRY.—*Sandy Hook, Aug. 5.*—This morning a detachement of the New York 28th Regiment surprised a squad of rebel cavalry opposite Point of Rocks, killing three, wounding five, and taking seven prisoners, besides capturing a number of horses. They recrossed the river without loss. It is reported that a considerable number of rebel cavalry occupied Martinsburg on Saturday. There is no danger of an attack.

☞ The Government proposals for 800,000 pairs of shoes were opened a day or two since,and contained bids for over five millions,at from $1.87 to $2.20 per pair.

Everything in New Orleans is in a shocking condition: the yellow fever has broken amongst the troops and citizens, making affairs assume a melancholy aspect.—*Boston Post, Monday.*

WAR.—WAR on Rats, Roaches, and on all kinds of Vermin.

Boonsboro', Md., Mch. 21, '61.

Mr. Henry R. Costar—Dear Sir—Having occasion to visit a friend in Virginia, whose premises were so badly infested with Rats, that nothing could be kept out of their reach—he was, after trying various other preparations, persuaded to try your Exterminator.

The first test he gave it was in his barn; and to the astonishment of all—in the morning the floor was almost covered with dead rats. After seeing such a destruction of these horrid creatures, I have ever since recommended your invaluable preparation—and must, undoubtedly, pronounce your exterminator the most effective preparation for the destruction of Rats, Mice, Roaches, and such vermin, which has ever been brought before the public. Yours truly, F. H. IRWIN,

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently,effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, accompanying with such assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suirable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Downess of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my23 dawSm

THE CHRONICLE.—Owing to several changes among our carriers, of late, some subscribers have not been served so regularly as they and we desire. And with a view to secure more prompt and early delivery of our papers generally, in the morning, we intend to subdivide our lists, and put on another carrier forthwith. This is rendered advisable, if not absolutely necessary, by the regular steady increase of our subscribers, and especially by considerable additions of late.

Meantime, we will endeavor to correct any mistakes, delays or omissions of which we may be informed. And perhaps it is no more than fair to our noble little army of carriers, to say, it is not a small task to (print and) deliver several hundred papers, all over town, especially on short or stormy mornings; and that, although we have usually had the best of carriers, we never *have* been able to find any who can leave everybody's papers all at once.

TRAITORS.—*Mr. Chronicle*:—Allow me to call the attention of our citizens to the importance of an immediate organization of a Committee of Safety. Circumstances lead me to believe that such an organization is of the highest importance at the present time—not a committee that will sit with open doors to the rebels, nor elect a young convert lately from the ranks of Secessia for chairman or leader. Such a committee had better remain unorganized.

It is evident to me that we have men among us, although meek as the meekest, who are carrying and bringing information to and from the rebel headquarters. Let such men be strictly watched, and a word of kindly admonition might lead such to better manners than they have lately shown toward AN OLD CITIZEN.

PIC NIC.—The Sabbath School of the State Street Methodist Society, will hold a Social Pic-Nic at the Grove near New-Market Junction, this day, Wednesday, if fair weather. A special train of cars leaves the C. & P. Railroad Station in Portsmouth, at half-past 8. The location is beautiful, the ride a pleasant one; and with favorable weather, a day in the woods is a great treat.

☞ The Mirror says the Union Meeting in Manchester, the other night, "was a cheering demonstration, and showed to the Governor that Manchester would back him to the last cent in fitting out regiments for the war."

Gov. Berry was welcomed with great joy, and made a capital speech with telling effect. He said the Governor and Council were constantly in session, looking after the military of the State, and would do everything in their power to make the Third Regiment as comfortable as possible, and a credit to those who had charge of it. They patronized home industry, and bought everything of New Hampshire, needed for the Regiment.

☞ Union Meetings formerly meant proslavery gatherings. Why can't we have one in Portsmouth, now the term signifies something better?

☞ The Manchester Cornet Band, which accompanied the Second N. H. Regiment to Washington, returned to Manchester on Friday. After remaining in Washington several weeks, they were employed by the Massachusetts Eighth Regiment, Colonel Hinks, stationed at Baltimore, where they remained until the regiment returned to Massachusetts.

☞ To us, there is no stronger proof that the late corrupt National Administration was implicated in, and accessory to, the present Southern Rebellion,—than the fact that many if not most of the office holders under it, are now and have always been sympathisers or abettors of the traitors.

☞ Congress rose on Tuesday, at noon. In the House, Mr. May, of Md., asked leave to make a personal explanation. Objected to.

Mr. Bingham of Ohio asked unanimous consent to introduce a bill to define, prohibit and punish certain unlawful communications with the enemies of the United States, but Mr. Vallandigham objected.

Mr. Wickliff, of Ky., took occasion to say that the intelligence from Kentucky today, is that Kentucky is for the Union. She was the first that came into it, and she will be the last to leave it.

This announcement was received with wild delight, which continued for a long period, interspersed with exclamations of "Hurrah for Old Kentuck!" A more animated scene has seldom been witnessed. Subsequently Mr. Wickliffe retired without the bar of the House, where he was quickly surrounded by crowds of members to hear the particulars concerning the good news he announced.

NEW YORK, Aug. 6.—Capt. Cooper of the brig Lady Chapman, from Jacmel 18th, says it was reported that a pirate had been cruising in Crooked Island passage eight or ten days, but heard of no capture.

Two negroes who escaped to the Pocahontas state that the rebels are employing five hundred negroes to build fortifications at the mouth of the Rappahannock.

The Senate was in session till midnight, confirming army appointments. Among the appointments are Generals Butler and Schenck.

A Baltimore detective says he has seen more than a hundred secessionists from that city dodging about Washington daily acting as spies.

The exceeding minuteness of the rebel reconnoissances at Chain Bridge has induced Gen. McClellan to place an ample force there.

It is stated that the rebels intend keeping Magraw and Harris, who went with a flag of truce for Col. Cameron's body, to exchange for the pirates of the Savannah.

The World's dispatch says: It is believed that a large body of rebel infantry occupy Fairfax and 150 rebel cavalry at Fall's Church.

The rebel sympathizers of Baltimore have subscribed $2000 for provisions for the sixty-five rebel prisoners at Washington.

SACO, Me., Aug. 6.—A fire broke out last night in Marshal Pierce's peg factory, Springs Island, Biddeford, which was entirely consumed, together with Mark Prince's machine shop, Andrew Hobson's saw mill, and a number of smaller surrounding buildings and a lot of lumber; it also communicated across the river and destroyed a large furniture manufactory belonging to S. T. Shannon of Saco, and the machine shop of Charles Hardy. Loss probably $20,000.

The young lady who had a thousand acres of valuable land, which the young men said was sufficient grounds for attachment, did not marry as well as the young lady without a fortune, who had learned to discard *all* kinds of Saleratus or soda, save Herrick Allen's Gold Medal, which has no equal on this or the other Continent. Go, ye young ladies, and do likewise, and Dame Fortune will smile on you also. Everybody retails it, and most of the wholesale Grocers wholesale it. Depot 112 Liberty Street, New York.

Dyspepsia is known as one of the most distressing complaints which afflict humanity; and until the advent of the Oxygenated Bitters, had been considered incurable, or when curable, requiring years to accomplish it. The *Oxygenated Bitters* perform in a few days, cures, which other medicines take years to alleviate.

JOHN B. GIVENS, No. 94 Elm Street.

HOUSEKEEPERS troubled with vermin, need be so no longer, if they use "Costar's" Exterminators. We have used them to our satisfaction, and if a box cost $5, we would have it. We had tried poisons, but they effected nothing; but COSTAR'S article knocks the breath out of Rats, Mice and Bed Bugs, quicker than we can write it. It is in great demand all over the country.—*Medina (O.) Gazette.*

MORE GRAIN and provisions are annually destroyed in Grant County, by vermin, than would pay for tons of this Rat and Insect Killer.—*Lancaster (Wis.) Herald.*

AYER'S CATHARTIC PILLS.

Are you sick, feble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some 31 of them, when it creeps upon you, and should be arrested by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the Blood move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, opposed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, when it the best beyond feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the desperate and dangerous diseases of the human race

RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with scurf, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 90 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE RITTEDGE OF VERMONT.—Charles P. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTERDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

MOUNT KINEO HOUSE,
Moosehead Lake, Maine.
Mt. Kineo, "the Monarch of the East," is situated near the centre of Moosehead Lake, and towers upward to the height of 2700 feet above the level of the sea; on the easterly side, and in view from "Public Beach," the "Cliff" overhangs the Lake at a perpendicular height of 960 feet. Its summit, which is easy of access, reveals a picture of UNEQUALED FOREST BEAUTY.
The MT. KINEO HOUSE, J. E. CROCKER, Superintendent, is located at the base of Mt. Kineo, and is a large building, recently enlarged, refitted, and furnished throughout with entirely new furniture. In the addition, just finished, is a large billiard hall; and on the premises is a bowling alley, together with new and beautiful sail and fishing boats, etc.
The house commands a magnificent view of the Lake, and the adjacent forests and mountains;—while the mountain breezes pass over the waters of the Lake, causing the air to be delightfully cool and bracing, and renders this place one of the most delightful summer resorts in New England for parties seeking health or pleasure.—Sportsmen will here find the best trout fishing in the country, while the surrounding forests abound with the stately moose and other varieties of game.
"Capt. Joe Barrows," and other popular and experienced guides, are engaged at the Mt. Kineo House, and will at all times be at the service of its guests.
Sail, yawl and flat boats and birch canoes furnished with guides.
☞ Parties wishing to visit the Mt. Kineo House, will take the early morning trains per Boston and Maine or Eastern Railroad, via Portland, daily, for Newport; or on Monday, Wednesday and Friday for Skowhegan and Bangor; or on Tuesday and Friday per steamer M. Sanford, for Bangor.
Coaches from either of the above places pass through a country of picturesque beauty, and connect at Greenville (foot of the Lake) with the elegant steamer "Fairy of the Lake," Capt. Thos. Robinson, which runs daily, Sundays excepted, to the Mt. Kineo House.
Through tickets from Boston to Mt. Kineo House, via Boston and Maine, and Androscoggin and Kennebec Railroads to Newport, thence by stage to Greenville (foot of the Lake,) and thence by steamer "Fairy of the Lake" to the House,—are sold at the Boston and Maine Station in Boston and Lawrence. FARE THROUGH $7.50. Passengers have the privilege of stopping over at Portland, or any place East.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, AUGUST 8, 1861.

THE TRUTH LEAKS OUT AT LAST.—The Louisville papers contain pretty full accounts from the Richmond journals, of the great battle at Bull Run, or Stone Bridge, as the rebels call it. These reports (says the Boston Post) confirm what the telegraphic dispatches have hinted merely, that the rebels suffered very severely, losing far more men in killed and wounded, in proportion to their force on the field, than did our side. No better testimony to the valor of our troops could possibly be given than will be found in these reports. There was no lack of courage on the part of the rebels; they fought with the recklessness of desperation, knowing that the loss of Manassas would be the loss of everything. Now when such men, entrenched and defended by masked batteries, suffer a greater loss of life than their adversaries in the open field, there need be nothing further said in proof of Northern courage or skill. The rebels confess to having almost lost the fight, saying "the victory was the result of the most desperate, daring and dashing courage."—The Virginians confess the killed and wounded of 110 of their celebrated Black Horse or Hampton Legion; while of the Louisiana Independent Battalion of 400 men, commanded by the well-known fillbuster, Major Bob Wheat, less than 100 escaped death or severe wounds.

After the battle, says the Richmond Whig, there were 100 of our troops dead on the field. [Observe, the Whig does not say how many dead were carried off the field during the action.] Down to Saturday night last 240 more had died, and there remained 1000 wounded. The Yankee dead on the field, by actual count when they were buried, numbered 1500.

Gen. Alex. R. Boteler was among the wounded in the late battle.

There are said to be 1200 sick and wounded soldiers at Charlottsville, V., including many from the Federal army.

The New Orleans Picayune, of the 27th, publishes a letter from Manassas, dated July 23d, which contains the following important admission:—"From a very accurate report, just placed in my possession, it would appear that our loss in killed on the field was only between 500 and 600. This is a great loss, it is true, for they were the bravest of the army, and from the splendor with which they charged, were the best targets of the enemy. Our wounded will number between 2,000 and 3,000. Very many of them only slightly hurt in the hand, foot, arm, &c."

If the reader will bear in mind the fact, that the rebels did not pursue our flying troops very far, nor in great force; and that they did not move forward to Washington in a day or two;—he will see they felt their weakness and losses, and feared our strength.

While their numbers engaged, behind entrenchments, were two or three times as great as ours in open ground,—yet they needed Johnston's army to hold their entrenchments.

It would seem, then, that there could not have been been anything like 100,000 men there, probably not half of it.—Jeff. Davis says 15,000! and from this it is safe to say he had 30,000, before Johnston brought on his 15,000 or 17,000 more, which carried the day.

THE FIRST MAINE REGIMENT.—The Portland Argus says:—

From conversation with the returned soldiers, we gather the fact that the greater portion of them, more than three quarters of the whole regiment, are willing to re-enlist, and under the same field officers. The opinion was unanimous as to Col. Jackson.

The N. Y. Post says arrangements have been made for an early return of this regiment to the field of action. The officers have the written acceptance of the Secretary of War of its services, among the new volunteer regiments to be called into the field, and it will return in about a month.

Surely this don't look like ill-treatment, discouragement, or disgust!

☞ Forney says in a letter from Washington to his paper, the Philadelphia Press, that a son of Senator Breckinridge is in the Southern army. He might have added that the son, in his open rebellion, occupies a far nobler position than the father, draw-his pay as a Senator of the United States, while he does all he can to help treason and traitors.

There never was a greater disposition to unanimity in the Democratic ranks. We believe that the Democracy is the only party capable of restoring peace or carrying on a successful war; and so the people believe. —*Albany Atlas and Argus.*

This was written before the Kentucky election, and does not agree very well with its result.

LETTER FROM NEW YORK.

NEW YORK, August 5.

Dear Chronicle:—The returning New Hampshire Regiment passed through our city Saturday evening; but the lateness of the hour, and the uncertainty of their arrival, precluded the idea of a reception by the friends of the soldiers in the metropolis. They merely marched from one boat to the other, and appeared much exhausted after their long and heated ride. It is a mystery that they were not allowed to remain at the Park Barracks (which were empty) during the night, or even through the day following, instead of being kept on a continuous transit of nearly 500 miles, in the cramped condition which the modes of conveyance necessitated.*

One or two of the troops were slightly intoxicated, and created a slight disturbance at the pier, and one man experienced a *coup de brickbat!* The police proposed to take one of the men off, but the captain of one company, not having that respect for the officials which a city residence engenders, informed the "M. P.," rather savagely, that "if he touched one of his men he'd blow his brains out!" Concise, very.

Many of the men express a decided willingness to return, provided they are furnished with muskets with which they could fire at the side of a thirty-foot barn, at 50 paces, with some probability of hitting it!

They informed us that on several occasions rebel scouts had been seen on the other side of the river, (quite narrow at that point,) but beyond their reach; while the rebels threw balls into their ranks, and far beyond.

This complaint of "poor arms" should be inquired into; otherwise there is a moderate probability that the war will be brought to a close some time within the next four centuries!

There is not the slightest improvement in business circles. Claflin, Mellen & Co., who command the largest trade in the city, failed on Friday. Their liabilities, as last reported, are *eight million dollars!* Numerous smaller firms will doubtless be drawn into the suspension vortex from this failure.

We still have some excitement. Barnum exhibits Tillman, the wonderful "contraband," who smashed out the brains of several secessionists, bent upon taking a pleasant sea trip with him, "away down South in Dixie, and afterwards gave them a good salt-water bath. Also, "the identical hatchet with which he did it!"

The weather is oppressively warm. For ten days the glass has ranged from 95 to 100 in the shade. Horses trot the streets with lolling tongues, and we propose soon to bake our bread on the pavement! In the apartment in which we write, darkened and with every means of ventilation, the mercury indicates 91,—causing us to envy the condition of the bear, who was so cold that he had to climb the North Pole, and then slide down to keep his fur warm!

—— NEWINGTON.

*The N. Y. Commercial explains some *such* mysteries thus:

Considerable complaint is occasioned by the loose manner in which returning regiments are forwarded. This results from the neglect of transportation agents to telegraph the progress of the regiments to the Quartermaster in New York, and the first announcement he receives is their presence in the city. Consequently they have to wait until transportation can be provided.

☞ Mr. Robert McGraw, brother of Henry McGraw, who accompanied Arnold Harris in the expedition to recover the body of Col. Cameron, has received intelligence from his brother, through Baltimore.—Messrs. McGraw and Harris are comfortably cared for at Richmond. Mr. McGraw has been assigned prison quarters in a tobacco warehouse. The rebel leaders propose to exchange Messrs. Harris and McGraw for two of the officers of the piratical vessel captured by our fleet. This is the sublimity of impudence. Messrs. Harris and McGraw were taken prisoners while proceeding upon a mission of mercy under a flag of truce, and the pirates were captured in actual hostility not recognized as legitimate by any Christian people.

HOW NEWS IS SENT SOUTH.—All the news received at Louisville, Ky., is revised and rewritten by the agent of the Southern associated press, and he is compelled to make it suit Southern market readers.—This will account for the information that 32,000 handcuffs were captured at Bull Run, with which it was expected to manacle the Confederate prisoners, and also that 22,000 stand of arms had been taken from our forces.

FIVE FEMALES BURNT TO DEATH.—On the 8th ult., a fire occurred at Newman's Cove, a short distance from Bonavista, in the house of a man named Brown, who with his son was out fishing, when, melancholy to relate, five of his daughters were burned to death. The mother escaped through the window, with the hair all burned off her head.

Barnum lays it down as a rule, in his work on "The Art of Making Money," that the "*proper time to advertise judiciously, is when other folks don't.*"

NEW HAMPSHIRE ITEMS.

ORDERED BACK.—Major Stevens of the Second regiment, who came to the State last week for the purpose of obtaining recruits, received a dispatch, Monday, ordering him to report himself at Washington immediately. It is supposed that the order is occasioned by the necessity of a change in the officers of the regiment, on account of the disability, by reason of his wounds, of Col. Marston, to discharge his duties.

NEW CAP.—A very neat, cheap, convenient, and comfortable grey cloth cap, water proof, has been designed by Councilor Brooks of this State, and manufactured for the Third Regiment N. H. Volunteers.

THE ARMY WORMS are visible in half a dozen places in this State.

☞ Lieut. Young, of Co. F., 2d Regiment, N. H. V., in a letter to the Coos Republican, gives the following incidents:—

As our Regiment marched off by companies in regular order, they were made the especial mark of their batteries; it was here that our men were cut up the worst—here that our flag was repeatedly shot out of its bearer's hands, its eagle shot off and its staff completely shattered. The Color Sergeant of our Regiment, Lawrence, is indeed a brave fellow. After Dustin, the bearer of one of our flags was killed, Lawrence took both, and with them still waving aloft, carried them in triumph from the field, while most of the other regiments lost theirs.

Private Cyrus W. Merrill, was shot through the breast about the middle of the engagement. When it was thought by his watchers that we had taken the batteries, and were successful; although scarcely able to whisper, he clasped his hands composedly and said, "Glorious, glorious, I am now ready to die."

One member of Co. F was hit by *bullets twice* on his U. S. belt plate, which knocked him down and led those near to suppose him to be killed. His clothes were actually riddled with bullets.

SOLDIERS' PAY.—It appears that just as Congress was adjourning, the bill to increase the pay of the army was modified before its final passage, making the increase $2 per month, instead of $4. We are sorry they did not give the $4, but glad they gave the $2.

The Boston Courier disapproves of the increase, and says:

The additional pay provided by Congress for the troops, under the bill introduced by Mr. Wilson, appears to us both unnecessary and impolitic. We suppose that those likely to do so, would enlist at the former rate of pay, as well as that now agreed to. In this case, it is adding very unnecessarily to the very large expenses of the country. It takes off a good deal, also, from the idea of patriotism, which ought to be enough to secure citizen soldiers at the ordinary pay. But Congress has done a good many not very judicious things, this session.

But, says Uncle Toby, on the contrary, it is, in our view, *judicious*, just and equitable. We rejoice that Congress has seen fit to add this little pittance to the monthly pay of the common soldier and sergeant, without increasing the officers' pay, as that was pretty good before.

We have a great regard for those patriots who serve on small pay, as the Courier suggests—or none at all!

And Uncle Toby would suggest that in these hard times the editors of the Courier should each live on $11 per month, rations 30 cts. a day, and a suit of gray clothes every six months, for the sake of the Union.

It would "take off a good deal from the idea of *patriotism*," if they should receive $2 more per month—and if they should get $500 per year, it might spoil the whole thing, and they be no patriots at all.

We know it would add a few millions, some say seven, to the cost of the war—but it is only a drop in the bucket! and *this* drop goes exactly where it is wanted.

GARIBALDI OFFERS HIS SERVICES.—The New York Post states that Garibaldi, the soldier of European freedom, is deeply interested in our struggle for liberty, and is anxious to take a part in it to the best of his ability. He has offered his services to the Government, and will accept of any position which will enable him to exert his unrivalled military powers in his peculiar way.

☞ A son of New Hampshire, who lately returned from the war in a Massachusetts regiment, states that his company was often left in charge of the orderly Sergeant, for a day or days together, while the commissioned officers were idling away their time in a fashionable hotel. Reformation in such things as those, is most imperiously demanded.

TWO ITEMS FROM THE BATH TIMES.—"No-*rum*-bega," exclaimed the "Knights of the Golden Circle" when the proprietors of the great Hall in Bangor wisely decide to close its doors against a treason meeting.

The Paris Democrat says Virgil D. Parris was chairman of the late Norembega caucus in that town.

"I COULD IF I WOULD."—We are informed by the Mobile Express, that if the South choose, they can, in the course of a few months, plant the Palmetto flag on the Bunker Hill Monument. We think they will not choose.

NEW YORK, Aug. 6. A dispatch to the Tribune says that a Union citizen of Winchester, who left there Tuesday last, states that Johnston's force at no time exceeded 15,000, at Martinsburg, &c. That Winchester would have welcomed Patterson with open arms; that Johnston's orders were to retreat on Manassas, and that the militia of Winchester would have sided with Gen. Patterson. There are no troops at present at Winchester but its own militia. The rebels had but fifteen cannon at Winchester, and Patterson's course has alienated many who would have welcomed a bold and decisive movement.

ALBANY, N. Y., Aug. 6.—The Republican State Committee met this afternoon and passed a resolution appointing a Committee of five to confer upon the Democratic State Committee on the 8th of August, inst., and invite them to call their Convention at the same time and place as the Republican, for the purpose of enabling the two Conventions to unite in the nomination of a Union ticket, pledged to a vigorous prosecution of the war, for the restoration of the Constitution and the execution of the Federal laws in all sections of the country.

WAR.—WAR on Rats, Roaches, and on all kinds of Vermin.

BOONSBORO', Md., Mch. 21, '61.

Mr. Henry R. Coetar—Dear Sir—Having occasion to visit a friend in Virginia, whose premises were so badly infested with Rats, that nothing could be kept out of their reach—he was, after trying various other preparations, persuaded to try your Exterminator.

The first test he gave it was in his barn; and to the astonishment of all—in the morning the floor was almost covered with dead rats. After seeing such a destruction of these horrid creatures, I have ever since recommended your invaluable preparation—and must, undoubtedly, pronounce your exterminator the most effective preparation for the destruction of Rats, Mice, Roaches, and such vermin, which has ever been brought before the public. Yours truly, F. H. IRWIN,
(Editor of the Odd Fellow.)

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James P. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B Safford, Exeter; J. W Green, Hampton Falls; and by dealers everywhere.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawdm

Local.

☞ The venerable Athenaeum building, is undergoing repairs and improvements in the Library Room.— The library will be contained in the former room, with the addition of a portion of the old room formerly used for the cabinet of curiosities, in the third story. A large space has been cut in the floor of the third story, (giving more light and ventilation to the room on the second floor) which now forms a sort of gallery.

The improvements evince the good taste and judgment of the Directors, especially Rev. Dr. Burroughs, the time-honored President and patron of this valuable institution.

☞ Superintendent Ayers, of the Portsmouth Aqueduct, Co., has laid a pipe in rear of Exchange Buildings to the corner of Jefferson Market lot, on the South side and suitable fixtures are to be placed there; immediately, so that "man and beast" can at any time procure a drink of water, without trouble to themselves or anybody else. This is a good move, and will supply a want long felt in Port mouth. The first thing to be done however, is to dig and build a reservoir to supply the pump. This is to be circular, eight feet deep and eight feet in diameter, and will contain about 3,000 gallons.

☞ We are glad to notice a new pavement on Vaughan Steet, from the corner of Deer Street to the Railroad crossing, an improvement that will be appreciated by all pedestrians who visit that portion of the city.

☞ The great black dog which has for years been attached to the City Hotel in this city, was complained of—or rather Major Goodwin, the present landlord of the house was, for keeping him—before Associate Justice Hoyt, on Tuesday afternoon. Dr. Perry was the complainant, and testified that the dog had on several occasions, late at night, rushed at him as he was passing the hotel, and driven him off the sidewalk. The question, with the Court, was as to the ownership of the brute, and it was shown that he belonged to Mr. Wm. Fernald, but was in charge of Major Goodwin. So his Honor took the case in consideration, and on Wednesday morning fined Maj. Goodwin $2 and the costs—from which sentence he appealed. Our streets are tolerably free from dogs nowa-days; yet there are plenty of useless curs whose perpetual absence would be a favor to the community, and injury to nobody.

For Europe.—Among the passengers in the steamer Arabia, which sailed from Boston, on Wednesday, for Queenstown, were Capt. John G. Moses, Col. Albert L. Jones, wife and sister, all of this city. Prince Alfred and suite, join the ship at Halifax.

☞ Free Speech is indeed a precious boon; but, in the name of common sense and consistency, why send regiments South to "whip in" the rebels there, while their traitorous sympathizers here at home, are undisturbed in their encouragement and endorsement of treason?

Washington, Aug. 6.—The Navy Department is in receipt of a letter from Commander Goldsboro, of the U. S. steamer Union, in which he says the brig ashore near Cape Hatteras proved to be the B. T. Martin, of Boston, which had been in the possession of the rebels. Men were unloading her, when he sent a party, who, after shelling the place, set fire to the vessel and effectually destroyed her and her cargo.

It appears by official advices from the Gulf squadron that on the 4th of July, off Galveston, the United States steamer South Carolina, captured six schooners, on the 5th two, and ran ashore on the 6th one, and on the 7th one, making in all eleven sail destroyed or captured. A portion of them had cargoes, chiefly of lumber. Among other things captured were 13 mail bags and 31 bags containing express matter.

On the 5th of July off St. Marks, Florida, the U. S. steamer Mobawk, captured the sloop Geo. B Sloat, while attempting to run the blockade. There were 62 passengers on board, among them the wife and three children and servants of Adjutant General Holland of Florida.

New York, Aug. 7.—44 regiments for the war have been enlisted in Illinois, and the government has been urged to accept them, but cannot arm them at present.

The Engineers of the N. Y. Fire Department are in Washington, endeavoring to reorganize the Fire Zouaves.

Rifle cannon are constantly arriving, and we have now more cannon than before the late battle.

☞ It is said the sailors taken prisoners with Lieut. Selden refused to a man to join the rebels. They say Selden is a traitor, and lost his prizes purposely.

A spy was arrested near Long Bridge, with Beauregard's pass with him.

Virginia claimants are filing charges against the government for damages by U. S. troops.

The Kentucky Legion will soon be mustered into service.

A person from Vienna says 10,000 rebels are there and at Falls Church, menacing an attack on Alexandria.

Baltimore is to be the depot of the grand Eastern army hereafter.

☞ The Navy Department will at once issue proposals in connection with the construction of the twelve side-wheel steamers and one or more iron-clad vessels recently authorized by Congress.

Sharp Skirmish in Missouri.—*Springfield, Mo., Aug. 2.*—A battle occurred to day, 19 miles south of this place, between the forces of Gen. Lyon and Ben McCulbough. 8 of the former were killed and 30 wounded, while 40 rebels were killed and 44 wounded. Gen. Lyon took 80 stand of arms and 15 horses and wagons. Our cavalry, 270 strong, made a charge on a large body of rebels, said to be 4000 strong, cutting their way through and routing them, with a loss of only five cavalry. The charge was most gallant and terrible. The enemy retired during the night, and Gen. Lyon took possession of the field. Another battle is momentarily expected.

Philadelphia, Aug. 7.—The gunboat Flag arrived this morning with 36 rebel pirates from a vessel lately stolen at Charleston, formerly the revenue cutter Aiken.—The pirate fired into the frigate St. Lawrence, mistaking her for a merchant vessel, when the St. Lawrence returned a broadside, sinking her. Five of the crew were lost.

☞ According to dispatches in the Extra Traveller of Wednesday evening the coast of North Carolina swarms with rebel privaterrs, which are capturing prizes almost daily. They are said to pay no regard to the blockade.

☞ At the close of Congress the bills passed by the House increasing the number of cadets and midshipmen, failed in the Senate. The resolution approving and legalizing the acts of the President was not finally acted upon in the Senate.

The young lady who had a thousand acres of valuable land, which the young men said was sufficient grounds for attachment, did not marry as well as the young lady without a fortune, who had learned to discard *all* kinds of Saleratus or soda, save Herrick Allen's Gold Medal, which has no equal on this or the other Continent. Go, ye young ladies, and do likewise, and Dame Fortune will smile on you also. Everybody retails it, and most of the wholesale Grocers wholesale it. Depot 112 Liberty Street, New York.

Dyspepsia is known as one of the most distressing complaints which afflict humanity; and until the advent of the Oxygenated Bitters, had been considered incurable, or when curable, requiring years to accomplish it. The *Oxygenated Bitters* perform in a few days, cures, which other medicines take years to alleviate.

HENRY R. COSTAR:—All the summer I have been troubled with Roaches and Mice. I was actually ashamed of the house, for the Roaches were everywhere. I purchased a box of your Exterminator and tried it, and in one week there was not a Roach or Mouse in the house.
JOHN B. GIVENS, No. 94 Elm Street.

HOUSEKEEPERS troubled with vermin, need be so no longer, if they use "Costar's" Exterminators. We have used them to our satisfaction, and if a box cost $5, we would have it. We had tried poisons, but they effected nothing; but Costar's article knocks the breath out of Rats, Mice and Bed Bugs, quicker than we can write it. It is in great demand all over the country.—*Medina (O.) Gazette.*

MORE GRAIN and provisions are annually destroyed in Grant County, by vermin, than would pay for tons of this Rat and Insect Killer.—*Lancaster (Wis.) Herald.*

HENRY R. COSTAR:—Your Exterminator is received, used, and pronounced a decided success. We used a box of it, and the way the Rats and Mice "raised Ned" that night, was a caution to sleepers. Since then, not a Rat or Mouse has been heard in kitchen or cellar.—*Magregor (Iowa) Times.*

I HAVE BEEN SELLING your Exterminator for the last year, and have found it a sure shot every time. I have not known it to fail in a single instance.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Have you not at order, with your system disranged, and your feelings miserable? These symptoms are often the prelude to serious illness. Some bit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, and often great distress. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and obstinate distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are equally amenable, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons

From a Benevolent Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cutterright, New Orleans.

Your Pills are the prince of purges, their excellence quantities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaint I have cured with your Pills better than to say all that I *can treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing it do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREELE, *Clerk of Steamer Clarion.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can recollect. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1857.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their decided taking action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have repeatedly found cases of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I minister to visit in sickness. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. Without a dose or two of them we have none of as effusions as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although not enough to kill, is the propositor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural *travail* when wholly or partially suppressed, and also very effectual to cleanse the stomach and bowels. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawley, of the Methodist Episc. Church.

PULASKI HOTEL, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my kidneys and brought on extreme nervous paralysis, which made me shake like a shivering ague. Nevertheless I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Madden, I tried your Pills—their effects were slow, but sure. In preparing for the use of them, I was now entirely well.

SUGAR CREEK, Baton Rouge, La., 17 Dec. 1855.

DR. AYER: I have been entirely cured by your Pills of *Rheumatic Gout*—a painful disease that has afflicted me for years.

VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the decided cumulative nature that frequently follows its incautious use. These contain no mercury or mineral substance whatever.

☞ 25 cents per Box, or 5 Boxes for $1.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and being driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

MOUNT KINEO HOUSE,
Moosehead Lake, Maine.

Mt. Kineo, "the Monarch of the East," is situated near the centre of Moosehead Lake, and towered to the height of 1000 feet above the level of the sea; on the easterly side, and in view from "Pebble Beach," the "Cliff" overhangs the Lake at a perpendicular height of 900 feet. Its summit, which is easy of access, reveals a picture of UNEQUALLED FOREST BEAUTY.

The MT. KINEO HOUSE, J. R. CROCKER, Superintendent, is located at the base of Mt. Kineo, and has within the last two months been enlarged, refitted and furnished throughout with entirely new furniture. In the addition, just finished, is a large billiard hall; and on the premises is a bowling alley, together with new and beautiful sail and fishing boats, etc.

The house commands a magnificent view of the Lake, and the adjacent forests and mountains;—while the mountain breezes pass over the waters of the Lake, causing the air to be delightfully cool and bracing, and renders this place one of the most delightful summer resorts in New England for parties seeking health or pleasure.—Sportsmen will find the best trout fishing in the country, while the surrounding forests abound with the stately moose and other varieties of game.

"Capt. Joe Barrows," and other popular and experienced guides, are engaged at the Mt. Kineo House, and will at all times be at the service of its guests.

Sail, yawl and flat boats and birch canoes furnished with guides.

☞ Parties wishing to visit the Mt. Kineo House, will take the early morning trains per Boston and Maine or Eastern Railroad, via Portland, daily, for Newport; or on Monday, Wednesday and Friday for Skowhegan and Bangor; or on Tuesday and Friday per steamer M. Sanford, for Bangor.

Coaches from either of the above places pass through a country of picturesque beauty, and connect at Greenville (foot of the Lake) with the elegant steamer "Fairy of the Lake," Capt. Thos. Robinson, which runs daily, Sundays excepted, to the Mt. Kineo House.

Through tickets from Boston to Mt. Kineo House, via Boston and Maine, and Androscoggin and Kennebec Railroads to Newport, thence by stage to Greenville (foot of the Lake,) and thence by steamer "Fairy of the Lake" to the House, are sold at the Boston and Maine Station in Boston and in Lawrence. QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.

FRIDAY, AUGUST 9, 1861.

PIRATES MOVING.

Advices from Fort Monroe August 6, bring a large amount of privateering news, of which we copy a part.

The frigate Wabash has arrived from off Charleston for coal and water, having been relieved by the Roanoke. She recaptured the schooner Mary Alice, which had been taken by the privateer schooner Dixie, and the pirate crew on the prize are now on board the Wabash. She also took brig Sarah Starr, from Wilmington for England, with turpentine and rosin, sailing under English colors.

The Quaker City picked up, this morning near the Capes, a small boat containing ten shipmasters and seamen, who had escaped from Fort Oregon, North Carolina. They give some startling intelligence of doings on the North Carolina coast. At Hatteras Inlet there are three pirate steamers, and a pilot boat. One of the steamers, the Gordon, run the blockade at Charleston, and of the whole coast up to Hatteras Inlet ten days ago, since which time she has captured brig H. Wm. McGilvery, of Bangor, for Cardenas, with a cargo of molasses, and the schooner Protector, from Cuba, with fruit.

The privateers are the Gordon; the Coffee, a side wheel steamer formerly running between Old Point and Norfolk; the steamer Norfolk; and the Marion, formerly a Norfolk pilot boat. All are armed with rifled cannon. Those vessels from Norfolk were formerly taken down the canal to Albemarle Sound. New Haven, N. C., is the headquarters of these privateers. Ten gunboats are being collected and mounted at Norfolk, to be taken down the canal. Crews for them are being shipped at Newbern.

Bark Glen of Portland, with Government coal, was captured a week ago and taken to Beaufort, N. C.

The refugees state that the rebels scarcely regard the coast blockade at all, and consider the Quaker City as the only boat doing efficient service against them. During all this time several gunboats have been quietly anchored at Old Point.

It is an easy thing to find fault with the Navy Department; so easy that we don't care to have a hand in it. Nevertheless we do wish that somebody would take the responsibility of sending a few well armed small vessels to New Haven, N.C., and along shore and stop this leak in the blockade.

THE WAR TAXES, as every body knows, must and will be onerous.

The Direct Tax of $20,000,000, just authorized by Congress, will call on New Hampshire for $216,406 66 2-3 cents, as her share of this burden.

The tax on lands and lots of ground, is so laid, that the man whose land is worth only $500 will not pay any tax at all on it. If it is worth $1000, he will pay his tax on $500; if it is worth 1500, he will pay on 1000; and so on.

Watches are to be taxed, 50 cts. for silver; $1 for gold. Carriages not worth over $50 are to be taxed $1—Worth from $50 to $100, are to pay $4,—and so of more costly vehicles.

There is also to be a tax of three per cent. on the income of residents, amounting to upward of $800 per annum; and five per cent. on American incomes of non-residents.

☞ We have a letter from Washington, written by a Portsmouth Volunteer, defending one of his officers from the *rumors* concerning his lack of bravery. But it would be more than idle to publish it—for none of his friends doubt his courage now; and certainly, what a man's enemies think or say of him, is not worth noticing. And further, it is well to remember that while a lie will run itself to death, the truth must and will prevail in the end.

☞ The Alta California, in speaking of the party nominations for Governor in that State, says:

There is no perceptible difference between the Republican and Democratic platforms. The only question before the American people is that of Union or Disunion.—Upon that both are equally sound. To-day the creed of the Republicans is just as much Democratic as it is Republican, and the Democratic resolutions are as much Republican as they are Democratic."

☞ The Assistant Secretary of the Navy is in New York. He has been at the Navy Yard, and the different ship yards where chartered and purchased vessels are fitting out.

NEW HAMPSHIRE ITEMS.

THE THIRD REGIMENT.—Col. Hawkes Fearing, Jr., has declined the Colonelcy of the new 3d Regiment N. H. Volunteers;—Enoch Q. Fellows, of Sandwich, has been appointed Colonel. Col. Fellows has just returned as Adjutant of the First N. H. Regiment. He was Doorkeeper of the Senate in 1853–4, and in the Boston Custom House during parts of the administrations of Pierce and Buchanan. He was for a while at West Point, and is said to have been popular in the 1st Regiment.

Major Alfred J. Hill, of this city, has been appointed Adjutant of the Third Regiment. Major Hill was in the 9th Regiment U. S. Infantry, in the Mexican war, and is an officer of experience and ability.

The company of Irish volunteers enlisted at Manchester by Capt. Donahoe, went into camp at Concord on Thursday.

HORSE GUARDS.—It is reported that efforts are being made to have the Governor's Horse Guards go into camp for a few days, during the coming Fall, for drill and discipline. The matter is not decided as yet, nor any place selected—although Concord seems to afford the best quarters for a regiment of horses and riders.

REGATTA EXTRAORDINARY.

ATLANTIC HOUSE, Isles of Shoals,
Wednesday, Aug. 7.

Dear Chronicle:—Star Island, this morning, was the scene of an unusual excitement. For a day or two past, a match between the different row boats has been talked of; and this morning, after thoroughly discussing the preliminaries, a purse was made up and the boats selected. The distance was from the flag-boat stationed off the "Cove," around Square Rock, and back. Distance five miles. The boats entered were the Dart, manned by James Randall and J. Cook Randall; Flirt, by L. Berry and O. Caswell; and the Belle, by H. Berry and Judson Randall.

The signal for starting being given, they went off in fine style, the Dart taking the lead. By an unfortunate occurrence, the Flirt was disabled soon after starting, and was obliged to return, thus leaving the contest to the Dart and Belle. The race now became exciting. Both parties bent to their oars with an energy and skill that for some time rendered it doubtful as to the result. As the boats neared the goal, however, the Belle gradually drew ahead, and rounded the rock at least a hundred yards in advance of her competitor. As she made her appearance around the eastern end of the island, cheer upon cheer greeted her, ladies waving their handkerchiefs and "flats."—The oarsmen bent to their task with redoubled energy, and soon came up with the flag-boat. Distance run, five miles. Time, *twenty-four minutes*.

This affair has started a spirit of rivalry among the boatmen, and another race is being made up. The next time a larger fleet will enter. Rare sport is expected.

Yours, NEP.

NEW YORK, August 7.

* * * The new stamped government envelopes make their appearance to-day. The stamp is of the same form, but of a pink color, with the words "United States" above, and "Three Cents" below, and the figure "3" on each side. Six days are allowed for the exchange of envelopes. No alteration has yet been made in the loose stamps.

We wish to enquire, (confidentially of course!) whether the Post Office officials ought not to be regarded as "rebels" from the frequency with which they *stamp and deface Geo. Washington!*

NEWINGTON.

THE FIRE ZOUAVES.—Assistant Engineers Baulch and Bryce, of the New York Fire Department, have been in Washington exerting themselves to induce the members of Fire Zouaves to return to their regiment. They met with little success. These deserters, for the most part, were not members of the Fire Department, but of the riff-raff who loaf about the engine houses. Nearly all the firemen proper are still in camp, determined to remain until the period of their enlistment expires.

☞ Our New York correspondent sends us an interesting account (for which we lack room) of the origin of the difficulties respecting the Fire Zouaves—from which it would appear that the trouble was at first mainly political, between Gen. Wool and Gen. Morgan and other State politicians. Let parties slide, while we crush out rebellion and save the nation.

☞ New Bedford and Portsmouth, N. H., are competitors for possessing the new receiving ship which will probably be established. The friends of this latter city claim that their established Navy Yard should decide for them; while those who press the claims of New Bedford, think that nothing should be permitted to exceed in importance the facilities which New Bedford possesses for obtaining men acquainted with the seas.

☞ Four editors of prominent Southern journals were killed in the battle of Bull Run.

INCENDIARY FIRES AT FRANCESTOWN, N. H.—About a month ago a shop belonging to Mr. F. B. Starrett, at Francestown, N. H., containing tools and stock to a considerable amount, was burnt. It was then supposed that the fire must have been set by an enemy. On Friday last, Mr. Starrett's barn, containing a large amount of hay and numerous farming tools, was discovered to be on fire, the flames being beyond control. A man by the name of John Balch has been arrested, charged with the deed.

☞ The general order prohibiting volunteers not speaking English from being mustered into the service, is not intended to apply to regiments or companies of foreign nationality where the men and officers speak the same tongue, but to prevent enlistment in English regiments of men not understanding English, and to induce such to enlist in regiments whose officers' language they do understand.

☞ The Boston Post takes good loyal views of the War and the Government,—in strong contrast to the New York Journal of Commerce, which is about on a par with May and Winans of Baltimore.

The Manchester Union and the Dover Gazette in New Hampshire, and the Bath Times in Maine, are loyal also to the Nation and Government, in honorable contrast to some other sheets that shall be nameless.

☞ A naval officer of the blockading fleet off Charleston, writes in a private letter, that ten thousand men can easily take that city and the fortifications, and hold them, and he thinks it would be the most effective blow that can be struck against the rebellion.

WASHINGTON, Aug. 7.—The movements of the troops are conducted with the least possible parade and publicity. It is evident, however, that Gen. McClellan is employed in making the best disposition of the forces under his command, with a view to the protection of the Capital, should the rebels, relying on disloyal Marylanders as co-workers, threaten security.

Reports are current that a large body of rebels, supposed a part of Johnston's command, have been seen within two miles of the Potomac Great Falls, nearly in a direct line with a fording place. If this is true, the rebels would not find their position unobstructed, and would discover arrangements on the part of the Federal Government not inserted in the disunion programme. It is known there is, on the part of our troops, the utmost vigilance, while our lines are sufficiently extended to guard against surprise from any quarter.

Hon. A. W. Randall has been appointed Minister to Rome, vice Rufus King, resigned to take command of the Wisconsin Brigade in Baltimore, to which city he was ordered to-day.

Capt. Andrew A. Harwood, who has been acting as Chief of the Bureau of Ordnance and Hydrography, was confirmed by the Senate.

An order was issued to-day directing Postmasters to send to the Dead Letter Office, all envelopes having printed or written upon them scandalous or scurrilous matter.

☞ The Treasury Department has received most encouraging advices relative to the taking of the national loan. The monthly statement of the Treasurer says that he had $7,250,000 subject to draft on the 1st inst.

GOVERNMENT STOCKS.—The Boston Post's money article of Tuesday says;

During last week U. S. Sixes advanced to within a fraction of the figure attained previous to the Bull Run *fiasco*. Gov't securities of all sorts are in large and steady demand from investors, whether of the seaboard or interior.

A PRIVATEER SUNK BY A U. S. FRIGATE.—*Philadelphia, Aug. 7.*—The gunboat Flag arrived at Mifflin this morning, with 36 rebel pirates taken from a vessel lately stolen at Charleston, formerly the revenue cutter Aiken. The pirate fired a gun at the frigate St. Lawrence off Charleston, mistaking her for a merchantman, when the St. Lawrence returned a broadside, sinking her. Five of the crew were lost, and the rest were rescued by boats and placed on the gunboat Flag.

The name of the privateer was "Petrel." She fired nine shots at the St. Lawrence.—The latter's shells cut the pirate vessel completely in two. The following are the names of the officers: Capt. Wm. Perry, of South Carolina, Lieut. R. M. Harvey, of North Carolina, prize master Peyrussett, of France. Nearly all of the crew are Irish, who state that they were out of work. The crew were ironed and are lodged in Moyamensing prison.

GREAT BRITAIN.—In the House of Commons on the 25th, Sir C. Wood said the Government had evinced great anxiety to develope the resources of India as a cotton producing country, and he believed the result would be that ultimately England would be rendered independent of America for cotton. This year the supply of cotton from India will be about 300,000 bales more than ever before.

☞ The Phrenological Journal for August contains likenesses of Stephen A. Douglas, and Brunel the engineer, with notices. The Water Cure has a likeness of Old Parr. Both contain a great variety of interesting matter. Fowler & Wells, publishers, New York.

☞ The Rockingham Association of Universalists will hold its annual session at Atkinson, on Wednesday and Thursday, August 28th and 29th.

NEW YORK, Aug. 7.—A dispatch says no rebel troops are within ten miles of Alexandria.

A deserter from the rebels, who was impressed, states that the enemy retain their old position and are badly provisioned, being alternately starved and surfeited. They are much disorganized by the late battle, and large numbers, especially foreigners, are being impressed.

The War Department has official information of the victory of General Lyon over McCulloch.

Numbers of slaves daily flock to Gen. Banks' camp. Many have been returned to their owners, they claiming to be Union men.

A skirmish took place last night between the federal and rebel pickets at Falls' Church, in which several of the latter were killed and two of our troops wounded.

FORTRESS MONROE, July 6.—General Butler returned to Old Point this morning, and spent the afternoon at Newport News experimenting with Hotchkiss shells.

It is understood that the army here is to be greatly increased.

Hampton is to be re-occupied on the arrival of the first regiment from the North.

The frigate Savannah is to be towed up the Roads, and proceeds to Newport News to release the Dale now ordered to sea.

The crew of the bark Lynwood, wrecked off Cape Hatteras, arrived to day. They were picked up in a boat off Cape Henry.

AUGUSTA, Me., Aug. 7.—The Republican State Convention met to-day. it was large and enthusiastic. Israel Washburn, Jr., was unanimously renominated for Governor.—The resolutions adopted declare that the war has been forced upon the North, and is now waged by us without desire for subjugation or conquest, but to maintain the supremacy of the laws and the dignity and equality of the several States, and that when this object is accomplished the war should cease. They also endorse the nomination of Mr. Washburn, and express confidence in the army and nation.

WASHINGTON, ITEMS.—*Aug. 8*—The World's dispatch says it was rumored all day that the rebels were closer on our lines than ever, but it is false.

Several officers yesterday discovered a large body of rebels encamped in the vicinity of Great Falls, two miles from the river, opposite a fording place which had to be approached from the Virginia side by a narrow defile.

An unbroken chain of Federal pickets is now extended on the Potomac from Washington to Harper's Ferry.

A private letter from Culpepper Court House states that 1200 rebel troops are sick there, and that every man in the country has been impressed.

Mr. Breckinridge left for Kentucky today.

It is reported that Wise has a thousand Union men impressed into his army.

The Navy Department to-day invites proposals for the construction of one or more iron clad steamers of not less than 10, and no more than 16 feet draft, to carry an armament of from 80 to 120 tons weight, and stores for from 160 to 300 men for 60 days, and eight days coal.

A Kentucky cavalry regiment has been accepted.

The rebels are perpetrating outrages in the vicinity of Centreville. Women are insulted, and every man hesitating to join the rebel force is sent to Manassas or Richmond.

Intercepted correspondence has disclosed the names of female rebels in Washington, and it frequently happens that such are confronted by proofs of their disloyalty upon applying for passes.

The Herald's dispatch says another flag of truce was received to-day by Col. McCunn. It brought about 300 letters from Union prisoners at Richmond and Mannassas; also Col. Cameron's watch, ring, and the daguerreotype of his wife and daughter, with the information that his grave is carefully marked.

The English and French ministers are in receipt of intelligence that vessels pass in and out of the blockaded ports without apparent opposition. Officers just from the blockaded ports say that quite a number of vessels from foreign ports had run the blockade. These facts have been laid before government, and it is generally conceded that the navy department is entirely inefficient.

The fall in the price of sugars within the last few months is necessarily attended by a corresponding depreciation in sugar estates in Cuba, and their negro apprentances. The sum ordinarily realized for good negroes, landed in Cuba, averages not far from $750 per man; but we are told that nothing like this amount can be obtained now.—*Boston Post.*

A band of 1000 rebels attacked a camp of 400 or 500 Union men at Athens, Mo., Monday, Aug. 5, but were driven back and pursued, with a loss of about 30 killed and 18 prisoners. The Unionists lost 3 killed and 8 wounded.

☞ G. V. Fox, Assistant Secretary of the Navy, visited the Navy Yard, on Thursday forenoon, and was received with the usual salute.

Special Notices.

Among the many restoratives which nature has supplied to relieve the afflictions of humanity, there is no more favorite one for a certain class of diseases than the "medicinal gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe, to relieve and to cure, is enhanced tenfold by scientific and judicious combinations with other ingredients, in themselves of equal worth. This happy mingling exists in that

"Combination and a form indeed"

of medicine, known as

Dr. Wistar's Balsam of Wild Cherry,

whose value in curing *Coughs, Colds, Bronchitis, Whooping Cough, Croup, Asthma, Pulmonary Affection, and Incipient Consumption, is inestimable.*

Strong Testimony

From BENJAMIN WHEELER, Esq., Depot Master at South Royalston, Mass.

SOUTH ROYALSTON, Jan. 4, 1860.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Although unsolicited by you, I cannot refrain from adding my testimony to the many already given in favor of Wistar's Balsam of Wild Cherry.

In the spring of 1858 I was most severely afflicted with a hard, dry cough, with its usual accompaniments of night sweats, completely prostrating my nervous system, and producing such a debilitated state of health, that after trying medical aid to no purpose, I had given up all hopes of ever recovering, as had also my friends. At this stage of matters I was prevailed upon, through the influence of a neighbor, to try Wistar's Balsam of Wild Cherry, though with no belief whatever in its wonderful curative properties; and before using two bottles the effect was almost magical. My cough entirely left me, the night sweats deserted me, hope once more elated my depressed spirits, and soon I had attained my wonted strength and vigor.

Thus has this Balsam, as has often been remarked by persons conversant with the above facts in this vicinity, literally snatched me from the yawning grave. You are at liberty to use this for the benefit of the afflicted.

Very respectfully yours, BENJ. WHEELER.

"EVERYBODY"

WHO USES

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE

Is convinced of the fact that

It Will Restore the Natural Color of the Hair,

Where age or sickness has turned it gray, and that it will render it soft and glossy.

"ANYBODY"

Who may try it, will find that it does not color the skin, but by stimulating the natural secretions at the roots, gives new life and strength to the hair, and thus restores its color and freshness. It can be used as freely as water upon the scalp, and with as much safety—is composed of oil and stimulating spirits, and as an article of the toilet has no equal.

☞ Read this letter:

ST. LOUIS, Mo., June 1, 1859.

Messrs. W. E. Hagan & Co.—I hereby certify that my hair having become gray, and my head partially *bald*, I thought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use, my hair was restored to its original color and thickness; it removed all dandruff, arrested its falling, and gave it a rich, glossy appearance. Its effects were entirely different from any hair preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the very best and cheapest hair preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WM. BOSWORTH.

One Hundred Sharp-Shooters Wanted!

A call having been made upon the State of New Hampshire for one Company of one hundred Sharpshooters, to be attached to a Regiment of fourteen hundred such, called for by the War Department, and the undersigned having been appointed Captain, and authorized to recruit said Company, would invite the best Rifle Shots in the State to come forward and enlist, to make up the quota called for by His Excellency the Governor and Commander-in-Chief.

No man will be accepted or mustered into service, who cannot, when firing at a rest, at a distance of two hundred yards, put ten consecutive shots in a target, the average distance not to exceed five inches from the centre of the bull's eye to the centre of the ball; and all candidates will have to pass such examination as to satisfy the recruiting officer of their fitness for enlistment in this corps.

The Company will consist of one Captain, one First Lieutenant, one Second Lieutenant, four Sergeants, four Corporals, and eighty-nine Privates, to be mustered into the service of the United States for three years, or during the war, unless sooner discharged; and to receive such bounty, pay and emoluments as are allowed to officers and soldiers of the same grade in the army of the United States.

It is expected that the men will be mounted during the marches, and in all cases will have their rifles carried for them from one place of encampment to another. This corps is designed for especial duty, and will be independent in their movements of any body of men attached to the United States Army, and it is believed to be the most desirable one in which to enlist for the service of the country.

The recruiter may be addressed at Phenix Hotel, Concord, and will answer all inquiries of those wishing to enlist. A. B. JONES.

HENRY R. COSTAR:—All the summer I have been troubled with Roaches and Mice. I was actually ashamed of the house, for the Roaches were everywhere. I purchased a box of your Exterminator and tried it, and in one week there was not a Roach or Mouse in the house.

JOHN B. GIVENS, No. 94 Elm Street.

HOUSEKEEPERS troubled with vermin, need be so no longer, if they use "Costar's" Exterminators. We have used them to our satisfaction, and if a box cost $5, we would have it. We had tried poisons, but they effected nothing; but COSTAR'S article knocks the breath out of Rats, Mice and Bed Bugs, quicker than we can write it. It is in great demand all over the country.—*Medina (O.) Gazette.*

MORE GRAIN and provisions are annually destroyed in Grant County, by vermin, than would pay for tons of this Rat and Insect Killer.—*Lancaster (Wis.) Herald.*

HENRY R. COSTAR:—Your Exterminator is received, used, and pronounced a decided success. We used a box of it, and the way the Rats and Mice "raised Ned" that night, was a caution to sleepers. Since then, not a Rat or Mouse has been heard in kitchen or cellar.—*Magregor (Iowa) Times.*

I HAVE BEEN SELLING your Exterminator for the last year, and have found it a sure shot every time. I have not known it to fail in a single instance.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to disease. Nature tells you, in this way, of sickness is creeping upon you, and should be alerted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed to health again. They stimulate the functions of the body into vigorous activity, purify the system from the contagious which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the despondent and dangerous distempers. The same purgative effect expels them. Cleansed by Ayer's purgatives and disorganizers of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. Those who have suffered from Ayer's Pills, neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR SIR, AYER: I cannot answer you *actual* complaints I have cured with your Pills better than to say *all that is ever treat with a purgative medicine.* I place great dependence on an efficient cathartic in my daily contact with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion.*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of Liver complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the public.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you presented them, and I cheerfully say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious fever so obstinate that it did not speedily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I could them in cases as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in sickness. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the blood. Yours, JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. P. P. Vaughan, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. Of others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the precursor of others that are worse. I believe ca[illegible] generally originate in the liver, but your Pills affect that organ and cure the disease.

From Rev. E. Sweet, Physician and Minister, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent preventive of the authentic sore throat, when wholly or partially suppressed, and also very efficient to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hunter, of the Methodist Episc. Church

PULASKI HOTEL, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I failed to report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Jackson, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 2 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These Pills are no mercury or mineral substance whatever.

☞ One, 25 cents per Box, or 5 Boxes for $1.

GARDINER'S
RHEUMATIC AND NEURALGIA COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia, or Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe my cure entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from suffering of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a spinal attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

MOB IN CONCORD.

DEMOCRATIC STANDARD OFFICE DESTROYED.—The agent of the associated press at Concord states that "the office of the Democratic Standard was completely rifled of its contents, Thursday afternoon, by a mob composed of soldiers of the 1st Regiment and citizens. The Standard, which has for a long time been "secesh," published an article reflecting on the soldiers. They demanded a retraction, and the Palmers—the editors and proprietors—shook pistols and axes out of the windows, and dared the mob, while the city authorities endeavored to quell the disturbance. The Palmers fired four shots, wounding two soldiers. The office was immediately gutted, and the materials burned in the street. The Palmers took refuge in the attic, but were finally found, and carried to the police station, under protection of the police, though with great difficulty."

From the name, "Democratic Standard," a stranger might infer that it was the organ, or one of the organs, of the Democratic party in New Hampshire; but it never expressed the views, or received the support, of that party, except to a very limited extent; and perhaps no paper in the State has weakened the party so much as the Standard.

It was intensely proslavery, and bitterly opposed to the ruling managers of the party and to the Patriot, because they did not favor slavery more openly and directly. It opposed Pres. Pierce, and even Mr. Buchanan, because they did not go far enough.

It advocated slavery as earnestly, persistently and constantly as the Charleston Mercury or Mr. Toombs,—and has never found a word of fault with the barbarism of the institution, or the thieves and rebels who would destroy all liberty for white or black, except their own liberty to do as they please.

It was the grand organ of the Breckinridge party at the election last fall—and has been the grand New England organ of secession and rebellion ever since.

It was very willing to have the freedom of the press bounded on the South by slavery; but seems not to have dreamed that it might be bounded on the North by public opinion and a mob.

Defending, as it did, a system founded on outrage and violence, propagated and enlarged by fraud and lying; it came to its own end by a re-action of the mob spirit, acting on a provocation which we have not seen,—and which may have been very slight in itself, though the editors often used the most severe and libellous terms.

DEATH IN Co. K, 2D REGIMENT.

CAMP SULLIVAN, Washington, }
August 6, 1861. }

Messrs. Editors:—Died at the General Hospital, of paralysis, William H. Keniston, of Co. K, 2d Regiment N. H. Volunteers.—(New Hampshire and Vermont papers please copy.)

The deceased went on to the battle field, and returned as usual, with the exception of excessive fatigue. He behaved with great bravery throughout the battle. During the action he got separated from his Regiment, and was in the ranks of the Fire Zouaves when they charged on the Black Horse Cavalry; and he had two muskets shot from his hands, one of which was struck by a cannon ball and bent double.

He was taken to the hospital at camp on Wednesday, July 31, and on Saturday, Aug. 3, was removed to the General Hospital, where he died on Sunday, at 12 M.—He was buried on Monday, at 10 o'clock A. M. He was removed to the hospital at camp, thence to the General Hospital, died and was buried, without the knowledge of the officers or privates of his Company, and they feel his loss severely under the circumstances.

Yours,
WILLIAM O. SIDES,
Capt. Co. K, 2d Reg't N. H. V.

☞ At Baltimore, on Thursday evening, Messrs. Breckinridge and Vallandigham ate a great dinner given by the Baltimore *secessionists*. Mr. B. tried to speak in answer to a serenade, but the crowd cheered for Crittenden, Gen. Scott, the Kentucky election and the Union. All attempts to quiet the people were responded to by cries of "remember the 19th of April," "remember the week of terror." Several fights took place, and some secessionists were roughly handled. Breckinridge did not finish his speech; V. did not begin; and the crowd dispersed with groans for Jeff. Davis, and cheers for the Union, interrupted by counter cheers and hisses.

NEW HAMPSHIRE ITEMS.

FIRES IN NEW HAMPSHIRE.—A large building at Keene, N. H., owned by Abijah Wilder, Esq., and occupied by S. Woodward & Co., as a stove and tin ware establishment, and Jos. Foster as an organ and seraphine manufactory, and salesroom, was entirely destroyed by fire Wednesday morning. An engine house near by suffered considerable damage. Messrs. Woodward & Co.'s loss was $2500; insured for $1000. Mr. Foster was insured for $1000, loss $1200. It is supposed the fire was the work of an incendiary.

The store and barn of Mr. Raymond, at Ashuelot, N. H., were burned on Saturday night last. Insured for $3000.

There was an extensive fire in the woods on one of the large islands in Lake Winnepissiogee on Friday and Saturday last, and in the night the flames made a splendid appearance. A copious rain on Sunday somewhat subdued, and a severe thunder shower on Monday morning put out the conflagration.

A BATTERY FROM MANCHESTER.—There is a great enthusiasm here to get up a battery company for the war. There seems to be no doubt of men enough, and the only delay has been to get the sanction of the Governor and Council. The Governor and Council have taken a very proper course and sent to Washington to ascertain if the Government wishes a battery from New Hampshire, and what kind. The Government unquestionably wants a battery, and the only point will be the kind. Complete, the battery will take 150 men and 120 horses to work it properly. If the response is favorable from Government, the company will be formed, drilled and fitted out on the "double quick."—*Manchester (N. H.) Mirror.*

CAPT. JACKSON.—The Boston Post contains the following neat commendatory editorial.

We are much gratified at noticing the appointment of Captain John H. Jackson, of Portsmouth, N. H., to the Lieut. Colonelcy of the Third New Hampshire Regiment. Col. Jackson is well-known in this city, where, until recently, he held the post of storekeeper in the Custom House. During the Mexican war, he commanded a Company in Col. Ransom's famous Ninth or New England Regiment, and was distinguished for gallantry in action, escaping death by a miracle at the Garita de Belen. He was no less noted for kindness of heart and for attention to the wants of his men. Modest, brave and experienced, he is the very man for high command in such a regiment as the noble Granite State is now sending forth to follow in the footsteps of those gallant men she has already sent into the field. With Col. Jackson, patriotism and gallantry are hereditary—his father having fallen in the war of 1812, and his grandfather having been an officer of the Revolution.

☞ Here is a specimen of the stories told and believed to some extent in the South:—

The Lynchburg Republican learns that in addition to the handcuffs brought by the invading army, their were a large number of halters for hanging Southern traitors and rebels. It says in all probability the New World never witnessed such scenes of horror as it would have witnessed on the triumphant entry of the invading army into Richmond.

The Charleston Mercury of the 3d says it has been provoked beyond endurance by reading in certain Virginia papers most complacent and gratuitous comments on the charity and benevolence of certain citizens and officials of Virginia towards the invaders of their soil, the plunderers of their estates, the destroyers of their homes and firesides, and the polluters of their women.

It demands that every prisoner at Richmond be incarcerated and put in irons.—Justice, humanity and civilization alike cry for the stern execution of retribution.

The Virginians, on the contrary, living at the very seat of war, know that the handcuff and halter story is gammon,—and that the Charleston Courier is imposed upon by official and unofficial lies about the U. S. volunteers.

AN INJUNCTION AGAINST EX-SENATOR MASON.—The Philadelphia Inquirer says:

"On Monday, Mr. Benjamin Chew of Germantown applied to Judge Ludlow for an injunction to prevent Senator Mason from taking funds out of any estate in which he is interested, located in the Twenty-second ward, in this county. In asking for the order Mr. Chew said: 'I apply to your honor for an order to prevent James M. Mason from taking out of the jurisdiction of the Court, funds which the Trustees have invested under the order of the Orphan's Court. Already a very large sum has been taken out of the State by that very remarkable traitor, and I have no prospect of ever getting retribution if the balance of the fund is taken away.' Judge Ludlow suggested that a citation might issue, and notice could be made by publication. Senator Mason has ten days in which to appear and answer. Mr. Chew and Mr. Mason are brothers-in-law."

☞ A naval officer has reckoned the number of resignations in the service, from the commencement of secession up to the 1st of June, on the Navy Register for 1861. There were 1354 commissioned and warrant officers; of these 761 were from free, and 592 from slave States. Of the latter, 72 were from the District of Columbia. Only 342 were from the Confederate States. Of the entire Southern officers, 321 had resigned on the first of June; but several from the Confederate States, are still in the Navy, and some from Border States have left.

IMPORTANT ARRANGEMENT FOR GOVERNMENT DISPATCHES.—It is stated that a cipher has been arranged for the use of Government, by Mr. J. A. Talcott, of the American Telegraph Company. It will enable them to send important information and orders over the wires, so that none but those furnished with the key can understand; not even the operator knows the meaning of what he is sending, and if any connection be made by the enemy, and they catch what is passing over the wire, it will not avail them anything. It is believed now that every message that passed over the wires to and from Patterson's column was taken off and communicated to the enemy.

☞ Gen. McDowell's official report of the battle of Bull Run represents the battle to have been won by his army at half past 3 in the afternoon; but the arrival of Johnston's fresh troops by train at that time, converted the victory into a disastrous rout,—the Union troops being worn out with the fatigue of a hard day's battle. In this he is supported by the rebel accounts, one of which says:

"There is no earthly doubt that our army was overcome several times between 12 and 3, and that the bulletins sent by the enemy are, in the main, correct; but, alas! 'the best laid plans of mice and men aft gang agley.'"

THE AFRICAN SLAVE TRADE.—The Secretary of the Interior has directed the United States Marshals of the States of Maryland, Delaware, Pennsylvania, New Jersey, Connecticut, Rhode Island, Massachusetts and Maine, to convene on the 15th inst., at the office of the Marshal of the Southern District of New York, in New York city. The object of this convocation is to concert measures to prevent the fitting out of slavers and the prosecution of the slave trade.

WASHINGTON ITEMS.—*Friday Evening.* Gen. Rosencranz has telegraphed to the Postmaster General that the rebels had been expelled from Kanawha, and asking for a resumption of the mail service, to which the department appropriately responded.

A vessel has been sent to shell t e woods at Mathias Point.

A leading Baltimore secessionist said Jeff. Davis would be there in four weeks, Maryland would rise and drive out the national troops, and then no Union man could live in Baltimore. On being assured that the city would be shelled in such an event, he acknowledged his willingness to sacrifice all his property rather than endure what he called tyranny.

It is reported that the rebels are concentrating a large force at Fairfax, and throwing up entrenchments.

A letter to the Charleston Mercury from Richmond says the grand battle is yet to come off. If Beauregard is not assailed soon, he will march to Alexandria.

WASHINGTON ITEMS.—*Aug.* 8.—The seven captured officers and their men who were brought to the Washington Navy Yard, have been transferred to the civil authorities.

Prince Napoleon started at 6 o'clock this morning for the other side of the river, designing to pass out of our lines within those of the rebels, at least as far as Fairfax Court House, if not to Manassas Junction. Gen. McDowell probably caused him to be escorted through our lines by two companies of U. S. cavalry.

There is strong ground for belief that the Prince's visit to this country is more for political than for any other purpose, and for the enlightenment of the Emperor on current affairs.

BAD.—Some of the New Hampshire soldiers are a little blood-thirsty, and cannot stop for a battle to indulge themselves in legitimate killing. One named Murray, was hanged a few days since at Alexandria, Va., for murdering a Mary Butler; and a second, Samuel Webster, who was a sergeant, is now in jail at Frederick, for shooting an unarmed man through the head. A correspondent of the Nashua Gazette says the impression is that it was a cold-blooded murder, and the prisoner will pay the penalty on the gallows. He belongs to Dover, where he has a family. The Dover Enquirer thinks he could have committed the crime only from a mistaken sense of duty or when maddened by liquor. If it was for the first cause, he will no doubt go clear, as he should; if for the second named, it is no excuse at all; it only makes two crimes instead of one—getting drunk, which deserves punishment, and committing murder, which brings death; and he ought to be punished for both. The evil consequences of drunkenness, pillage, arson, rape and murder, are much greater in the South than though the same crimes were committed in New England, for they carry the additional evil of inflaming the South against us, and sustaining the words of demagogues to promote rebellion.—*Newburyport Herald.*

ST. LOUIS, Aug. 8.—John McAffee, Speaker of Legislature of this State, was arrested night before last by a body of Federal troops at his residence in Shelbyville, and conveyed to Macon city where he is now under clo e guard.

Governor Gamble has ordered the election on the first Monday in November for Governor, Lieut. Governor, Secretary of State and members of the Legislature, and for taking the sense of the people upon the recent action of the State Convention.

General Pope's military district has been extended so as to embrace the two tiers of counties south of the Missouri river, including St. Louis, where he has estab ished his headquarters.

☞ The New Haven Journal says that the 2d Connecticut Regiment brought home with them twenty-five negroes from Virginia.

FORTRESS MONROE, Aug. 7.—Col. Phelps is promoted to a Brigadier Generalship, and remains at Newport News.

Col. Bendix's resignation has been accepted. He leaves to-night, but will soon return with a new regiment.

A large accession to the mounted riflemen is expected to morrow.

Lieuts. Butler and Fisk yesterday went out with a flag of truce from Newport News for the accommodation of a lady wishing to return to her friends. They found no rebels within six miles of the camp. The party were hospitably entertained by a company of horsemen.

The men picked up yesterday by the Quaker City report provisions cheap in North Carolina. The harvest has been very abundant. Coffee is worth 37 cents per pound. A cargo of cheap sugar taken into Newbern brought nine cents per pound.

ROLLA, Mo., Aug 8.—Mr. Bordon, a stage proprietor, who left Springfield Monday noon, furnishes the following:—Gen. Lyon with his forces had fallen back and reached Springfield Monday morning, and was preparing for a vigorous defence. The rebels were advancing by four different roads, and their advance was ascertained to be ten or fifteen miles distant. Gen Lyon had called in 2500 Home Guards from the country around Springfield. It was expected that the enemy would make an immediate attack, from the fact that their commissariat was in a miserable condition, they being obliged to depend upon forced contributions for temporary supplies. It was generally remarked in Springfield, that Lyon was perfectly confident of success in case of an attack. He had no entrenchments, but would depend upon his splendid artillery in the open field. Fifty wagons laden with provisions had reached him.

NEW YORK, Aug. 8.—The Post's dispatch states that the boat from Mathias Point says that the rebels are planting batteries there with the intention of cutting off water communication with Washington. Several slaves escaped from there to a Federal flotilla.

The Commercial's dispatch states that Mrs. Hart has carried valuable information to the rebels.

Ex-Minister Faulkner has left Baltimore for Martinsburg.

TEMPERANCE LECTURES.

At the request of several persons, the Rev. Mr. Hartwell, pastor of the Brodhead Methodist Church in this city, will preach a series of Sabbath evening *Temperance Lectures*, at his chapel on Court street,—commencing next Sabbath at 7 1-2 o'clock.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

The young lady who had a thousand acres of valuable land, which the young men said was sufficient grounds for attachment, did not marry as well as the young lady without a fortune, who had learned to discard *all* kinds of Saleratus or soda, save Herrick Allen's Gold Medal, which has no equal on this or the other Continent. Go, ye young ladies, and do likewise, and Dame Fortune will smile on you also. Everybody retails it, and most of the wholesale Grocers wholesale it. Depot 112 Liberty Street, New York.

Dyspepsia is known as one of the most distressing complaints which afflict humanity; and until the advent of the Oxygenated Bitters, had been considered incurable, or when curable, requiring years to accomplish it. Special Notices.

Among the many restoratives which nature has supplied to relieve the afflictions of humanity, there is no more favorite one for a certain class of diseases than the "medicinal gum" of the Wild Cherry Tree; but however valuable it is, its power to heal, to soothe, to relieve and to cure, is enhanced tenfold by scientific and judicious combinations with other ingredients, in themselves of equal worth. This happy mingling exists in that

"Combination and a form indeed"

of medicine, known as

Dr. Wistar's Balsam of Wild Cherry,

whose value in curing *Coughs, Colds, Bronchitis, Whooping Cough, Croup, Asthma, Pulmonary Affection, and Incipient Consumption, is inestimable.*

Strong Testimony

FROM BENJAMIN WHEELER, Esq., Depot Master at South Royalston, Mass.

SOUTH ROYALSTON, Jan. 4, 1860.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Although unsolicited by you, I cannot refrain from adding *my* testimony to the many already given in favor of Wistar's Balsam of Wild Cherry.

In the spring of 1858 I was most severely afflicted with a hard, dry cough, with its usual accompaniments of night sweats, completely prostrating my nervous system, and producing such a debilitated state of health, that after trying medical aid to no purpose, I had given up all hopes of ever recovering, as had also my friends. At this stage of matters I was prevailed upon, through the influence of a neighbor, to try Wistar's Balsam of Wild Cherry, though with no belief whatever in its wonderful curative properties; and before using two bottles the effect was almost magical. My cough entirely left me, the night sweats deserted me, hope once more elated my depressed spirits, and soon I had attained my wonted strength and vigor.

Thus has this Balsam, as has often been remarked by persons conversant with the above facts in this vicinity, literally snatched me from the yawning grave. You are at liberty to use this for the benefit of the afflicted.

Very respectfully yours, BENJ WHEELER.

☞ A notice appears in our columns today, of a series of sermons on temperance, by Rev. Mr. Hartwell, of the Brodhead Methodist Church. Mr. H. has been for years an active laborer in the temperance cause, and a member of the State Temperance Committee. He ought to be well posted, and able to give a good lecture.—Let all interested in this important cause, go and hear him.

THE SAGAMORE HOUSE. This attractive watering-place has recently, been leased by Mr. George H. Merrill, of New York, who has greatly improved the grounds, and supplied the house with new and elegant furniture, which now places it in fine order. The proprietor was connected with one of the leading upholstery and window shade establishments in New York. Visiting Portsmouth often on business, he has been favorably struck with the location of the Sagamore House, and having given up his interest in the New York trade, has taken hold of this new business, and will in time, no doubt, succeed in building up a substantial and permanent business. The best of help is to be found in every part of this establishment, and no pains will be spared to ensure the comfort and best accommodation of the visitors. One visit there, will satisfy the most fastidious, that the house is in the right hands. The gentlemanly and polite manner in which every guest is treated, and the quiet homelike air which pervades the place, recommends it to all. The scenery about here is acknowledged by all to be among the finest on the coast. There are excellent opportunities for sea bathing, plenty of fine fish can be caught in the vicinity, and the neighboring woods and shores abound in game. Try a trip to the "Sagamore," and if you do not enjoy it, we are mistaken, that's all. **

SOME ON MUSCLE.—A gentleman won a wager of a splendid pitcher at the store of Mr. John Sise on Market Square, on Friday, by holding the pitcher at arm's length for ten minutes—a feat that several competitors had failed to perform.

☞ By the Traveller Extra of Friday evening, we learn that Col. Magruder, with 500 rebels, advanced from Yorktown, and entered Hampton, Va., about midnight on Wednesday, and immediately fired the buildings. The fire raged all night. The rebels retired about morning, and at noon only seven or eight houses, out of 500, were standing.

There were perhaps 20 whites and 40 negroes in the town from inability to move, and some of them were in their houses when they were fired, and the rebels did not wake them.

A company of rebels attempted the passage of the bridge, but were repulsed with a loss of 3 killed and 6 wounded.

An attempt will be made to foist this act on Gen. Butler, but after 10 o'clock there was not a federal soldier in Hampton.

VIRGINIA RECEIVES HER SHARE OF THE PROCEEDS OF THE PUBLIC LANDS.—A day or two ago the United States promptly paid over to the *new* Legislature and recognized authorities of the State of Virginia, the full amount which the "Old Dominion" was entitled to receive, under the memorable act of 1841. Upwards of forty one thousand dollars were paid in solid gold to the true and loyal government of Virginia.

☞ More than one hundred thousand persons were committed to prison in England and Wales during the year just completed. Nearly one third of them had been in jail before, and nearly twenty per cent. had been in prison more than ten times.—The expenses of the prisons for the year were £533,407, the profit on the labor of the prisoners repaying £28,036.

☞ The schooner R. B. Sumner, of Newburyport, which arrived at New York on Thursday, from Turks Island, reports, August 4th, lat. 32, lon. 72, saw two schooners, one having a flag in forward rigging, as if to speak us, but not taking any notice of them, they hoisted sail and chased us, but we outsailed the pirates.

TERRIBLE FRUITS OF WHISKY.—A man named Michael Burke grasped his wife and jumped overboard from the steamer Key City, near Guttenburg, on the Mississippi River, on the 31st ult. Both were drowned. They belonged in Dubuque.—Both had the delirium tremens.

THE PIRATES OF THE ENCHANTRESS. The five men comprising the rebel prize crew of the recaptured schooner Enchantress, were committed to jail in Philadelphia on Thursday, to answer the charge of piracy.

LOUISVILLE, Aug. 8.—Congressman Ely is reported to be at Richmond engaged in ditching.

The steamer Pocahantas, owned in Louisville, was seized by the rebels on the Tennessee river with 60 hhd's. tobacco.

☞ Is is said that Lewis Cass is writing, and intends to publish, the history of the events which, in his knowledge, have produced the present state of things with the slave oligarchy.

From the N. H. Gazette.

THE ARMY WORM.—In a brief paragraph, we last week announced the arrival of these destructive worms in this section. They made their appearance, in considerable numbers, on Thursday on the borders of the South Mill pond, and were quite numerous for several days in the gardens in that neighborhood. The marks of their progress are quite distinct. Wherever they found food suited to their delicate palates they have made a clean sweep, and in a part of the yard in front of Mr. Wentworth's residence on Pleasant street, the tender grass is eaten off as close and as smooth as if each blade had been trimmed to the ground with scissors. Large numbers of them were killed in their passage across Pleasant street, on Sunday, and they have now nearly disappeared from that neighborhood. On Monday another host made their appearance in a field at the northwest part of the city, near Fisher & Co.'s brewery, and before their presence was discovered had completely overrun and destroyed a field of oats belonging to Mr. Billbrook, and commenced the passage of "Jericho road" into a seven acre lot of splendid corn on the city farm. Mr. Norton, the Superintendent of the farm, as soon as their presence was discovered, commenced active measures to stop their devastation by turning a furrow with a plow, entirely around the field of corn, giving up to destruction about half an acre upon which the worms had already seized. The furrow was annointed with coal-tar, and it was thought on Thursday that their ravages would be stopped in that direction. The corn on the half acre has been cut up and carried off, and the ground will be ploughed up and thoroughly stirred with the harrow, in the hope that the sunshine and want of food will kill all that remain.

These worms are exceedingly rapid in their movements, and when eating, are as ravenous as a silk worm, which they very much resemble, except in color, these showing a light stripe on each side; dark back, and of a yellowish color beneath. From a close examination of their track, we find that the tender blades of grass, grain, and corn are their favorite food. Clover presents no temptation to them, and potatoes and squash-vines are passed by untouched. They feed principally in the early morning, and late in the day when they are visible on every blade, but during the heat of the day most of them will be found motionless on the ground, or in the sockets of the blades of corn. It is a remarkable circumstance that they should appear here in two separate locations, in each case being first seen near a body of water, and each army at once making its way in a northerly direction. In size, the army worms are from half an inch to an inch and a half in length, and grow rapidly.

THE ARMY WORM.—*Exeter, Aug.* 3.—The army worm, that pest of farmers, has just made its appearance in great numbers in a barley field belonging to the Messrs. Gilman, of this town. I have just been out to observe its operations. It is a greedy and voracious caterpillar, about an inch in length, having a large head and grey back, with two yellow stripes running along its sides. It has six feet in front, and moves quite rapidly. When touched by a knife it coils itself up instantly, and drops upon the earth. Fastening itself up the stalk of the grain just below the ear, it cuts off the head with its sharp teeth, and then feeds downward to the roots. It avoids the potato, tomato, etc., and selects the cereal grains; when hard pressed, however, it sweeps every blade and leaf before it. I found it feeding voraciously upon "smart weed" this morning, and emitting very disagreeable odor. The movements of the army seemed to be all in the same direction.

The Army Worm has appeared in several places in Portsmouth. At the Town Farm it has been necessary to cut down an acre of fine corn, dig a trench, and by coal tar attempt to check their progress.

MUNIFICENT DONATION.—It was announced at the late meeting of the Alumni of Yale College, that Institution had received during the collegiate year a second donation of $50,000 from Joseph E. Sheffield, Esq., of New Haven. The course of education in this Department is essentially that of the Polytechnic Schools of Europe, and is designed to fit young men for commercial and other practical pursuits, as well as for the direct applications of science.

☞ Among the Lieutenants recently promoted to be Commanders in the Navy, we notice William A. Parker, a native of this city; D. D. Porter, recently Ordnance Officer at the Navy Yard, and George M. Colvocoresses, who was recently detached for other duty.

First Lieut. Thomas J. Haines, of the 1st Artillery, has been appointed Commissary of Subsistence.

The Boston Herald says, the whole management of this war has dwindled into a miserable party struggle and rush for the spoils. The managers in Massachusetts are doing the same thing. They are glad to have the Democrats help them out of their troubles, but their souls are not large enough to comprehend and appreciate the disinterested and patriotic action of those who despise their doctrines, but whose love of country has induced them to ignore party for a time.

GOVERNOR'S AIDS.—Gov. Berry has appointed for his Aids, Josiah B. Sanborn, of Concord; Wm C. Berry, of Barnstead; Gilman H. Tucker, of Raymond, and Milo H. Crosby, of Hebron.

☞ Geo. Marston, late Door keeper of the House of Representatives, has been appointed Paymaster in the Army.

CANDIA BRANCH.—The Railroad Commissioners and the Board of Mayor and Aldermen are now in session in this city, for the purpose of awarding land damages on the route of the Candia Railroad in Manchester. Each Board makes an appraisal, which is forwarded to the Secretary of State, and recorded. The average award of the two Boards is the sum allowed to landholders, from which they have an appeal to the jury.—*Manchester American, July 31.*

BRINGING COALS TO NEWCASTLE.—It is one of the most curious incidents of this war that two ships are now on their way from England to this country, laden, the one with two hundred and the other with four hundred bales of cotton, purchased for our northern manufacturers, who are unable to obtain their usual supplies at the South.

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the probable results of illness. Some fit of sickness is creeping upon you, and should be arrested by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the vitiated humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the pleasant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the desperate and alarming diseases of mankind. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been greatly afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you *what* complaint I have cured with your Pills better than to say *all but one or two* such a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PEBLES,
Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Dill, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver are very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR,
Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, and consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that they did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Diarrhœa, Relaxt, Worms.

From Dr. J. C. Green, St. Louis.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their salutary effect upon the liver makes them an excellent remedy, when given in small doses to cleanse dysentery and diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in Sickness. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. Hundreds of cases have come under my care, as obstinate as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from this complaint, which is more than enough in itself to be the progenitor of others that are worse. I believe it blessed to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sweet, Physician and Midwife, Dublin.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural menses when wholly or partially suppressed, and also very effectual to cleanse the stomach and bowels. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Reeder, of the Methodist Episc. Church

PLEASANT HILL, Sarpanah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my feet and brought on excruciating neuralgic pains, which defied all the remedies I knew of. Notwithstanding I had the best of physicians, the disease grew worse and worse, until I tried the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. ex VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

MONDAY, AUGUST 12, 1861.

THE GOOD OF THE WAR.—Our friend, the new editor of the Dover Gazette, is a philosopher, as well as a ready writer,—for in the midst of war and confusion, he looks about to find what good things he can; and in his paper of the 10th of August, he gives an editorial of a column, on "The Good of the War."

In this article it is said "this war is in the act doing, and at the same time undoing, many things which it would hardly have seemed possible to reach by the old routine of peace. Not the least among these results, so desirable of attainment by a great and freedom-loving people, is the gradual and steady reduction of the old credit system in trade, irresponsible at best, and disastrous regularly every few years, to the basis of cash transactions.

"Whereas the entire South is an agricultural section——living on its income at least a year before it comes to hand——it has presumed to set its crest above all the other interests of the nation, and to insist, under the guise of allowing no particular interest to have a voice or a power, that its own interests shall be predominant. We believe that this has led these restless Southern politicians to make war upon the North and all its cherished interests.

"The rapidly accumulating events of this causeless and wicked rebellion, fortunately for the welfare of millions of people, have conspired to intermarry the commercial interests of the East and the vast agricultural interests of the West, much sooner and closer than could have been ordinarily expected.

"For a long course of years it has been the policy of Southern leaders to insert a wedge of difference, or misunderstanding, between these two; but the war has thus quickly served to draw it out, and the East and the West are to-day cemented as by iron bands. Not only are they bone of the same bone, but they are prosperous or the contrary together; and this has happily been found out.

"The clever calculation of the traitorous demagogues that, if the slave States all secede, the great agricultural States must break the line because their interests are identical with those of the South, and their connection with the East was but factitious at best,—has soon proved itself without basis or bottom. People are everywhere becoming undeceived; and, best of all, the West is even more emphatic than the East in condemnation of the rebels who instigated the war, and will listen to no blarney like that contained in the offers of the Southern Congress to leave the mouth of the Mississippi unobstructed to all who dwell upon its banks."

INEFFICIENCY OF OUR BLOCKADE.—A letter received in Boston from a firm in Havana, dated Aug. 3d, says:—

"A vessel arrived here to-day from Savanah with a cargo of rice, which will pay a great profit. So much for your blockade, which we don't think much of."

By the telegraph dispatches of to-day it will be seen there is now a universal impression in Washington that the Navy department is inefficient. Out of Washington the impression has been current for months. —*Boston Transcript.*

We give these items as we find them;—and do not know whether the *inefficiency* is supposed to exist in the Secretary, or in the heads or clerks of the several Bureaus.

The people of our seaports would like to see the *volunteer navy* in operation, by which a stop might be put to all the rebel privateering, very shortly.

It seems strange that we sometimes have Secretaries of the Navy, who know nothing about a ship,—though there are men like Robert B. Forbes, of Boston, Ichabod Goodwin of Portsmouth, and scores of such men in New York, who know how a ship should be built, manned, provisioned, armed and sailed. If a change is to be made, by all means let us have a practical man, yes, practical men, to provide and order the navy, as well as the army.

REDUCTION OF RENTS.—We see by our exchanges that the subject of high rents, and the propriety of landlords reducing such to a figure demanded by the times, is being discussed and set forth, in most of the principal cities. In many places a reduction of twenty-five per cent. has been made; and in many instances, especially in Boston, store-rents have been reduced more than one-half. Similar movements will doubtless be made here and elsewhere.

ON THE SHELF.—A lot of communications; also the *rest* of that pitcher-feat asked for by a number of Sue's friends.

NEW HAMPSHIRE ITEMS.

THE STANDARD NEWSPAPER.—Concerning the striking of this rebel banner at Concord, by the mob, a correspondent of the Boston Journal says:—

The preservation of the publishers (the Palmers, an old man and four sons,) from death was a very remarkable circumstance, and had it not been for a few brave men, their lives would have paid the penalty of their deeds. The victims were hurried to the Police Station on the full run, the crowd following after, and shouting, "lynch them!" "lynch them!" They were secretly conveyed to the State Prison, in order to render them as secure as possible; they are considerable bruised, but not seriously injured. A flag was suspended across the street in front of the office, bearing the words, "the doom of traitors."

The Manchester American says:—

There was no disposition to interfere with the Patriot office, although the proprietors showed too much guilt, in requesting the City Marshal to detail a sufficient police force to guard and protect them from apprehended danger.

The soldiers, after the shots were fired, went to work coolly and took down the blinds of the windows, and sign boards, attempting in some instances to procure their arms, but were restrained from this by their officers.

The Palmer boys say they were encouraged and urged on in their treasonable course by prominent citizens of Concord and Manchester, and that they had received the promise of 1000 men from Manchester, in case of danger; and that if they do not come up to the "scratch," and help them out of their present trouble, they will expose them.

The ringleader of the crowd that destroyed the Concord Standard office, it is said by the Manchester American, was Charles P. Clark, a boy 14 years of age, who has been with Capt. Sturtevant of Concord as a clerk. He kicked a panel out of the door, and though seized by somebody, got clear again and put his head into the hole, when the Palmers fired a pistol at him, and grazed his head.

THE THIRD REGIMENT.—We are glad to notice the Governor and Council have confined their contracts for furnishing this regiment, to citizens of this State, and at the same time secure as favorable terms as could be had anywhere. The coats and pants are to be made by Lincoln & Shaw, Concord; the overcoats by Abram Thorpe, Weare; shoes at the State Prison; blouses by S. A. & B. F. Haley, Newmarket; caps by Purrinton & Ham, Dover; harnesses, &c. by James R. Hill, Concord; flannels by B. F. & D. Holden, West Concord; and socks by John Pepper, of Wolfborough.—We understand that the cloth is to be made by the Harrises at Harrisville. Their reputation is a sufficient guaranty in regard to its quality. The Patriot says it is to be grey.—*Nashua Telegraph.*

A ROLLINS BATTERY.—We have little doubt the Governor and Council will authorize in some form the organization of a battery of the Rollins Gun, manufactured in Nashua. A battery of six guns with a hundred and twenty-five men can probably be fitted out for five thousand dollars.—This battery will only require horses necessary for transportation and the drawing of ammunition, being handled entirely by men. In very many cases this will be more efficient than any battery of flying artillery, while its outfit will cost hardly more than half as much as the horses alone.

Whether a battery of six guns will be organized at once, or two batteries of three each—one to accompany the third regiment, and the other a future regiment—may be in doubt. Three of these guns, capable of 15 to 20 discharges a minute, would make a regiment almost invincible.

We learn the Governor and Council had the subject under consideration, Wednesday, and have sent Gen. J. C. Abbott to Washington, to consult with the authorities. We hope "red tape" or something else will not kill the enterprise. If the Governor and Council had taken the responsibility of attaching a battery to the third regiment, we have no doubt it would have spoken for itself and have been accepted.—*Nashua Tel.*

THE COCHECHO MANUFACTURING COMPANY, of Dover, agreeably to previous notice, stopped the wheels of their Cotton Mills on Saturday, July 27. They will be started again September 2d, when all the help are notified to report themselves for further service.

☞ The annual meeting of the stockholders of the Exeter Manufacturing Company was held at their counting room on Tuesday of last week. The old board of directors were elected without opposition. Operations have been suspended, and the operatives are to have a vacation of two months.

NEW HAMPSHIRE PLUCK.—Col. Burnside of Rhode Island had command of the brigade to which our second regiment was attached. He tells this anecdote to illustrate the character of our men. He asked Lieut. Col. Fiske—Col. Marston had already been wounded—if his men would obey a certain order. Col. Fiske's reply was, "My men will obey *any* order!" And they did. It does our heart good to read every where, almost, of the bravery which characterized the New Hampshire Second. —*Nashua Telegraph.*

THE UNION is triumphant in Kentucky. Unionism in Kentucky means absolute correspondence with the tenor of Mr. Crittenden's resolutions, as they passed the two branches of Congress—that it holds the war begun by its sister slave States altogether unjustifiable, but that the war is one for the defence of the Government, not for the aggression upon the rights of fellow citizens; and that it ought to come to an end, as soon as the just objects at stake can be secured.

THE BURNING OF HAMPTON, VA.—In our very brief and closely abridged account of this action, we gave only the fact of the rebel Col. Magruder's entering the town with 500 men, and burning it. He advanced from Yorktown, (where he had 7000 men) at the head of 1000 men, including 200 cavalry, and 8 cannon; and with this force came to Hampton, into which 500 men entered as incendiaries, and did the work of ruin for the town.

Poor old Virginia is cast into the furnace, and her traitorous allies and fellow seceders apply the torch and stir the fire. Her Masons and Wises chose to transfer the seat of war from South Carolina to Virginia. Harper's Ferry and Hampton, with their bridges, steamers and crops, are offered up for a burnt offering on the altar of their folly.

☞ The latest dispatches to the Traveller Extra, Saturday evening, state that Hampton is not occupied, the fugitive citizens being provided for by Gen. Butler. The big gun Union has been mounted at Newport News.

The government has issued stringent orders, to prevent transmission of any accounts of army movements.

The rebels are employing negroes in the construction of entrenchments on the Potomac. The report that the navigation of the river was obstructed, is denied.

Gen. Fremont has ordered the number of Artillery companies in Missouri, to be increased to twenty-four.

MR. SPURGEON.—The Manchester, Eng., Examiner informs us that in course of a Sunday service, recently, at Mr. Spurgeon's tabernacle, he told his congregation that during the previous week he had been preaching to large multitudes at Swansea and Merthyr Tydvil, and that the excitement consequent upon large masses of people pressing upon him at the conclusion of his addresses, to shake hands with him, had produced a kind of "tremulous feeling" and serious indisposition. He stated that he had obtained the best medical advice, and the fiat was that unless he immediately desisted from all labor and exertion, except that attendant on the duties to be performed at his own chapel, he might not only lose his voice forever, but be laid upon a bed of sickness. He has refused all engagements for the next few months.

From this it appears that his nervous system is terribly shattered.

☞ The Herald's dispatch says the official list gives the total of 19 officers and 462 men killed, and 64 officers and 947 men wounded, and 40 officers and 1176 men missing, at the Bull Run battle. The artillery loss was 6 rifled pieces of Co. D, 2d Artillery; 6 Parrot 10 pounders of Co. I., 1st Artillery; 2 rifled cannon and 2 howitzers of Co. E, 2d Artillery; 1 cannon of the 5th Artillery; 1 30-pounder Parrot gun of Co. G, 1st Artillery; 5 pieces of the Rhode Island Battery. Also 150 boxes of cartridges, 87 boxes of rifled cannon ammunition, 30 boxes of old firearms, 13 loaded provision wagons, 3000 bushels of oats, 2500 muskets, 8000 knapsacks and blankets.

☞ The Portland Advertiser states that the citizens of Hermon Corner, Maine, ascertained that a secession flag had polluted the air, and of course determined to take it down. Before they reached the house, the rag was ingloriously torn down, and hidden under the barn. The traitors raved, brought guns and pistols, and swore they would shoot the first man who attempted to raise the American flag upon any of the buildings, but it was nailed to the flag staff, and saluted with three rousing cheers.

On examination, a gun, a double barreled one—that was presented at the head of one of our men, was found to be loaded with a heavy charge of powder and twelve large sized buck shot in each barrel, capped and cocked.

☞ The Arsenal and Navy Yard, are the busiest places in Washington just now, with the preparation of vessels, ordnance and fixed ammunition. The Pensacola is nearly ready for sea. Her officers and crew have been ordered on board. She will join the blockading fleet.

As she passes down river, she might pay her respects to some rebel batteries along the shores.

☞ The London Times says: If the weather prove favorable for the next six weeks, there cannot be a doubt that this year's produce in Ireland will be the largest and finest grown within the present century.

☞ Governor Olden of N. J. has received from England a box containing the original patent granted by George III of England to William Franklin, the first Governor of New Jersey.

☞ Gen. Butler orders out of camp all the strong drinks that threaten to make his men drunk,—advises the men to practice total abstinence,—and says he will not hereafter have wine on his own table as he has done. Strong drink weakens the soldier, and befools the officer. Better let it alone.

WHERE THE TROUBLE LIES.—Dr. Smyth, a prominent scholar of South Carolina, inquires in a pamphlet, "What is the difficulty, and what the remedy?" and answers:

"Not in the election of Republican Presidents? No. Not in the execution of the Fugitive Bill? No. But it lies back of all these. It is found in that æsthetic Red Republican doctrine of the Declaration of Independence! Until trampled under foot, there can be no peace."

A PA POSED BY HIS CALCULATING CHILD.—A Freddy, a fair-headed youngster of four summers, who, after being, the other day, for some time lost in thought, broke out thus:—"Pa, can God do anything?" "Yes, dear." "Can he do everything, Pa?" "Yes, dear." "Could he make a two-year old colt in two minutes?" "Why, he would not wish to do that, Freddy."—"But if he did wish to, could he?" "Yes, certainly, if he wished to." "What, in two minutes?" "Yes, in two minutes." "Well, then, he wouldn't be two years old, would he?"

GREAT ACTIVITY IN THE FEDERAL ARMY.—*Washington, Aug. 9.*—The activity among the Government teamsters is as great as at any time previous to the battle at Bull Run. Provisions and supplies in immense quantities are hauled to various camps both in and out of the city.

☞ Gov. Sprague of Rhode Island has called an extra session of the General Assembly to legislate on military matters. It is expected that two more regiments and two more battalions will be raised.

☞ Among the latest acts in the Senate, on Tuesday, the following persons were promoted in regular order, to be Assistant Surgeons in the Navy:

Wentworth R. Richardson of Maine.
Frederick E. Potter and Almond O. Leavitt of New Hampshire.

☞ Since our Navy was established, this is said to be the first time that all its *sea-going vessels*, but five, have been in active employment.

The New Orleans Crescent says there is no truth in the story that 50,000 stand of arms had been received in that city from Europe.

☞ Arthur Folsom has been appointed U. S. Consul at Cape Haytien.

☞ U. S. Ship Cumberland sailed from Boston, Friday.

One Hundred Sharp-Shooters Wanted!

A call having been made upon the State of New Hampshire for one Company of one hundred Sharpshooters, to be attached to a Regiment of fourteen hundred such, called for by the War Department, and the undersigned having been appointed Captain, and authorized to recruit said Company, would invite the best Rifle Shots in the State to come forward and enlist, to make up the quota called for by His Excellency the Governor and Commander-in-Chief.

No man will be accepted or mustered into service, who cannot, when firing at a rest, at a distance of two hundred yards, put ten consecutive shots in a target, the average distance not to exceed five inches from the centre of the ball's eye to the centre of the ball; and all candidates will have to pass such examination as to satisfy the recruiting officer of their fitness for enlistment in this corps.
